

Paper 18 – Corporate Financial Reporting

Whenever necessary suitable assumptions may be made and disclosed by way of note.

Working Notes should form part of the answers

Answer all the questions.

1. Answer any two of the following: [2×5=10]

- (a) Umesh Chand Ltd. signed an agreement with workers for increase in wages with retrospective effect. The out-flow on account of arrears was for 2009-10 — ₹10.00 lakhs, for 2010-11 — ₹12.00 lakhs and for 2011-12 — ₹12.00 lakhs. This amount is payable in September, 2012. The accountant wants to charge ₹22.00 lakhs as prior period charges in financial statement for 2012-13. Discuss.

Answer:

According to AS 5(Revised) "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies", the term prior period item refers only to income or expenses which arise in the current period as a result of errors or omission in the preparation of the financial statements of one or more prior periods. The term does not include other adjustments necessitated by circumstances, which though related to prior periods are determined in the current period. The full amount of wage arrears paid to workers will be treated as an expense of current year and it will be charged to profit and loss account as current expenses and not as prior period expenses.

It may be mentioned that additional wages is an expense arising from the ordinary activities of the company. Although abnormal in amount, such an expense does not qualify as an extraordinary item. However, as per Para 12 of AS 5 (Revised), when items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items should be disclosed separately.

- (b) On 30.6.2013, Asmi Ltd. incurred ₹2,00,000, net loss from disposal of a business segment. Also, on 30.7.2013, the company paid ₹60,000 for property taxes assessed for the calendar year 2013. How the above transactions should be included in determination of net income of Asmi Ltd. for the six months interim period ended on 30.9.2013.

Answer:

According to AS 25 "Interim Financial Reporting", If an enterprise prepares and presents a complete set of financial statements in its interim financial report, the form and content of those statements should conform to the requirements as applicable to annual complete set of financial statements. As on 30.9.2013, Asmi Ltd., would report the entire ₹2,00,000 loss on the disposal of its business segment since the loss was incurred during interim period. A cost charged as an expense in an annual period should be allocated to Interim periods on accrual basis. Since ₹60,000 Property Tax payment relates to entire calendar year 2013, ₹30,000 would be reported as an expense for six months ended on 30th September, 2013 while remaining ₹30,000 would be reported as prepaid expenses.

Answer to MTP_Final_Syllabus 2012_Jun2014_Set 2

| (c) | Exchange Rate |
|---|---------------|
| Goods purchased on 24-2-2011 of US \$ 10000 | ₹ 46.60 |
| Exchange rate on 31-3-2011 | ₹ 47.00 |
| Date of actual payment 5-6-2012 | ₹ 47.50 |

Calculate the loss/gain for the financial years 2011-2012 and 2012-13.

Answer:

As per AS-11 all foreign currency transactions should be recorded by applying the exchange rate at the date of transaction. Therefore goods purchased on 24-2-2011 and corresponding creditor would be recorded at ₹ 46.60 = US \$ 1, i.e.

$$10,000 \times 46.60 = ₹ 4,66,000$$

As per AS-11 at the balance sheet date all monetary items should be reported using the closing rate therefore creditors of US \$ 10,000 outstanding on 31-3-2012 will be reported.

$$10,000 \times 47.00 = ₹ 4,70,000$$

Exchange loss (4,70,000 – 4,66,000) should be debited in profit and loss account for 2010-11.

As per AS-11 exchange difference on settlement on monetary items should be transferred to profit and loss account as gain or loss therefore $10,000 \times 47.50 = 475,000 - 470,000 = ₹ 5,000$ will be debited to profit or loss for the year 2012-13.

Answer:

Situation I

| | |
|--|---|
| Transaction | Sale by Om Ltd. to Shanti Ltd. [Holding → Subsidiary] |
| Nature of Transfer | Downstream Transaction |
| Profit on Transfer | Cost ₹60,00,000 × Profit on Cost i.e. 25% = ₹15,00,000 |
| % of Stock included in Closing Stock | 100% |
| Unlealised Profit to be eliminated i.e. to be transferred to the Stock Reserve | ₹ 15,00,000 × 100% = ₹15,00,000 |
| Share of Majority – Reduced from Group Reserve | ₹ 15,00,000 × 100% = ₹15,00,000 |
| Share of Minority | Unrealised Profit in case of a Downstream Transaction is fully adjusted against Group Reserves. Minority Interest is not relevant here. |

Situation II

| | |
|--|---|
| Transaction | Sale by Om Ltd. to Shanti Ltd. [Holding → Subsidiary] |
| Nature of Transfer | Downstream Transaction |
| Profit on Transfer | Cost ₹54,00,000 × Profit on Sale Price i.e.25% ÷ Cost on Sale i.e. 75% = ₹18,00,000 |
| % of Stock included in Closing Stock | 60% |
| Unlealised Profit to be eliminated i.e. to be transferred to the Stock Reserve | ₹ 18,00,000 × 60% = ₹10,80,000 |
| Share of Majority – Reduced from Group Reserve | 100% × ₹10,80,000 = ₹10,80,000 |
| Share of Minority | Unrealised Profit in case of a Downstream Transaction is fully adjusted against Group Reserves. Minority Interest is not relevant here. |

6. (a) (i) Explain the term Extensible Business Reporting Language (XBRL).

