Chapter 1

Introduction

- 1.1 The term peer comes from the Latin word 'par' which means equal. So, a peer in the professional context means a person who is on the equal professional standing as of a particular person.
- 1.2 In Peer Review System (PRS) of the Institute of Cost Accountants of India (hereinafter referred as "the Institute"), peer shall mean the members of the Institute who are in practice and having requisite experience to be eligible for empanelment as "Peer Reviewer" by the Peer Review Board.
- 1.3 Review is the evaluation and assessment of the work already done. Hence understanding the term 'peer review' in its most literal form would mean evaluation of a person's work or performance by a person or group of persons in the same occupation, profession, or industry.
- 1.4 The Peer Review Process (PRP), in the current context, is an evaluation of the standard of performance of professionals engaged in audit and assurance services. The sole purpose of PRP is to improve quality of deliverables and to ensure compliance with Technical & Professional Standards and Code of Ethics of the Institute as well as regulatory bodies.
- 1.5 The Institute has developed a system for the peer review of the work carried out by its members in practice and registered firms. The PRS has been documented in this manual for adoption as guidelines by the Reviewers.
- 1.6 The purpose of this manual is to develop a framework for planning, performing, reporting and administration of the PRP.

About the Institute

- 1.7 The Institute was constituted under the Cost Accountants Act, 1959 (hereinafter referred to as "the Act") for discharging the functions assigned to the Institute under the Act. Section 15 of the Act provides that "the duties of carrying out the provisions of this Act shall be vested in the Council" and enumerates various duties of the Council.
- 1.8 With a view to regulate the profession of Cost Accountants and in terms of the powers vested, the Council issued the PRS. The Peer Review System as approved by the Council of the Institute is annexed in Appendix 1 to this Manual.

Peer Review System (PRS)

- 1.9 The PRS is a mechanism of evaluating the audit and assurance services carried out by a Firm or members in practice, by the peers recognized by the Institute for demonstrating proven competence by looking into the systems and procedures adopted and records maintained while carrying out audit and assurance services by the firm. 2.29. Once the Reviewer has an access to the relevant documents, the Reviewer can develop a review plan, in consultation of the PU. The review plan shall include the schedule of the meetings with the PU partners/ personnel at different levels, on-site and off-site review.

2.30. The Reviewer may initiate planning his task. While preparing the review plan, the Reviewer shall finalize the scope, extent, time-plan and schedule of his engagement.

² Decided by the Board in its 14th meeting held on 23rd January 2025

- 2.31. The factors such as size and complexity of the PU's activities, the number of units it has the number of products and services it covers and the processes and operations it carries shall be instrumental in designing the Review Plan.
- 2.32. Planning the Review, however, is not a one-time process. It is rather continuous and discrete and hence changes/alterations to the Review Plan are possible at the different stages of the review.
- 2.33. In the Review Plan, the Reviewer finalizes the sample size of the PU's engagements to be reviewed. He finalizes the additional information, documents and records that the Reviewer would like to review during the engagement. The same is then communicated to the PU, so that the PU accordingly submits all the information, documents and records to the Reviewer in a timely manner and also arrange for the review of the sample engagements mentioned.
- 2.34. Reviewer should select the initial sample size for Review on random basis from the complete list of service engagements of the PU. He can select the sample on the basis of information given in the questionnaire of PU. Number of services to be reviewed depends upon the size of the PU, total number of service engagements of PU during the period under review etc., Reviewer should select balanced sample from the variety of samples in a way that overall performance of the PU can be represented by the samples. *The size of sample has been fixed to atleast 2 assignments or 20% of the number of the cost audit assignments carried out by the Practice Unit during the period under review, whichever is more.*³
- The sample of only cost audit assignments carried out by the Practice Unit during the period under review shall be taken up for the peer review purposes, till the further instructions by the Board.*⁴
- 2.35. Once the Review Plan is in hand, the blue print for carrying out the engagement is ready the Reviewer has to fix the date for the initial meeting with the designated officer / representative at the PU. The schedule of this initial meeting has to be decided by the Reviewer with mutual consent of the designated officer / representative.
- 2.36. While deciding upon this meeting schedule, the Reviewer must have gone through the filled in questionnaire submitted by the PU and should be clear of the purpose of the meeting. The purpose of the meeting may include any kind of doubts that the Reviewer may have on the questionnaire responses; the topics on which he would like to sought further clarity; any query over

the submitted documents/information/records by the PU; the existence and working of the quality and other controls in the PU etc.

