1.1 INTRODUCTION

In a Welfare State, the Government takes primary responsibility for the welfare of its citizens, as in matters of health care, education, employment, infrastructure, social security and other development needs. To facilitate these, Government needs revenue. Taxation is the primary source of revenue to the Government for incurring such public welfare expenditure. In other words, Government is taking taxes from the public through its one hand and through another hand; it incurs welfare expenditure for public at large. However, no one enjoys handing over his hard-earned money to the government to pay taxes. Thus, taxes are compulsory or enforced contribution to the Government revenue by public. The government may levy taxes on income, business profits or wealth or add it to the cost of some goods, services, and transactions.

1.2 DIRECT TAX & INDIRECT TAX

There are two types of taxes: Direct Tax and Indirect Tax

Tax, of which incidence and impact fall on the same person, is known as Direct Tax, such as Income Tax. On the other hand, tax, of which incidence and impact fall on two different persons, is known as Indirect Tax, such as GST, etc. It means, in the case of Direct Tax, tax is recovered directly from the assessee, who ultimately bears such taxes, whereas in the case of Indirect Tax, tax is recovered from the assessee, who passes such burden to another person & is ultimately borne by consumers of such goods or services.

Direct Tax	Indirect Tax
<ul style="list-style-type: none"> ● Incidence and impact fall on the same person ● Assessee, himself bears such taxes. Thus, it pinches the taxpayer. ● Levied on income ● E.g. Income Tax ● Progressive in nature i.e., higher tax are levied on person earning higher income and vice versa. 	<ul style="list-style-type: none"> ● Incidence and impact fall on two different persons ● Tax is recovered from the assessee, who passes such burden to another person. Thus, it does not pinch the taxpayer. ● Levied on goods and services. Thus, this type of tax leads to inflation and have wider base. ● E.g. GST, Customs Duty, etc. ● Regressive in nature i.e., all persons will bear equal wrath of tax on goods or service consumed by them irrespective of their ability. ● Useful tool to promote social welfare by checking the consumption of harmful goods or sin goods through higher rate of tax.

1.3 CONSTITUTIONAL VALIDITY OF TAXES

The Constitution of India is the supreme law of India. It consists of a Preamble, 22 parts containing 444 articles and 12 schedules. Any tax law, which is not in conformity with the Constitution, is called *ultra vires* the Constitution and held as illegal and void. Some of the provisions of the Constitution are given below:

Article 265 of the Constitution lays down that no tax shall be levied or collected except by the authority of law. It means the tax proposed to be levied must be within the legislative competence of the legislature imposing the tax¹.

Article 246 read with Schedule VII divides the subject matter of law made by the legislature into three categories:

- Union list (only the Central Government has the power of legislation on subject matters covered in the list)
- State list (only the State Government has the power of legislation on subject matters covered in the list)
- Concurrent list (both Central & State governments can pass legislation on subject matters).

If a state law relating to an entry in List III is repugnant to a Union law relating to that entry, the Union law will prevail, and the state law shall, to the extent of such repugnancy, be void. (Article 254).

Following major entries in the respective list enable the legislature to make law on the matter:

Union List (List I)	Entry 82 - Taxes on income other than agricultural income i.e. Income-tax
State List (List II)	Entry 46 - Taxes on agricultural income.

1.4 ADMINISTRATION OF TAX LAWS

The administrative hierarchy of tax law is as follows:

¹ Kunnathat Thathunni Moopil Nair –vs.- The State of Kerala 1961 AIR 552 (SC)

Taxpoint:

- Both of the Boards have been constituted under the Central Board of Revenue Act, 1963.
- CBDT deals with levy and collection of all direct tax whereas matters relating to levy and collection of Central indirect tax are dealt by CBIC.

1.5 SOURCES OF INCOME TAX LAW IN INDIA

1. Income tax Act, 1961 (Amended up to date)

The provisions of income tax extend to the whole of India and became effective from 1/4/1962 (Sec. 1). The Act contains provisions for:

- a. determination of taxable income;
- b. determination of tax liability;
- c. procedure for assessment, appeals, penalties and prosecutions; and
- d. powers and duties of Income-tax authorities.

Taxpoint: The Income-tax Act, 1961 has been divided into 23 chapters (covering 298 sections) and 14 schedules. Few of them are further sub-divided.

2. Annual Amendments

- a. Income-tax Act has undergone several amendments from the time it was originally enacted through the Union Budget. Every year, a Finance Bill (a part of the Union Budget) is presented before the Parliament by the Finance Minister. The Bill contains various amendments which are sought to be made in the areas of direct and indirect taxes levied by the Central Government.
- b. When the Finance Bill is approved by both the Houses of Parliament and receives the assent of the President, it becomes the Finance Act. The provisions of such Finance Act are thereafter incorporated in the Income Tax Act.
- c. If on the 1st day of April of the Assessment Year, the new Finance Act has not been enacted, the provisions in force in the preceding Assessment Year or the provisions proposed in the Finance Bill before the Parliament, whichever is more beneficial to the assessee, will apply until the new provisions become effective [Sec. 294]

Note: Besides these amendments, whenever it is found necessary, the Government introduces amendments in the form of various Amendment Acts and Ordinances.

3. Income tax Rules, 1962 (Amended up to date)

- a. As per Sec. 295, the Board may, subject to the control of the Central Government, make rules for the whole or any part of India for carrying out the purposes of the Act.
- b. Such rules are made applicable by notification in the Gazette of India.
- c. These rules were first made in 1962 and are known as Income tax Rules, 1962.

Since then, many new rules have been framed or existing rules have been amended from time to time and the same has been incorporated in the aforesaid rules.

4. Circulars and Clarifications by CBDT

- a. U/s 119, the Board may issue certain circulars and clarifications from time to time, which have to be

followed and applied by the Income tax authorities.

- b. **Effect of circulars:** These circulars or clarifications are binding upon the Income tax authorities, but the same are not binding on the assessee. However, assessee can claim benefit under such circulars.

Note: These circulars are not binding on the Income Tax Appellate Tribunal or on the Courts.

5. Judicial decision

- a. **Decision of the Supreme Court:** Any decision given by the Supreme Court shall be applicable as law till there is any change in law by the Parliament. Such decision shall be binding on all the Courts, Tribunals, Income tax authorities, assessee, etc.
- b. **Contradiction in the decisions of the Supreme Court:** In case, there is apparently contradiction in two decisions, the decision of larger bench, whether earlier or later, shall always prevail. However, where decisions are given by benches having equal number of judges, the decision of the recent case shall be applicable.
- c. **Decisions given by a High Court or ITAT:** Decisions given by a High Court or ITAT are binding on all assessees and Income tax authorities, which fall under their jurisdiction, unless it is over ruled by a higher authority.

1.6 BASIC PRINCIPLES FOR CHARGING INCOME TAX [SEC. 4]

1. Income of the previous year of a person is charged to tax in the immediately following assessment year.
2. Rate of tax is applicable as specified by the Annual Finance Act of that year. Further, though the Finance Act prescribes the rates of tax, in respect of certain income, the Income Tax Act itself has prescribed specific rates, e.g. Lottery income is to be taxed @ 30% (Sec.115BB), Long term capital gain is to be taxed @ 20% (Sec.112), short term capital gain on listed shares u/s 111A is to be taxed @ 15%, etc.
3. In respect of income chargeable to tax, tax shall be deducted at source, or paid in advance (wherever applicable).

Sec. 4 is a charging section and it is the backbone of the Income Tax Act. The tax liability arises by virtue of this section and it arises at the close of a previous year. However, the finalisation of amount of tax liability is postponed to the assessment year. It follows the rule that the liability to tax is not dependent upon assessment.

1.7 ASSESSMENT YEAR (A.Y.) [SEC. 2(9)]

Assessment year means the period of 12 months commencing on the 1st day of April every year. It is the year (just after the previous year) in which income earned in the previous year is charged to tax. E.g., A.Y.2023-24 is a year, which commences on April 1, 2023 and ends on March 31, 2024. Income of an assessee earned in the previous year 2022-23 is assessed in the A.Y. 2023-24.

Taxpoint:

- Duration: Period of 12 months starting from 1st April.
- Relation with Previous Year: It falls immediately after the Previous Year.
- Purpose: Income of a previous year is assessed and taxable in the immediately following Assessment Year.

1.8 PREVIOUS YEAR OR UNIFORM PREVIOUS YEAR [SEC.3]

Previous Year means the financial year immediately preceding the Assessment Year. Income earned in a year is assessed in the next year. The year in which income is earned is known as Previous Year and the next year in which income is assessed is known as Assessment Year. It is mandatory for all assessee to follow financial year (from 1st April to 31st March) as previous year for Income-Tax purpose.

Financial Year

According to sec. 2(21) of the General Clauses Act, 1897, a Financial Year means the year commencing on the 1st day of April. Hence, it is a period of 12 months starting from 1st April and ending on 31st March of the next year. It plays a dual role i.e. Assessment Year as well as Previous Year.

Example: Financial year 2022-23 is -

- Assessment year for the Previous Year 2021-22; and
- Previous Year for the Assessment Year 2023-24.

Determination of the first previous year in case of a newly set-up business or profession or for a new source of income

In case of	Previous year is the period
Business or profession being newly set-up	Beginning with the date of setting up of the business & ending on 31 st March of that financial year.
A source of income newly coming into existence	Beginning with the date on which the new source of income comes into existence & ending on 31 st March of that financial year.
Notes: <ol style="list-style-type: none"> 1. Above explanation signifies that the first previous year may be a period of less than 12 months but in any case it cannot exceed a period of 12 months. However, next and subsequent previous years shall always be a period of 12 months. 2. Where an assessee has an existing regular income from various sources and he earns an income from a new source during the financial year, his previous year shall commence - <ul style="list-style-type: none"> • For the existing income: From 1st April of previous year; and • For new income: From the date when on which the new source of income comes into existence. <p>However, assessee is liable to tax on aggregate income from all the sources, therefore, all the income will be included in the previous year.</p> 	

Exceptions to the general rule that income of a Previous Year is taxed in its Assessment Year

This is the general rule that income of the previous year of an assessee is charged to tax in the immediately following assessment year. However, in the following cases, income of the previous year is assessed in the same year in order to ensure smooth collection of income tax from the taxpayer who may not be traceable, if assessment is postponed till the commencement of the Assessment Year:

1. Income of a non-resident assessee from shipping business (Sec. 172)
2. Income of a person who is leaving India either permanently or for a long period (Sec. 174)
3. Income of bodies, formed for a short duration (Sec. 174A)
4. Income of a person who is likely to transfer property to avoid tax (Sec. 175)
5. Income of a discontinued business (Sec. 176). In this case, the Assessing Officer has the discretionary power i.e. he may assess the income in the same previous year or may wait till the Assessment year.

1.9 ASSESSEE [SEC. 2(7)]

“Assessee” means,

- a. a person by whom any tax or any other sum of money (i.e., penalty or interest) is payable under this Act (irrespective of the fact whether any proceeding under the Act has been taken against him or not);

- b. every person in respect of whom any proceeding under this Act has been taken (whether or not he is liable for any tax, interest or penalty) for the assessment of his income or loss or the amount of refund due to him;
- c. a person who is assessable in respect of income or loss of another person;
- d. every person who is deemed to be an assessee under any provision of this Act; and
- e. a person who is deemed to be an 'assessee in default' under any provision of this Act. E.g. A person, who was liable to deduct tax but has failed to do so, shall be treated as an 'assessee in default'.

1.10 PERSON [SEC. 2(31)]

The term person *includes* the following:

1. an Individual;
2. a Hindu Undivided Family (HUF);
3. a Company;
4. a Firm;
5. an Association of Persons (AOP) or a Body of Individuals (BOI), whether incorporated or not;
6. a Local authority; &
7. every artificial juridical person not falling within any of the preceding categories.

Notes

1. On the basis of a well settled principle that "the Crown cannot be charged to tax", it can be said that unless otherwise specifically mentioned the Union Government cannot be taxed in India.
2. An association of persons or a body of individuals or a local authority or an artificial juridical person shall be deemed to be a person, whether or not such person or body or authority or juridical person was formed or established or incorporated with the object of deriving income, profits or gains.
3. A firm includes limited liability partnership.

Cash vs. Kind	Income may be received in cash or in kind. Income received in kind is to be valued as per the rules prescribed and if there is no specific direction regarding valuation in the Act or Rules, it may be valued at market price.	
Significance of method of accounting	Method of accounting is irrelevant	In case of income under the head "Salaries", "Income from house property" and "Capital gains" method of accounting is irrelevant.
	Method of accounting is relevant	In case of income under the head "Profits & gains of business or profession" and "Income from other sources" (other than Dividend) income shall be taxable on cash or accrual basis as per the method of accountancy regularly followed by the assessee.

Source of income	Income may be from a temporary source or from a permanent source.	
Capital vs. Revenue receipt	A capital receipt is not liable to tax, unless specifically provided in the Act, whereas, a revenue receipt is not exempted, unless specifically provided in the Act. (Further refer following heading)

1.12 HEADS OF INCOME [SEC. 14]

According to Sec.14 of the Act, all income of a person shall be classified under the following five heads:

1. Salaries;
2. Income from house property;
3. Profits and gains of business or profession;
4. Capital gains;
5. Income from other sources.

For computation of income, all taxable income should fall under any of the five heads of income as mentioned above. If any type of income does not become part of any one of the above mentioned first four heads, it should be part of the fifth head, i.e. Income from other sources, which may be termed as the residual head.

Significance of heads of income

- Income chargeable under a particular head cannot be charged under any other head.
- The Act has self-content provisions in respect of each head of income.

² Finance Ministry has clarified that LPG subsidy received by an individuals in their bank accounts will continue to be exempt from income tax.

- If any income is charged under a wrong head of income, the assessee may lost the benefit of deduction available to him under the correct head.

Distinguish between Heads of income and Sources of income

There are only five heads of income as per Sec. 14 of the Act, but the assessee may generate the income from various sources.

In the same head of income, there may be various sources of income. E.g. under the head 'Income from house property', there may be two or more house properties and each house property shall be termed as a source of income. The source of income decides under which head (among the five heads) income shall be taxable.

The total income so computed will have to be rounded off to the nearest multiple of ₹ 10, i.e., if the last figure in the 'rupee element' is ₹ 5 or more, it should be rounded off to the next higher amount, which is a multiple of ₹ 10. The 'paise' element should be ignored.

Thus, if the total income works out to ₹ 41,645, it should be rounded off to ₹ 41,650, but if it works out to ₹ 41,644.98, it should be rounded off to ₹ 41,640.

1.15 ROUNDING-OFF OF TAX [SEC. 288B]

**1.16 CAPITAL -VS.- REVENUE****Receipts**

A capital receipt is not liable to tax, unless specifically provided in the Act, whereas, a revenue receipt is not exempted, unless specifically provided in the Act. Further, capital receipts are to be charged to tax under the head "Capital Gains" and revenue receipts are taxable under other heads. The Act does not provide exhaustive definition of the income, thus, distinction between capital receipts and revenue receipts is not easily made. However, based on a number of judicial pronouncements, the following principles are worthwhile to note:

1. **Receipt in lump sum or in Instalments:** Whether any income is received in lump sum or in instalments, it will not make any difference as regards its nature, e.g., an employee is to get a salary of ₹ 10,000 p.m. Instead of this he enters into an agreement to get a sum of ₹ 3,60,000 in lump sum to serve for a period of 3 years. The receipt where it is monthly remuneration or lump sum for 3 years is a revenue receipt.
2. **Nature of receipt in the hands of recipient:** Whether a receipt is capital or revenue will be determined in the hands of the persons receiving such income. No attention will be paid towards the source from which the amount is coming. Salary even if paid out of capital by a new business will be it revenue receipt in the hands of employee.
3. **Accounting treatment:** The name given to the transaction by the parties involved or its treatment in the books of account may not alter its character as capital or revenue.
4. **Income from wasting assets:** Profits from capital which is consumed and exhausted in the process of realization, e.g. royalties from mines and quarries, is taxable as income regardless of the consumption of capital involved in the process.
5. **Magnitude of receipt:** The magnitude of the receipt, whether big or small, cannot decide the nature of the receipt.
6. **Time of receipt:** The nature of the receipt has to be determined at the time when it is received and not afterwards when it has been appropriated by the recipient.
7. **Quality of receipt:** Whether the income is received voluntarily or under a legal obligation, it will not make any difference as regards its nature.
8. **Tests as to the purpose of keeping an article:** If a person purchases a piece of sculpture to keep as decoration piece in his house, if sold later on, will bring capital receipt but if the same sculpture is sold by an art dealer it will be his revenue receipt.

