(i) During the previous year 2010-11 a charitable trust earned an income of Rs.50,00,000 out of which Rs.40,00,000 was received during the previous year 2010-11 and the balance Rs.10,00,000 was received during the previous year 2012-13. To claim full exemption of Rs.50,00,000 in the previous year, state: What is the maximum amount which can be accumulated to be utilized for charitable trust or religious purposes as a later date.

Answer:

Total income earned	Rs.50,00,000
Accumulation allowed @15%	Rs.7,50,000
Balance to be utilized during the year	Rs.42,50,000

Amount which may be deemed to be utilized because it has not been received during the previous year Rs.10,00,000

Therefore, amount to be actually applied during the previous year Rs.32,50,000 (i.e. Rs.42,50,000 – Rs.10,00,000).

(k) XYZ Research Foundation is a company established u/s25 of the Companies Act,1956. The Assessing Officer is of the contention that this company is subject to the provisions of Sec.115JB. Is the contention justified?

Answer: A company registered under section 25 of the Companies Act,1956, whose income is exempt under principles of mutuality cannot be brought within the purview of section 115JB. [Delhi Gymkhana Club Ltd. vs.Dy.CIT (2010)39 DTR 48 (Del) (Trib)].

(l) A trust was created for the benefit of minor child. The beneficiaries had no right to enjoy the income of the trust till they attain majority. Income was to vest in the beneficiaries only when they attain majority. The income was to get capitalized from year to year. The beneficiary was both parents, i.e. father and mother. The income of father was higher than income of the mother. Hence, A.O. had clubbed the income in the hands of father and also allowed a deduction of Rs.1,500. Is the action justified?

Answer: Clubbing provisions are not attracted in respect of income from a trust for the deferred benefit of minor children. Hence, in this case, the income cannot be clubbed in the hands of the father during minority of beneficiaries. Hence, the action of the A.O. is not justified.

(m) When is a transfer considered to be revocable?

Answer: As per section 63, a transfer for the purpose of sections 60,61 and 62 shall be deemed to be revocable if:

- (a) It contains any provision for the re-transfer, directly or indirectly of the whole or any part of the income or assets to the transferor, during the life time of the beneficiary or the transferee as the case may be;
- (b) It gives the transferor the right to re-assume power directly or indirectly over the whole or any part of the income of assets during the life time of the beneficiary or the transferee as the case may be.

The power to re-transfer must be to the transferor as himself and not in any different capacity and also not to anybody else. [Jyotendrasinghi vs.S.I. Tripathi and others (1993) 201 ITR (SC)].

To treat a transfer to be revocable there need to be actual re-transfer or exercise of the power to reassume; it is sufficient if there is a provision of the nature contemplated. [CIT vs. Raghbir Singh (S.) (1965) 57 ITR 408 (SC)].

(n) Mrs. A started the business in 2008. Her capital in the business as on 1.4.2009 was Rs.3,00,000. Mr.A (her husband) gifted a sum of Rs.4,00,000 to Mrs. A on 10.12.2009, which was also invested in the aforesaid business on the same date. She earned a profit of Rs.3,00,000 and Rs.5,00,00 during the previous years 2009-10 and 2010-11 respectively. Compute the amount of income to be clubbed in the hands of Mr.A, assuming Mrs. A had drawn Rs.30,000 out of profits for the previous year 2009-10 on 15.4.2010.

Answer:

Assessment Year: 2010-11 i.e. previous year 2009-10, there will be no clubbing of income. In the previous year,2009-10, although the gift of Rs.4,00,000 was made by Mr.A and the same was invested in the business by Mrs.A, but there will be no clubbing of income in the hands of Mr.A as the amount of gift to Mrs. A was on 10.12.2009 and as such there was no investment out of the gifted money as on 1.4.2009, i.e. the first day of the previous year under consideration.

Assessment Year: 2011-12

Amount invested as on 1.4.2010, i.e. first day of the previous year

= out of gifted money from her husband Rs.4,00,000 (+) own funds of Mrs. A Rs.3,00,000 (+) profit for the previous year 2009-10 (-) Drawings made out of profits
 = 4,00,000 + 3,00,000 + 3,00,000 (-) Nil [drawings was made on 15.4.2010, i.e. after 1.4.2010, on which date, the investment remained unaffected with the amount of drawings, hence not considered]

Therefore, total investments= Rs.10,00,000

Profit to be clubbed in the hands of Mr.A = Rs. (5,00,000 x 4,00,000/10,00,000) = Rs.2,00,000

Taxable HRA		<u>NIL</u>

Therefore, Total Taxable HRA for Mr.B for the previous year 2010-11 is NIL.

**Option (B) : If the assessee is taking the benefit of rent-free unfurnished accommodation but not HRA**

Taxable value of perquisite for rent-free unfurnished accommodation:= 15% of Salary = 15% of Rs. 5,37,500 = Rs. 80,858

Salary for Accommodation = Basic pay + D.A. (forming part of retirement benefit) + All other taxable allowances + any other monetary benefits

= Total of basic pay + D.A (forming part for retirement benefits) + commission (as a fixed percentage on turnover) = Rs. (4,02,750 + 1,34,500) = Rs.5,37,500 [figures already calculated above]

Since, Taxable value of perquisite for accommodation is higher than HRA, in this case, the assessee should continue taking HRA and not to avail the benefits of rent-free unfurnished accommodation.

(b) Mr. Ravi resigned from B Ltd after 23 years 8 months of service. He received a gratuity of ₹11,50,000. His average salary for the last 10 months, preceding the month of retirement is ₹54,000. What is the taxable gratuity? What would be the amount of taxable gratuity if prior to his joining B Ltd., he had also served in A Ltd. for a period of 4 years 6 months? If Mr.Ravi now joins C Ltd. and after serving for 5 years 10 months of service, receives ₹ 4,50,000, what would be the taxable gratuity, assuming that his average salary is ₹40,000?

Solution:

Computation of Taxable Gratuity (from B Ltd.) for the Previous Year 2010-11

Particulars	₹	₹
Amount received as Gratuity		11,50,000
Less: Exemption u/s 10(10)(iii) Least of the followings:		
(i) Actual amount received	11,50,000	
(ii) $1/2 \times$ Average salary \times No. of fully completed years of service [$1/2 \times 54,000 \times 28$]	7,56,000	
(iii) Maximum Limit	10,00,000	<u>7,56,000</u>
Taxable Gratuity		<u>3,94,000</u>

Note:

- (1) No. of years of completed service shall also include the services of Mr.Ravi in A Ltd. for a period of 4 years, which is prior to B Ltd. From A Ltd. he has not received gratuity as he did not serve for a period of 5 years, but for the purpose of computing total length of service, that time period shall have to be considered. Hence, total no. of fully completed years of service is 23 years 8 months + 4 years 6 months = 28 years 2 months = 28 years fully completed.
- (2) An Assessee shall be eligible to claim a total exemption of ₹10,00,000 during the entire service-life time. In this case, out of gratuity received from B Ltd., ₹7,56,000 is exempted, being the lowest. So, at the time of computation of taxable gratuity from C Ltd, the maximum limit of ₹ 10,00,000 shall be reduced by the amount of exemption from gratuity already availed. Hence, the maximum limit after adjusting will be = ₹ (10,00,000 – 7,56,000)= ₹2,44,000.
- (3) Now, total length of service for Mr.Ravi would be 28 years 2 months + 5 years 10 months = 34 years, fully completed. Hence, for the purpose of computing taxable gratuity from C Ltd., total length of service shall be taken as 34 years

Question No.35

(a) Mr. King is getting a salary of ₹15,400 pm since 1.1.09 and dearness allowance of ₹8,500 pm, 50% of which is a part of retirement benefits. He retired on 30th November 2010 after 30 years and 11 months of service. His pension is fixed at ₹11,800 pm. On 1st February 2011 he gets 3/4ths of the pension commuted at ₹3,69,000. Compute his gross salary for the previous year 2010-11 in the following cases:

- (i) If he is a government employee and received gratuity
- (ii) If he is an employee of a non-government company, and received gratuity
- (iii) If he is an employee of a non-government company and gratuity not received.

Solution :

Date of retirement: 30th November, 2010. Pension commuted on 1st February, 2011. Hence, the assessee has drawn full amount of pension, i.e. ₹3,800 p.m. for the months of December 2010 and January, 2011. After commuting pension, he then received 25% of the pension amount. So, he received ₹950 p.m. (i.e. 25% of ₹ 3,800) for two months i.e. February and March, 2011 during the previous year 2010-11.

Particulars	Case (i)	Case (ii)	Case (iii)

(b) Ms. Parineeta retired from service after 28 years 7 months from ABC Ltd. Leave sanctioned by employer 42 days p.a. Leave availed during service 400 days. Leave encashment received: ₹4,30,000. Average salary for 10 months preceeding the month of retirement ₹27,000. Compute taxable amount of leave encashment for the previous year 2010-11.

Solution:

Since leave sanctioned by the employer is more than 30 days p.a., the following calculation is required, to determine the amount of leave credit on the date of retirement. Further, only completed years of service shall have to be taken into consideration, which in this case is 28 years.

Particulars	₹
(i) Leave credit available on the date of retirement	
= Total Leave sanctioned during tenure of employment – Total leave availed during service	
= [(28 years x 42 days per annum) – 400 days]	776
Less: Excess leave sanctioned by the employer [(42– 30) days per year x 28 years]	<u>336</u>
Leave credit on the basis of 30 days credit for completed years of service	<u>440</u>
(ii) Leave salary on the basis of 30 days credit = Step (i) × Average Salary = $440 \times (27,000/30)$	3,96,000

(d) Mr. Virat, after serving Z Ltd. for 23 years 7 months, opted the Voluntary Retirement Scheme. Total tenure of service: 30 years Compensation received ₹ 8,00,000. Last drawn Salary (i.e. Basic pay + D.A, forming part of retirement benefits) ₹25,000. Compute exemption & taxable value of VRS compensation.

Solution:

Total tenure of service = 30 × 12 = 360 months

Actual length of service = 23 years 7 months = 283 months

No. of months of service left = (360 – 283) months = 77 months

Question No.36

(a) Calculate the perquisite value of the expenditure on medical treatment, which is assessable in the hands of an employee of a company, inclusive of the conditions to be satisfied:

Gross total income, inclusive of salary	₹2,00,000
(i) amount spent on treatment of the employee's wife in a hospital maintained by the employer	₹20,000
(ii) amount reimbursed by the employer on treatment of the employee's child in a hospital	₹14,000
(iii) medical insurance premium reimbursed by the employer on a policy covering the employee, his wife and dependent parents	₹7,000

(v) (i) amount spent on medical treatment of the employee outside India ₹ 2,50,000 and (ii) amount spent on travel and stay abroad ₹ 90,000

(vi) amount spent on travel and stay abroad of attendant ₹ 60,000

Solution:

Computation of Taxable Value of Perquisite for expenses related to medical treatment

	Nature of Perquisites	Amount	Taxability/Non-taxability
i	Treatment of employee's wife in a hospital maintained by employer	nil	fully exempted
ii	Treatment of employee's child in a hospital, not maintained by the employer	nil	Since the amount is less than ₹15,000, it is exempted.
iii	Reimbursement of medical insurance premium	nil	since medical insurance premium u/s 80D is paid on the employee and members of his family
iv	Expenses on medical treatment outside India	nil	it is assumed that the whole of such expenditure is permitted by RBI
v	Amount spent on travel and stay abroad for the employee (referred as patient in this case)	nil	not taxable as the gross total income does not exceed ₹2,00,000
vi	Amount spent on travel and stay abroad for the attendant	nil	not taxable, as the gross total income does not exceed ₹2,00,000

(c) Mr. Haider, was provided an accommodation in a hotel by his employer for 22 days, before he could be provided with a rent free accommodation, owned by the employer. The hotel charges paid ₹ 6,000. Salary for the purpose of accommodation for the period of 22 days is ₹ 22,000. Compute the value of accommodation assuming ₹ 3,000 was recovered from the employee.

Solution:

In case of accommodation provided to the assessee on account of transfer, which is exceeding 15 days cumulatively, such shall be taxable as a perquisite. The company recovered ₹ 3,000 from the employee. Compute taxability.