[6]

Answer:

XBRL stands for eXtensible Business Reporting Language. It is one of a family of "XML" (Extensible Markup Language) languages which is becoming a standard means of communicating information between businesses and on the internet. XBRL provides major benefits in the preparation, analysis and communication of business information and is fast becoming an accepted reporting language globally. It offers major benefits to all those who have to create, transmit, use or analyse such information.

Meaning of the term:

i. Extensible: It means the user can extend the application of a particular business data beyond its original intended purpose and the major advantage is that the extended use can be determined even by the users and not just the ones who merely prepare the business data. This is achieved by adding tags which are both human and machine readable – describing what the data is.

The property of extensibility is very handy in situations when list of items reported for various elements of the financial statements are not the same across firms, industries, and countries. For example, many of item constituting non-current assets in Oil and Gas Industry (items like rigs, exploratory oil and gas wells) may not be applicable to companies in general. In a situation of this kind, XBRL may prepare a taxonomy called a 'Global Common Document' (GCD) for items common to all the firms, industries, and countries, and, any country specific, industry specific and firm-specific variations (extensions / limitations) can, then, be written as independent taxonomies that can be imported and incorporated with the GCD.

ii. Business: It means relevant to the type of business transaction. XBRL focus is on describing the financial statements for both public and private companies.

iii. Reporting: The intention behind promoting use of XBRL is to have all companies report their financial statements in a consolidated manner using the specified formats.

Answer to MTP_Final_Syllabus 2012_Jun2014_Set 2

iv. Language: XBRL is based on XML, which prescribes the manner in which the data can be “marked-up” or “tagged” to make it more meaningful to human readers as well as to computers-based system.

(ii) Moon Light Ltd., has entered into a contract by which it has the option to sell its identified property, plant and equipment (PPE) to Three Star Ltd. for ₹ 300 lakhs after 3 years whereas its current market price is ₹ 450 lakhs. Is the put option of Moon Light Ltd., a financial instrument? Explain. [4]

Answer:

As per AS 31, Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. In the given case, for the purpose of the definition of financial instrument, Property, Plant and Equipment do not qualify the definition of financial asset as per the standard.

To assess whether the put option of Moon Light Ltd., is a financial instrument or not it is necessary to evaluate the past practice of Moon Light Ltd.

If Moon Light Ltd. has the past practice of settling net, then it becomes a financial instrument, and If Moon Light Ltd. intends to sell the identified Property, Plant and Equipment and settle by delivery and there is no past practice of settling net, then the contract should not be accounted for as financial instrument under AS 30 “Financial Instruments: Recognitions Measurement” and AS 31 “Financial Instrument: Presentation”.

(iii) Write a note on the objectives of Indian Government Accounting Standard 4 (General Purpose Financial Statements of Government).

[5]

Answer:

The purpose of this Standard is to lay down the principles to be followed in presentation of general purpose financial reports of Governments and to prescribe the minimum requirements relating to structure and contents of financial statements of government prepared under cash basis of accounting.

The statement of receipts and disbursements during the year and information about cash flows of an Entity enable stakeholders to evaluate the likely sources and uses of cash and the ability of an Entity to generate adequate cash in the future. This information also indicates the expenditure priorities of the Entity in the delivery of goods and services as well as the impact of the taxation policies of the Entity. Stakeholders can then assess the sustainability of the Entity's activities (whether future budgetary resources will be sufficient to sustain public services and to meet obligations as they become due) and appraise financial accountability.

All Financial Statements need to be standardized to obtain optimal information, to ensure comparability with the Entity's own financial Statements of previous periods and with those of other entities. The basis and policies of accounting need to be uniform to permit meaningful consolidation to develop Whole of Government Accounts. Desirable attributes need to be defined to obtain a basic standard for financial reporting.

To achieve these objectives, this Standard sets out the financial elements for the presentation of financial reports prepared under the cash basis of accounting. It also requires that the selection of accounting policy should ensure certain qualitative characteristics in the information being presented. Desirable attributes of financial reporting are required to heighten their value to the users.

General Purpose Financial Statements (GPFS) essentially consists of Finance Accounts and Appropriation Accounts. The Financial Statements referred to in this standard are the General Purpose Financial Reports (GPFR).