Instances of transactions which are capital in nature but specifically taxable:

1. Capital gains arising from sale of capital assets being defined u/s 2(14). [Sec. 45]
2. Compensation for termination of service or modification in the terms of service [Sec. 17(3)]
3. Compensation or other payments due to or received by the persons specified u/s 28(ii)/28(va).

Expenses

Similarly, a capital expenditure is not allowable as expenses, unless specifically allowed in the Act, whereas, a revenue expenditure is allowable as expenses, unless specifically disallowed in the Act. Based on a number of judicial pronouncements, the following principles are worthwhile to note:

1. **Acquiring asset or advantage of enduring nature:** Bringing into existence an asset or advantage of enduring nature³ would lead to the inference that the expenditure disbursed is of a capital nature.
2. **Capital assets belonging to third parties:** Even though a expenditure results in the creation of a capital asset, if the capital asset belongs to a third party, such expenses will be treated as revenue expenditure.

³ 'enduring' does not mean 'everlasting' or 'perpetual'.

3. **Profit-earning process:** Where the outgoing expenditure is so related to the carrying on or the conduct of the business that it may be regarded as an integral part of the profit-earning process and not for acquisition of an asset or a right of a permanent character, the possession of which is a condition of the carrying on of the business, the expenditure may be regarded as revenue expenditure
4. **Object of the transaction:** The object of the transaction which has impact on the business, the nature of trade for which the expenditure is incurred and the purpose thereof, etc.
5. **Fixed capital -vs.- Circulating capital:** An item of disbursement may be regarded as of a capital nature when it is relatable to a fixed capital, whereas if it is related to circulating capital or stock-in-trade it would be treated as revenue expenditure.
6. **Expenditure on removing restriction:** Where the assessee has an existing right to carry on a business, any expenditure made by it during the course of business for the purpose of removal of any restriction or obstruction or disability would be on revenue account, provided the expenditure does not result in the acquisition of any capital asset.
7. Payment made to rival dealer to ward off competition in business would constitute capital expenditure
8. If the expenditure is a part of the working expenses in ordinary commercial trading, it is not capital but revenue expenditure.
9. If the expenditure is incurred for the initial outlay or for extension of business or substantial replacement of equipment, it is capital expenditure but if it is incurred for running the business or is laid out as part of the process of profit making, it is revenue in character.
10. If expenditure is incurred for ensuring the regular supply of raw material, maybe for period extending over several years, it is on revenue account
11. When an owner incurs expenditure on additions in a building which enhances its value the expenditure can be of a capital nature. But, if a tenant incurs an expenditure on a rented building for its renovation, he does not acquire any capital asset, because the building does not belong to him and, ordinarily, such an expenditure will be of a revenue nature.
12. Acquisition of the goodwill of the business is acquisition of a capital asset, and, therefore, its purchase price would be capital expenditure. It would not make any difference whether it is paid in a lump sum at one time or in instalments distributed over a definite period. Where, however, the transaction is not one for acquisition of the goodwill, but for the right to use it, the expenditure would be revenue expenditure
13. Expenses incurred by the assessee for the purpose of creating, curing or completing the title is capital expenditure and on the other hand if such expenses are incurred for the purpose of protecting the same, it is revenue expenditure.

Illustration 2

Birla Ltd., a cement manufacturing company, entered into an agreement with a supplier for purchase of additional cement plant. One of the conditions in the agreement was that if the supplier failed to supply the machinery within the stipulated time, the company would be compensated at 5% of the price of the respective portion of the machinery without proof of actual loss. The company received ₹ 8.50 lakhs from the supplier by way of liquidated damages on account of his failure to supply the machinery within the stipulated time. What is the nature of liquidated damages received by Birla Ltd. from the supplier of plant for failure to supply machinery to the company within the stipulated time — a capital receipt or a revenue receipt?

[CMA – Inter Dec. 2011]

Solution

In the case of *CIT -vs.- Saurashtra Cement Ltd. (2010) 325 ITR 422*, the Apex Court has held that the damages were directly and intimately linked with the procurement of a capital asset, which lead to delay in coming into existence of the profit-making apparatus. It was not a receipt in the course of profit earning process. Therefore,

the amount received by the assessee towards compensation for sterilization of the profit earning source, not in the ordinary course of business, is a capital receipt in the hands of the assessee.

1.17 TAX PLANNING, TAX EVASION AND TAX AVOIDANCE

Tax planning is a way to reduce tax liability by taking full advantages provided by the Act through various exemptions, deductions, rebates & relief. In other words, it is a way to reduce tax liability by applying script & moral of law. It is the scientific planning so as to attract minimum tax liability or postponement of tax liability for the subsequent period by availing various incentives, concessions, allowance, rebates and relief provided in the Act.

Tax evasion is the illegal way to reduce tax liability by deliberately suppressing income or sale or by increasing expenses, etc., which results in reduction of total income of the assessee. Tax evasion is illegal, both in script & moral. It is the cancer of modern society and work as a clog in the development of the nation.

Tax avoidance is an exercise by which the assessee legally takes advantages of loopholes in the Act. Tax avoidance is a practice of bending the law without breaking it. It is a way to reduce tax liability by applying script of law only. Most of the amendments are aimed to curb such loopholes. There are two thoughts about tax avoidance –

- a. As per first thought it is legal. Such thought is also supported by various judgments of the Supreme Court, some of them are as follows -

Helvering vs. Gregory (1934)

“Anyone may so arrange his affairs that his taxes shall be as low as possible. He is not bound to choose that pattern which will best pay the Treasury; there is not even a patriotic duty to increase one's taxes.”

IRC vs. Duke of Westminster (1936)

“Taxpayer is entitled to so arrange his affairs that the tax under the appropriate Act is less than what otherwise it could be.”

Inland Revenue Commissioners vs. Fishers Executors (1958)

“The highest in authority, have always recognized that the subject is entitled so to arrange his affairs as not to attract taxes imposed by the Crown, so far he can do so within the law, and that he may legitimately claim the advantage of any express terms or any omissions that he can find in his favour in taxing Act. In doing so, he neither comes under liability, nor incurs blame.”

CIT vs. Raman & Co. (1968)

“Avoidance of tax liability by so arranging commercial affairs that the charge of tax is distributed, is not prohibited. A taxpayer may resort to a device to divert the income before it accrues or arises to him. Effectiveness of the device depends not upon considerations of morality, but on the operation of the Income-tax Act.”

Smt. C. Kamala vs. CIT (1978)

“It is quite possible that when a transaction is entered into in one form known to law, the amount received under that transaction may attract liability under the Act and if it is entered into in another form which is equally lawful, it may not attract such tax liability. But when the assessee has adopted the latter one, it would not be open to the court to hold him liable for tax.”

CWT vs. Arvind Narotham (1988)

“It is true that tax avoidance in an underdeveloped or developing economy should not be encouraged on practical as well as ideological grounds. One would wish..... that one could get the enthusiasm that taxes are the price of civilization and one would like to pay that price to buy civilization. But the question which many ordinary taxpayers very often, in a country of shortages with ostentatious consumption and deprivation for the large masses, ask is, does he with taxes buy civilization or does he facilitate the

waste and ostentation of the few. Unless ostentation and waste in Government spending are avoided or eschewed, no amount of moral sermons would change people's attitude to tax avoidance."

- b. As per second thought it is not a legal way to reduce tax burden and it should be prohibited.

McDowell & Co. Ltd. vs Commercial Tax Officer (1985)

Supreme Court observed - "we think time has come for us to depart from Westminster principle....tax planning may be legitimate provided it is within the framework of law. Colourable devices cannot be part of tax planning and it is wrong to encourage or entertain the belief that it is honourable to avoid the payment of tax by resorting to dubious methods. It is the obligation of every citizen to pay the honestly without resorting to subterfuges."

CIT vs B.M. Kharwar (1969)

Supreme Court held - "the taxing authority is entitled and is indeed bound to determine the true legal relation resulting from a transaction. If the parties have chosen to conceal by a device the legal relation, it is open to the taxing authorities to unravel the device and to determine the true character of relationship. But the legal effect of a transaction cannot be displaced by probing into substance of the transaction."

Approach	It is futuristic and positive in nature. The planning is made today to avail benefits in future.	It is futuristic but short term in nature, as loophole of the law will be corrected in future by amendments of the law.	It is concerned with past and applied after the liability of tax has arisen. It is done with negative approach to avail benefits by killing the moral of law.	It is a continuous approach, which is concerned with past (rectification, revisions etc.), present (filing of return, etc.) & future (corrective action).

Need	It is desirable	It is avoidable	It is objectionable	It is essential.
Morality	It is moral in nature.	It is immoral in nature	It is illegal.	It is duty.

1.18 DIVERSION & APPLICATION OF INCOME

There is a very thin line of difference between Diversion of income & Application of income.

Diversion of income: Where by virtue of an obligation, income is diverted before it reaches to the assessee, it is known as diversion of income & it is not taxable (i.e. even if the assessee were to collect the income he does so on behalf of the person to whom it is payable).

Example: A, B and C are co-authors of a book. The publisher of the book gave the whole royalty of ₹ 6,00,000 to A. A paid ₹ 2,00,000 to B and C each. Such payment is not application of income but diversion of income.

Application of income: Whereas, application of income means to discharge an obligation (which is gratuitous or self-imposed) after such income reaches the assessee & hence it is taxable.

Total income exceeds ₹ 5 crores	37% of tax*

* Where the total income includes dividend, any income chargeable u/s 111A, 112 and 112A, the surcharge on the amount of income-tax computed on that part of income shall not exceed 15%. In other words, surcharge higher than 15% is applicable only on tax on income other than dividend, income covered u/s 111A, 112 and 112A. Moreover, in case of an AOP consisting of only companies as its members, the rate of surcharge on the amount of Income-tax shall not exceed 15%.

Health & Education Cess

Applicable on: All assessee

Rate of cess: 4% of Tax liability after Surcharge

Marginal Relief

Example: Compute tax liability of the assessee (52 years) whose total income is:

(Case 1) ₹49,90,000 (Case 2) ₹ 50,10,000; (Case 3) ₹ 60,00,000

Particulars	Working	Case 1	Case 2	Case 3

	Balance Income * 30%	11,97,000	12,03,000	15,00,000

Add: Surcharge	B = [10% of (A)]	Nil	1,31,550	1,61,250
Tax and surcharge payable		13,09,500	14,47,050	17,73,750

Analysis of case (1) and case (2)

Increase in income	₹ 20,000
Liability for surcharge increased	₹ 1,31,550

To provide relaxation from levy of surcharge to a taxpayer where the total income exceeds marginally above ₹ 50 lakh or ₹ 1 crore or 2 crores or 5 crores, the concept of marginal relief is designed.

Condition: Total income exceeds ₹ 50,00,000 (or ₹ 1 crore or 2 crores or 5 crores)

Relief: Marginal relief is provided to ensure that the additional income tax payable including surcharge on excess of income over ₹ 50,00,000 or ₹ 1,00,00,000 or ₹ 2,00,00,000 or ₹ 5,00,00,000 is limited to the amount by which the income is more than ₹ 50,00,000 or ₹ 1,00,00,000 or ₹ 2,00,00,000 or ₹ 5,00,00,000

$$\text{Marginal relief} = \text{Calculated Surcharge} - 70\% (\text{Income} - ₹ 50,00,000) \text{ (if positive)}$$

Or

$$\text{Marginal relief} = [(\text{Income tax} + \text{surcharge}) \text{ on income}] - [(\text{Income tax on } ₹ 50,00,000) + (\text{Income} - ₹ 50,00,000)]$$

Similar relief shall also be provided where income exceeds marginally above ₹ 1 crore or ₹ 2 crores or ₹ 5 crores. In that case, the aforesaid equation shall be changed accordingly.

Now, computation of tax liability is made after considering marginal relief:

Particulars	Working	Case 1	Case 2	Case 3
Liability [A]		13,09,500	13,15,500	16,12,500
Add: Surcharge	B = [10% of (A)]	Nil	1,31,550	1,61,250
Tax and surcharge		13,09,500	14,47,050	17,73,750
Less: Marginal relief	$[(B) - \{70\% \{50,10,000 - 50,00,000\}\}]$	Nil	1,24,550	Nil
Effective Surcharge [C]		Nil	7,000	1,61,250
Liability after surcharge	[A + C]	13,09,500	13,22,500	17,73,750
Add: Health & Education cess	4% of above	52,380	52,900	70,950
Total	Rounded off u/s 288B	13,61,880	13,75,400	18,44,700

Taxpoint: The concept of marginal relief is not applicable in case of cess.

An Individual / HUF can opt for alternative tax regime u/s 115BAC. The provision relating to sec. 115BAC will be discussed in subsequent chapter.

Firm or Limited Liability Partnership (LLP)

A partnership firm (including limited liability partnership) is taxable at the rate of 30%

Surcharge: 12% of income-tax (if total income exceeds ₹ 1 crore otherwise Nil)

Marginal Relief: Available

Health & Education Cess: 4% of tax liability after surcharge

Company

Company	Rate
In the case of a domestic company	
Where its total turnover or gross receipts during the previous year 2020-21 does not exceed ₹ 400 crore	25%
In any other case	30%
In the case of a foreign company	40%

Surcharge

Total Income	Domestic Company	Foreign Company
If total income exceeds ₹ 10 crore	12%	5%
If income exceeds ₹ 1 crore but does not exceed ₹ 10 crore	7%	2%
If income does not exceed ₹ 1 crore	Nil	Nil

Marginal Relief: Available at both points (i.e., income exceeds ₹ 1,00,00,000 or ₹ 10,00,00,000)

Health & Education Cess: 4% of tax liability after surcharge

In few cases and subject to certain conditions, companies are liable to be taxed at different rate.

RESIDENTIAL STATUS

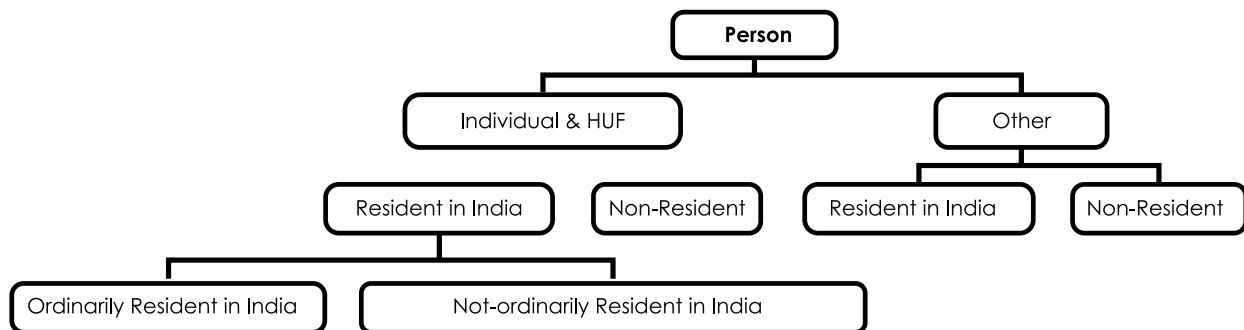

This Study Note includes

- 2.1 Introduction
- 2.2 General points to be kept in mind regarding residential status of a person
- 2.3 Determination of Residential Status
- 2.4 Incidence of Tax [Sec. 5]
- 2.5 Income received in India
- 2.6 Income deemed to be received in India
- 2.7 Income deemed to accrue or arise in India [Sec. 9]

2.1 INTRODUCTION

Residential status of an assessee determines the scope of chargeability of his income. Whether a person will be charged to a particular income or not, depends on his residential status.