Lower of the followings:

(i) 24% of salary paid/payable= 24% of 22,000 = 5,280

(d) Mr. Ritesh is provided with an accommodation in Kolkata since April 2010. Salary ₹ 40,000 p.m. Cost of furniture provided ₹ 80,000. On 1st September, 2010, following a promotion with a increase in Salary by ₹ 15,000, he was transferred to Jharkhand (population less than 25 lakhs but more than 10 lakhs), and was also provided an accommodation there. Mr. Ritesh was allowed to retain the Kolkata accommodation till March, 2011. Compute taxable value of perquisite for accommodation possessed by the assessee.

**Solution : Phase 1: Value of Furnished Accommodation (Kolkata) (April to September 2010)**

Particulars	₹
Value of unfurnished accommodation (15% of 40,000 × 6 months)	36,000
Add: Value of Furniture provided:	
• 10%p.a. of original cost of such furniture (10% of 80,000 x 6 months)	<u>8,000</u>
Value of Furnished Accommodation	<u>44,000</u>

Phase 2: Valuation of accommodation (October 2010 to December 2010)

- (a) For the first 90 days of transfer: Where accommodation is provided both at existing place of work and in new place, the accommodation, which has lower value, shall be taxable.
- (b) After 90 days: Both accommodations shall be taxable.

Computation for the first 90 days of transfer: (October 2010 to December 2010)**Lower of:**

- (i) Value of accommodation at existing place of work
- (ii) Value of accommodation at new place

Value of accommodation at existing place of work (Kolkata)

15% of salary for 3 months (i.e. 90 days) = 15% of 55,000 × 3 months = 24,750

Add: Cost of furniture provided: 10% of 80,000 × 3 months = 24,000

Total Value of Perquisite 48,750

Value of accommodation at new work place (Jharkhand)

10% of salary for 3 months (i.e. 90 days) = 10% of 55,000 × 3 months = 16,500

Therefore, the assessee shall be assessed to tax on ₹ 16,500 (being the lower)

Phase 3: Valuation of accommodation (after 90 days) (January 2011 to March 2011)

For Kolkata accommodation: 15% of 55,000 × 3 months = ₹24,750

Add: Cost of furniture provided: 10% × 80,000 × 3 months = ₹24,000

Total value of perquisite ₹48,750

For Jharkhand accommodation: 10% of 55,000 × 3 months = ₹16,500

Total value of perquisite:

Particulars	Taxable value of perquisite
Phase 1: Accommodation in Kolkata	44,000
Phase 2: Accommodation in Jharkhand (being the lower during 90 days)	16,500
Phase 3: Accommodation in Kolkata	48,750
	<u>16,500</u>
Total Value of Taxable Perquisite	<u>1,25,750</u>

15.09.2006	Washing Machine	10,000	5,000

Compute the taxable value of perquisites for the assessment year 2011-12.

Solution:

Computation of taxable value of perquisites on transfer of moveable assets [As per Rule 3(7)(viii)]

TRANSFER OF MOVABLE ASSET TO EMPLOYEES

Nature of Assets transferred	Amount
Motor car (Actual Cost)	2,50,000
Less: Depreciation @ 20% on WDV from 01.07.2008 to 30.06.2009	<u>50,000</u>

- (viii) Interest free loan for purchase of computer ₹50,000 given on 1.2.2011. No repayment was made during the year;
- (ix) Corporate membership of a club. The initial fee of ₹1,00,000 was paid by the company. Aniket paid the bills for his use of club facilities.

You are required to compute the income of Aniket under the head "Salaries" in respect of assessment year 2011-12.

Solution:

Previous Year: 2010-2011	Assessee : Mr. Aniket	A.Y. 2011-2012
Computation of Income under the head 'Salaries'		
(i) Basic Pay		(35,000 × 9) 3,15,000
(ii) D.A.		(20,000 × 9) 1,80,000
(iii) Bonus		(20,000 × 9) 1,80,000
(iv) Value of furnished accommodation		Note 1 1,28,250
(v) Motor car		(1,800+900) × 9 m 24,300
(vi) Sweeper Salary		(1,500–200) × 9 m 11,700
(vii) Watchman Salary		(1,500–300) × 9 m 10,800
(viii) Education facility		Note 2 5,400
(ix) Interest free housing loan		Note 3 23,333
(x) Interest free computer loan		Note 4 1,375
(xi) Corporate membership fee		<u>1,00,000</u>
Gross Salary		<u>8,80,158</u>

Note 1. Value of furnished accommodation:

Particulars	Amount
Salary for this purpose -	
Basic Salary	(35,000 × 9) 3,15,000
D.A (assuming part of retirement benefits)	(20,000 × 9) 1,80,000
Bonus	(20,000 × 9) <u>1,80,000</u>
Total	<u>6,75,000</u>

Assuming, Mr. Aniket stays in a city where population is more than 25,00,000 as per 2001 census,

Value of unfurnished accommodation	= 15% of salary
	= 15% of 6,75,000 = ₹ 1,01,250
Value of furniture provided	= 10% p.a. of actual cost
	= 10% of 3,60,000 × 9/12 = ₹ 27,000

(Assuming, value of furniture given in the problem represents actual cost.)

Value of rent free furnished accommodation	= 1,01,250 (+) 27,000
	= ₹ 1,28,250

**Note 2. Value of Educational Facility**

Where the school is owned and maintained by employer, if the cost of education provided is less than ₹ 1,000 p.m. then the value of perquisite is NIL. If the cost of education exceeds ₹ 1,000 p.m. then the value of perquisite will be equal to the actual cost of education provided in excess of ₹ 1,000 pm. per child maximum for two children. Value of perquisite for elder child = ₹ (16,000 – 1,000) × 9 months = 5,400. Value of perquisite for younger child = NIL, since tuition fee per month is less than ₹ 1,000. Assuming, cost of education provided to Babu's children is less than ₹ 1,000 p.m. value of perquisite provided is NIL.

Note 3. Interest free housing loan

Value of perquisite = Interest @ 10% p.a. less Actual interest charged
 = (10% – 2%) × ₹5,00,000 × 7/12 = ₹ 23,333.

Note 4. Interest free computer loan

Value of perquisite = Interest @ 16.50% p.a. less Actual interest charged
 = (16.50% – 0%) × ₹ 50,000 × 2/12 = ₹ 1,375.

(b) A was employed with Z Ltd. He retired w.e.f. 1.2.2011 after completing a service of 24 years and 5 months. He submits the following information:

Basic Salary: ₹5,000 per month (at the time of retirement); Dearness Allowance: 100% of Basic Salary (60% of which forms part of salary for retirement benefits). Last increment ₹500 w.e.f. 1.7.2010.

His pension was determined at ₹3,000 per month. He got 50% of the pension commuted w.e.f. 1.3.2011 and received a sum of ₹1,20,000 as commuted pension. In addition to this, he received a gratuity of ₹1,50,000 and leave encashment amounting to ₹56,000 on account of accumulated leave of 240 days. He was entitled to 40 days leave for every years of service.

Compute his Gross Salary for assessment year 2011-12 assuming that he is not covered under Payment of Gratuity Act.

Solution:

Computation of Gross Salary for the Assessment Year 2011-12

	₹	₹
Basic Pay: April '10 to June '10 = 3 months @ ₹ 4,500 pm	13,500	
July 10 to June '11 = 7 months @ ₹ 5,000 pm	<u>35,000</u>	48,500

(i) Actual Amount Received	1,50,000
(ii) Maximum limit	10,00,000
(ii) 1/2 months average salary for each year's of completed service	93,120

Salary for Gratuity (not covered by Payment of Gratuity Act)

= Basic Pay + D/A (Forming part for retirement benefit)

Average Salary = $(48,500 + 60\% \text{ of } 48,500) / 10 = 77,600/10 = 7,760$

Question No.39

(a) Write short note on: terminal depreciation and balancing charge. Give an example to illustrate the same.

Answer:

Terminal Depreciation refers to Loss on Transfer & **Balancing Charge** refers to Gain on Transfer.

- It is applicable for any undertaking engaged in generation or generation and distribution of power;
- It must be a depreciable asset, on which depreciation is claimed on straight line basis;
- Such depreciable asset, is sold, discarded, demolished or destroyed in a previous year

If there arises:

- Loss on Sale = Terminal Depreciation;
- Gain on Sale = Balancing Charge.

Calculation of Terminal Depreciation:

- Calculate Written Down Value of the depreciable asset on the first day of the previous year in which such asset is sold, discarded, demolished or destroyed.
- Ascertain Net Sale Consideration.

If value as per (1) > value as per (2) = Loss = Terminal Depreciation

Balancing Charge u/s 41(2) and Capital Gain u/s 50A:

If value as per (2) > value as per (1) = Gain = Balancing Charge. i.e. if, $NC > WDV = \text{Balancing Charge}$

Again, if, (i) $NC > OC = \text{Capital Gain}$ and (ii) $OC < WDV = \text{Balancing Charge}$

Where,

- NC = Net Sale Consideration
 OC = Original Cost
 WDV = Written Down Value

Example :

Neyduli power Projects is a power generating unit. On 1.4.2008, it purchased a plant of ₹ 50,00,000, eligible for depreciation @15% on SLM. Compute balancing charge or terminal depreciation assuming the plant is sold on 21.4.2010 for : (a) ₹8,50,000 (b) ₹32,00,000 (c) ₹45,00,000 (d) ₹52,00,000

Solution :

Computation of Terminal depreciation or balancing charge, capital gain.

(d) Mention the probable situations where proportionate depreciation may be resorted to.

Answer: In the following cases, depreciation is allowed on proportionate basis where in any Previous Year, there is :-

- (i) Succession of a partnership firm by a company [u/s. 47(xiii)] or
- (ii) Succession of a proprietary concern by a company [u/s. 47(xiv)]
- (iii) Succession of any business other than on death [u/s. 170] or
- (iv) Amalgamation of company [u/s. 2(1B)] or
- (v) Demerger of any company [u/s. 2(19AA)]

(e) A Bros., a sole-proprietorship concern, was converted into a A Ltd. on 20.9.2010. Before the conversion, the concern had a block of furniture (rate of depreciation @ 10%), whose WDV as on 01.04.2010 was ₹ 6,50,000. On 01.05.2010, a new furniture of the same block was purchased for ₹ 50,000. A Ltd. purchased another furniture of the same type on 20.12.2010 for ₹ 48,000. Compute depreciation that would be claimed by A Bros. and A Ltd for the previous year 2010-11.

Solution :

- (1) Depreciation shall have to be calculated at the prescribed rates, as is applicable for a going concern, without considering the event of amalgamation or demerger.
- (2) Depreciation shall have to be apportioned between the predecessor and the successor in the ratio of number of days for which such assets were held for their business purpose and used by them.

Depreciation to be apportioned = [W.D.V. as on 1.4.2010 + New Purchases on 01.05.2010] = ₹ (6,50,000 + 50,000) = ₹ 7,00,000 × 10% = ₹ 70,000

(f) X Ltd., is a company engaged in the business of growing, manufacturing and selling of tea. For the accounting year ended 31st March, 2010, its composite business profits, before an adjustment under section 33AB of the Income-tax Act, were ₹ 60 lakhs. In the year, it deposited ₹ 25 lakhs with NABARD. The company has a business loss of ₹ 10 lakhs brought forward from the previous year. The company withdrew in February, 2010 ₹ 20 lakhs from the deposit account to buy a non-depreciable asset for ₹ 18 lakhs and could not use the balance before the end of the accounting year. The withdrawal and the purchase were under a scheme approved by the Tea Board. The non-depreciable asset was sold in November, 2010 for ₹ 29 lakhs. Indicate clearly the tax consequences of the above transactions and the total income for the relevant years.