- 2.37. The main focus of the Reviewer has to be on ascertaining whether the PU complies with the Technical & Professional Standards and Code of Ethics of the Institute during its engagements with its various clients and also whether there are adequate and efficient controls in the operations and procedures followed by the PU.
- 2.38. The Reviewer has to ascertain the areas where he shall use on-site review procedures and the areas where he shall use off-site review procedures. The Reviewer also has to ascertain his choice for using substantive/ compliance tests on the various operational aspects of the PU depending upon the reliability of controls. For instance, if the Reviewer is of the opinion that the PU has adequate and efficient quality controls, the Reviewer may prefer to perform only compliance test on the quality aspects rather than substantive tests.
- 2.39. The Reviewer has to inform the PU and Board about the selection of samples of audit or assurance files before his visit to the PU office so that the PU gets ample time to collect or make available the sample files to be used by the Reviewer. The PU must be given at least 30 days' time to get ready with the sample files as selected by the Reviewer.
- 2.40. In case of application of any type of test, the Reviewer must ensure that the sample selected for the review should be representative. This means that the sample size should be in accordance with the quantum of services offered by the PU. It should also ensure that the sample is drawn from the services offered across different industries and across different product lines for the different customers.

On-Site Review Procedures

- 2.41. The need for on-site review may initiate at or after the initial meeting of the Reviewer with the designated official from the PU, or at any subsequent stage. If the Reviewer feels that he needs more visits to the PU the Reviewer has to do the same with prior intimation to the PU and in accordance with a mutually convenient schedule.
- 2.42. The number of on-site reviews a Reviewer may wish to have should depend on the size of the PU; the nature and array of services it offer to its clients and the level of complexity of the operations it provides to its clients; for example, the different kind of products that the client manufactures, the number of industries to which the PU services cater and the clientele across these industries etc.

Tests for Review

- 2.43. Whether on-site or off-site, the objective of a Peer Review Engagement is to ensure that the PU is operating in accordance with the Technical & Professional Standards and Code of Ethics of the Institute. For this the Reviewer shall assess whether the PU operates strictly in accordance with the Technical & Professional Standards and Code of Ethics of the Institute (Refer definitions).
- 2.44. Whether the PU has laid down adequate and efficient quality controls in its systems and units to red alert any deviation from these standards and guidelines.
- 2.45. For the above purpose, during the Review Process, a Reviewer may make use of the three fundamental test approaches:
- a. **Walk Through during On-Site visits:** The Reviewer may simply go through and witness the SOPs of the PU that its officials comply with during an on-site review to gather evidence on the adequacy of controls and efficiency of the services the PU offers. While doing so, the Reviewer can have a fair judgement on the compliance/ deviation (if any) of SOPs in the PU operations.
 - b. **Compliance Tests:** Compliance tests are used by the Reviewers to test whether the PU officials are complying with the embedded internal controls.
 - c. **Substantive Tests:** Substantive Tests are employed when the compliance tests indicate weak controls or when the chances of deviation are high.
- 2.46. These tests are employed to test and validate whether a sample of reports generated by the PU have covered all the expected aspects and areas; and, do they actually report in the form and the spirit as prescribed by our standards.

Documentation by Reviewer

- 2.47. Documentation includes all essential engagement work papers compiled from the stage of review planning to the finalization of report.
- 2.48. The documentation policies and formats may vary from one Reviewer to another; but the objective of documentation shall always remain the same: to complete the documentation process in a timely manner & to ensure that the review working papers are:
- a. **Complete:** The review working papers should be complete; i.e. they should enlist the scope, the approach, the review findings, the

recommendations (if any), the PU feedback and response to the same. It should be ensured that there should not remain any question or any issue raised by the Reviewer that shall remain unanswered by the PU.

- b. **Comprehensive:** The working papers of the Reviewer should be comprehensive i.e. they shall be so compiled that they are easily understandable by any other person apart from the Reviewer himself. For ensuring comprehensiveness, the Reviewer should correctly index and arrange the working papers in a logical sequence. The abbreviations or symbols or jargons used are either self-explanatory or are indicated with their actual meaning at some place.
- c. **Relevant and Simple:** The documentation should be kept as relevant as possible. Only contextual information and documents should be compiled in the documentation process. This information should be compiled in such a simple manner that if any person goes through the same, he shall be able to understand the review process at different stages easily and shall be able to infer all information correctly.