Sec. 6 provides the test for residential status for the persons which can be categorized as under:

2.2 GENERAL POINTS TO BE KEPT IN MIND REGARDING RESIDENTIAL STATUS OF A PERSON

Different for each previous year	Residential status is determined in respect of each previous year. In other words, residential status of a person may vary from one previous year to another previous year.
Single Status for each source of income	A person can have only one residential status for a previous year i.e. he cannot be a resident for one source of income and non-resident for another source.
Impact of citizenship	Citizenship and residential status are two different concepts. A citizen of India may not be a resident in India for the purpose of income-tax.
Country Specific	A person can have same residential status in more than one country.

2.3 DETERMINATION OF RESIDENTIAL STATUS

INDIVIDUAL [SEC. 6(1)]

First of all, an individual is classified as resident or non-resident and again a resident individual may further be categorized as Ordinarily Resident or Not Ordinarily Resident in India.

Resident in India

An individual is said to be a resident in India, if he satisfies any one of the following conditions -

- i. He is in India in the previous year for a period of 182 days or more **[Sec. 6(1)(a)]**; or
- ii. He is in India for a period of 60 days or more during the previous year and for 365 or more days during 4 previous years immediately preceding the relevant previous year **[Sec. 6(1)(c)]**

Taxpoint: Given Conditions are alternative in nature i.e. assessee needs to satisfy any one condition.

Non-Resident in India

An assessee who is not satisfying sec. 6(1) shall be treated as a non-resident in India for the relevant previous year.

Illustration 1

Sam came to India first time during the P.Y. 2022-23. During the previous year, he stayed in India for (i) 50 days; (ii) 183 days; & (iii) 153 days. Determine his residential status for the A.Y. 2023-24.

Solution

- i. Since Sam resides in India only for 50 days during the P.Y. 2022-23, he does not satisfy any of the conditions specified in sec. 6(1). He is, therefore, a non-resident in India for the P.Y. 2022-23.
- ii. Since Sam resides in India for 183 days during the previous year 2022-23, he satisfies one of the conditions specified in sec. 6(1). He is, therefore, a resident in India for the P.Y. 2022-23.
- iii. Sam resides in India only for 153 days during the previous year 2022-23. Though he resided for more than 60 days during the previous year but in 4 years immediately preceding the previous year (as he came India first time), he did not reside in India. Hence, he does not satisfy any of the conditions specified in sec. 6(1). Thus, he is a non-resident for the P.Y. 2022-23.

Illustration 2

Andy, a British national, comes to India for the first time during 2018-19. During the financial years 2018-19, 2019-20, 2020-21, 2021-22 and 2022-23, he was in India for 55 days, 60 days, 80 days, 160 days and 70 days respectively. Determine his residential status for the assessment year 2023-24.

Solution

During the previous year 2022-23, Andy was in India for 70 days & during 4 years immediately preceding the previous year, he was in India for 355 days as shown below:

Year	2018-19	2019-20	2020-21	2021-22	Total
No. of days stayed in India	55	60	80	160	355

Thus, he does not satisfy Sec.6(1) & consequently, he is a non-resident in India for the P.Y. 2022-23.

EXCEPTIONS TO THE ABOVE RULE

A. In the following cases, condition (ii) of sec. 6(1) [i.e. sec. 6(1)(c)] is irrelevant:

1. An Indian citizen, who leaves India during the previous year for employment purpose.
2. An Indian citizen, who leaves India during the previous year as a member of crew of an Indian ship.

Taxpoint: Above assessee shall be treated as resident in India only if he resides in India for 182 days or more in the relevant previous year.

B. In case of an Indian citizen or a person of Indian origin# comes on a visit to India during the previous year, modified condition (ii) of sec. 6(1) is applicable:

Case	Modified condition (ii) of sec. 6(1)
His total income, other than the income from foreign sources ¹ , exceeds ₹ 15 lakhs during the previous year	He is in India for a period of 120 days or more (but less than 182 days) during the previous year and for 365 or more days during 4 previous years immediately preceding the relevant previous year
His total income, other than the income from foreign sources, does not exceed ₹ 15 lakhs during the previous year	He is in India for a period of 182 days or more during the previous year In short, sec. 6(1)(c) is not applicable.

Person of Indian origin: A person is deemed to be of Indian origin if he or either of his parents or grand parents were born in undivided India. Here, grand parents may be paternal or maternal.

! "*Income from foreign sources*" means income which accrues or arises outside India (except income derived from a business controlled in or a profession set up in India) and which is not deemed to accrue or arise in India.

C. An individual shall be deemed to be resident in India, if following conditions are satisfied

- a. He is a citizen of India
- b. His total income, other than the income from foreign sources, exceeds ₹ 15 lakhs during the previous year;
- c. He is not satisfying any of the basic conditions given u/s 6(1) [i.e., 182 days or 60 days + 365 days]; and
- d. He is not liable to tax in any other country or territory by reason of his domicile or residence or any other criteria of similar nature. [Sec. 6(1A)]

Taxpoint:

- However, if such individual has satisfied either of the basic conditions, then he shall be treated as resident in India u/s 6(1).
- Further note that the exception is not applicable in case of foreign citizen even if he is a person of Indian origin.
- If these conditions are satisfied, then such individual shall be deemed as resident irrespective of number of days of his stay in India.

In case of an individual, being a citizen of India and a member of the crew of a ship, the period or periods of stay in India shall, in respect of an eligible voyage, not include the period beginning on the date entered into the Continuous Discharge Certificate in respect of joining the ship by the said individual for the eligible voyage and ending on the date entered into the Continuous Discharge Certificate in respect of signing off by that individual from the ship in respect of such voyage. In simple words, in the Continuous Discharge Certificate the date of joining is recorded as 1st January 2022 and the date of ending the voyage is recorded as 31st January 2022, then the entire period of 31 days shall be excluded from his stay in India

"Eligible voyage" shall mean a voyage undertaken by a ship engaged in the carriage of passengers or freight in international traffic where-

- i. for the voyage having originated from any port in India, has as its destination any port outside India; and
- ii. for the voyage having originated from any port outside India, has as its destination any port in India.¹

Illustration 3

Miss Pal, an Indian citizen, left India for first time on 1st April, 2022 for joining job in Tokyo. She came to India on 11th Jan, 2023 for only 170 days. Determine her residential status for P.Y. 2022-23.

Solution

Number of days Miss Pal stayed in India can be calculated as under:

P.Y.	Apr	May	June	July	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Total
22-23	1	-	-	-	-	-	-	-	-	21	28	31	81
23-24	30	31	29	-	-	-	-	-	-	-	-	-	90

Since she left India for employment purpose, hence for becoming resident she has to stay in India for at least 182 days. However, she is in India for only 81 days during the previous year, thus she is a non-resident for the P.Y. 2022-23.

Points to be kept in mind

- a. Stay at same place in India is not necessary.
- b. Continuous stay in India is not necessary.
- c. A person shall be deemed to reside in India, if he is on the territorial waters of India¹. For instance, if an individual stays on a ship, which is in the territorial waters of India, then it shall be treated as his presence in India.

ADDITIONAL CONDITIONS TO TEST WHETHER RESIDENT INDIVIDUAL IS 'ORDINARILY RESIDENT OR NOT' [SEC. 6(6)]

A resident individual in India can further be categorised as -

- i. Resident and ordinarily resident in India
- ii. Resident but not ordinarily resident in India

Resident and ordinarily resident

If a resident individual satisfies the following two additional conditions, he will be treated as resident & ordinarily resident in India -

- a. He has been resident in India [as per sec. 6(1)] in *at least 2 out of 10* previous years immediately preceding the relevant previous year; **and**
- b. He has resided in India for a period of 730 days or more during 7 previous years immediately preceding the relevant previous year.

¹ Territorial water extends to 12 nautical miles (1 nautical miles = 1.1515 miles = 1.853 km) into the sea from the base line on the coast of India and include any bay, gulf, harbour, creek or tidal river

Taxpoint: To be a Resident & Ordinarily resident in India, one has to satisfy at least one condition of sec. 6(1) & both the additional conditions of sec. 6(6).

Resident but not ordinarily resident

If a resident individual does not satisfy both additional conditions as given u/s 6(6), he is "Resident but not ordinarily resident in India".

EXCEPTIONS

- A. An individual shall be **deemed to be resident but not ordinarily resident** in India, if following conditions are satisfied:
- He is a citizen of India
 - His total income, other than the income from foreign sources, exceeds ₹ 15 lakhs during the previous year; and
 - He is not liable to tax in any other country or territory by reason of his domicile or residence or any other criteria of similar nature.
 - He is deemed to be resident in India u/s 6(1A).
- B. An individual shall be **deemed to be resident but not ordinarily resident** in India, if following conditions are satisfied:
- He is an Indian citizen or a person of Indian origin.
 - He comes on a visit to India during the previous year
 - His total income, other than the income from foreign sources, exceeds ₹ 15 lakhs during the previous year
 - He is in India for a period of 120 days or more (but less than 182 days) during the previous year and for 365 or more days during 4 previous years immediately preceding the relevant previous year

Taxpoint: If aforesaid conditions are satisfied, then such individual shall be deemed to be resident but not ordinarily resident even though he has satisfied both conditions specified u/s 6(6).

Provision Illustrated

Determine the residential status in the following different cases:

Case	A	B	C	D	E	F	G	H
Citizenship	Foreign	India	India	India	Foreign	Foreign	India	Foreign
Is he person of Indian origin	Yes	Yes	Yes	Yes	Yes	Yes	Yes	No
Total income (excluding income from foreign source) exceeds ₹ 15,00,000	Yes	No	Yes	Yes	Yes	Yes	No	No
Liable to pay tax in other country	No	No	No	Yes	No	No	No	No
Stay in India during the previous year	30	30	30	30	138	185	85	85
Stay in India during 4 years immediately preceding previous year	380	380	380	380	380	180	380	380
Are dual conditions given u/s 6(6) satisfied	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Residential Status	NR	NR	NOR	NR	NOR	ROR	NR	ROR
Note	1	2	3	4	5	6	7	8

- He is not an Indian citizen, hence sec. 6(1A) is not applicable. Further his stay in India during the previous year does not exceed 120 days.

Residential Status

2. His total income does not exceed ₹ 15,00,000.
3. All conditions of sec. 6(1A) are satisfied.
4. He is liable to pay tax in other country.
5. His stay in India exceeds 120 days (but does not exceed 182 days)
6. He has satisfied one condition of sec. 6(1) [i.e. 182 days criteria] and dual conditions of sec. 6(6)
7. He is not satisfying any of the condition provided in sec. 6(1)
8. He has satisfied one condition of sec. 6(1) [i.e. 182 days criteria] and dual conditions of sec. 6(6)

Illustration 4

Mr. X, aged 19 years, left India for first time on May 31, 2022. Determine his residential status for the previous year 2022-23 if:

- i. He left India for employment purpose
- ii. He left India on world tour.

Solution

During the previous year 2022-23, Mr. X was in India for 61 days as shown below –

P.Y.	Apr	May	June	July	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Total
22-23	30	31	-	-	-	-	-	-	-	-	-	-	61

During the previous year 2022-23, X stayed in India for 61 days. Further, he was in India for more than 365 days during 4 years immediately preceding the relevant previous year (as he left India for first time).

- i. Since he left India for employment purpose, condition of sec. 6(1)(c) shall not be applicable on such assessee. He will be treated as resident in India, if and only if, he resided in India for at least 182 days during the previous year. Hence, Mr. X is a non-resident in India for the previous year 2022-23.
- ii. Since he left India on world tour, which is not an exception of sec. 6(1), satisfaction of any one condition of sec. 6(1) makes him resident in India for the previous year 2022-23. As he satisfies 2nd condition of sec. 6(1) [shown above], he is resident in India. Further, he also satisfies dual conditions specified u/s 6(6) (since he left India for first time). Therefore, he is an ordinarily resident for the previous year 2022-23.

Illustration 5

X came India for first time on July 24, 2018. From July 24, 2018 to December 25, 2019 he was in India. Again, he came to India on August 5, 2022 for employment purpose & left India on November 25, 2022 permanently. Determine his residential status for the previous year 2022-23 assuming -

- a. He is a foreign citizen
- b. He is an Indian citizen

Solution

During the previous year 2022-23, X was in India for 113 days as shown below:

Year	Apr	May	June	July	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Total
22-23	-	-	-	-	27	30	31	25	-	-	-	-	113

Further, he was in India for more than 365 days during 4 years immediately preceding the previous year as shown below:

Year	Apr	May	June	July	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Total
18-19	-	-	-	8	31	30	31	30	31	31	28	31	251
19-20	30	31	30	31	31	30	31	30	25	-	-	-	269
20-21	-	-	-	-	-	-	-	-	-	-	-	-	-
21-22	-	-	-	-	-	-	-	-	-	-	-	-	-

As he satisfies condition given in sec. 6(1)(c), he is a resident in India.

Further, he was resident during 2 out of 10 years immediately preceding the relevant previous year but he was in India only for 520 days in 7 years immediately preceding the relevant previous year. As he is not satisfying dual conditions of sec. 6(6), he is a resident but not ordinarily resident in India for the previous year 2022-23.

Note: His status shall remain same in both the cases as -

- Foreign citizens are not covered by 'exceptions to sec. 6(1)(c)'.
- Coming in India for employment purpose is not covered by 'exceptions to sec. 6(1)(c)'.

Illustration 6

X, a foreign citizen, resides in India during the previous year 2022-23 for 83 days. Determine his residential status for previous year 2022-23 assuming his stay in India during the last few previous years are as follows -

Year	Days	Year	Days	Year	Days	Year	Days
2007-08	220 days	2011-12	36 days	2015-16	137 days	2019-20	175 days
2008-09	15 days	2012-13	115 days	2016-17	265 days	2020-21	15 days
2009-10	257 days	2013-14	123 days	2017-18	310 days	2021-22	67 days
2010-11	110 days	2014-15	65 days	2018-19	121 days		

Solution

During previous year 2022-23, X was in India for 83 days & during 4 years immediately preceding the previous year, he was in India for 378 days as shown below:

Year	2018-19	2019-20	2020-21	2021-22	Total
No. of days stayed in India	121	175	15	67	378

Thus, he satisfies one of the conditions specified u/s 6(1) & consequently, he becomes resident in India in the P.Y. 2022-23. Further, to determine whether X is an ordinarily resident or not, he needs to satisfy both conditions laid down u/s 6(6).

Year	Presence in India (In Days)	Resident or Non resident	Condition satisfied to become a resident
2021-2022	67	Resident	6(1)(c)
2020-2021	15	Non Resident	None
2019-2020	175	Resident	6(1)(c)
2018-2019	121	Resident	6(1)(c)
2017-2018	310	Resident	Both
2016-2017	265	Resident	Both
2015-2016	137	Non Resident	None
2014-2015	65	Resident	6(1)(c)
2013-2014	123	Resident	6(1)(c)
2012-2013	115	Resident	6(1)(c)

Condition (i) of sec. 6(6) requires that an individual should be resident in India for at least 2 out of 10 years preceding the relevant previous year. X was resident in India for 8 out of 10 years immediately preceding the previous year. Thus, he satisfies this condition.

Condition (ii) of sec. 6(6) requires that an individual should be present in India for at least 730 days during 7 years preceding to relevant previous year. X was in India for 1090 days during 2015-16 to 2021-22. Hence, he satisfies this condition also.

X satisfies condition (ii) of sec. 6(1) as well as both the conditions of sec. 6(6). Thus, he is a resident and ordinarily resident in India for the previous year 2022-23.

HINDU UNDIVIDED FAMILY (HUF) [SEC. 6(2)]

An HUF can be either a resident or non-resident in India. Again, a resident HUF can further be classified as 'Ordinarily resident' and 'Not ordinarily resident'.

Resident HUF: When the control & management¹ of affairs of HUF is wholly or partly situated in India during the relevant previous year, then it is treated as resident in India.

¹ Control & management means -

- controlling & directive power;
- actual control & management (mere right to control & manage is not enough);
- central control & management and not the carrying out of day to day affairs.

The place of central control & management is situated where the head, the seat & the directing power is situated.

Non-resident HUF: An HUF is non-resident in India if the control & management¹ of its affairs is wholly situated outside India.