Solution: Computation of total income of X Ltd. for A.Y. 2010-11

Particulars	₹
Net profits before adjusting deduction u/s 33AB	60,00,000
Less: Deduction u/s 33AB	<u>24,00,000</u>
[Lower of	
(i) 40% of ₹60 lakhs = ₹24 lakhs; or	
(ii) actual amount deposited with NABARD = ₹25 lakhs	
Profits after adjusting deduction u/s 33AB	36,00,000
As per Rule 8 of Income-tax Rules, 40% of this sum is subject to income-tax and the balance 60% is treated as agricultural income.	
Hence, the business income is 40% of ₹ 36 lakhs	14,40,000
Add: Non-utilisation of amount withdrawn: ₹ 2 lakhs [i.e. (₹ 20 lakhs – ₹ 18 lakhs)]	
40% is taxable as business income (the balance 60% is treated as agricultural income).	<u>80,000</u>
Business income	15,20,000
Less: Business loss brought forward from the previous year	<u>10,00,000</u>

Computation of Total Income of X Ltd. for A.Y.2011-12

Particulars	₹
Business income (See Note 2)	7,20,000
Capital gains (Short-term) (See Note 1)	<u>11,00,000</u>
Total Income	<u>18,20,000</u>

Note 1 - Computation of capital gains

Particulars	₹
Sale proceeds	29,00,000
Less: Cost of acquisition	<u>18,00,000</u>
Short term capital gains (since the period of holding is less than 36 months)	<u>11,00,000</u>

Note 2 - Computation of business income Since the asset is sold within 8 years, the cost of the asset i.e. ₹ 18 lakhs should be treated as income since the same has been allowed as deduction in the assessment year 2010-11.

However, out of this ₹ 18 lakhs, 60% would be agricultural income and the balance 40% i.e. ₹ 7.2 lakhs would be business income of P.Y.2010-11. This is because deduction under section 33AB was allowed in P.Y.2010-11, before disintegration of income into agricultural income and non-agricultural income.

Question No.40

(a) Free Call Ltd. obtained a telecom licence on 15.6.07 for a period of 8 years ending on 31.3.2015 against a fee of ₹ 30 crores to be paid in four instalments of ₹ 12 crores, ₹ 7 crores, ₹ 6 crores, ₹ 5 crores by June 2008, June 2009, June 2010 and June 2011 respectively. Explain how the payment for licence fee shall be dealt under the Income Tax Act, 1961.

**Solution:**

Assessee : Free Call Ltd.

Previous Year 2010-11

Assessment Year: 2011-12

- (a) U/s 35ABB, expenditure incurred for the purpose of acquiring any right to operate telecommunication services is allowed equally as deduction throughout the unexpired life of the licence. Deduction shall be allowed **only for the actual payment made.**
- (b) If only part payment is made, amortization is based on the amount paid and not on the basis of total consideration. For any further payments, deduction/amortization is allowed equally for the remaining unexpired useful life.
- (c) Computation of amount of eligible deduction u/s 35 ABB:

Previous year	Amount paid (₹ Crores)	Unexpired Period of Licence on the date of actual payment	Amount of Deduction (₹ Crores)
2007-08	12.00	8 years	1.50
2008-09	7.00	7 years	[1.50 + (7.00/7)] = 2.50
2009-10	6.00	6 years	[2.50 + (6.00/6)] = 3.50
2010-11	5.00	5 years	[3.50 + (5.00/5)] = 4.50

(b) Hello International Ltd. incurs an expenditure of ₹ 240 crores for acquiring the right to operate telecommunication services for Assam & Sikkim. The payment was made in November 2009 and the licence to operate the services was valid for 15 years. In December 2010, the company transfers part of the licence, in respect of Assam, to Hi International Ltd. for a sum of ₹ 56 crores and continue to operate the licence in Sikkim. What is the deduction allowable u/s 35ABB to Hello International Ltd. for the Assessment Year 2011-12?

Solution :

Assessee: Hello International Ltd.

Previous Year: 2010-11

Assessment Year : 2011-12

- (a) u/s 35ABB, where part of the Telecom Licence is transferred and Net Consideration received on such transfer, is less than the expenditure remaining unallowed, the amount of deduction shall be computed as follows :
- (i) Unallowed amount as on 01.04.2010 = Total Expenditure Less Deduction for Financial Year 2009-10
= ₹240 crores Less (₹240 crores/licence period of 15 years)
= ₹240 crores less ₹16 crores = ₹224 crores.
- (ii) Net Consideration received = ₹60 crores
- (iii) Remaining period of licence = 14 years (including current previous year)
- (iv) Deduction u/s 35 ABB = ₹ (224 crores less 56 crores) / 14 years= ₹12 crores.

(c) Jammer International Ltd. incurs an expenditure of ₹ 300 crores for acquiring the right to operate telecommunication services for Orissa and Jharkhand. The payment was made in August 2009 and the licence to operate the services was valid for 12 years. In December 2010, the company transfers part of the licence, in respect of Orissa to Hammer International Ltd. for a sum of ₹ 280 crores and continue to operate the licence in Jharkhand . What is the deduction allowable u/s 35ABB to Jammer International Ltd. for the Assessment Year 2011-12?

Solution:

Previous Year: 2010-11

Assessee: Jammer International Ltd.

Assessment Year : 2011-12

- (a) u/s 35ABB, where part of the Telecom Licence is transferred and Net Consideration received on such transfer, is more than the expenditure remaining unallowed, the amount of deduction shall be computed as follows :
- (i) Unallowed amount as on 01.04.2010 = Total Expenditure Less Deduction for Financial Year 2009-10

	= ₹300 crores Less (₹300 crores / licence period of 12 years)
	= ₹300 crores less ₹25 crores= ₹275 crores.
(ii) Net Consideration received	= ₹280 crores
(iii) Remaining period of licence	= 11 years (including current previous year)
(iv) Deduction u/s 35 ABB	= ₹ (224 crores less 56 crores) / 14 years
	= ₹ 12 crores.

(d) Sleepwell Ltd. is an existing Indian Company, which sets up a new industrial unit. It incurs the following expenditure in connection with the new unit:

	₹
Preparation of project report	4,00,000
Market survey	5,00,000
Legal and other charges for issue of additional capital required for the new unit	2,00,000
Total	11,00,000
The following further data is given:	
Cost of project	30,00,000
Capital employed in the new unit	40,00,000
What is the deduction admissible to the company under section 35D for Assessment Year 2011-12?	

Solution:

The deduction admissible under section 35D is one-fifth of the expenditure incurred for the project. This works out to ₹ 2,20,000.

However, such expenditure should not exceed the following limits as prescribed in section (3):

- 5% of cost of the project or
- 5% of the capital employed in the new industrial undertaking (being a company) — whichever is higher.

In this case

- 5% of the project cost is ₹ 1,50,000 and
- 5% of the capital employed is ₹ 2,00,000.

Hence, the expenditure eligible for amortization under section 35D would be ₹ 2,00,000.

And the admissible deduction for the current assessment year is $2,00,000 \times 1/5 = ₹ 40,000$.

(e) Ms. Raveena, a retail trader of Kolkata furnishes the following Trading and Profit and Loss Account for the year ended 31st March, 2011 :

- (ii) Salary includes ₹10,000 paid to his brother, which is unreasonable to the extent of ₹ 2,000.
- (iii) The whole amount of printing and stationery was paid in cash.
- (iv) The depreciation provided in the Profit and Loss Account ₹ 1,05,000 was based on the following information :
The written down value of plant and machinery is ₹ 4,20,000. A new plant falling under the same Block of depreciation of 25% was bought on 1.7.2010 for ₹ 70,000. Two old plants were sold on 1.10.2010 for ₹ 50,000.
- (v) Rent and rates includes sales tax liability of ₹ 3,400 paid on 7.4.2010.
- (vi) Other business receipts include ₹ 2,200 received as refund of sales tax relating to 2008-09.
- (vii) Other general expenses include ₹ 2,000 paid as donation to a Public Charitable Trust.

You are required to advise Ms.Raveena whether she can offer her business income under section 44AF i.e. presumptive taxation.

Solution:

Let us assume that the facts relate to previous year relevant to assessment year 2011-12 and accordingly compute the income of Ms.Raveena.

1. Income from business	2,00,600
2. Income from other sources— Interest on securities	<u>892</u>
Gross Total Income	<u>2,01,492</u>

Note :

- (i) Mr. Sanjeev is a non-resident in India for the previous year 2010-11. It is assumed that the business was set up and controlled from a place outside India and income earned had neither accrued in India nor received in India during the previous year, hence, does not form part of taxable income as per Income Tax Act, 1961
- (ii) Bad debts deducted in earlier years and now recovered, has been rightly included in the profit and loss account as business income [Sec. 41(4)].
- (iii) Since payment of income tax is not deductible, its refund cannot be taxed as deemed profits [Sec. 41(1)].
- (iv) OYT (own your telephone) deposit is an allowable deduction in the year in which it is paid.
- (v) "Dharmada", "mandir" and "gaushala" receipts are customarily levies by trader for charitable purposes. Amount received under these heads are not trading receipts. The fact that the amount collected under these heads are spent for other purposes would amount to breach of trust but it would not affect the initial nature and character of the receipt. Such receipts are not taxable.
- (vi) The assessee is entitled to the deduction in respect of donation to National Defence Fund under Sec. 80G.
- (vii) Life insurance paid by assessee on his life is allowed to be deducted in imputing total income under Sec. 80C.
- (viii) Any payment on advertisement exceeding ₹ 20,000 should be made by on account payee cheque or account payee bank draft. Since the payment has been made in cash, 100% of advertisement has been disallowed [Sec. 37(1) r.w. Sec. 40A(3)]. 'Crossed cheque' requirement has been amended by 'account payee' cheque. It is operative from 13-07-2008.
- (ix) From the assessment year 2001-2002, intangible assets also fall within the scheme of depreciation. Hence, depreciation has been allowed on trademarks and know-how.
- (x) Registration expense of trademarks is revenue expenditure, allowed under Sec. 37(1).

1. Purchase of motor car is capital expenditure. Hence, it is not deductible. Depreciation has been allowed on motor car.
2. Plant includes books and surgical equipment. Depreciation on professional books is allowed @ 60% but annual publications are written off @ 100%. However, as annual publications have been put to use for less than 180 days during the year, depreciation has been allowed @ 50%. The assessee can claim depreciation on surgical equipment at general rate.
3. Contribution of articles to periodicals and magazines constitutes income from vocation of the assessee.
4. Expenses in income-tax proceedings are wholly deductible [Sec. 37(1)].
5. One-third of car expenses and proportionate depreciation in respect of motor car have been disallowed as they are in connection with the personal use of the assessee.
6. Interest on Post Office National Saving Certificates is exempt from income tax [Sec. 10(15)].
7. Profits and gains of the business or profession are computed according to the method of the accounting regularly followed by the assessee (Sec. 145). Since the assessee has adopted cash system of accounting. "Income" is taxable on receipt basis and "expenditure" is allowed to be deducted on payment basis, irrespective of the previous year to which the receipt of payment belongs. Receipts outstanding for the previous year 2010-2011 will not be taken into consideration.
8. Profits and gains of business profession is required to be computed according to the system of accounting regularly followed by the assessee but if the income cannot be properly deduced therefrom, the Assessing Officer may compute the income on such basis and in such manner as he may deem fit [Proviso to Sec. 145(1)].
In view of this, the Assessing Officer may take into account the value of closing stock while determining profits even under cash system of accounting
9. Donation to Political Party is allowed to be deducted from gross total income under Sec. 80GGC.
10. It is assumed that the assessee has furnished the prescribed forms i.e. Form 10CCD and Form 10H for claiming deduction u/s 80QQB and Form 10CCE and Form H for claiming deduction u/s 80RRB.

Compute the taxable business profits for the assessment year 2011-2012.