- 2.49. It shall be appreciable if the review procedure is explained using appropriate narratives / flowcharts.
- 2.50. The results/ recommendations/ findings should also be recorded in the working papers. At the end of the review period, the Reviewer should also mention the PU's response to the recommendations made (if any).
- 2.51. **Electronic Working papers:** As a matter of good practice, the Reviewer should prefer to maintain the review working papers electronically.
- 2.52. The documentation process should be completed within a reasonable time after the submission of the report by the Reviewer, not beyond 30 days.

Reporting

- 2.53. **Preliminary Report of Reviewer:** At the completion of the review process, once the Reviewer has satisfied himself of the on-site review and off-site reviews, the Reviewer has to submit a preliminary report of his findings and observations to the PU. In his preliminary report, the Reviewer has to elaborately spell out all his observations on/in areas where either the SOPs followed or the controls laid are insufficient or inefficient; or there is a case of non-compliance.
- 2.54. The objective of reporting is:
 - a) To keep the PU informed about the observations made;

- b) To give a fair chance to the PU to justify and provide clarifications on the observations made by the Reviewer, and
 - c) To keep the record of the observations made by the Reviewer and also the clarification given by the PU. The Reviewer, however, has to ensure that no individual is named in the report.

quality of services rendered by the PU. In such instances, the Board instructs the PU to streamline its processes and controls in line with the expectations of the Board and the Reviewer.

Introduction

4.1 The procedure to be followed during the various stages of peer review exercise has been outlined in this chapter. It starts from selection of sample based on the information submitted by the PU in response to the questionnaire and concludes with presentation of report by the Reviewer to the PU and the Board.

Off-Site Procedure and Selection of Sample

4.2 The PU shall return the completed Questionnaire within 10 days to the Reviewer to enable him plan the review. The PU shall enclose a complete list of services rendered. The Reviewer may ask the PU to provide other information considered necessary to facilitate the selection of a sample of services engagements, representative of the PU's client portfolio, etc.

4.3 The Reviewer shall inform the PU about the selection of sample from the complete service client list shared by the PU within 10 days.

4.4 The PU shall be advised to make available for review the relevant records related to the selected sample services within the 30 days of the receipt of the said communication.

4.5 The Reviewer while executing the review may modify the size of the sample, if in his opinion formed later, such modification is necessary for the sample to represent the services rendered by the PU, more appropriately. A checklist of important check points for the assistance of the reviewer is appearing at *Annexure to this chapter*)

4.6 The Off-site procedure cannot replace the quality of evidences obtained through written inquiry and inspection of internal records or documents maintained electronically. Hence, it is advisable to apply compliance and substantive procedures to obtain decisive evidences while planning for an onsite visit for review.

On-site Review

4.7 The Reviewer will conduct visits at the PU's registered office or branch office or any other office as mutually agreed. The on-site review may not take more than three working days to complete depending upon the size of the PU and scope of the review provided PU has provided all desired information, data and relevant documents to the Reviewer for review.

- 4.8 An initial meeting will be held between the Reviewer and Proprietor/ Partner /authorised representative of the PU to discuss the modalities of the visit and to assess the correctness of the responses as submitted by the PU in the Questionnaire.
- 4.9 On the basis of the discussions, the Reviewer may ask the PU to provide further information / details with regard to the relevant procedures and policies adopted by the PU.
- 4.10 After fully understanding the system and evaluating its adequacy the Reviewer will decide the methodology to be adopted for review. He may also select a representative of the PU to assist him in carrying out the review process during the visit.

Compliance Review-General Controls

- 4.11 The Reviewer should carry out compliance review of the General Controls to understand the functioning of the office of the PU and also to evaluate the degree of reliance to be placed upon them. The degree of reliance affects the services engagements to be reviewed. There should be supplementary questions and matters to consider in each of the control areas to ensure that the necessary controls are maintained by the PU.
- 4.12 The following five key controls will be considered as General Controls:
- a) **Independence:** To assess that the PU has a policy to ensure independence, objectivity and integrity on the part of its partners & staff and the same has been communicated to all the partners & staff.
 - b) **Maintenance of Professional Skills and standards:** To assess that the PU has a recruitment policy and the same is informed to all the existing and new personnel. It also establishes the fact that the PU has a training scheme for partners & staff to keep them abreast of current and relevant professional and technical developments.
 - c) **Outside Consultation:** This aspect covers the policy for consulting experts such as accountants, advocates and other technical consultants in the industry relating to its client.
 - d) **Staff Supervision and Development:** The aspect covers setting up of guidelines by the PU on the responsibility of the personnel, evaluation of their performance, their counselling, maintenance of necessary working papers and standardized formats etc.
 - e) **Office Administration:** It captures the policy of the PU on secure preservation of records, staff register and self-sufficient library.