Ordinarily resident in India: If the 'karta' or manager of a resident HUF satisfies both additional conditions given u/s 6(6), HUF is said to be an ordinarily resident. If the 'karta' or manager of a resident HUF do not satisfies both additional conditions given u/s 6(6), HUF is said to be a not-ordinarily resident.

Taxpoint: Residential status of the karta for the previous year is not important but his status for preceding 10 years is important.

COMPANY [SEC. 6(3)]

Resident Company: An Indian company is always a resident in India.

A non-Indian company is said to be a resident in India, if its place of effective management, in that year, is in India.

"Place of effective management" means a place where key management and commercial decisions that are necessary for the conduct of the business of an entity as a whole, are in substance made.'

Non-Resident Company: If place of effective management, in that year, is not in India, the said company is non-resident in India for the relevant previous year.

Taxpoint: In case of company, there is no sub-division like 'Ordinarily resident' or 'Not ordinarily resident'.

FIRM OR AN ASSOCIATION OF PERSONS (AOP) OR BODY OF INDIVIDUALS (BOI) [SEC. 6(4)]

Resident: A firm or an AOP or BOI is said to be a resident in India, if control & management of its affairs are wholly or partly situated in India during the relevant previous year.

Control & management is vested in hands of partners in case of firm and principal officer in case of an AOP/BOI.

Non-resident: If control & management of its affairs are situated wholly outside India, then it is a non-resident in India.

Taxpoint: In case of firm or BOI or AOP, there is no subdivision like 'Ordinarily resident' or 'Not ordinarily resident'.

**ANY OTHER PERSON**

Resident: Any other assessee will be treated as resident in India if the control & management of its affairs is situated wholly or partly in India.

Non-Resident: If control & management of affairs of the assessee, are situated wholly outside India, it is a non-resident in India.

2.4 INCIDENCE OF TAX [SEC. 5]

The following chart highlights the provisions of tax incidence in brief:

Nature of Income	Tax incidence in the case of		
	Resident & ordinarily resident	Resident but not ordinarily resident	Non resident
Income accrued or deemed to be accrued and received or deemed to be received in India	Taxable	Taxable	Taxable

2.5 INCOME RECEIVED IN INDIA

Income received in India is taxable in all cases (whether accrued in India or elsewhere) irrespective of residential status of the assessee, therefore it is significant to know the meaning of income received in India. If the place, where the recipient gets the money (on first occasion) under his control, is in India, it is said to be income received in India.

Taxpoint: Receipt is different from remittance. The receipt of income refers to the first occasion when the recipient gets the money under his control. Once the amount is received as income (at any place outside India), any subsequent remittance or transmission of the amount to India does not result to receipt in India

Example: Mr. X, a non-resident, received dividend from an Italian company in Japan on 15/12/2022. On 17/12/2022, he remitted such income in India. Such income shall not be taxable in India as income has neither received in India nor accrued in India.

Salary accrued to a non-resident seafarer for services rendered outside India on a foreign going ship (with Indian flag or foreign flag) shall not be included in the total income merely because the said salary has been credited in the NRE account maintained with an Indian bank by the seafarer.

GENERAL ILLUSTRATION

Illustration 8

Miss Monica, a foreign national, comes India every year for 90 days since 2007-08.

- a. Determine her residential status for the previous year 2022-23.
- b. Will your answer differ, if she comes India for 100 days instead of 90 days every year.

Solution

- a. Since Miss Monica stayed for 90 days during the previous year 2022-23 and for 360 days (90 days x 4 years) during the 4 years immediately preceding the previous year, hence, she is not satisfying any of the conditions of sec. 6(1). Thus, she is a non-resident for the previous year 2022-23.
- b. Since Miss Monica stayed for 100 days during the previous year 2022-23 and for 400 days (100 days X 4 years) during the 4 years immediately preceding the previous year, hence, she is satisfying sec. 6(1) (c). Thus, she is resident for the previous year 2022-23. Further, she resides for only 700 days (100 days x 7 years) during the 7 years immediately preceding the previous year. Hence, she does not satisfy one of the conditions of sec. 6(6). Thus, she is resident but not ordinarily resident for the previous year 2022-23.

⁴ Subject to DTAA and exceptions provided in sec. 56(2)(x)

Mr. Sid, a British national, joined XYZ Co. Ltd. as an engineer in India on 1st May, 2012. On 31st December, 2013, he went to Sri Lanka on deputation. On 1st April, 2018, he came back to India and left for Sri Lanka again on 31st May, 2018. He returned to India and joined his original post on 1st July, 2022. Determine his residential status for the A.Y. 2023-24.

Solution

Number of days Mr. Sid stayed in India in past few years can be calculated as under:

SN	P.Y.	Apr	May	June	July	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Total
0	22-23	-	-	-	31	31	30	31	30	31	31	28	31	274
1	21-22	-	-	-	-	-	-	-	-	-	-	-	-	0
2	20-21	-	-	-	-	-	-	-	-	-	-	-	-	0
3	19-20	-	-	-	-	-	-	-	-	-	-	-	-	0
4	18-19	30	31	-	-	-	-	-	-	-	-	-	-	61
5	17-18	-	-	-	-	-	-	-	-	-	-	-	-	0
6	16-17	-	-	-	-	-	-	-	-	-	-	-	-	0
7	15-16	-	-	-	-	-	-	-	-	-	-	-	-	0
8	14-15	-	-	-	-	-	-	-	-	-	-	-	-	0
9	13-14	30	31	30	31	31	30	31	30	31	-	-	-	275
10	12-13	-	31	30	31	31	30	31	30	31	31	28	31	335

On the basis of data drawn, residential status of Mr. Sid in last few years can be decided as under:

Year	Previous Year	Presence in India (In days)	Resident (R) or Non resident (NR)	Condition satisfied to become a resident
1	2021-2022	0	NR	None
2	2020-2021	0	NR	None
3	2019-2020	0	NR	None
4	2018-2019	61	NR	None
5	2017-2018	0	NR	None
6	2016-2017	0	NR	None
7	2015-2016	0 = 61	NR	None
8	2014-2015	0	NR	None
9	2013-2014	275	R	6(1)(a)
10	2012-2013	335	R	6(1)(a)

Since assessee resided in India for 274 days in the previous year 2022-23, hence he satisfies sec. 6(1)(a). Therefore, he is resident in India.

Further, since he is resident in India for 2 years out of 10 years preceding the previous year (as shown in above

working), but resided in India for less than 730 days out of 7 immediately preceding years, hence he does not satisfy one of the conditions of sec. 6(6), therefore, he is resident but not ordinarily resident.

Conclusion: Resident but not ordinarily resident.

Study Note - 3

AGRICULTURAL INCOME

This Study Note includes

- 3.1 Meaning
- 3.2 Instances of Agricultural (Agro) Income
- 3.3 Instances of Non-agricultural (Non-agro) Income
- 3.4 Treatment of Partly Agricultural & Partly Non-Agricultural Income
- 3.5 Impact of agricultural income on tax computation

3.1 MEANING

By virtue of sec. 2(1A), agricultural income means -

1. Any rent or revenue derived from a land, which is situated in India & is used for agricultural purposes[§];

Taxpoint:

- Rent may be in cash or in kind.
- Assessee may be the owner or tenant of such land.

2. Any income derived from such land by agriculture \$

3. Any income derived from such land by the performance by –

- a. a cultivator;
- b. receiver of rent in kind;

- of any process ordinarily employed by a them to render the produce raised or received by him fit to be taken to market.

4. Any income derived from such land by the sale by

- a. a cultivator of the produce raised by him; or
- b. receiver of rent-in-kind of the produce received by him;

- in respect of which no process has been performed other than a process required to render it fit for the market.

Taxpoint: The process must be employed only to convert 'the produce or rent in kind' in marketable form. If marketing process is performed on the 'produce or rent in kind', which can be sold in its raw form in market, then income derived from such product is partly agricultural & partly non-agricultural income. (Detail discussion is given later in this chapter)

5. Any income derived from a building subject to fulfillment of the following conditions -

- a. The building should be occupied by the cultivator or receiver of rent in kind.
- b. The building should be on or in the immediate vicinity of the land, being situated in India and used for agricultural purposes.
- c. The building should be used as dwelling house or store-house or other out building.

- d. The land is either situated in –
 - i. Rural area; or
 - ii. Urban area¹ and assessed to land revenue / local rates.

Taxpoint:

- Where such land or building is used for non-agricultural purpose then any income derived from such land or building shall not be treated as agricultural income.
- Income derived from land being let out for storing crop shall not be agricultural income.
- Building should be owned and occupied by the land-holder if he receives rent or revenue from the land. On the other hand, in case of cultivator or receiver of rent in kind, it is enough that the building is occupied by him.

Notes

- a. **Profit on transfer of agricultural land:** Profit on transfer of agricultural land shall not be treated as agricultural income.
- b. **Nexus between agro-activity and agro-income:** There must be a close nexus between agro-activity and agro-income. Income by way of sale of commodity, being different from what is raised and processed, is not agricultural income. E.g. Assessee growing mulberry leaves to feed silkworms and to obtain silk-cocoons, income on sale of such silk-cocoons shall not be treated as agricultural income.

⁵**Agriculture or Agricultural operations or Agricultural purposes:** The Act nowhere defines the term agricultural operations or agricultural purposes. However, the Supreme Court laid down guidelines for the determination of the scope of these terms in CIT -vs.- Raja Benoy Kumar Sahas Roy. Accordingly, for the purpose, agricultural activity is divided into two parts:

- a. **Basic Operation:** It means application of human skill & labour upon the land, prior to germination.
E.g. Tilling of land, sowing of seeds, planting, irrigation, etc.

Taxpoint: Any spontaneous growth from land itself (i.e. without any human effort) cannot be termed as agricultural operation.

- b. **Subsequent Operation:** It means operations -
 - which fosters the growth and preserves the produce;
 - for rendering the produce fit for sale in market; and
 - which are performed after the produce sprouts from the land.

¹ Following is considered as urban area:

- a. land which is situated within the jurisdiction of any Municipality (whether known as a municipality, municipal corporation, notified area committee, town area committee, town committee, or by any other name) or Cantonment Board having population of 10,000 or more; or
- b. in any area within the distance, measured aerially,—

Population of the municipality or cantonment board	Area within the aerial distance from the local limits of such municipality or cantonment board is treated as non-rural area
More than 10,000 but not exceeding 1,00,000	Upto 2 kilometres
More than 1,00,000 but not exceeding 10,00,000	Upto 6 kilometres
More than 10,00,000	Upto 8 kilometres

Population, according to the last preceding census of which the relevant figures have been published before the first day of the previous year, shall be considered.

E.g. Digging the soil around the growths, removal of undesirable undergrowths, weeding, tending, pruning, cutting, harvesting, etc.

Taxpoint:

Activity	Whether treated as agricultural activity?
Mere Basic Operation	Agricultural activity
Mere Subsequent Operation	Not an agricultural activity
Subsequent operation together with basic operation	Agricultural activity

3.2 INSTANCES OF AGRICULTURAL (AGRO) INCOME

- Income from growing trade or commercial products like jute, cotton, etc. is an agro income.
- Income from growing flowers and creepers is an agro income.
- Plants sold in pots are an agro income provided basic operations are performed.
- Remuneration and interest to partner:** Any remuneration (salary, commission, etc.) received by a partner from a firm engaged in agricultural operation is an agro income.
Interest on capital received by a partner from a firm, engaged in agricultural operation is an agro income.
- Income arising by sale of trees grown on denuded parts of the forest after replanting and by carrying on subsequent operations, is an agro income.
- Compensation received from insurance company for damage caused by hail-storm to the green leaf of the assessee's tea garden is agricultural income. Further, no part of such compensation consists of manufacturing income, as such compensation cannot be apportioned under Rule 8 between manufacturing income and agricultural income.
- Any fee derived from land used for grazing of cattle, being used for agricultural operation, is an agro income.
- Any income derived from saplings or seedlings grown in a nursery shall be deemed to be agricultural income

3.3 INSTANCES OF NON-AGRICULTURAL (NON-AGRO) INCOME

- Salary received by an employee from any business (having agricultural income) is non-agro income.
- Dividend received from a company engaged in agricultural operation is non-agro income.
- Income from salt produced by flooding the land with sea-water is non-agro income.
- Income from fisheries, poultry farming, dairy farming, butter & cheese making, etc. is non-agro income.
- Breeding & rearing of livestock is non-agro income.
- Interest received by a moneylender in the form of agricultural produce is non-agro income.
- Profit on sale of standing crops after harvest, where such crops were acquired through purchase is non-agro income.
- Royalty income from mines is non-agro income.
- Remuneration to a Director or Managing Director from a company engaged in agricultural business is non-

agro income. The provision holds good even when such remuneration is on the basis of certain percentage of net profit.

10. Income earned by a cultivator from conversion of sugarcane (raised on own land) to jaggery is non-agro income to the extent to which income is related to such conversion only. This is because sugarcane itself is marketable.
11. Interest on arrears of rent receivable in respect of agricultural land is non-agro income.
12. Income from a land situated outside India is non-agro income
13. Annuity received by a person in consideration of transfer of agricultural land, is non-agro income.
14. Income on supply of water for agricultural operation is non-agro income. The provision holds good even when such income is received in the form of agro-produce.
15. Income from sale of trees and grasses grown spontaneously (without any human effort), is non-agro income.

3.4 TREATMENT OF PARTLY AGRICULTURAL & PARTLY NON-AGRICULTURAL INCOME

In case assessee is engaged in an integrated activity, comprising of agricultural activity as well as non-agricultural activity, then profit of such integrated activity shall be segregated into agricultural income and non-agricultural income in the following manner –

Rule	Case	Agricultural Income	Non-Agricultural Income
8	Assessee is engaged in the business of growing and manufacturing tea in India	60% of income	40% of income
	E.g., If an assessee earns ₹ 5 lakh (as per sec. 28) from the business of growing & manufacturing tea in India, then his business income will be ₹ 2 lakh (i.e., 40% of ₹ 5 lakh) & agro income will be ₹ 3 lakh (i.e. 60% of ₹ 5 lakh)		
7A	Assessee is engaged in the business of growing and manufacturing rubber in India	65% of income	35% of income
	Assessee is engaged in the business of growing and manufacturing Coffee in India		
7B(1)	• Coffee grown and cured by the seller in India	75% of income	25% of income
7B(1A)	• Coffee grown, cured, roasted and grounded by the seller in India, with or without mixing chicory or other flavouring ingredients	60% of income	40% of income
Salary and interest received by a partner from a firm growing and manufacturing tea, coffee or rubber: Such remuneration or interest shall be treated as partly agricultural income and partly business income as stated above.			

Any other case

For computing agricultural income from a business having both agricultural as well as non-agricultural income,

1. Assessee is required to prepare two Profit or Loss statements, one for agro-business & another for non agro-business
2. Agro expenses debited to Agro Profit or Loss and non agro expenses shall be debited to Non agro-business Profit or Loss

Note: Non-apportionable expenditure, related to composite business of agriculture and non-agriculture, is fully charged to non-agricultural business.

- Market value of any agricultural produce, which is utilised as raw material in such business, is to be treated as income for agro-business and expenditure for non agro-business.

3.5 IMPACT OF AGRICULTURAL INCOME ON TAX COMPUTATION

Sec. 10(1) of the Act exempts agricultural income from tax as our Constitution does not provide power to the Parliament to levy tax on agro-income. However, since 1973 an indirect method² has been found, to levy tax on agro-income. According to this method, agricultural income is included in the total income of the assessee for deciding the tax slab of the assessee.

The way to apply higher rate of tax-slab on non-agricultural income by including agricultural income in the total income of the assessee are as under:

Conditions for including agricultural income in the total income of the assessee

- The assessee is an individual, a Hindu-undivided family, a body of individual, an association of person or an artificial juridical person.
- The assessee has non-agricultural income exceeding the maximum amount of exemption (i.e. in case of Senior citizen ₹ 3,00,000, Super Senior citizen ₹ 5,00,000 and in case of other individual/ HUF/AOP / BOI / artificial juridical person ₹ 2,50,000)

² On the recommendation of the Committee on Taxation of Agricultural Wealth and Income headed by Dr. K. N. Raj

3. The agricultural income of the assessee exceeds ₹ 5,000.

Treatment

Step 2: Compute income tax on (Agro-income + Maximum exempted limit)

Step 3: Tax liability before cess = (Tax as per step 1) - (Tax as per step 2)

5.1 BASIC ELEMENTS OF SALARY

- Payer and payee must have employer and employee (or Master & Servant) relationship; and
- Payment must have been made by the employer in such capacity.