Solution :

Computation of Business Profits for the Assessment Year 2011-2012

Particulars	₹	₹
Net profit as per Profit & Loss Account		30,00,000
Add: Inadmissible Expenses:		
1. Advertisement payment to a political party [Sec. 37(2B)]	2,00,000	
2. Travelling outside India [Sec. 37(1)]. Proportionate expenses of foreign travel, (excluding air fare) not relating to business : (60,000 x 3/8)	22,500	
3. Fine and penalties	50,000	
4. Cost of patent rights	6,00,000	
5. Expenditure on scientific research (Sec. 35): Purchase of land	1,50,000	
6. Contribution to Bombay Municipal Committee (Sec. 35 AC):	<u>60,000</u>	<u>10,82,500</u>
Since the Certificate indicating progress in the prescribed form has not been issued, no deduction is allowed.		40,82,500
Add: Deemed profit: Refund of Customs Duty, deducted in earlier years, not credited in the profit and loss a/c [Sec.41(1)]		50,000

**Less: Admissible expenses:**

Capital expenditure on scientific research [Sec.35(1)(iv)(2)]	4,00,000	
Depreciation on Patent rights @ 25% of ₹ 6,00,000	1,50,000	
Depreciation on know-how: @ 25% of ₹ 5,00,000	1,25,000	
Depreciation on Machinery:		
WDV as on 01/04/2010:	15,00,000	
Add: Purchase of driers	<u>50,000</u>	
	15,50,000	
Less: Sale of Old Machinery	<u>5,00,000</u>	
WDV as on 31/3/2011	<u>10,50,000</u>	
Depreciation @ 15% on ₹ 10,50,000		
Weighted Deduction for scientific research:	1,57,500	
(i) National Laboratory: @ 125% of ₹ 20,000 = ₹ 25,000 – ₹ 20,000 = ₹ 5,000		
(ii) Bhaba Atomic Research Laboratory: @ 125% of ₹ 30,000 = ₹ 37,500 – ₹ 30,000 = ₹ 7,500		
Therefore, total deduction ₹(5,000 + 7,500)	<u>12,500</u>	<u>8,45,000</u>
Composite Profits before making deduction u/s 33AB		32,87,500

Less: Deduction u/s 33AB, for Deposit with NABARD

Least of the followings:

- (i) Deposit of ₹ 10,00,000 (within the due date of submission of return)
- (ii) 40% of Business Profits: 40% of ₹ 32,87,500 = ₹ 13,15,000 10,00,000

Composite Profits after deduction u/s 33AB 22,87,500**Apportionment of profits into agricultural income and business income (As per Rule 8)[since the assessee is engaged in the business of growing and manufacturing tea: 40% of ₹ 22,87,500 = 9,15,000**

(d) State whether the provisions or Sec. 41(1) of the Act can be applied to a case, where refund of excise duty has been obtained by the assessee on the basis of a decision of the CEGAT and where the matter has been taken up in further appeal to the Court by the Central Excise Department.

Answer: This question has been answered by the Apex Court in Polyflex (India) Pvt. Ltd. v. CIT [2003] 257 ITR 343. (SC)

The refund of excise duty pursuant to the decision of the CEGAT would be subject to tax by virtue of Sec. 41(1) and it is not necessary that the revenue should await the verdict of a higher court.

(e) In the course of an assessment proceeding, the Assessing Officer enhanced the value of the closing stock and added the difference to the total income. In the assessment year subsequent to this, the assessee wants the Assessing Officer to enhance, by the same amount, the value of the opening stock of the year. Discuss the validity of the claim.

Answer: The value of the closing stock of the preceding year must be the value of the opening stock of the succeeding year. Hence, if the value of closing stock at the end of a year is enhanced, the enhanced value should be taken as the value of the opening stock of the next year for the purpose of income tax.

The claim of the assessee in this case is, therefore, valid.

**Question No. 42**

(a) What would be your advice regarding admissibility of the following items of expenditure in computing the business income:

- (i) A donation of ₹ 1 lakh made to a University for starting a laboratory for scientific research (i) relating to the assessee's business, (ii) not relating to the assessee's business.**
- (ii) Travelling expenses include a sum of ₹15,000 incurred by a director in travelling abroad for negotiating purchase of plant and purchase of plant and machinery.**
- (iii) Amount payable as damages to Government on account of shortfall in export target.**
- (iv) Overdraft from bank for payment of income tax: interest charged by the bank is ₹ 20,000.**
- (v) Payment of interest of ₹40,000 on monies borrowed from bank for payment of dividends to shareholders.**
- (vi) ₹ 12,000 paid for shifting of business from the original site to the present place which is more advantageously located.**
- (vii) Retrenchment compensation of ₹4 lakh paid to the workmen on the closure of one of the units.**
- (viii) Fees paid to the Registrar of Companies for bringing about a change in the Memorandum and Articles of Association in regard to issue of Equity.**

Answers:

- (i) The donation has been made to University to be used for scientific research for starting a laboratory. If the University is approved for the purpose of Sec. 35(1)(ii), then irrespective of the consideration whether the scientific research is related to assessee's business or not, deduction could be claimed @ 125% of amount paid. If it is not approved, donation could not be claimed as a deduction under Sec. 35 in the computation of business income. However, the assessee could claim deduction from Gross Total Income under Sec. 80G, if the same is eligible.
- (ii) Travelling expenses incurred by the director for negotiating the purchase of plant and machinery is a capital expenditure and hence to be disallowed.
- (iii) The payment is not for any infraction of law but for failure to reach a target undertaken by the company being payment made wholly in the course of business, it is deductible.
- (iv) Interest on overdraft taken to pay income tax is not allowable under Sec. 36(1)(iii).
- (v) Interest on borrowings utilised for payment of dividend is allowable under Sec. 36(1)(iii).
- (vi) Shifting expenses of business premises resulting in an expenditure of enduring benefit is a capital expenditure and is not allowable.
- (vii) Retrenchment compensation payable to workmen on the total closure of a business cannot be allowed as deduction as the expenses are not incurred for the purpose of carrying on of its business. When, however, the tax-payer closes one of its units and continues to carry on the same business as before, the compensation will be admissible under Sec. 37(1).
- (viii) Fee paid to Registrar of Companies for bringing about change in memorandum and articles of association is a capital expenditure, where it relates to issue of equity shares. Where alterations are warranted by the changes made in the Companies Act, the expenses are allowable.

(b) A company engaged in the manufacturing of fertilizer products, commenced its business on 01.04.2010. During the financial years 2007-2008 to 2009-2010 it had incurred ₹4.00 lakh annually as expenditure on salaries and purchase of raw material for the purpose of research connected with its business. During the previous year 2010-2011 incurred on scientific research, revenue expenditure of ₹3.00 lakh and a capital expenditure of ₹4.50 lakh on purchase of plant and machinery. Since the result of the research was unsuccessful, the company sold its plant and machinery on 31.12.2010 for ₹8.00 lakh and closed its research activity. Compute the admissible deduction under Sec. 35 for the assessment year 2011-2012.

Solution:

Computation of deduction u/s 35 for Expenditure on scientific research

Particulars	₹	₹
Expenditure incurred during the earlier 3 years on salaries and purchase of raw material for the purpose of research connected with the business — fully allowed in the year of commencement of business by virtue of Explanation to Sec. 35(1)(i) : [₹ 4,00,000 × 3]		12,00,000
Revenue expenditure on scientific research incurred during the previous year 2010-11	3,00,000	
Capital expenditure on scientific research incurred during the previous year 2010-11	<u>4,50,000</u>	
	<u>7,50,000</u>	
Total Weighted deduction @ 150% on ₹ 7.50 lakh u/s 35(2AB)		<u>11,25,000</u>
Admissible deduction u/s 35 for the AY 2011-2012		<u>23,25,000</u>

(c) A company engaged in pharmaceuticals manufacturing, debited to its profit and loss account a sum of ₹50,000, being the interest on loan of ₹5,00,000 taken for financing its expansion scheme. The plant and machinery purchased for the project with the loan were not received during the year and those were still in transit at the end of the year. A sum of ₹ 4,000 was paid to a broker who arranged the loan. Discuss the admissibility of the interest.

Answer : Interest paid in respect of capital borrowed for the purposes of business or profession is admissible u/s 36(1)(iii). As per the Proviso to Sec. 36(1)(iii) inserted by the Finance Act, 2005, from assessment year 2006-2007, interest paid in respect of capital borrowed for acquiring an asset for extension of existing business or profession (whether capitalised in the books of account or not) for any period beginning from the date on which the capital is borrowed for acquisition of the asset till the date on which such asset is first put to use cannot be allowed as deduction. In this case, the asset has not been put to use till the end of the previous year. Therefore, interest of ₹ 50,000 is not be allowed as deduction. However, the cost of the asset is to be increased by the amount of interest and depreciation is admissible on enhanced cost [Proviso to Sec. 36(1)(iii)]. The deduction brokerage of ₹ 4,000 paid to a broker for arranging the loan there is a bit controversial.

One view is that definition of the term “interest” u/s 2(28A) includes service fee or other charges in respect of monies borrowed, “brokerage” can be considered to fall under the scope of the term “other charges” and is therefore included under the definition of interest. Hence, brokerage of ₹ 4,000 for arranging the loan should be treated in the same way as interest. As per the other view, where brokerage or commission paid to an agent for arranging a loan for the purpose of business is not allowable as deduction u/s 36(1)(iii), but is allowable under Sec. 37(1). As per this view, ₹ 4,000 paid to a broker for arranging a loan is allowable as a deduction under Sec. 37(1).

(d) Apporva Shantilal filed his return of income for the assessment year 2010-11 on 29-1-2011 showing a loss of ₹ 11,42,000. - (1) In the case of a firm, remuneration to a partner who is not a working partner is not eligible for deduction. In the case of working partners the remuneration paid is disallowed if it exceeds the limit prescribed u/s 40(b) with reference to "book profit".

Book working partners remuneration is worked out as under :

	₹
First ₹ 3,00,000 of the book profit @ 90%	2,70,000
On the balance ₹ 1,98,000 of book profit @ 60%	1,18,800
Total	3,88,800

- (2) Any interest and salary to partners disallowed in the firm's case shall not be included in the total income of the partner and shall not be chargeable to tax in the partner's hands.
- (3) Share of profits of the partners is exempt u/s 10(2A) of the Income-tax Act and therefore, not included in the partner's taxable income.

Question No.43

(a) X Ltd., carrying on business in manufacture and sale of textiles, showed a net profit of ₹ 10,50,000 in its Profit and Loss Account for the period ending March 31, 2011. On the basis of the following particulars noted from the company's accounts and ascertained on enquiry, compute, giving reasons, the total income of the company for the assessment year 2011-12. The company maintains books of account on the basis of mercantile system.

- The general reserve account shows a credit of ₹ 2,75,000 under the head "Surplus on devaluation". The enquiries show that the company had exported textile to U.S.A. during the year 1995-96. The sale proceeds were placed in a separate bank account in U.S.A. which were utilized for import of cotton from time to time. After obtaining permission from the Reserve Bank of India, in January 2011 the company remitted to India a sum of ₹ 2 lakh, being the balance standing to its credit in the said bank account which included the above surplus realized on account of devaluation of the rupee in June 1996. The company claims that the said surplus is not taxable, firstly, on the ground that the said surplus did not relate to the previous year and secondly, the said surplus is not a trading receipt.
- The company had imported automatic looms under a special permission granted by the Textile Commissioner under the Cotton Textile (Control) Order, 1948. One of the conditions laid down while granting the permission was that the company should execute a bond in favour of President of India agreeing to export an agreed quantity of cloth and in default pay a sum calculated at the rate of 10 paise per metre to cover the shortfall. The company fell short of the target during the previous year as a result of which it was required to pay a sum of ₹ 40,000 towards the shortfall. The company has debited the said amount to "General expenses account".
- The company has set up a laboratory for conducting research in textile technology. It has incurred a capital expenditure of ₹ 1,00,000 for the said purpose. The amount is shown in the balance sheet as "Laboratory equipment account" but is claimed as deduction in the return of income for the assessment year 2011-12.
- The interest account includes payments amounting to ₹ 50,000 on deposits made by non-resident buyers of textile manufactured by the company. The said payments were made outside India without deduction of tax.
- The legal charge includes a sum of ₹ 60,000 paid to solicitors for framing a scheme of amalgamation of all other textile mill with the assessee-company. The scheme is approved by the Central Government in public interest.

6. Travelling expenses include a sum of ₹ 1,25,000 being expenditure incurred by the directors of the company in connection with their tour to USA and UK for the purchase of new machinery for setting up a new plant for manufacture of caustic soda.
7. ₹ 1,00,000 (debited to profit and loss account) is paid to an approved Notional Laboratory with a specific direction that it shall be used for on approved scientific research programme.