Review of Records

- 4.13 In order to assess the propriety of records Reviewer may apply a compliance approach or substantive approach or a combination of both.
- 4.14 **The Compliance Approach** is to assess whether proper control procedures have been established by the PU to ensure that professional services are being performed in accordance with the Standards issued by the Institute.
- 4.15 PU should have procedures and documentation sufficient to cover each of the key aspect of the assignment. If a PU finds the documentation too elaborate for any of its clients and it reduces the documentation accordingly, a justification for reducing the same should be furnished before the Reviewer.
- 4.16 If the Compliance Approach is not appropriate in case of small firms, the Reviewer may opt for Substantive Approach for conduct of Review.
- 4.17 **The Substantive approach** will be employed if the Reviewer does not deem it fit to place reliance on the PU's general controls or if he finds out that the standard of compliance is not satisfactory or inappropriate in the PU.

- 5.3. Documentation provides evidence of the auditor's basis for a conclusion about the achievement of the overall objectives of the auditor; and evidence that the audit was planned and performed in accordance with the Standards, applicable legal and regulatory requirements.
- 5.4. Audit documentation serves a number of additional purposes like assisting the audit team to plan and perform the cost audit, assisting members of the audit team responsible for supervision to direct and supervise the audit work, and to discharge their review responsibilities, enabling the audit team to be accountable for its work, retaining a record of matters of continuing significance to future audits, enabling the conduct of external inspections in accordance with applicable legal, regulatory or other requirements.

Quality Control Review and relevant Documentation

- 5.5. The objective of any firm is to establish and maintain a system of quality control to provide it with reasonable assurance that the firm and its personnel comply with professional standards and applicable legal and regulatory requirements; and Reports issued by the firm or engagement partners are appropriate in the circumstances.

The retention period may also depend on other factors, such as provisions for retention of records contained in Companies Act 2013.
- 5.11. Procedures that the firm adopts for retention of engagement documentation include those that enable the requirements of paragraph to be met during the retention period

Ownership of engagement documentation

- 5.12. Unless otherwise specified by law or regulation, engagement documentation is the property of the firm. The firm may, at its discretion, make portions of, or extracts from, engagement documentation available to clients, provided such disclosure does not undermine the validity of the work performed, or, in the case of assurance engagements, the independence of the firm or its personnel.

Chapter 6

Reporting

Introduction

- 6.1 This chapter explains the nuances of the peer review reporting by the Reviewer. The PRS of the Institute provides the following with regard to the submission of the review report by the Reviewer.
- 6.2 The Peer Review report shall cover technicalities like adherence to Standards / Acts and Rules etc. and also qualitative aspects like quality of assistants, outsourcing standards etc. The Reviewer shall send his report to the Board with a copy marked to the PU advising to respond to the report within the stipulated time frame directly to the Board with a copy marked to the Reviewer. The Board after studying the report of the Reviewer and the rejoinder by the PU will decide whether to call the PU and Reviewer for a discussion or not. In case there is any difference of opinion between the PU and the Reviewer the Board may issue necessary recommendations accordingly, if found necessary, to order a further peer review to be carried out.

Preliminary Report of Reviewer

- 6.3 In case there are no deficiencies observed in the system of the PU by the Reviewer, there is no need to draft a preliminary report. In this case, the Reviewer shall directly submit the final report to the Board. All Reports shall be prepared on the letterhead of the Reviewer, signed by him and should contain his Membership Number/COP. No., ~~UDIN~~⁸ and the Reviewer's Number allotted by the Board.
- 6.4 At the completion of the review process, once the Reviewer has satisfied himself of the on-site review and off-site reviews, the Reviewer has to submit a preliminary report of his findings and observations to the PU. In his preliminary report, the Reviewer has to elaborately spell out all his observations on/in areas where either the SOPs followed or the controls laid are insufficient or inefficient; or there is a case of non-compliance.
- 6.5 The objectives of sending a preliminary report are to:
- (i) Keep the PU informed about the observations made;
 - (ii) Give a fair chance to the PU to justify and provide clarifications on the observations made by the Reviewer, and

⁸ Removed

(iii) Keep the record of the observations made by the Reviewer and also the clarification given by the PU. The Reviewer, however, has to ensure that no individual is named in the report.