Employer-employee relationship

A payment can be construed as salary only if the payer is the employer and the payee is the employee of the payer.

- **Criteria for employer-employee relationship:** The key criteria to hold this relationship is that, employee is always bound to work as per the direction and supervision of the employer.
- **Payment in employer's capacity:** To treat any payment as salary it is necessary that the payer, being the employer, must have made the payment in such (employer's) capacity.
- **Contract of service vs contract for service:** In "contract of service", the employer can direct and control the duties and the manner of performance of the employee hence employer-employee relationship exists in such contract. However, in case of "contract for service" the contractee can simply decide and quote the object or target to be achieved but cannot decide or direct the manner of performance.
- **Agent and Principal:** If a person is acting as an agent for his principal, any commission or remuneration earned by the agent is not taxable under the head "Salaries". This is because, an agent is not the employee of his principal.
- **Salary received by a partner** from its firm shall not be taxable as salary, because there is no employer-employee relationship between the firm and the partner. Such salary shall be taxable under the head "Profits & gains of business or profession".
- **Salary received by proprietor from his proprietorship firm** is not an income. As proprietor and proprietorship firm are the same person and no one can earn from himself.
- **Remuneration to director** from his company can be treated as salary only if the director is employee of the company, otherwise the same shall be taxable under the head "Income from other sources".
Note: Directors' sitting fee is taxable under the head "Income from other sources".
- **Pension received by the widow** or legal heir of deceased employee is not taxable as salary as no employer-employee relationship exists between the payer and the payee. However, such amount shall be taxable under the head "Income from other sources".
- **Remuneration received by Judges** is taxable under the head "Salaries" even though they are not having any employer.

Concluding the above discussions, a payment received for services rendered, from a person other than employer, is not taxable under the head "Salaries" but may be taxed under the head "Profits & gains of business or profession" or "Income from other sources".

Illustration 1

State whether the following receipts should be treated as salary or not?

- A teacher receives emoluments in kind from school in which he teaches.
Yes, it is immaterial whether salary has been received in cash or in kind.
- A teacher of a college receives fees from an University for checking answer sheets.
No, as employer – employee relationship does not exist between payer and payee. (College-teacher is

not the employee of the University). Such receipt shall be taxable under the head 'Income from other sources'.

- A payment made to the Member of the Parliament or the State legislature.

No, as employer-employee relationship does not exist.

A member of the Parliament or the State legislature is not treated as employee of the Government. Payment received by them shall be taxable under the head "Income from other sources".

5.2 DEFINITION OF SALARY [SEC. 17(1)]

As per sec. 17(1) of the Income-tax Act, 1961, salary includes the following:

- Wages;
- Any annuity or pension;
- Any gratuity;
- Any fees, commission, perquisite or profits in lieu of or in addition to any salary or wages;
- Any advance of salary;
- Any payment received in respect of any period of leave not availed of by the assessee;
- The portion of the annual accretion in any previous year to the balance at the credit of an employee, participating in recognised provident fund, to the extent it is taxable;
- Transferred balance in a Recognised Provident Fund to the extent it is taxable.
- Contribution made by the employer in the previous year, to the account of an employee under a pension scheme referred to in sec. 80CCD [National Pension Scheme and Atal Pension Yojana].

5.3 GENERAL NOTES

- Salary & Wages are identical in the Income-tax Act
- Voluntary Payments: The Act does not make any difference between voluntary and contractual payment. Both are taxable as salary.
- Remuneration for Extra Work: Where an employee gets extra payment from his employer (in such capacity) for work performed outside the duties of his office and thus, such payment shall be taxable as salary.
- Salary from more than one source: If an individual receives salary from more than one employer during the same previous year, salary from each employer shall be accumulated and taxable under the head "Salaries".
- Salary from former, present or prospective employer is chargeable to tax under the head "Salaries". E.g. Pension from a former employer and advance salary from prospective employer shall be taxable under the head "Salaries".
- Foregoing of salary: Once salary has been earned by an employee, its subsequent waiver does not make it exempt from tax liability. Such waiver shall be treated as application of the income.

Note: However, where an employee opts to surrender his salary to the Central Government u/s 2 of Voluntary Surrender of Salaries (Exemption from Taxation) Act, 1961, the salary so surrendered shall not be taxable.

**5.4 BASIS OF CHARGE [SEC. 15]**

Salary is chargeable to tax either on 'due' basis or on 'receipt' basis, whichever is earlier. Hence, taxable salary includes:

- Advance salary (on 'receipt' basis): Salary paid in advance is taxable under the head 'Salaries' in the year of receipt.
Note: Such advance salary shall not be included again in the total income when the salary becomes due.
- Outstanding salary (on 'due' basis): Salary falling due is taxable under the head 'Salaries' in the year in which it falls due.
Note: Such due salary shall not be included again in the total income when it is received.
- Arrear salary: Any increment in salary with retrospective effect which have not been taxed in the past, such arrears will be taxed in the year in which it is allowed. Arrear salary are taxable on receipt basis

Provision illustrated

Mr. X joined A Ltd. for a salary of ₹ 25,000 p.m. on 1/4/2020. In the year 2021-22, his increment decision was pending. On 1/12/2022, his increment was finalized as for 2021-22: ₹ 5,000 p.m. and for 2022-23 ₹ 7,500 p.m. Such arrear salary received on 5/12/2022. Find Gross taxable salary. Further, salary of April 2023 has also been received in advance on 15/03/2023.

Solution

Gross taxable salary for the previous year 2022-23 shall be calculated as under:

Particulars	Workings	Amount
Salary for 2022-23	$(25,000 + 5,000 + 7,500) \times 12$	4,50,000
Arrear salary for 2021-22	$(5,000) \times 12$	60,000
Advance salary for April 2023		37,500
Gross total salary		5,47,500

Taxpoint: Method of accounting followed by the employee is irrelevant

Salary due vs Salary accrued

Salary due is different from salary accrued.

Example: Mr. X joined an organisation for ₹ 10,000 p.m. on 1st Dec. 2022, in which salary falls due on 1st day of every next month. In such case taxable salary for the previous year 2022-23 shall be ₹ 30,000 calculated as under:

Month	Amount of Salary	Due date of salary	Taxable in the P.Y.
December 2022	10,000	1/1/2023	2022-23
January 2023	10,000	1/2/12023	2022-23
February 2023	10,000	1/3/2023	2022-23
March 2023	10,000	1/4/2023	2023-24

Advance salary vs Advance against salary

'Advance salary' is taxable u/s 17(1)(e) whereas 'Advance against salary' is treated as loan hence, not taxable under the head "Salaries".

Place of accrual of salary

Salary which is received in India or earned in India shall be taxable in hands of all assessee whether resident or non resident in India. Salary is deemed to be earned in India provided -

- The service is rendered in India;
- The rest period or leave period, which is preceded and succeeded by the service rendered in India and forms part of the service contract of employment.

Exceptions:

- Salary paid to a Government employee, being a citizen of India, is deemed to accrue in India, irrespective of place of work [Sec. 9(1)(iii)].
- Pensions payable outside India to certain categories of Government employees and Judges who permanently reside outside India, shall not be deemed to arise or accrue in India. [Sec. 9(2)]

Taxpoint: Salary is earned at the place where service is rendered.

Employee	Employer	Place of service	Salary received	Taxable
Any	Any	India	Any where	Yes
Any	Any	Any where	In India	Yes
Ordinarily resident in India	Any	Any where	Any where	Yes
Indian citizen	Government	Outside India	Any where	Yes
Not ordinarily resident/Non resident	Any	Outside India	Outside India	No

- **Basic Salary:** It is the sum paid by employer to employee as salary and shall be fully taxable.
- **Pay-Scale (Grade system):** It is a system of payment where increment scale is pre-known to employee. E.g. Basic salary is given as 5,000 – 1,000 – 8,000 – 2,000 – 12,000. The above data indicates the increment schedule. As per this schedule initial payment is ₹ 5,000 p.m. which will be increased by ₹ 1,000 every year until salary reaches to ₹ 8,000 p.m. Once salary reaches to ₹ 8,000 then increment will be ₹ 2,000 every year till salary reaches the scale of ₹ 12,000. Accordingly, basic salary is calculated.
- **Dearness Allowance (DA) or Dearness Pay (DP):** It is an extra amount given to an employee to meet the burden of inflation or increased cost of living. This is fully taxable.

Note: Sometimes, it is given that DA/DP is not forming a part of retirement benefit (Leave encashment, Pension, Provident Fund, etc.). In such case, DA/DP itself shall be fully taxable. However, for calculating taxable Leave encashment, Pension, HRA, etc., DA/DP will be included in 'salary' only if it forms a part of retirement benefit.

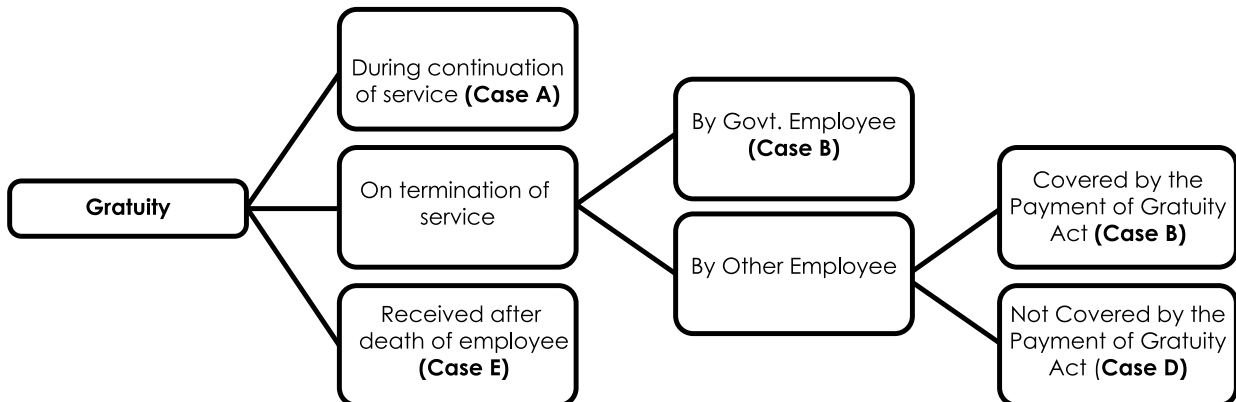

- **Fees:** An employee may be given apart from basic salary, extra remuneration for doing specific job under the terms of employment. Such extra remuneration is termed as fee and shall be fully taxable.
- **Commission:** It may be as a percentage of turnover or as a percentage of profit. In either case, it is taxable.
- **Bonus:** Bonus may be contractual or voluntary. In either case, it is fully taxable.

- i. Contractual bonus is taxable as bonus whereas voluntary bonus is taxable as perquisite.
- ii. It is taxable in the year of receipt.
- iii. If arrear bonus is received, assessee can claim relief u/s 89(1).

RETIREMENT BENEFITS

5.6 GRATUITY

Gratuity is a retirement benefit given by the employer to the employee in consideration of past services. Sec. 10(10) deals with the exemptions from gratuity income. Such exemption can be claimed by a salaried assessee. Gratuity received by an assessee other than employee shall not be eligible for exemption u/s 10(10). E.g. Gratuity received by an agent of LIC of India is not eligible for exemption u/s 10(10) as agents are not employees of LIC of India.

Treatment:**Case A: Gratuity received during continuation of service**

Gratuity received during continuation of service is fully taxable in the hands of all employees (whether Government or non-Government employee).

Case B: Gratuity received at the time of termination of service by Government employee

Gratuity received at the time of termination of service by Government employee is fully exempt from tax u/s 10(10)(i).

Taxpoint: Government employee, here, includes employee of the Central or the State Government or local authority but does not include employee of statutory corporation.

Case C: Gratuity received at the time of termination of service by non-government (including foreign government) employee, covered by the Payment of Gratuity Act

In such case, minimum of the following shall be exempted from tax u/s 10(10)(ii):

1. Actual Gratuity received;
2. ₹ 20,00,000; or
3. 15 working days salary for every completed year of service
[Arithmetically, $15/26 \times \text{Completed year of service} \times \text{Salary p.m.}$]

Notes

- a. Completed year of service includes any fraction in excess of 6 months. (e.g. 7 years 9 months will be treated as 8 years; 7 years 5 months will be treated as 7 years and 7 years 6 months will be treated as 7 years).
- b. Salary here means Basic + DA, last drawn

In case of an employee of a **seasonal establishment**: 15 days shall be replaced by 7 days. (i.e., $\frac{7}{26}$ * Completed year of service * Salary p.m.)

In case of a **piece-rated employee**: 15 days salary would be computed on the basis of average of total wages (excluding wages paid for over time) received for a period of 3 months immediately preceding the termination of his employment.

Ashok, an employee of ABC Ltd., receives ₹ 8,05,000 as gratuity under the Payment of Gratuity Act, 1972. He retires on 10th September, 2022 after rendering service for 35 years and 7 months. The last drawn salary was ₹ 32,700 per month. Calculate the amount of gratuity chargeable to tax.

Solution

Computation of taxable gratuity of Mr. Ashok for the A.Y.2023-24

Particulars	Details	Amount
Gratuity received		8,05,000
Less: Minimum of the following is exempted as per Sec 10(10)(ii):		
Actual gratuity received	8,05,000	
Statutory Amount	20,00,000	
$\frac{15}{26}$ x completed year of service x salary p.m. [$\frac{15}{26}$ x 36 x ₹ 32,700]	6,79,154	6,79,154
Taxable Gratuity		1,25,846

Case D: Gratuity received at the time of termination of service by non-government employee (including foreign government employee) not covered under the Payment of Gratuity Act

Gratuity received at the time of termination of service by non-government employee being not covered under the Payment of Gratuity Act shall be exempted from tax u/s 10(10)(iii) to the extent of lower of the following:

- Actual Gratuity received;
- ₹ 20,00,000; and
- $\frac{1}{2}$ x Completed year of service x Average Salary p.m.

Notes

- While calculating completed year of service ignore any fraction of the year. (e.g. 7 years 9 months will be treated as 7 years only)
 - Average Salary here means, Basic + DA# + Commission (being a fixed percentage on turnover) being last 10 months average salary, immediately preceding the month of retirement. (E.g. If an employee retires on 18/11/2022 then 10 months average salary shall be a period starting from Jan' 2022 and ending on Oct' 2022).
- # If DA is not forming a part of retirement benefit then the same shall not be included in salary for above purpose. However, DA itself shall be fully taxable.

Mr. Oldman retired from his job after 29 years 6 months and 15 days of service on 17/12/2022 and received gratuity amounting ₹ 4,00,000. His salary at the time of retirement was basic ₹ 6,000 p.m., dearness allowance ₹ 1,200 p.m., House rent allowance ₹ 2,000, Commission on turnover 1%, Commission on profit ₹ 5,000. He got

- a. Government employee b. Non-Government employee, covered by the Payment of Gratuity Act;
c. Non-Government employee not covered by the Payment of Gratuity Act

Solution

- a. Government employee: Taxable amount: Nil as per section 10(10)(i).
b. Other cases:

Computation of taxable gratuity of Mr. Oldman for the A.Y. 2023-24

Particulars	Case (b)		Case (c)

– Statutory Amount	20,00,000		20,00,000

Taxable Gratuity		2,75,385		2,84,000

Workings for case (b):

- Completed year of service is 30 years.
- Salary here means (Basic + Dearness Allowance) last drawn. i.e. (₹ 6,000 + ₹ 1,200) = ₹ 7,200

Workings for case (c):

- Completed year of service is 29 years.
- Salary here means Basic + Dearness Allowance + Commission on turnover, being last 10 months average just preceding the month of retirement, as shown below:

Particulars	1	2	3	4	5	6	7	8	9	10	Total
	Feb'22	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	
Basic	5,000	5,000	6,000	6,000	6,000	6,000	6,000	6,000	6,000	6,000	58,000
D.A.	1,200	1,200	1,200	1,200	1,200	1,200	1,200	1,200	1,200	1,200	12,000
Commission	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000	10,000
Total											80,000
Average salary = ₹ 80,000 / 10 months											8,000

Note: Applicable in Case D and not in Case C

While claiming the statutory amount (i.e. ₹ 20,00,000) any amount earlier claimed as deduction u/s 10(10) shall be reduced from ₹ 20,00,000.