(b) D Ltd., carrying on business in manufacture, sale and export of tyres, tubes and accessories, has disclosed a net profit of ₹ 21,00,000 in its P & L account for the period ending March 31, 2011. On the basis of the following particulars furnished by the company and ascertained on inquiry, compute, giving reasons, its total income for the assessment year 2011- 12. The company follows the mercantile system of accounting :

- (i) A sum of ₹ 20,000 is debited to compensation account. The company had placed an order for machinery to manufacture tyres with a UK company. However, due to a sudden increase in the price of machinery by the vendor, the assessee, had to cancel the contract, in lieu of compensation The company claims the said amount as deduction on revenue account or, in the alternate, as loss under the head "Capital gains" as the payment was made towards extinguishment of right to acquire a capital asset.
- (ii) "Loss on export of accessories account" shows a debit of ₹ 4 lakh. In this connection it is explained that two trucks belonging to the company carrying tyres accessories were intercepted at the international border and seized by customs authorities for illegal export. The goods were confiscated by the customs authorities and a fine of ₹ 2 lakh was levied. The company claims the value of confiscated goods as a trading loss under section 28 and the payment of the fine of ₹ 2 lakh which is debited to rates and taxes account as on expenditure in the course of business under section 37(1).
- (iii) The company had set up a separate unit for manufacture of plastic tubes at Bangalore in 1995. The said unit suffered heavy losses. As a result the same was closed down and the plant and machinery were sold away. The company, however, claims unabsorbed depreciation amounting to ₹ 8 lakh in its return of income. It is not debited to the profit and loss account.

(iv) During the previous year 1995-96, the assessee-company acquired 5,000 shares of E Ltd., an Indian company, as a result, the entire share capital of the said company is now held by the assessee-company. In May 2010, the assessee-company sold to E Ltd. plant and machinery for ₹6,00,000. The actual cost is ascertained at ₹4,00,000 and written down value at ₹1,50,000.

(v) In the years 2000-2001 and 2001-02, the Government of India arranged exports of tyres and tubes through the Federation of Tyre Dealers of which the company was a member. The exports which were made to Far Eastern countries resulted in loss which was shared by all members including the company. The Federation thereafter took up the questions of reimbursement of losses with the Government, which after protracted discussion and correspondence agreed to grant a subsidy calculated at a certain percentage of exports. The assessee-company received its share of subsidy amounting to ₹3 lakh in the previous year. The amount stands credited to the "Capital reserve account" and claimed as exempt.

**Notes:**

- (i) Interest on capital to proprietor is not allowed as no one can earn from a transaction with himself. The provider of loan and receiver of loan are same hence does not involve any actual expenses.
- (ii) Any unreasonable payment to relative is disallowed u/s 40A(2). Hence, ₹3,000 is disallowed. Since cash payment towards allowed expenditure (i.e. ₹19,000) does not exceed ₹ 20,000, hence provision of sec. 40A(3) is not applicable.
- (iii) Any salary paid outside India without deducting tax at source is disallowed u/s 40(a).
- (iv) Any payment made for infringement of law is disallowed.
- (v) Payment made for non-fulfilling of contract is not a payment for infringement of law Hence, allowed u/s 37(1).
- (vi) Bad debt is allowed only when such debt has been taken into account as income of previous year or any earlier previous year(s) [Sec. 36(1)(vii)]. Since, the debt is in respect of purchase of a building, which was not considered as income of any previous year, hence it is disallowed.
- (vii) Any expenditure for promoting family planning is allowed to company assessee [Sec. 36(1)(ix)]. However, such expenditure (revenue in nature) incurred by assessee other than company shall be allowed u/s 37(1).
- (viii) Payment of insurance premium on health of employees in cheque is allowed u/s 36(1)(ib).
- (ix) Payment of insurance premium on health of relative is not related to business, hence disallowed.
- (x) Employer's contribution towards RPF is allowed if payment is made before due date of filing of return irrespective of fact that such payment was made after due date prescribed in the relevant Act.
- (xi) Any sum received from employees as their contribution towards RPF is allowed only when such sum has been credited to such fund within the due date prescribed in the relevant Act [Sec. 36(1)(va)].
- (xii) Interest on late payment of sales tax is not a penalty but compensatory in nature. Hence, it is allowed u/s 37(1) Further such interest is not governed by the provisions of sec. 43B.
- (xiii) Any interest payable to any scheduled bank is allowed on cash basis [Sec. 43B]. Hence, unpaid amount is disallowed.
- (xiv) Any expenditure of personal nature is not allowed. Further, no one can earn from a transaction with himself. Hence, sale made to himself is not treated as income.
- (xv) Bad debt recovery is treated as income in the year of recovery to the extent of bad debt allowed in the earlier year [Sec. 41(4)]
- (xvi) Interest on late refund of income tax is taxable under the head 'Income from other sources'.
- (xvii) Receipt from debtor ₹ 80,000 in cash is not attracted by provision of sec. 40A(3).

(e) Discuss the admissibility or otherwise of any five of the following claims in connection with assessment to income-tax. They do not necessarily relate to the same assessee:

- (i) **An expenditure of ₹1,00,000 was incurred on the occasion of the silver jubilee of the company for presentation of silver mementos to shareholders and directors, the value of each memento being ₹1,000 only.**
- (ii) **An assessee carries on business in respect of which it holds tenancy rights. It carries out improvements to the said building at a cost of ₹2,00,000 and claims depreciation @ 10% thereon. The assessing officer rejects the claim on the ground that the assessee is not the owner of the building.**
- (iii) **Excise duty amounting to ₹ 2,00,000 for the period 2009-10 was paid by the company by 30-9-2010 before furnishing the return of income for the assessment year 2010-11.**
- (iv) **A criminal case was filed against a company under the Essential Commodities Act, 1955. The company incurred litigation expenses amounting to ₹50,000 to defend the directors. The directors were ultimately acquitted.**
- (v) **A company was generating electricity privately for its factory. Later, at its expense, electric lines were laid from the trunk road to the factory. It paid ₹5,00,000 to the State Electricity Board as its contribution for this purpose. The ownership of the power-line was to vest with the State Electricity Board.**
- (vi) **X and Y are two shareholders of Pooja Ltd., a closely held company. X holds 55% share capital on 30-1-2010, X transfers his shares to A. Pooja Ltd. wants to set off brought forward loss of ₹4,00,000 (business loss ₹1,00,000;**

unadjusted depreciation ₹ 3,00,000) of the previous year 2008-09 against the income of the previous year 2009-10 (i.e., ₹9,00,000). Can it do so?

Answer:

- (i) As per the decision of the Apex Court in the case of *Aluminum Corporation of India Ltd. v CIT* (1972) 86 ITR 11 (SC) and various other decisions, where an expenditure is incurred for commercial expediency, the same shall be allowed as deduction under section 37(1). If at the time the expenditure is incurred, commercial expediency justifies it, it will be taken to be for the purpose of the business even though not supported by any prevailing practice.

Presentation of silver mementos to the directors and shareholders on the occasion of silver jubilee is to motivate both the directors and the shareholders. The expenditure has been incurred on account of commercial expediency and should qualify for deduction under section 37(1).

- (ii) According to Explanation to section 32(1) where the business or profession of the assessee is carried on in a building not owned by him but in respect of which the assessee holds a lease or other right of occupancy and any capital expenditure is incurred by the assessee for the purposes of the business or profession on the construction of any structure or doing of any work, in or in relation to, and by way of renovation or extension of, or improvement to, the building, then, the provisions of section 32 shall apply as if the said structure or work is a building owned by the assessee. Hence, depreciation in this case will be allowable.
- (iii) As the excise duty has been paid or before the due date of furnishing return under section 139(1) in respect of the previous year in which the liability to pay such sum was incurred, the same shall be allowed as deduction on due basis as per section 43B.
- (iv) Section 37(1) does not make any distinction between expenditure incurred in civil litigation and that incurred in criminal litigation. All that the court has to see is whether the legal expenses were incurred by the assessee in his character as a trader, in other words, whether the transaction in respect of which proceedings are taken arose out of and was incidental to assessee's business. Further, it is to be seen whether the expenditure was *bona fide* incurred wholly and exclusively for the purpose of the business. [*CIT v Birla Cotton Spg. & Wvg. Mills Ltd.* (1971) 82 ITR 166 (SC)]. In view of this, the litigation expenses of ₹ 50,000 incurred in detending directors is deductible under section 37(1).
- (v) The new electric power lines were laid to run the factory efficiently but since the ownership of the power lines was to vest with the State Electricity Board, the contribution of ₹ 5,00,000 paid to the State Electricity Board shall be allowable as revenue expenditure under section 37(1).
- (vi) According to section 79 the losses of a closely held company can be carried forward and set off in the subsequent assessment year only when at least 51% of the shares of the company carrying voting rights are held by the same persons as on the last day of the previous year in which the loss was incurred and the last day of the previous year in which the losses are set off. In this case business loss will not be allowed to be set off but unabsorbed depreciation is not a loss and shall be allowed to be set off.

Question No.44

(a) Discuss the correctness or otherwise of the following propositions with reasons therefor :

- (i) Where a person draws from his own stock-in-trade for personal use, there can be no taxable profit.**
- (ii) Even an outlay for acquiring an enduring advantage for business may be deductible as revenue expenditure.**

Answer:

- (i) The Supreme Court in *CIT v. Kikabhai Premchand* (1953) 24 ITR 506 held that when a person draws from his own stock-in-trade for personal use, there can be no taxable profit as in this case the vendor and the vendee are not different. To constitute a sale these should be one buyer and seller. The buyer and seller has to be different entity to constitute a proper sale.

(ii) Normally, an amount spent for acquiring an enduring advantage for business is of capital nature but there can be certain cases when the amount spent on acquiring an enduring advantage may be treated as revenue expenditure. The Supreme Court in *CIT v. Empire Jute Co. Ltd.* (1980) 124 ITR 1 held that when a jute mill as a result of an arrangement with other Jute mill had undertaken to work only for specified hours during a week but exceeded the same and paid for such excess period to other members of the pooling arrangement, such payment is known as purchasing loom hours. Though looms are capital assets, the payment was for their operations. By the purchase of loom hours no new asset was created and there was no addition to or expansion of the profit-making apparatus of the company. Hence, such payment is of revenue nature.

(b) A Public Limited Company engaged in the generation and distribution of power had its business acquired by the Government in June 2008. Certain items of plant and machinery used by the Company in its business were taken over by the Government at a price which resulted in the Company realizing a surplus of ₹26,60,000 over its written down value. The compensation was received by the Company in April 2009 which was accepted by it under protest. The Company proceeded to initiate arbitration proceedings under law and was granted an additional compensation of ₹16 Lakhs. This was decided by the arbitrators in December 2008 and received by the Company in March 2010.

The Company claims that the assessment of the Company to tax should not be made since the business was completely taken over by the Government in June 2008 and at the time of final determination of compensation in March 2010, the Company did not exist.

Do you agree to the Company's claim? Discuss with reference to the Assessment Year(s) to which the claim to tax, if any, can be related.

Answer:

1. In case of acquisition of property under any law, the balancing charge u/s 41(2) is taxable as income of the previous year in which it becomes due and not in the year in which it was settled. [United Provinces Electric Supply Co. 110 Taxman 134 (SC)]
2. As per Explanation to Section 41(2), even when the business is not in existence, such balancing charge shall be taxable in its hands as if it is in existence in the relevant previous year.
3. **Conclusion :**
 - (a) Surplus of ₹ 26,60,000 — taxable in AY 2009-10 as Balancing Charge under the Business Income.
 - (b) Additional Compensation of ₹16,00,000 determined in December 2009 taxable as Balancing Charge in AY 2010-2011 under Business Income.

(c) Mr. Tony has estates in Rubber, Tea and Coffee. He derives income from them. He has also a nursery wherein he grows plants and sells. For the previous year ending 31.3.2010, he furnishes the following particulars of his sources of income from estates and sale of Plants. You are requested to compute the taxable income for the Assessment year 2010-2011.

(i) Manufacture of Rubber	₹5,00,000
(ii) Manufacture of Coffee grown and cured	₹3,50,000
(iii) Manufacture of Tea	₹7,00,000
(iv) Sale of Plants from Nursery	₹1,00,000

Assessee : Mr. Tony

Previous Year : 2010-11

Assessment Year : 2011-2012

From the words 'Mr. Tony has estates', it is presumed that he had grown Tea, Coffee and Rubber, and also Plants in his Estates, and the amount given is the Profits of the Business.