6.6 The PU has to submit the responses/ clarifications to the observations made by the Reviewer in his preliminary report within 15 days, beginning the day after the receipt of the preliminary report.

Qualified Final Report

6.7 In case the Reviewer is not satisfied with the reply of the PU, the Reviewer shall submit his Qualified Final Report to the Board. The Board shall go through the report submitted by the Reviewer along with the justifications/ presentations/ representations given by the Reviewer and issue instructions to the PU and to the Reviewer accordingly.

- a) If the Reviewer reports on lack of adherence to technical standards by the PU, the Board may instruct the PU to maintain or apply the technical standards;
- b) If the Reviewer reports on ineffectiveness or insufficiency of internal controls in the PU, the Board may instruct the PU to revisit the points of control and ensure its robustness;
- c) If the Reviewer reports on lack of appropriate documentation and record-keeping by the PU, the Board may prescribe to the PU the necessary records and formats for record keeping;

6.8 It is the responsibility of all the partners of the firm to abide by the issued instructions by the Board, in case the PU is a firm. In case the PU is a practicing member, he should be responsible for following the instructions.

6.9 After the recommendations are issued by the Board, the PU is then subjected to a subsequent review, but not before six months of the issue of such instructions by the Board.

6.10 The Board also instructs the Reviewer to carry out the subsequent review. The subsequent review shall not be carried earlier than six months of issue of instructions to the PU. The Board also specifically mentions the records and / or the procedures to be reviewed by the Reviewer at the time of the subsequent review. The subsequent review has to be completed within 45 days of such instruction given to the Reviewer by the Board.

6.11 In the qualified report of the Reviewer, there may also be instances where it is reported that although the PU has all its technical and quality controls in place, there is a room for improvement in the same. Or, that although the key controls are in place, a deficiency in the same may materially affect the quality of services rendered by the PU. In such instances, the Board instructs

the PU to streamline its processes and controls in line with the expectations of the Board and the Reviewer.

- 6.12 The PU is then given a time period of not greater than six months to streamline its processes and controls after which it is again subject to a follow up review.
- 6.13 If during the follow up review also, the Reviewer is not satisfied with the PU, he shall report the same giving details of the reasons and factors leading to his dissatisfaction to the Board.

Final Report

- 6.14 The Reviewer drafts and submits his final report with the Board *on his letterhead and not on his firm's letterhead. The Reviewer is required to generate the UDIN in respect of the final Peer Review Report and mention the same therein while submitting to the Board.*⁹ The final report of the Reviewer is called the Reviewer's Report. The Reviewer's report is a detailed one which gives details about the review scope, review procedures, review findings, justifications of the PU and the final recommendations and observations of the Reviewer.
- 6.15 The Board goes through the Reviewer's report in its entirety. If the Board is satisfied with the Reviewer's report about the PU's performance, it shall order the Secretariat to issue the Peer Review Certificate to the PU.
- 6.16 If the Board is not satisfied with the PU's performance, it may instruct the PU to follow certain guidelines to improve its systems/procedures/controls and subject the same to a follow-up review. The Board may also instruct the Reviewer to carry on a follow-up review after a time that it deems fit.
- 6.17 Reviewer should comment on the following aspects of working of the PU in his final report:
- a) **Compliance with Technical Standards assuring Quality Control:** The policies and procedures constituting the PU's system of quality control for its assurance / audit services have been designed to ensure quality control to provide the PU with reasonable assurance of complying with Technical & Professional Standards and Code of Ethics.

⁹ Decided by the Board in its 14th meeting held on 23rd January 2025

adequate office systems and procedures in place and has a document management system including filing system, record storage and retrieval system.

- c) **Allocation of assignments:** The Reviewer should comment whether allocation of assignments among the staff or trainees is commensurate with their capability, whether the assignments are properly carried out and the services are verified by the Proprietor or Partner of the PU before authentication.
- d) **Training arrangements for staff:** The Reviewer should express:
1. whether proper training and capacity building of the staff in the office of the PU is conducted or not by the PU in order to maintain the quality of professional services.
 2. In case it is difficult for the Proprietor or Partner of the PU to carry out all the services himself, whether PU relies on the trainees for execution of the professional services.
 3. Whether the trainees are maintaining a logbook to record the work done every day and whether the same is being examined by the Proprietor or Partner or any designated officer of the PU periodically.
 4. Whether any Staff Induction Process is in place.
 5. Whether training programmes or capacity building programs are conducted or any in-house mechanism is there for the professional development of staff.
 6. Whether there is a library or a resource of reference material relating to professional services.