Example: An assessee left a job in the year 2001-02 and claimed a deduction of ₹ 40,000 for gratuity in that year. He joined another organisation, left the same in the year 2022-23, and received a gratuity of ₹ 19,80,000. While calculating exemption for gratuity for the assessment year 2023-24, statutory amount of ₹ 20,00,000 shall be reduced by earlier deduction claimed i.e. ₹ 40,000. Hence, statutory deduction limit for the assessee in the A.Y. 2023-24 will be ₹ 19,60,000 only.

Note: Applicable in Case C and Case D

Where gratuity is received from more than one employer: Where gratuity is received from more than one employer in the same previous year, the aggregate amount exempt from tax shall not exceed statutory deduction.

Case E: Gratuity received after death of employee

- The Act is silent on treatment of gratuity received after death of employee. However, on following grounds, it can be concluded that gratuity received by a legal heir shall not be taxable in the hands of the recipient -
- A lump sum payment made gratuitously to widow or legal heir of employee, who dies while in service, by way of compensation or otherwise is not taxable under the head "Salaries". [Circular No.573, Dated 21.08.1990]
- Unutilised deposit under the capital gains deposit account scheme shall not be taxable in the hands of legal heir. [Circular No.743 dated 6/5/1996]
- Legal representative is not liable for payment of tax on income that has not accrued to the deceased till his death.
- Leave salary paid to the legal heir of deceased employee is not taxable as salary. [Circulars Letter No. F.35/1/65-IT(B), dated 5/11/1965]. Further, leave salary by a legal heir of the Government employee who died in harness is not taxable in the hands of the recipient [Circulars No.309, dated 3/7/1981].

Taxpoint: If gratuity becomes due before the death of the assessee (no matter when and by whom received), it shall be taxable in the hands of employee. Whereas if gratuity becomes due after the death of assessee, it shall not be taxable (even in the hands of legal heir of the assessee).

Mrs. X is working with ABC Ltd. since last 30 years 9 months. Her salary structure is as under:

Basic ₹ 5,000 p.m. Dearness allowance ₹ 3,000 p.m.

On 15/12/2022, she died. State the treatment of gratuity in following cases:

Case 1: Mrs. X retired on 10/12/2022 & gratuity ₹ 4,00,000 received by her husband (legal heir) as on 18/12/2022.

Case 2: Husband of Mrs. X received gratuity on 18/12/2022 falling due after death of Mrs. X.

Mrs. X is covered by the Payment of Gratuity Act.

Solution

In Case 1, Computation of taxable gratuity in hands of Mrs. X for the A.Y. 2023-24

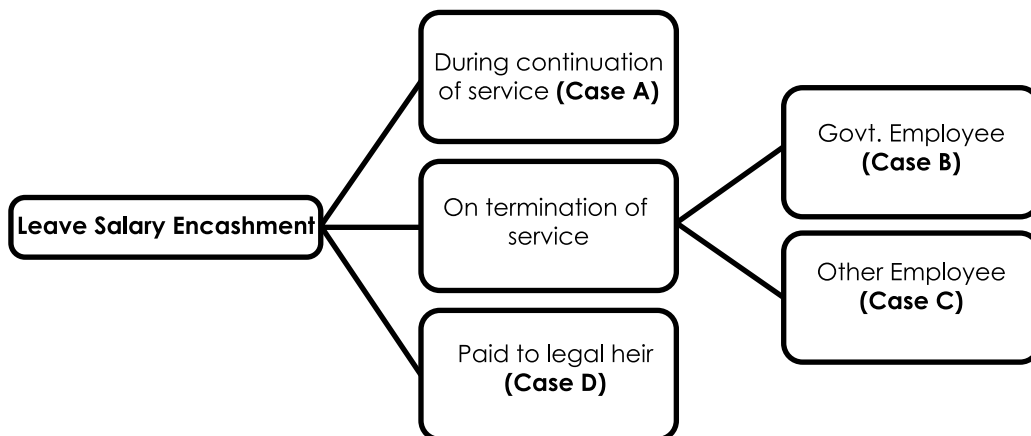

Particulars	Details	Amount
Total Gratuity received		4,00,000
Less: Minimum of the following is exempted as per Sec 10(10)(ii):		
Actual gratuity received	4,00,000	
Statutory Amount	20,00,000	
15/26 x completed year of service x salary p.m. [15/26 x 31 x ₹ 8,000]	1,43,077	1,43,077
Taxable Gratuity		2,56,923

In Case 2, Since gratuity falls due after the death of Mrs. X hence the same is not taxable in hands of Mrs. X. The said gratuity is not taxable even in hands of husband of Mrs. X.

5.7 LEAVE SALARY ENCASHMENT

As per service contract and discipline, normally, every employee is allowed certain period of leave (with pay) every year. Such leave may be availed during the year or accumulated by the employee. The accumulated leave lying to the credit of an employee may be availed subsequently or encashed. When an employee receives an amount for waiving leave lying to his credit, such amount is known as leave salary encashment.

Treatment:

Case A: Leave salary received during continuation of service

Leave salary during continuation of service is fully taxable in the case of the Government employee as well as other employees [Sec. 17(1)(va)].

Case B: Leave salary received by Government employee on termination of service

At the time of termination of service, leave salary received by the Central or State Government employee is fully exempted u/s 10(10AA)(i).

Taxpoint: Government employee here does not include employee of local authority or public sector undertaking or foreign Government employee.

Case C: Leave salary received by non-Government employee on termination of service

At the time of termination of service, leave salary received by a non-Government employee (including employee of foreign Government, local authority, public sector undertaking) is exempted to the minimum of

the following u/s 10(10AA)(ii):

- a. Actual amount received as leave salary
- b. ₹ 3,00,000/-
- c. 10 x Average salary p.m.
- d. To the maximum of 30 days (normally taken as 1 month) average salary¹ for every completed year of service², subject to deduction for actual leave availed during the tenure of service.

Academically: [(1 x completed year of service) – leave actually taken in terms of month] x average salary p.m.]

¹ Average salary means Basic + DA[#] + Commission (as a fixed percentage on turnover) being last 10 months average salary ending on the date of retirement or superannuation. (e.g. if an employee retires on 18/11/2022 then 10 months average salary shall be a period starting from 19th Jan' 2022 and ending on 18th Nov' 2022).

[#] If DA is not forming a part of retirement benefit then the same shall not be included in salary for the above purpose. However, DA itself shall be fully taxable.

² While calculating completed year of service, ignore any fraction of the year. E.g. 10 years 9 months shall be taken as 10 years.

Notes

- a. **Leave encashment received from more than one employer:** Where leave encashment is received from more than one employer in the same previous year, the aggregate amount exempt from tax shall not exceed the statutory deduction i.e. ₹ 3,00,000.
- b. **Earlier deduction claimed for leave encashment:** While claiming the statutory amount (i.e. ₹ 3,00,000) any deduction claimed earlier as leave encashment shall be reduced from ₹ 3,00,000.

Illustration 5

- a. Mr. Bhanu is working in Zebra Ltd. since last 25 years 9 months. Company allows 2 months leave for every completed year of service to its employees. During the job, he had availed 20 months leave. At the time of retirement on 10/8/2022, he got ₹ 1,50,000 as leave encashment. As on that date, his basic salary was ₹ 5,000 p.m., D.A. was ₹ 2,000 p.m., Commission was 5% on turnover + ₹ 2,000 p.m. (Fixed p.m.). Turnover effected by the assessee during last 12 months (evenly) ₹ 5,00,000. Bhanu got an increment of ₹ 1,000 p.m. from 1/1/2022 in basic and ₹ 500 p.m. in D.A. Compute his taxable leave encashment salary.
- b. How shall your answer differ if the assessee had taken 2 months leave instead of 20 months, during his continuation of job.

Solution

Working

1. Completed year of service: 25 years 9 months = 25 years

Mr. Das retired on 31/3/2023. At the time of retirement, 18 months leave was lying to the credit of his account. He received leave encashment equivalent to 18 months Basic salary ₹ 1,26,000. His employer allows him 1½ months leave for every completed year of service. During his tenure, he availed of 12 months leave. At the time of retirement, he also gets D.A. ₹ 3,000. His last increment of ₹ 1,000 in basic was on 1/4/2022. Find taxable leave encashment.

Solution

Working

- Calculation of completed year of service:** Employee has received 18 months leave encashment on termination of service as well he had enjoyed leave of 12 months during his tenure. That means he had received a leave benefit of 30 months. Since leave allowed by employer is 1½ months for every completed year of service, this signifies that Mr. Das had completed 20 years (being 30/1½) of service.
- Salary here means, Basic + DA + Commission, being last 10 months average from the date of retirement. There is no increment in last 10 months (last increment was on 1/4/2022) and there is no commission, hence Average Salary = ₹ 7,000 (i.e. ₹ 1,26,000/18) + ₹ 3,000 = ₹ 10,000 p.m.

5.15 PERQUISITE [SEC. 17(2)]

Meaning and Chargeability

In common parlance, perquisite means, any casual emoluments or benefits attached to an office or position, in addition to salary or wages, which is availed by an employee. In other words, perquisites are the benefits in addition to normal salary.

As per sec. 17(2) of the Income tax Act, Perquisite includes -

- i. Value of rent-free accommodation provided by the employer.
- ii. Value of concession in rent in respect of accommodation provided to the assessee by his employer.
- iii. The value of any benefit or amenity granted or provided free of cost or at a concessional rate to a 'specified employee'.
- iv. Amount paid by an employer in respect of any obligation which otherwise would have been payable by the employee.

Taxpoint: Any obligation of the employee met by the employer shall be taxable on cash basis i.e. in the year in which the amount is paid by the employer.

Example: Employer has paid employees' professional tax liability pertaining to period 2021-22 in April 2022, such perquisite shall be taxable in the previous year 2022-23.

- v. Sum payable by an employer, whether directly or through a fund other than recognised provident fund or approved superannuation fund or deposit-linked insurance fund, to effect an assurance on the life of the assessee or to effect a contract for an annuity.

Taxpoint: Such sum shall be taxable on accrual basis.

- vi. The value of any specified security or sweat equity shares allotted or transferred, directly or indirectly, by the employer, or former employer, free of cost or at concessional rate to the assessee.
- vii. The amount or the aggregate of amounts of any contribution made to the account of the assessee by the employer:
 - a. in a Recognised Provident Fund (RPF);
 - b. in the scheme referred to in sec. 80CCD(1) [i.e., NPS]; and
 - c. in an approved superannuation fund,- to the extent, it exceeds ₹ 7,50,000 in a previous year.

Taxpoint: There is combined upper limit of ₹ 7,50,000 in respect of employer's contribution in a year to NPS, superannuation fund and recognised provident fund and any excess contribution is taxable.

- viii. The annual accretion (like interest, dividend, etc.) during the previous year to the balance at the credit of the aforesaid fund or scheme to the extent it relates to the contribution referred above.

Taxpoint: Such accretion shall be included in the total income and shall be computed in such manner as may be prescribed.

- ix. the value of any other fringe benefit or amenity as may be prescribed.

Notes

- a. Perquisites are taxable under the head "Salaries" only if, they are:

- Allowed by an employer to his employee or any member of his household.
 - Resulting in the nature of personal advantage to the employee.
 - Derived by virtue of employee's authority.
- b. Perquisite may be contractual or voluntary. In other words, it is not necessary that the benefit must have been received under an enforceable right.
- c. Perquisite may be received from the former, present or prospective employer
- d. Member of household includes:
- Spouse (whether dependent or not)
 - Parents (whether dependent or not);
 - Children and their spouse (whether dependent or not);
 - Servants; and
 - Dependents.

§ Specified employees [Sec. 17(2)(iii)]

Specified employee means:

1. A director employee.

Note: It is immaterial -

- a. whether he is a nominee of the workers, financial institutions, etc. on the board;
- b. whether the employee is full time director or a part time; and
- c. whether he was a director throughout the previous year or not.

Taxpoint:

- A director-employee shall be treated as specified employee of that company only.
- Example: If Manu is working with X Ltd. as director-employee and with Y Ltd. as employee only, she will be treated as specified employee only for X Ltd. and not for Y Ltd.

2. Director even for a day is construed as specified employee of such company.

An employee who has substantial interest in the employer company.

Substantial interest means the employee who beneficially holds 20% or more voting power in the employer company.

Taxpoint:

- Such employee shall be treated as specified employee of that company only.
- The main criteria is beneficial ownership and not the legal ownership.
- Substantial interest must be held by the assessee individually, and not together with relative.

Example: Mr. Mohan holds 18% equity share of X Ltd. and his wife holds 7% equity share of the same company. In such case Mr. Mohan will not be treated as specified employee.

3. An employee whose aggregate salary from all employers together exceeds ₹ 50,000 p.a.

For computing the sum of ₹ 50,000, following are to be excluded/deducted:

- a. All non-monetary benefits;
- b. Non-taxable monetary benefits;
- c. *Deduction u/s 16(i), 16(ii) and 16(iii) [Discussed later in this chapter]; and
- d. Employer's contribution to Provident Fund.

Taxpoint:

- Where salary is received from two or more employers, the aggregate salary from all employers shall be considered for calculation of above ceiling. And if aggregate salary exceeds ₹ 50,000 p.a. the employee shall be treated as specified employee of all employers.

Example: Mr. Rohan is working with X & Co. and Y Ltd. His taxable monetary salary from X & Co. is ₹ 36,000 p.a. and from Y Ltd. is ₹ 45,000 p.a. Since the aggregate salary is more than ₹ 50,000 p.a. Mr. Rohan will be treated as specified employee for both the employer i.e. X & Co. and Y Ltd.

- Even 'DA not forming a part of salary for retirement benefit' shall be included in salary, while determining the above limit of ₹ 50,000 p.a.

VALUATION OF PERQUISITES

Valuation of Rent-free unfurnished accommodation (RFA) [Rule 3(1)]

Rent-free accommodation is taxable in the hands of all employees (except the Judges of High Court or Supreme Court and Official of the Parliament or Union Minister and a leader of Opposition).

Accommodation here includes fixed as well as floating structure.

Fixed Structure	A house, flat, farm house (or a part there of), accommodation in hotel, motel, service apartment, a guest house, etc.
Floating Structure	A caravan, mobile home, ship etc.

For the purpose of valuation, employees are divided into two categories:

- a. Employees of the Central or State Government or of any undertaking under the control of the Government;
- b. Other employees
 - i. **Central and State Government Employee (including military person)**

Where the accommodation is provided by the Central Government or any State Government to the employees either holding office or post in connection with the affairs of the Union or of such State, the value of perquisite in respect of such accommodation is equal to the licence fee, which would have been determined by the Central or State Government in accordance with the rules framed by the Government.

{**Academically**, the taxable value of the perquisite will be mentioned in the problem}

Taxpoint: Employees of a local authority or a foreign government are not covered under this category.

**II. Other Employees (residual category)**

The value of perquisite is determined as per the following table:

City in which accommodation is provided	Accommodation is owned by the employer	Accommodation is not owned by the employer
Having population exceeding 25 lacs as per 2001 census	15% of salary for the period during which the employee occupied the said accommodation.	Rent paid or payable by the employer or 15% of salary, whichever is lower.
Having population exceeding 10 lacs but not exceeding 25 lacs as per 2001 census	10% of salary for the period during which the employee occupied the said accommodation.	
Any other city	7.5% of salary for the period during which the employee occupied the said accommodation.	