Computation of Taxable Income is as under:-

Particulars	Agricultural Income	Non-agricultural income
Growing and Manufacture of Rubber [Rule 7A]	5,00,000 × 65% = ₹ 3,25,000	5,00,000 × 35% = ₹ 1,75,000
Grown and Cured Coffee[Rule 7B]	3,50,000 × 75% = ₹ 2,62,500	3,50,000 × 25% = ₹ 87,500
Growing and Manufactured of Tea [Rule 8]	7,00,000 × 60% = ₹ 4,20,000	7,00,000 × 40% = ₹ 2,80,000
Growing & Sale of Plant by Nursery [See Note]	₹ 1,00,000	—
Total	₹ 11,07,500	₹ 5,42,500
Taxable Income	Exempt u/s 10(1)	₹ 5,42,500

(d) Romit acquired a plot of land on 1.6.75 for ₹ 4,00,000/-. He converts the plot into stock in trade of his real estate dealing business on 18.2.2007 when the fair market value of the plot was ₹ 35,00,000. The stock-in-trade is sold by him on 18.5.2010 for ₹ 40,00,000/- (FMV as on 1.4.81 was ₹ 6,00,000 and FMV as on 1.4.76 ₹ 4,50,00).

Solution:

The conversion of capital asset into stock-in-trade is treated as a transfer as per sec. 2(47). Capital asset was converted into stock-in-trade on 18.2.2007 i.e. previous year 2006-07.

Question No.45

(a) Mr. B acquired a house property for ₹ 50,000 in 1969-70. On his death in October 1985 the house was acquired by his son C. The market value of the house as on 1/4/81 was ₹ 3,00,000. This house was acquired by the Government on 15.3.2008 and a compensation of ₹ 16 lacs is paid to him on 25.3.2010. C filed a suit against the Government challenging the quantum of compensation and the court ordered for giving additional compensation of ₹ 14,00,000. He incurred an expenditure of ₹ 40,000 as an expenditure in connection with the suit. The additional compensation was received on 25.3.2011. Compute capital gains chargeable to tax.

Solution :

Capital Gain on initial compensation shall be chargeable in the A.Y. 2010-11, i.e. for the previous year 2010-11.

(b) A holds 15,000 shares (10% of total share holding) in B Ltd. which he had purchased on 10.2.96 for ₹ 6,00,000. The company went into liquidation on 16.7.2010 and paid a sum of ₹ 20 per share in cash and an asset whose market value as on the date of distribution i.e. 5.10.10 was ₹ 18,20,000 to A. the accumulated profits of the company were ₹ 15 lacs.

(i) Compute the income of A for the A.Y. 2011-12 assuming that he has no other income.

(ii) Compute the capital gain chargeable to tax if the asset of B Ltd. is sold by A for ₹ 15 lacs on 28.3.11.

Solution :

Computation of Capital Gains of Mr. B for the A.Y. 2011-12

	₹
(a) (i) Capital Gain on transfer of shares	
Total consideration (15,000×20+18,20,000)	21,20,000
Less : Proportionate amount of deemed dividend (10% of ₹ 12,86,353)	1,28,635
Less : Indexed Cost of Acquisition	15,18,149
Long Term Capital Gains	4,73,216
(ii) Income from others Sources	
Dividend from Indian Company	<u>Exempted</u>
	<u>4,73,216</u>
(b) Capital Gain on transfer of asset (B Ltd.)	
Full Value of Consideration	15,00,000
Less : Cost of Acquisition (being the market value as on the date of distributions)	13,20,000
Short Term Capital Gains	1,80,000
Accumulated Profits	15,00,000

Dividend tax @ 16.60875% (= 15% + 7.5% + 2% Education cess + 1% SHEC)

Hence, the amount to be distributed plus tax @ 16.60875% on such amount should be ₹ 15,00,000

Therefore, amount of tax = ₹ 2,13,6470

Profits available for distribution = ₹ (15,00,000 – 2,13,647) = ₹ 12,86,353.

(c) Ravi owns a residential house which was purchased by him in 1975 for ₹80,000. The FMV as on 1.4.81 was ₹2,00,000. This house is sold by him on 16.7.2010 for a consideration of ₹15,00,000. The brokerage and expenses on transfer was ₹15,000. Compute capital gains for the assessment year 2011-12. If he invests ₹5,00,000 for purchase of a new house on 15.3.2011. If the HP so purchased in 15.3.2011 is again sold in 21.10.11 for ₹9 lacs, what will be the tax liability?

Solution :

Computation of Capital Gains for the A.Y. 2011-12

	₹
Consideration for transfer	15,00,000
Less : Expenses on transfer	<u>15,000</u>
Net Consideration	14,85,000

Less : Exemption u/s 54	
Cost of New HP Purchased ₹ 5,00,000	
(exemption restricted upto the balance of LTCG)	<u>63,000</u>
Taxable Long term Capital Gains	<u>NIL</u>

If the HP purchased in 15.3.2011 is again sold on 21.10.11 for ₹ 9 lacs, there share a rise short term capital gains. The cost of acquisition shall be adjusted to the extent of long term capital gains exemption already availed.

Computation of Capital Gains for the A.Y. 2012-13

	₹
Consideration for transfer	9,00,000
Less : Cost of Acquisition	
Cost of purchase	5,00,000
Less : Exemption u/s 54 availed during A.Y. 2010-11	<u>63,000</u>

(d) Saptarshi acquired shares of G Ltd. on 15.12.99 for ₹ 5 lacs which were sold on 14.6.10 for ₹16 lacs. Expenses on transfer of shares ₹20,000. He invests ₹8 lacs in the bonds of Rural Electrification. Corporation Ltd. on 16.10.2010.

(i) Compute capital gain for the assessment year 2011-12.

(ii) State the period for which the bonds should be held by the assessee. What will be the consequences if such bonds are sold within the specified period?

(iii) What will be the consequences if Saptarshi takes a loan against the security of such bonds.

Solution :

Computation of Capital Gains for the A.Y. 2011-12

	₹
Consideration for transfer	16,00,000
Less : Expenses on Transfer	<u>20,000</u>
Net Consideration	15,80,000

Less : Indexed Cost of Acquisition (5,00,000 x 711/389)	9,13,882
Long-term Capital Gains	6,66,118
Less : Exemption u/s 54EC	6,00,000
Taxable long-term Capital Gain	66,118

(ii) Saptarshi should not transfer or convert (otherwise than transfer) into money such bonds within 3 years from the date of their acquisition.

If these bonds are transferred or converted into money within 3 years, capital gain of ₹ 6,00,000 exempted earlier shall attract taxability towards long-term capital gain of the previous year in which such asset is transferred or converted into money.

(iii) If any loan is taken against security of such bonds, it shall be taxable as long-term capital gains of the previous year in which such loan is taken against the security of such bonds.

(e) The house property of A is compulsorily acquired by the government for ₹ 10,00,000 vide Notification issued on 12.3.2005. A had purchased the house in 1991-92 for ₹ 2,00,000. The compensation is received on 15.4.2009. The compensation is further enhanced by an order of the court on 15.5.2010 and a sum of ₹ 2,00,000 is received as enhanced compensation on 21.10.2010. A wants to claim full exemption of the capital gains Advise A in this respect. Compute the capital gain and determine the year in which it is taxable. Also specify the period upto which the investment in the new house should be made by the assessee.

Solution :

Although the house property is compulsorily acquired on 12.3.2005, the capital gain will arise in the previous year in which full or part of the compensation is first received i.e. previous year 2009-10. However, indexation will be done till the year of compulsory acquisition. Therefore, capital gains will be calculated as under:

Assessment year 2010-11	₹
Full value of consideration	10,00,000
Less : Indexed cost of acquisition: (2,00,000 x 632/199)	<u>6,35,175</u>
Long-term capital gain	<u>3,64,825</u>

The assessee should either invest at least ₹ 3,64,825 for the purchase/construction of a residential house property on or before 31.7.2010 (relevant due date) and /or deposit the amount under the capital gain scheme on or before 31.7.2010, to be utilised for purchase of house property by 14.4.2011 and /or construction of the house property by 14.4.2012.

Computation of Capital Gain for the A.Y. 2011-12

	₹
Enhanced compensation Received	2,00,000
Less : Cost/Indexed cost of acquisition	<u>Nil</u>
Long-term Capital Gain	<u>2,00,000</u>

The assessee should either invest at least ₹ 2,00,000 for the additional construction of a residential house property already acquired for claiming under section 54 on or before 31.7.2011 (relevant due date) and/or deposit the amount under the capital gain scheme on or before 31.7.2011 may invest ₹ 2,00,000 in the specified bonds.

Question No.46

(a) V. G. had placed a deposit of ₹10 Lakhs in a bank on which he received interest of ₹80,000. He had also borrowed ₹5 Lakhs from the same bank on the security of the deposit and was liable to pay ₹50,000 by way of interest to the bank. He therefore offered the difference between two amounts of ₹30,000 as income from other sources. Is this correct?

Answer :

- (i) U/s 57, any expenditure (not being capital expenditure) expended to earn income chargeable under the head "Income from Other Sources" will be allowed as deduction against such income.
- (ii) Interest on bank FD was the income in the hands of the assessee and the interest on the loan taken from bank on that deposit is not an allowable expenditure.

Therefore, in the given case, the interest of ₹50,000 paid by VG is not allowable as deduction, and the entire interest of ₹80,000 is fully taxable.

(b) Shrey purchased in 2003, 10,000 Shares of Hero Ltd. for ₹5 Lakhs by borrowing money from a bank. He holds them as 'Investments'. He received dividend during the previous year 2010-11. He has paid interest of ₹85,000 on the loan to the bank during the previous year. Please advise Shrey, how should he deal with these facts in computing his income?

Answer :

- (i) In computation of total income under the Income Tax Act, the expenditure incurred in relation to income, which does not form part of Total Income, shall not be allowed as deduction. [Section 14A]
- (ii) Dividend Income is exempt u/s 10(34) and hence does not form part of Total Income.

Therefore, the interest payment is not an allowable expenditure.

(c) Mr Goutam, out of his own funds, had taken a FDR for ₹1,00,000 bearing interest @ 10% p.a. payable half-yearly in the name of his wife Latika. The interest earned for the year 2010-2011 of ₹10,000, was invested by Mrs Latika in the business of packed spices which resulted in a net profit of ₹55,000 for the year ended 31st March 2011. How shall the interest on FDR and income from business be taxed for the Assessment year 2011-2012?

Answer: Where an individual transfers an asset (excluding house property), directly or indirectly to his/her spouse, otherwise than for adequate consideration, or in connection with an agreement to live apart, income from such asset is included in the total income of such individual [Sec. 64(1)(iv)].

Accordingly, interest on FDR, accruing to wife, is included in the total income of her husband. However, business profits cannot be clubbed with total income of husband. Clubbing applies only to the income from assets transferred without adequate consideration. It does not apply to the income from accretion of the transferred assets. Hence, business profit is taxable as the income of wife.

(d) Sawant is a fashion designer having lucrative business. His wife is a model. Sawant pays her a monthly salary of ₹20,000. The Assessing Officer while admitting that the salary is an admissible deduction, in computing the total income of Sawant had applied the provisions of Sec. 64(1) and had clubbed the income (salary) of his wife in Sawant's hands.

Discuss the correctness of the action of the Assessing Officer.

Answer: Where an individual has got substantial interest in a concern and his spouse derives any income from such concern by way of salary, commission, fees or by any other mode, such income is clubbed with the total income of such individual [Sec. 64(1)(ii)].

However, clubbing provision does not apply if the earning spouse holds technical or professional qualification and the income is solely attributable to the application of such knowledge and experience.

Salary earned by wife as model from the concern where her husband holds substantial interest is assessable as her income.

(e) Discuss whether the loss could be set-off in the following case:

Smt. Vatika carried on business with the gifted funds of her husband Mr.Dabuu. For the previous year ending 31.3.2010,Vatika incurred loss of ₹5 lakh which loss Dabbu wants to set-off from his taxable income.

Answer: Funds for business were gifted by husband to wife. Accordingly, income from business should be clubbed with the income of husband [Sec. 64(1)(iv)].

“Income” includes “loss” also. Hence, husband is entitled to set-off the business loss of wife against his taxable income.

(l) Due to a business re-organisaton, whereby a private company or a listed public company is succeeded by a limited liability partnership fulfilling all the conditions of Sec.47(xiiib). Now the erstwhile company has paid compensation for Voluntary Retirement. Can the successor LLP avail the benefit of such deduction?

Answer:

Successor LLP will be allowed deduction of payment under Voluntary Retirement Scheme for the unexpired period vide Sec.35DDA(4A) [w.e.f. A.Y: 2011-12], as they would have applied to the company, if reorganization of business had not taken place.