Notes

a. **Salary for the purpose of Rent free accommodation:** Salary here means:

Basic + Dearness allowance/pay (if it forms a part of retirement benefit) + Bonus + Commission + Fees + All other taxable allowances (only taxable amount) + Any other monetary payment by whatever name called (excluding **perquisites and lump-sum payments received at the time of termination of service or superannuation or voluntary retirement, like gratuity, severance pay leave encashment, voluntary retrenchment benefits, commutation of pension and similar payments**)

Taxpoint

- Salary shall be determined on due basis.
 - Where an assessee is receiving salary from two or more employers, the aggregate salary for the period during which accommodation has been provided (by any of the employer) shall be considered.
 - Monetary payments, which are not in the nature of perquisite, shall be considered. E.g. Leave encashment received during the continuation of service shall be included in salary for this purpose. However, if such pay leave is received at the time of retirement, then such receipt shall not be considered.
 - Here salary does not include employer's contribution to Provident Fund of the employee.
- b. **Exemption of 90 days in case of allotment of two houses:** Where an employee is transferred from one place to another and he is provided with an accommodation at new place also, the value of perquisite shall be taken for only one such house having lower value for a period not exceeding 90 days. Thereafter, the values of both such houses are taxable.
- c. Any accommodation provided to an employee working at a mining site; or an on-shore oil exploration site; or a project execution site; or a dam site; or a power generation site; or an off-shore site, which
1. being of a temporary nature and having plinth area not exceeding 800 sq.ft. is located not less than 8 kms away from the local limits of any municipality or a cantonment board; or
 2. is located in a remote area.
- d. Remote area here means an area located at least 40 K.M. away from a town having population not exceeding 20,000 as per latest published census.
- e. Where the accommodation is provided by the Central Government or any State Government to an employee who is serving on deputation with any body or undertaking under the control of such Government:
- i. the employer of such an employee shall be deemed to be that body or undertaking where the employee is serving on deputation; and

- ii. the value of perquisite of such an accommodation shall be the amount calculated as per residual category (II) considering as if the accommodation is owned by the employer.

Other furniture	1,000 p.m.	20,000

Calculate gross taxable salary of Sri Ashutosh for the A.Y. 2023-24.

**Solution**

Computation of gross taxable salary of Sri Ashutosh for the A.Y. 2023-24

Particulars	Amount	Amount
Basic Salary		3,00,000
Dearness allowance (Allowance for increased cost of living)		60,000
Children Education Allowance	36,000	
Less: Exemption (₹ 100 x 2 x 12)	2,400	33,600
Rent Free Furnished Accommodation		
Value of Accommodation (10% of Salary ¹)	39,360	
Value of furniture ²	17,500	56,860
Gross Taxable Salary		4,50,460

¹ Salary for valuation of rent- free accommodation:

Basic Salary	3,00,000
Dearness allowance	60,000
Education Allowance	33,600
Total	3,93,600

² Valuation of taxable perquisite for furniture:

Furniture	Perquisite for hired furniture	Perquisite for owned furniture	Total Taxable value of furniture
T.V.	2,000	-	2,000
Refrigerator	-	10% of 10,000	1,000
Washing Machine	-	10% of 5,000	500
Other furniture	12,000	10% of 20,000	14,000
Total			17,500

Municipal value and Fair rent are irrelevant.

Valuation of accommodation provided at concessional rent

Valuation will be made as if the rent-free accommodation is provided and the amount so computed will be reduced by the rent payable by the employee.

Value of Rent free accommodation as usual	*****
Less: Rent payable by employee to employer for the above facility	****
Taxable value of perquisite	****

Taxpoint: The above rule of valuation shall be applicable in case of the Government employee also.

Accommodation provided in a hotel

In this case, value of perquisite shall be minimum of the following:

- 24% of salary for the period such accommodation is provided; or
- Actual charges paid or payable to such hotel.

However, if the following conditions are satisfied then nothing is taxable -

- Such accommodation is provided for a period not exceeding in aggregate 15 days; and
- Such accommodation is provided on transfer of employee from one place to another place.

Note: If the employee pays any rent, the value so determined shall be reduced by the rent actually paid or payable by the employee

Taxpoint:

- Salary here has the same meaning as in the case of rent-free accommodation.
- Above rule shall be applicable whether the assessee is a Government or a Non-Government employee.
- If the facility is provided for more than 15 days, then the perquisite is exempt for first 15 days and thereafter taxable. E.g. if facility has been provided for 45 days then taxable perquisite shall be only for last 30 days.
- Hotel includes licensed accommodation in the nature of motel, service apartment or guest house.

5.16 INSURANCE PREMIUM PAYABLE BY EMPLOYER

As per sec. 17(2)(v), following sums payable by an employer shall be taxable perquisite in the hands of all employees, whether it is paid directly or through a fund (other than recognised provident fund or approved superannuation fund or deposit-linked insurance fund),

- to effect an assurance on the life of the assessee; or
- to effect a contract for an annuity

5.35 PROVIDENT FUND

Provident fund scheme is a saving device in the hands of salaried class. It is a retirement benefit scheme. Under this scheme, a stipulated sum is regularly deducted from the salary of the employee as his contribution towards the fund. The employer also, generally, contributes a similar amount out of his pocket to the fund. The employer's and employee's contribution are together invested in such fund. Interest earned thereon is also credited to the fund of the employee. Thus, provident fund scheme is a great media to initiate and mobilise small savings to a large scale. On termination of service or retirement, employee receives the whole accumulated fund, subject to certain conditions. Hence, provident fund has four components i.e. Employer's contribution; Employee's contribution; Interest on employer's contribution; and Interest on employee's contribution

Provident fund is of four types, viz:

- Statutory Provident Fund (SPF):** Statutory provident fund is set up under the provisions of the Provident Funds Act, 1925. Government and Semi-Government organisations, local authorities, railways, Universities and recognised educational institutions maintain Statutory Provident Fund.
- Recognised Provident Fund (RPF):** The provident fund scheme is framed under the Employee's Provident Fund and Miscellaneous Provisions Act, 1952 (hereinafter referred as PF Act). The PF Act covers any establishment employing 20 or more persons. However, any establishment employing less than 20 persons can also join the scheme provided employer and employee both agree to do so. Further, if an employer creates his own scheme for provident fund then he can do so subject to recognition from the Commissioner of Income tax.
- Unrecognised Provident Fund (URPF):** If a provident fund scheme is created by an employer, which is not recognised by the Commissioner of Income tax, then such fund is known as Unrecognised provident fund.
- Public Provident Fund (PPF):** The Central Government has established a fund for the benefit of public to mobilise personal savings. Any member of the public, whether salaried or self-employed, can contribute to the fund by opening a provident fund account at any branch of the State Bank of India or its subsidiaries or other specified bank. Even a salaried employee can simultaneously become a member of employee's provident fund (whether statutory, recognised or unrecognized) and public provident fund. Any amount in multiple of ₹ 5 (subject to minimum of ₹ 500 and maximum of ₹ 1,50,000 p.a.) may be deposited in this account. Interest is credited every year but payable only at the time of maturity. Interest earned on this fund is exempt from tax u/s 10(11).

Transferred Balance (Conversion of URPF to RPF) [Rule 11(4) of Part A of the Fourth schedule]

An organisation maintaining URPF, may later get recognition from Commissioner of Income tax. In such case, the accumulated balance under URPF shall be converted to RPF. Tax treatment of such transferred balance will be as under:

Calculation is made of all sums comprised in the transferred balance that would have been liable to income tax if the recognition of the fund had been in force from the date of institution of the fund. However, in case of serious accounting difficulty, the Commissioner may make a summary calculation of such aggregate.

Such aggregate sum is deemed to be the income received by the employee in the previous year in which the recognition of the fund takes effect.

Note: On taxability of such conversion, assessee cannot claim relief u/s 89(1).

Mr. Sharma has been appointed as an accountant of ABC Ltd as on 1/4/2020, since then he is working with the same company. The salary structure and increment details are as under:

Basic ₹ 5000 - 1000 - 8000 - 1500 - 14000

D.A. ₹ 3000 – 500 – 5000 – 1000 - 10000

He and his employer contribute to URPF 14% of basic and DA.

Every year 9% interest is credited to such fund. As on 1/4/2022, the fund gets recognition. Hence, the accumulated balance in URPF was transferred to RPF. Comment on tax treatment of such transferred balance.

Solution

Statement showing treatment of transferred balance:

Year	Employer's contribution to fund	Exempted amount considering the fund as RPF	Difference
2020-2021	14% of (60,000 + 36,000) i.e. ₹ 13,440	12% of ₹ 96,000 i.e. ₹ 11,520	₹ 1,920
2021-2022	14% of (72,000 + 42,000) i.e. ₹ 15,960	12% of ₹ 1,14,000 i.e. ₹ 13,680	₹ 2,280
Total			₹ 4,200

Current year (i.e. 2022-23) contribution shall be treated as RPF and taxable amount will be ₹ 2,640 [being (14 - 12)% of (₹ 84,000 + ₹ 48,000) i.e. 2% of ₹ 1,32,000].

Since interest rate is less than the exempted limit (i.e. 9%), hence interest portion is not taxable.

Total taxable salary on account of provident fund for the A.Y. 2023-24 is ₹ 6,840 (being ₹ 4,200 + ₹ 2,640).

16(iii) Professional Tax (₹ 1,600 + ₹ 600)	2,200	52,200
Taxable Salary		40,600

NOTES

A. Conversion of Net Salary into Gross Salary

Sometimes net basic salary is given after deduction of TDS, Loan repayment, PF deduction etc that needs to be grossed up as under:

Net Salary = Gross Salary – Employee's contribution to provident fund – TDS – loan repayment by employee – other deduction from salary (if any).

Examples: Find basic salary of Mr. Singh having the following salary structure:

a. Net Basic Salary received	₹ 1,00,000
b. Deduction from salary 10% of basic salary as contribution to RPF	
c. TDS	₹ 9,000
d. Repayment of earlier loan	₹ 35,000

In this case, Basic Salary shall be computed as under:

Net basic salary = Basic salary – TDS – Loan repayment – Contribution to RPF

Let the basic salary be X

$$1,00,000 = X - 9,000 - 35,000 - 0.1X$$

$$1,44,000 = 0.9X$$

X = 1,60,000. Hence, basic salary for the year is ₹ 1,60,000.

- 6.2 Some special cases
- 6.3 Exempted properties
- 6.4 Computation of Income
- 6.5 Let out property [Sec. 23(1)]
- 6.6 Taxes levied by local authority (Municipal Tax) [Proviso to Sec. 23(1)]

- 6.11 Partly self-occupied and partly let-out [Sec. 23(3)]
- 6.12 Recovery of unrealised rent and Arrears Rent [Sec. 25A]

As per sec. 22, the annual value of property consisting of any building or land appurtenant thereto of which assessee is the owner, other than such portion of such property as he may occupy for the purposes of any business or profession carried on by him shall be chargeable to income tax under the head "Income from house property."

It is an exceptional feature of this head that rather than actual income from house property, earning capacity of house property is taxable. As stated u/s 22 that "annual value" of the property is taxable rather than actual income of the property. (Annual value being discussed in later part of this chapter)

6.1 CHARGEABILITY [SEC. 22]

Annual value of the property shall be taxable under the head "Income from house property" subject to the following:

Condition 1: Building or land appurtenant thereto

The term 'house property' is not defined in Income tax Act. However, various judicial interpretation has construed the term house property as -

- any land surrounded by wall having roof or not; and
- any land appurtenant to a building.

Notes

- a. Building includes an enclosure of bricks, stone work or even mud walls
- b. Building includes residential as well as commercial houses.
- c. Vacant land is not a house property. Hence, income from letting of vacant land is not taxable under this head but taxed as business income or as income from other sources.
- d. Roof is not necessary for a non-residential house property. A large stadium or a open air swimming pool is also considered as building
- e. It should be a permanent structure meant for a useful purpose.
- f. If a building consists of several flats, then each flat is considered as a separate house property.
- g. An incomplete, a ruined or demolished house cannot be termed as house property.
- h. Land appurtenant to a building includes car parking area, approach roads, backyards, courtyards, etc. attached to such building.

Condition 2: Owner

Annual value of a property is assessed to tax only in the hands of the owner even if he is not in receipt of any income. Any person other than the owner, even though he is in receipt of rent shall not be liable to tax under this head. That is why, income from sub-letting is not taxable under this head but under the head 'Income from other sources'. E.g. Mr. X being a tenant of a house property acquired it at a monthly rent of ₹ 10,000 from Mr. Y (owner of such house property). Mr. X sublets the property to Mr. Z for a monthly rent of ₹ 12,000. Income from subletting being ₹ 2,000 p.m. is taxable as business income or as income from other sources.

Owner includes legal owner, beneficial owner and deemed owner.

Legal owner: Legal owner means a person who has the legal title of the property as per the Transfer of Property Act, Registration Act, etc.

Beneficial owner: For income tax purpose it is not necessary that the property must be registered in the name of the assessee. If the assessee is enjoying the property as an owner to full extent he will be treated as a beneficial owner of such property and will be charged under the head 'Income from house property'.

Fictional owner or Deemed owner [Sec. 27]

U/s 27, in the following cases, a person shall be treated as deemed owner of the property and liable to tax (in such case legal owner or beneficial owner shall not be further liable to tax)

1. **Transfer to spouse or minor child [Sec. 27(i)]:** When an individual transfer a house property to -
 - his or her spouse (not being a transfer in connection with an agreement to live apart); or
 - a minor child (not being a married daughter)

- without adequate consideration, then transferor shall be treated as deemed owner of such property.

E.g.: Mr. X transfers his house property worth ₹ 5,00,000 to Mrs. X out of love and affection. In such case, though Mrs. X is the legal owner but Mr. X will be liable to tax as deemed owner of such property.

Note: In case of transfer to spouse, marriage should subsist on both the days i.e., on the day of transfer as well as on the day when income arises.

Taxpoint:

- Transferee must be spouse or minor child other than married daughter.
 - Transfer must be without adequate consideration.
 - Transferred property must be a house property. E.g. Mr. X transfers cash of ₹ 5,00,000 to Mrs. X and Mrs. X purchases a house property from such cash, then such transfer of cash and subsequent purchase of property shall not attract provision of sec. 27(i). However, the income from such property shall be clubbed in the hands of Mr. X as per the provision of sec. 64(1)(iv) [For detail refer chapter Clubbing of Income].
2. **The holder of an impartible estate [Sec. 27(ii)]:** The holder of an impartible estate (property which is not legally divisible) is treated as deemed owner of house property. Impartible estate is an estate to which the assessee has succeeded by grant or covenant.
3. **Property held by a member of a company, society or any other association [Sec. 27(iii)]:** Property held by a member of a company, co-operative society or other association of persons to whom a building or a part thereof is allotted or leased under House Building Scheme of the company or association, is treated as deemed owner of that building or a part thereof.

Taxpoint:

- Assessee is the member of a company, co-operative society or other AOP.
 - He has been allotted or leased a building on account of such membership.
 - Though he is not the legal owner of such property, still he will be liable to tax.
4. **A person who acquired a property u/s 53A of the Transfer of Property Act [Sec. 27(iiiia)]:** A person who is allowed to take or retain possession of any building (or part thereof) in part performance of a contract u/s 53A of the Transfer of Property Act, 1882, is deemed as the owner of that building (or part thereof).

Taxpoint:

- Assessee has taken the possession of the property.
 - He has partly performed or promised to perform the contract i.e., he has paid (or is ready to pay) a part of the consideration.
 - The contract must be in writing. Though sale-deed might not be executed in favour of the buyer, still certain other document like 'power of attorney' or 'agreement to sell' has been executed.
5. **Lessee of a building u/s 269UA(f) [Sec. 27(iiib)]:** A person who acquires any right u/s 269UA(f) in or with respect to any building or part thereof, by way of lease agreement for a period not less than 12 years is deemed as the owner of that building (or part thereof).

Notes

- a. Lease period should not be less than 12 years [as per sec. 269UA(f)] including extension period.
- b. Above provision does not include any right by way of lease from month to month or for a period not exceeding 1 year.

E.g.: X lets out a property to Miss Y on a lease of 9 years. However, Miss Y has a right to renew the lease for further period of 3 years. In such case, Miss Y shall be deemed as an owner of the property u/s 27. However, if such right of renewal of lease (for 3 years) is subject to condition that at each occasion it will be renewed for a period of 11 months, then X will be owner of the property and liable to tax u/s 22.