(m) B Ltd. a widely held listed company arising out of a business reorganization has been succeeded by a LLP. It has now transferred capital asset and intangible asset to the successor LLP. The Assessing Officer holds this transfer to be taxable. Is it a valid contention?

Answer:

Transfer of capital asset or intangible asset by a private limited company or a non-listed company to LLP shall not be regarded as transfer. Correspondently, any transfer of a share or shares held in a company by a shareholder shall also not be treated as transfer on conversion of the above company to a LLP, vide Sec.47(iiiib) w.e.f. A.Y.2011-12.

In this case, B Ltd. is a widely held and listed company. Hence, transfer of assets shall be considered as a transfer. Hence, the contention of the Assessing officer is justified.

Assumptions :

1. It is presumed that Mr. M accounts for his interest income on receipt basis.
2. Assumed that there has been no repayment of Housing Loan Principal during the year ending 31.3.2006 for the purpose of calculation of prior period interest.
3. Recognised Provident Fund received on retirement shall not be taxable u/s 10 (assuming conditions are satisfied).
4. **Unrealised Rent recovered:** Since the assessee has been allowed a deduction of ₹ 50,000 from his house property income in earlier years in respect of unrealised Rent, entire ₹ 40,000 recovered during current year becomes taxable.
5. **Deduction of Interest** u/s 24 shall be allowed even if the amount is borrowed from any person other than the Banks/Financial Institutions in respect of Let out property.

(b) Mr. A, a Senior Citizen, has furnished the following particulars relating to his House Properties:-

Particulars	House I — ₹	House II — ₹

(c) Mr Ashok a senior citizen, owns a property consisting of two blocks of identical size. The first block is used for business purposes. The other block has been let out from 14.2010 to his cousin for ₹20000 p.m. The cost of construction of each block is ₹5 lacs (fully met from bank loan), rate of interest on bank loan is 10% p.a. The construction was completed on 31.3.2010. During the year ended 31.3.2011, he had to pay a penal interest of ₹2000 in respect of each block on account of delayed payments to the bank for the borrowings. The normal interest paid by him in respect of each block was ₹42,000. Principal repayment for each block was ₹23,000 An identical block in the same neighbourhood fetches a rent of ₹25,000 per month Municipal Tax paid in respect of each block was ₹12,000. The income from business prior to adjustment towards depreciation on any asset is ₹2,20,000. He follows mercantile system of accounting. Depreciation on equipments used for business is ₹30,000. On 23.2.2011, he sold shares of B Ltd., a listed share in BSE for ₹2,30,000. The share had been purchased 10 months back for ₹1,80,000. Security transaction tax paid may be taken as ₹220. Brought forward business loss of a business discontinued on 12.1.2009 is ₹90,000. This loss has been determined in pursuance of a return of income filed in time and the current year is the seventh year. The following payments were affected by him during the year:

1. LIP of ₹20,000 on his life and ₹12,000 for his son aged 22, engaged as a software engineer and drawing salary of ₹25,000 per month.
2. Medical insurance premium of ₹6,000 for himself & ₹5,000 for above son. The premiums were paid by cheque. You are required to compute the total income for the assessment year 2011-12 and the tax payable. The various heads of income should be properly shown. Ignore the interest on bank loan for the period prior to 1.4.2010, as the bank had waived it.

Question No.51

(a) Thomas took voluntary retirement from State Bank of India on 1st May, 2010 under the Voluntary Retirement Scheme (VRS) and received a sum of ₹25 lakh on account of VRS benefits. At the time of his retirement, Thomas was having 47 months of service left and had served the organisation for 18 years 11 months. His last drawn Basic Pay ₹60,000, D.A. @ 60% of B/Pay (80% of which forming part of salary). Later, he started a business of plying, hiring and leasing of goods carriages from 1st June, 2010 by acquiring 3 heavy vehicles for ₹12 lakh, 2 medium goods vehicle for ₹5 lakh and 3 light commercial vehicles for ₹6 lakh. Although, he did not maintain regular books of account for his business, the diary maintained by him revealed gross receipts of ₹3,12,000 for the financial year ended 31st March, 2011 and he incurred an expenditure of ₹1,68,500 on the business towards salaries of drivers, repairs, fuel, etc. Depreciation on vehicle is not included in the said expenditure.

During the financial year 2010-11, he received a sum of ₹3,00,000 on account of pension from bank and he contributed a sum of ₹65,000 to his PPF account maintained with the said bank in the same year. His PPF account was credited with interest of ₹35,000 during the financial year 2010-11. He also purchased long-term infrastructure bonds for ₹20,000; Repayment of educational loan interest for the year ₹50,000. He also paid medical infrastructure premium of ₹14,000.

Further, he had two residential properties, one is self occupied and other is let out. During the financial year 2010-11, Thomas was able to let out his property only for 11 months on a monthly rent of ₹17,000. The total municipal taxes on the let out property was ₹8,000, 50% of which was paid by the tenant and 50% by him. The interest on loan taken for renovation of the self occupied property paid by him during the year was ₹34,000. The insurance premium on the house and actual repairs and collection charges paid are ₹1,600 and ₹18,000 respectively and the entire expenditure is borne by him. During the financial year 2010-11, he was able to recover the unrealized rent of ₹33,000 from old tenant who vacated the house during the August, 2009 after spending litigation expenses of ₹15,000. During the financial year 2010-11, Thomas suffered short term capital loss on account of sale of shares on various dates amounting to ₹8,50,500.

From the aforesaid information, you are required to compute the total income of Thomas for the AY. 2011-12 giving reasons in respect of each and every item and indicate the relief/rebate/deduction which he is entitled to claim.

(vii) Convertible foreign exchange received for reimbursement for freight, insurance attributable to export	2

Solution :	Computation of Total Income	₹ (in lakhs)
Business profits		15
Less : Deduction for export profits : [Sec. 10A]		<u>10</u>
Total income		<u>5</u>

Note :

- Convertible foreign exchange received in December 2011 has not been included in Export turnover, because it is received after the prescribed time limit without approval of the competent authority.
- Convertible foreign exchange kept outside India with the permission of RBI is included in Export turnover.
- Reimbursement of freight and insurance in convertible foreign exchange is not included in Export turnover.

(b) The books of account maintained by a National Political Party registered under the Representation of the People Act, 1951 for the year ended on 31-3-2011 disclose the following receipts :

(i) Rent of property let out to a departmental store at Chennai.	10,00,000
(ii) Interest on deposits other than banks.	2,00,000
(iii) Contribution from 100 persons (who have secreted their names) of ₹33,000 each	33,00,000
(iv) Contribution @ ₹22 each from 1,00,000 members in cash	22,00,000
(v) Net profit of cafeteria run in the premises at Delhi	3,00,000

Compute the total income of the political party for the assessment year 2011-2012, with reason for inclusion or otherwise.

Solution: Computation of income of National Political Party: AY 2011-2012

Particulars	₹
(a) Rent from property: Exempt under Sec. 13A	—
(b) Income from business—Profits of cafeteria	3,00,000
(c) Income other sources:	—
(i) Interest on deposit other than banks: Exempt under Sec. ISA	—
(ii) Contributions from 100 persons exceeding ₹ 22,000 each—See Note below,	33,00,000
(iii) Contributions from 1,00,000 members: Exempt Sec. 13A.	—
Total income	36,00,000

Note : Any income of a political party received by way of voluntary contributions is exempt, provided:

- it keeps and maintains such books of account and other documents as would enable the Assessing Officer to properly deduce its income therefrom;
- it keeps and maintains a record, name and address of the person who has contributed in excess of ₹ 20,000; and
- its accounts are audited by an accountant defined in Explanation below Sec. 288(2).

Thus, in order to claim exemption in respect of voluntary contributions exceeding ₹ 20,000, a political party is required to keep and maintain a record, and names, address of persons who have made such contributions. The legislative intention is to ensure that there is transparency in the process of collection of funds [Common Cause v. Vol. 222 ITR 260 (SC)]. Hence, no exemption can be allowed in respect of contributions exceeding ₹ 20,000 from persons who have secreted their names.

Question No.53

(a) D Ltd., a closely-held Indian company, is engaged in the business of manufacture of chemical goods (value of plant and machinery owned by the company is ₹55 lakh). The following information for the financial year 2010-11 are given : D Ltd. is engaged in the business of manufacture of garments.

	₹
Sale proceeds of goods (domestic sale)	25,00,000

Net Income (rounded off)	<u>7,49,800</u>
Tax liability (under normal provisions)	
[20% of ₹ 60,000 + 30% of ₹ 6,89,800, plus 3% of tax as cess]	<u>2,25,508</u>

Computation of Book profit

Net Profit	18,56,500
Add :	
Depreciation (i.e. ₹ 6,16,000 + ₹ 2,70,000)	8,86,000
Wealth tax	Nil
Income-tax	3,50,000
Proposed dividend	60,000
Less : Amount withdrawn from general reserve	(-) 2,00,000
Unabsorbed depreciation	(-) 70,000
Depreciation (normal)	(-) 6,16,000
Amount withdrawn from revaluation reserve to the extent it does not exceed extra depreciation because of revaluation	(-) 1,50,000
Book profit	<u>21,16,500</u>
Tax liability (18.54% of book profit)	<u>3,92,399</u>

D Ltd. will pay ₹ 3,92,399 as tax for the assessment year 2011-12 as per section 115JB. Tax credit is however, available in respect excess tax (i.e., ₹ 1,66,891) under section 115JB.

(b) What is the due date of filling of return of income in case of a non-working partner of a firm whose accounts are not liable to be audited?

Answer : Due date of furnishing return of income in case of non-working partner shall be 31st July of the assessment year whether the accounts of the firm are required to be audited or not.

A working partner for the above purpose shall mean an individual who is actively engaged in conducting the affairs of the business or profession of the firm of which he is a partner and is drawing remuneration from the firm.

(c) Can unabsorbed depreciation be carried forward even if the return is filed after due date?

Answer : Unabsorbed depreciation can be carried forward even if the return of loss is submitted after the due date, as it is not covered under Chapter VI of set off or carry forward of losses but covered u/s 32(2). [East Asiatic Co.(India) Pvt. Ltd. vs.CIT (1986) 161 ITR 135(Mad.)]

(d) Can a belated return of income filed u/s 139(4) be revised?

Answer : There was a difference of opinion among various courts regarding filling of revised return in respect of belated returns. However, it has been held that a belated return filed u/s 139(4) cannot be revised as section 139(5) provides that only return filed u/s 139(1) or in pursuance to a notice u/s 142(1) can be revised [Kumar Jagdish Chandra Sinha vs.CIT(1996) 220 ITR 67(SC)].

(e) Can a revised return be further revised?

Answer : If the assessee discovers any omission or any wrong statement in a revised return, it is possible to revise such a revised return provided it is revised within the same prescribed time[Niranjan Lal Ram Chandra Vs.CIT (1982) 134 ITR 352 (All.)]

(f) *What is a protective assessment under Income-tax law? What is the procedure followed for the recovery of tax in such cases?*

Answer: A protective assessment is made in a case where there are doubts relating to the true ownership of the income. If there is an uncertainty about the taxing of an income in the hands of Mr. A or Mr. B, then at the discretion of the Assessing Officer, the same may be added in the hands of one of them on protective basis. This is to ensure that on finality, the addition may not be denied on the ground of limitation of time. Once finality regarding the identity of the tax payer to be taxed is established, the extra assessment is cancelled. But the Department cannot recover the tax from both the assesseees in respect of the same income. Penalty cannot be imposed on the strength of a protective assessment.

(g) *If an assessment is remanded back to Assessing Officer, can he introduce new sources of income for assessment?*

Answer: Where the assessment is set aside by the Tribunal and the matter remanded to the Assessing Officer, it is not open to him to introduce into the assessment new sources of income so as to enhance the assessment. Any power to enhance is confined to the old sources of income which were the subject matter of appeal [Kartar Singh vs.CIT (1978) 111 ITR 184 (P &H)].

Question No.55

(a) X Ltd. estimates its income for the previous year 2009-10 at ₹1,20,000. Besides this income, it has also earned long-term capital gain of ₹80,000 on transfer of gold on 1.12.2010. Compute the advance tax payable by the company in various instalments.

Solution :

	₹
Tax on ₹ 1,20,000 @ 30%	36,000
LTCG of ₹ 80,000 @ 20%	<u>16,000</u>
	52,000
Add : Education cess @ 2%	1,040
SHEC @ 1%	<u>520</u>
	<u>53,560</u>

Amount payable on 1st and 2nd instalment

For the first two instalments tax on LTCG will not be taken into account as this accrued on 1.12.2010 i.e. after the due date of the first 2 instalments.

	₹
Tax including Education Cess and SHEC payable	
without Long-term Capital Gain (₹ 36,000 + 720 + 360)	<u>37,080</u>
Advance Tax Payable	

Due Date	Tax Liability as on due date	Amount of Instalment Payable (₹)
15.6.2010	15% of 37,080 = 5,562	₹ 5,562
15.9.2010	45% of 37,080 = 16,680	= 16,680 – 5,560 = 11,118
15.12.2010	75% of 53,560 = 40,170	= 40,170 – 5,562 – 11,118 = 23,490
15.3.2011	100% of 53,560 = 53,560	= 53,560 – 5,562 – 11,118 – 23,490 = 13,390

Less : Double taxation relief on foreign business profits, not deemed to accrue or arise in India (Sec. 91) [10,00,000 × 20.833%]	<u>2,08,330</u>
Tax payable	<u>1,50,110</u>

Note: 1. Relief is allowed on the doubly taxed income either at average rate of Indian tax or average rate of foreign income tax, whichever is lower;

- (a) Average rate of Indian income tax : $3,58,440 / 13,30,000 \times 100 = 26.95\%$
 (b) Average rate of foreign income tax: $(2,50,000/12,00,000) \times 100 = 20.833\%$

2. The amount of doubly taxed income has been worked out as under:	₹
Income from foreign business, accruing outside India	12,00,000
Less: (i) Income from business connection deemed to accrue or arise in India which is not entitled to double taxation relief.	2,00,000
Doubly taxed income	10,00,000

3. Loss from Indian business has been set-off against profits from foreign business which is deemed to accrue or arise in India.

The mode of set-off increases the amount of double taxation relief.

(b) A is a musician deriving income from foreign concerts performed outside India, ₹50,000. Tax of ₹10,000 was deducted at source in the country where the concerts were given. India does not have any agreement with that country for avoidance of double taxation. Assuming that Indian income of A is ₹2,00,000, what is the relief due to him under Sec. 91 for the assessment year 2011-2012.

Solution : Computation of Total Income for the A.Y. 2011-12

(a) Computation of total income:	₹

(1) Working Notes: Valuation of Building :

Net Maintainable Rent(NMR)	= ₹1,00,000
Capitalized Value of NMR=NMR×12.5 (Owner of the land) = ₹ 1,00,000 × 12.5	= ₹12,50,000
Add : Premium for excess of unbuilt area (20%) over specified area = 40% of CNMR	= ₹ 5,00,000
VALUE OF THE HOUSE	₹18,50,000

(b) Mr. Kushal Sengupta owns a house at Jharkhand, which is let-out at ₹1,35,000 per annum. The annual value of the property as per municipal records also is ₹1,00,000. Municipal taxes are partly borne by the owner (₹5,000) and partly by the tenant (₹6,000). Repair expenses are borne by tenant (₹10,000) the difference between the un-built area and specified area does not exceed 5%. The property was acquired on 10.5.1998 for ₹15,00,000.

Determine for purposes of Wealth Tax Act, the value of the property as on 31.3.2011 on the following situations —

- (i) The house is built on a freehold land.
- (ii) It is built on a leasehold land, the unexpired period of lease of the land is more than 50 years
- (iii) If the area of the plot on which the house is built is 800 sq. mete ₹ FSI, permissible is 1.4 and FSI utilised is 1088 Sq. metres. (136 Sq. metres × 8 Storeys)
- (iv) The tenant had made interest free deposit of ₹1,00,000 with the landlord.

Solution :

Assessee : Mr. Kushal Sengupta Valuation Date : 31.3.2011 Assessment Year : 2011-12
Computation of Value of House Property

For Situations (i) & (ii):

Computation of Gross Maintainable Rent (Amount in ₹)		
Particulars	No Rental Deposit	Rental Deposit excess of 3 Mths
Actual Annual Rent	1,35,000	1,35,000
Add: Municipal Taxes borne by the tenant	6,000	6,000
1/9 th of Actual Rent Receivable since repair expenses are borne by the tenant (₹1,35,000/ 9)	15,000	15,000
Rental Deposits - 15% Interest on ₹ 1,00,000	Nil	15,000
GROSS MAINTAINABLE RENT	1,56,000	1,71,000
Less: Municipal Taxes Paid	11,000	11,000
Less: 15% of Gross Maintainable Rent	23,400	25,650
Net Maintainable Rent	1,90,400	2,07,650
Case (a) Capitalization of Net Maintainable Rent		
-Freehold Land NMR x 12.5	23,80,000	25,56,625
Case (b) Capitalization of Net Maintainable Rent		
-Leasehold Land - Unexpired Lease 50 Years = NMR×10	19,04,000	20,07,650
Property Acquired after 31.3.1974 i.e. 10.5.1997	15,00,000	15,00,000
Therefore, Value of the Property (whether on	15,00,000	15,00,000

Lease-hold Land or on Freehold Land)

For Situation (iii) : In case of excess unbuilt area :

Unbuilt Area = (Actual Area of the Land less Built up Area) = (800 sq. mt less 136 sq. mt). = 664 sq. mt.

Excess Unbuilt Area = (Unbuilt Area less Specified Area) = 664 sq. mt. less 70% of 800 sq. mt. = 664 Less 560 = 104 sq. mt

% of Excess Unbuilt Area = Excess Unbuilt Area × 100/Aggregate Area = 104 × 100/800 = 13%

Therefore, Value of the Property = Substituted Net Maintainable Rent i.e. ₹15,00,000 + 30% of SNMR = ₹ 19,50,000

Question No.59

(a) From the following dated furnished by Mr. Soumitra, determine the value of house property built on leasehold land as at the valuation date 31.3.2011:

Particulars	₹
Annual Value as per Municipal valuation	1,40,000
Rent received from tenant (Property vacant for 3 months during the year)	1,08,000
Municipal tax paid by tenant	10,000
Repairs on property borne by tenant	8,000
Refundable deposit collected from tenant as security deposit which does not carry any interest	50,000

The difference between unbuilt area and specified area over aggregate area is 10.5%.

Solution :

Assessee: Mr. Soumitra Valuation Date: 31.3.2011 Assessment Year: 2011-12

Computation of Value of House Property

Step I: Computation of Gross Maintainable Rent (GMR)

Particulars	₹	₹
Actual Annual Rent- ₹ 1,08,000 x 12 Months/9 Months		1,44,000
Add: Municipal tax paid by the Tenant 10,000		
1/9 th of Actual Rent Receivable as repair expenses are borne by the tenant - ₹ 1,44,000/9	16,000	
Interest on Refundable Security Deposit- ₹ 50,000 x 15% x 9/12	6,000	32,000
GROSS MAINTAINABLE RENT (GMR)	1,76,000	

Step II: Computation of Net Maintainable Rent (NMR)

Particulars	₹	₹
Gross Maintainable Rent (GMR)		1,76,000
Less: Municipal Taxes levied by the local authority	10,000	
15% of Gross Maintainable Rent - ₹1,76,000 x 15%	26,400	(36,400)
NET MAINTAINABLE RENT (NMR)		1,39,600

Step III: Capitalisation of the Net Maintainable Rent (CNMR) (Assumed that unexpired lease period is more than 50 Years)

NMR × Multiple Factor for an Unexpired Lease Period - ₹ 1,39,600 × 10 = ₹ 13,96,000

Step IV: Addition of Premium to SNMR in case of excess inbuilt area:

Particulars	₹
Add: Capitalisation of the Net Maintainable Asset	13,96,000
Premium for excess of 10.5% unbuilt area over specified area-30% of CNMR	4,18,800
Value of House Property as per Wealth Tax Act	<u>18,14,800</u>

(b) Property Company Ltd. has let-out a premise with effect from 1.10.2010 on monthly rent of ₹1.5 lakh. The lease is valid for 10 years and the tenant has made a deposit equivalent to 3 months rent. The tenant has undertaken to pay the municipal taxes of the premises amounting to ₹ 2 lakh. What will be the value of the property under Schedule III of the Wealth Tax Act for assessment to wealth tax?

Solution :

Assessee: Property Company Ltd. Valuation Date: 31.3.2011 Assessment Year : 2011-12

Computation of Value of Let-out Property

Actual Annual Rent Receivable :- ₹ 1,50,000 × 12 Months	18,00,000
Add: Municipal Taxes borne by the Tenant	<u>2,00,000</u>
Gross Maintainable Rent (GMR)	20,00,000

Less: Municipal Taxes levied by the Municipal Authority	2,00,000
Less: 15% of Gross Maintainable Rent (₹ 20,00,000 × 15%)	<u>3,00,000</u>
NET MAINTAINABLE RENT	<u>15,00,000</u>

Value of the Property = Capitalized Value of NMR

NMR × 8 (unexpired period of lease is less than 50 years) = ₹ 15,00,000 × 8 = ₹ **1,20,00,000**

(b) Satender is aged 35 years. His father settled a property in trust giving whole life interest therein to Satender. The income from the property for the years 2006-07 to 2009-10 was ₹70,000, ₹84,000, ₹90,000, ₹108,000, respectively. The expenses incurred each year were ₹ 2,000, ₹ 4,000, ₹ 5,000 and ₹6,000 respectively. Calculate the value of life interest of Mr. Jogi in the property so settled on the valuation date 31.3.2011, with the help of the factor of 9.267.

Step	Procedure
1	Average Income for last three years = $(₹ 84,000 + ₹ 90,000 + ₹ 1,08,000) / 3 = ₹ 94,000$.
2	Average Expenses for the last three years = $(₹ 4,000 + ₹ 5,000 + ₹ 6,000) / 3 = ₹ 5,000$.
3	Maximum Permissible Expenses = Average Expenses or 5% of Average Income, whichever is less = 5% of ₹ 70,000 = ₹ 3,500
4	Average Annual Income = ₹ 94,000 Less ₹ 3,500 = ₹ 90,500.
5	Life Interest = Average Annual Income × Life Interest Factor = ₹ 90,500 × 9.267 = ₹ 8,38,664.

(c) The assessment of assessment year 2005-06 was completed on 28.03.2008. On 5.7.2010, the Assessing Officer issues notice under Sec.148 as he has reasons to believe that Rs.95,000 has escaped assessment for the assessment year 2005-06. Is the notice valid? Would your answer differ if the amount involved was Rs.1,05,000 instead of Rs.95,000?

Answer: As income escaped is less than Rs.1,00,000, as per section 149(1), notice under section 148 could have been issued till 31.3.2010 (4 years from the end of the relevant assessment year of which income escaped assessment). Hence, notice issued on 5.7.2010 is time barred and thus invalid.

Since income exceeds Rs.1,00,000, as per Sec.149(1), notice u/s 148 could have been issued upto 31.3.2012. Hence notice issued on 5.7.2010 is a valid notice.

(d) Mr. R wins a motor car in a lucky draw held by G Ltd. The market price of the car is Rs.3,00,000. What should be the amount of TDS to be recovered?

Answer: In this case, G Ltd. shall have to recover the tax as follows:

Gross up the draw amount which shall be : $3,00,000 \times 100/70 = 4,28,571$

The tax to be deducted shall be = $4,28,571 \times 30\% = 1,28,571$

G Ltd. shall deposit Rs.1,28,571 as tax and the gross income of Mr. R shall be Rs.4,28,571.

(e) State the objectives of tax planning?

Answer: The prime objectives of tax planning are:

- (i) reduction of tax liability;
- (ii) minimization of litigation
- (iii) productive investment
- (iv) healthy growth of economy
- (v) economic stability.

(f) State the factors on the basis of which tax planning is done.

Answer: It is essential that areas of tax planning should be identified, so that one does not realise too late that one has missed the opportunity for tax-cost reduction. A survey of such areas should help proper tax planning. The following factors are helpful for effective tax planning:

- (i) Residential status and citizenship of the assessee;
- (ii) Heads of income/assets to be included in computing net wealth
- (iii) Latest legal position
- (iv) Form vs. substance