Condition 3: Property is not used for business or profession carried on by the assessee

When a person carries on business or profession in his own house property, annual value thereof is not taxable u/s 22 provided income of such business is chargeable to tax.

Incidences thereof

- **Letting out to employees:** If an assessee lets out the property to his employee, where such letting out supports smooth flow of his business, then such letting out shall be deemed to be incidental to business and such rent shall be chargeable under the head "Profits & gains of business or profession".
- **Letting out to Government Agencies:** Where an assessee let out his property to any Government agency for locating branch of a nationalized bank, police station, post office, excise office, railway staff quarters, etc. for the purpose of running the business of assessee more efficiently, such letting out shall be deemed to be incidental to business and such rent shall be chargeable under the head "Profits & gains of business or profession".
- **Letting out to ancillary units:** Where an assessee lets out its property to ancillary units, which manufactures components required by the assessee. Income from such letting out shall be taxable under the head "Profits & gains of business or profession".

Letting out property for promotion of own business –vs.- Business of letting out the property

Assessee lets out the property for the promotion of its own business or profession

If an assessee carries on business or profession in his own house property or lets out the property for smooth running of his business or profession, income from such property is taxable under the head "Profits & gains of business or profession".

Assessee is engaged in the business of letting out of the property

If an assessee running a business with main object of buying & developing house properties either to let out or to sell such properties, then annual value of such house properties shall be taxable under the head "Income from house property". However, profit on sale of house shall be taxable under the head Profits & gains of business or profession.

6.2 SOME SPECIAL CASES

Foreign property

If house property is situated abroad, then annual value of such property shall be taxable as:

Assessee	Condition for taxability
Ordinarily resident	Always taxable
Not ordinarily resident or Non resident	Income must be received in India

Note: The annual value of such property would be computed as if the property is situated in India.

**Disputed ownership**

Merely, due to dispute regarding the title of property, assessment cannot be postponed. In such case, person who is in receipt of income or who enjoys the possession of the property is assessable to tax.

Composite rent

Together with rent of the building, if the owner gets charges for other services or rent of other assets provided in the building (e.g. furniture, machinery, etc.), amount so received is termed as 'composite rent'.

Composite Rent = Rent for building + Rent for assets / Charges for various services

Tax treatment of composite rent is as follows:

- **Rent including charges for amenities or services like garden facility, food, lighting, etc. or other separable assets (like machinery, plant, furniture):** If the owner of house property gets composite rent for both property as well as for services rendered or other separable asset, such composite rent shall be treated as under:

Particulars	Taxable under the head
Sum received for the use of building.	'Income from house property'.
Sum received for other amenities or other separable assets.	'Profits & gains of business or profession'; or 'Income from other sources'

However, if segregation of composite rent is not possible, then the whole amount will be taxed either under the head 'Profits & gains of business or profession' or 'Income from other sources'.

Taxpoint: Rent from paying guest is, generally, taxable under the head 'Income from other sources'.

- **Letting of building with other inseparable assets (like machinery, plant, furniture):** If letting of only building is not possible or not acceptable to the other party, then sum received as rent from the properties is chargeable as business income or income from other sources even if the composite rent is segregable. E.g., letting out of hotel rooms, auditoriums, etc.

Co-ownership [Sec. 26]

If two or more persons own a house property jointly, then they are known as co-owners. If individual share of each co-owner is definite and ascertainable then the share of each such person shall be taxable as his income from house property.

Tax treatment

1. Share of each co-owner in the income from the property as computed in accordance with sec. 22 to 25 shall be included in his total income.
2. Where the house property is owned by co-owners and is occupied by each of the co-owner then all of them can claim benefit u/s 23(2)(a) and interest on loan shall be allowed to all the co-owners to the extent of ₹ 30,000 / ₹ 2,00,000 as the case may be.

Note: Provision of Sec. 26 is mandatory and not optional.

Partner's property used by the firm

The business carried on by the firm should be regarded as carried on by all the partners. Thus, annual letting value of a property belonging to the assessee which is in occupation of the firm in which assessee is the partner, is not includible in income of the assessee-partner u/s 22

Property held as stock-in-trade [Sec. 23(5)]

Where house property is held as stock-in-trade & not let out during any part of the previous year, then annual value of such property shall be computed as under:

Period	Annual Value
Up to 2 year from the end of the financial year in which the certificate of completion of construction of the property is obtained from the competent authority	Annual value of such property shall be taken to be nil.
After the completion of aforesaid period	Annual value of such property shall be computed as per other provisions. (Discussed later)

Doctrine of mutuality

Sec. 22 levies tax on annual value of house-property and not on actual income from house property. In case of a club, which provides recreational facilities exclusively to its member and their guest and not to any non-members, it is considered as a non-profit seeking person and run on no-profit no-loss basis. Such club is running on the principle of mutuality and its members are not entitled to any share of profit. In the case of such a mutual concern, not only the surplus of the organisation but also the annual value of the club house shall be exempted from tax.

6.3 EXEMPTED PROPERTIES

Income from the following house properties are exempted from tax:

- Any one palace or part thereof of an ex-ruler, provided the same is not let out [Sec. 10(19A)].
Taxpoint: If the ex-ruler has a house property and the part of which is self-occupied and remaining let out then only the self occupied part of the house property shall be exempted.
- House property of a local authority [Sec. 10(20)].
- House property of an approved scientific research association [Sec. 10(21)].
- House property of an educational institution [Sec. 10(23C)].
- House property of a hospital [Sec. 10(23C)].
- House property of a person being resident of Ladakh [Sec. 10(26A)]
- House property of a political party [Sec. 13A]
- House property of a trade union [Sec. 10(24)]
- A farm house [Sec. 10(1)]
- House property held for charitable purpose [Sec. 11]
- House property used for own business or profession [Sec. 22].

6.4 COMPUTATION OF INCOME

The chapter is divided into the following categories for the purpose of computation:

- Let out property [Sec. 23(1)]
- Self-occupied property [Sec. 23(2) (a)].
- Deemed to be let out property [Sec. 23(4)].
- Property not actually occupied by the owner [Sec. 23(2)(b)]
- Partly let out and partly self occupied property [Sec. 23(3)]
- Recovery of arrears of rent and unrealized rent [Sec. 25A]

Gross Annual Value (GAV)

Normally, income tax is charged on income, but under the head 'Income from house property', tax is not charged on the rent earned from house property but on the inherent earning capacity of the house property. Such earning capacity is termed as Annual Value. Annual value is determined considering the following factors:

a. Actual Rent Receivable [ARR]

Any sum receivable as rent of the house property for the previous year is an evidence for determining the earning capacity of the building. Such actual rent receivable is to be computed on accrual basis. However, where tenant pays rent, which is influenced by benefits provided by the owner of the property, such rent must be disintegrated to determine actual rent i.e. De-facto rent of the property.

De facto rent = ARR – Cost of amenities.

Taxpoint: While computing actual rent receivable, outstanding rent shall be considered but advance rent received during the financial year is not to be considered.

b. Gross Municipal Value

It means the annual value of the property decided by municipality on which they charge municipal tax. Such valuation may also be taken as evidence of earning capacity of a property.

In metro cities (i.e. Chennai, Delhi, Kolkata, Mumbai), municipal authorities charge tax on Net Municipal Value after giving a deduction for repairs (being 10% of Gross Municipal value) and an allowance for service taxes (like sewerage tax, water tax etc. as a % of Net Municipal value). Hence, the relation between Gross Municipal Value and Net Municipal Value can be concluded as under -

In metro cities	$NMV = GMV - 10\% \text{ of } GMV - \text{Sewerage/Water Tax etc. (as a \% of NMV)}$
In non-metro cities	$GMV = NMV$

c. Fair or Notional rent of the property

Fair or notional rent of a property means rent fetched by a similar property in the same or similar locality. Though two properties might not be exactly similar still it is an indicator of rent reasonably expected from the property. An inflated or deflated rent due to emergency, relationship and such other conditions need to be adjusted to determine fair rent.

For instance, a property was let out to a friend for a monthly rent of ₹ 2,000 which might be let out to another person at the rate of ₹ 2,500 p.m. In such case, fair rent of the property shall be ₹ 2,500 p.m.

d. **Standard rent under the Rent Control Act**

Standard rent is the maximum rent, which a person can legally recover from his tenant under the Rent Control Act prevailing in the State in which the property is situated. A landlord cannot reasonably expect to receive from a tenant any amount more than Standard Rent. Accordingly, it can be concluded that if the property is covered by the Rent Control Act then Reasonable Expected Rent (RER) cannot exceed Standard Rent.

Taxpoint: Reasonable Expected Rent cannot exceed Standard Rent but can be lower than Standard Rent

Computation of Gross Annual Value

Step 1: Calculate reasonable expected rent (RER) of the property being higher of the following:

- a. Gross Municipal Value.
- b. Fair Rent of the property.

Note: RER cannot exceed Standard Rent.

* Reasonable Expected Rent (RER) is also known as Annual Letting Value (ALV).

Step 2: Calculate Actual Rent Received or Receivable (ARR) for the year less current year unrealised rent (UR) subject to certain conditions#.

#Unrealised Rent [Rule 4]: Unrealised Rent of current year shall be deducted in full from Actual Rent Receivable, provided the following conditions are satisfied:

- i. The tenancy is bona fide;
- ii. The defaulting tenant has vacated the property or steps have been taken to compel him to vacate the property;
- iii. The defaulting tenant is not in occupation of any other property of the assessee;
- iv. The assessee has taken all reasonable steps to institute legal proceeding for the recovery of the unpaid rent or has satisfied the Assessing Officer that legal proceedings would be worthless.

Step 3: Compare the values calculated in step 1 and step 2 and take the higher one.

Step 4: Where there is vacancy and owing to such vacancy the 'ARR – UR' is less than the RER, then 'ARR - UR' computed in step 2 will be treated as GAV.

In nutshell, GAV shall be computed as under

Steps	Particulars	Amount
1 st	Compute Reasonable Expected Rent [RER]	
	Gross Municipal Value (a)	****
	Fair Rent (b)	****
	Higher of the (a) and (b) [A]	****
	Standard Rent [B]	****

2 nd	Actual Rent Received or Receivable (ARR) – Unrealised Rent of the current year (UR) [D]	****
3 rd	Gross Annual Value	
	Higher of C and D shall be considered as GAV	****

4 th	However, where 'ARR – UR' is lower due to vacancy, then 'ARR - UR' computed in step 2 will be treated as GAV.	****

¹. In H1 and H2 Actual rent receivable is already higher than RER therefore vacancy period is not making any impact (i.e. step 4 of computation discussed earlier in theory) on GAV.

2. In H3 & H4, ARR is less than RER due to vacancy (otherwise ARR would have been ₹ 3,00,000 & ₹ 2,40,000 respectively). Therefore, GAV will be the ARR computed in step 2.
3. In H5, ARR is less than RER not only due to vacancy but also due to other factors. In such case, value of RER shall be taken as GAV.
4. In H6, ARR is less than RER due to vacancy period otherwise ARR would have been equal to RER.

X owns a house property in Pune, details relating to which are Municipal value ₹ 2,00,000 p.a., Fair rent ₹ 1,80,000 p.a., Standard rent ₹ 2,10,000 p.a. It is let out throughout the previous year (rent ₹ 10,000 p.m. up to 15/10/2022 and ₹ 12,000 p.m. thereafter). The property is transferred by X to Y on February 28, 2023. However, Y failed to recover rent for March, 2023. Find gross annual value of the property in the hands of X and Y for the A.Y. 2023-24

Solution

Since the property being sold to Y on 28/02/2023 hence previous year period for X is 11 months and for Y is 1 month, accordingly gross annual value shall be:

Steps	Particulars	X (11 months)	Y (1 month)
	Fair rent (FR)	1,65,000	15,000
	Municipal Value	1,83,333	16,667
	Higher of the above [A]	1,83,333	16,667
	Standard Rent (SR) [B]	1,92,500	17,500
1st	RER [Lower of A and B] [C]	1,83,333	16,667
2nd	ARR – Unrealised Rent [D]	1,19,000 [#]	Nil ¹
3rd	Gross Annual Value [Higher of C and D]	1,83,333	16,667

[#] Calculation of Rent Receivable for 11 months

¹ ₹ 12,000 – ₹ 12,000

$[(₹ 10,000 * 6.5 \text{ months}) + (₹ 12,000 * 4.5 \text{ months})] = ₹ 1,19,000$

Illustration 6 [When there is unrealised rent as well as vacancy period]

Find out the gross annual value in respect of the following properties for the A.Y. 2023-24 (₹ in '000)

Particulars	H1	H2	H3
Gross Municipal value	150	180	120
Fair rent	140	140	240
Standard rent	120	240	300
Actual rent if property is let out throughout the previous year 2022-23	180	300	150
Unrealised rent of the previous year 2022-23	25	40	20
Unrealised rent of the year prior to the previous year 2021-22	30	50	60
Period when the property remains vacant (in number of months)	3	1	-

Solution

Working: Calculation of ARR – Unrealised Rent

H1: $[(₹ 1,80,000/12) * 9] - 25,000 = ₹ 1,10,000$

H2: $[(₹ 3,00,000/12) * 11] - 40,000 = ₹ 2,35,000$

H3: $[₹ 1,50,000 - 20,000] = ₹ 1,30,000$

Step	Particulars	Working	H1	H2	H3
1st	Calculation of RER	Higher of GMV and FR (RER cannot exceed SR)	120	180	240
2nd	ARR less current year unrealized rent (for let out period only)	Working 1	110	235	130
3rd	Higher of above	Higher of Step 1 & Step 2	120	235	240
4th	Gross Annual Value		110¹	235	240²

¹ In H1, till step 3 ARR is less than RER due to vacancy [otherwise ARR would have been ₹ 1,55,000 (being ₹ 1,80,000 – ₹ 25,000)]. Therefore, GAV will be the ARR computed in step 2.

² In H3 there is no vacancy hence step 3 gives GAV.

Find out the gross annual value in the following cases for the A.Y. 2023-24:

Particulars	H1 (₹)	H2 (₹)
Situated at	Chandigarh	Amritsar
Municipal value p.a.	60,000	60,000
Fair rent p.a.	70,000	70,000
Standard rent under the Rent Control Act p.a.	80,000	50,000
Actual rent p.m.:		
From April 1, 2022 to July 31, 2022	5,000	6,000
From October 1, 2022 to February, 2023	9,000	8,500

For the remaining period properties were vacant.

Solution

Working 1) Actual rent

For H1 [(5,000 * 4) + (9,000 * 5)] = ₹ 65,000

For H2 [(6,000 * 4) + (8,500 * 5)] = ₹ 66,500

Computation of gross annual value

(₹ in '000)

Step	Particulars	Working	H1	H2
1st	RER	Higher of GMV and FR (RER cannot exceed SR)	70	50
2nd	ARR	Working 1	65	66.5
3rd	Higher of above	Higher of Step 1 & Step 2	70	66.5
4th		Gross Annual Value	65 ¹	66.5 ²

¹ In H1, ARR is less than RER due to vacancy [otherwise ARR would have been ₹ 86,667 {being (₹ 65,000/9) * 12}]. Therefore, GAV will be the ARR computed in step 2.

² In H2, Actual rent receivable is not less than RER, therefore vacancy period is not making any impact (i.e. step 4 of computation discussed earlier in theory) on GAV.

6.6 TAXES LEVIED BY LOCAL AUTHORITY (MUNICIPAL TAX) [PROVISO TO SEC. 23(1)]

Tax levied by the municipality or local authority is deductible from Gross Annual Value (GAV). As per sec. 27(vi), taxes levied by a local authority in respect of any property shall include service taxes levied by such local authority in respect of such property. Municipal tax includes Service taxes like fire tax, water tax, etc. levied by a local authority.

Such taxes shall be computed as a % of Net Municipal Value and allowed as deduction subject to the following conditions:

1. It should be actually paid during the previous year.
2. It must be paid by the assessee.

Taxpoint: Unpaid municipal tax or municipal tax paid by tenant shall not be allowed as deduction.

Tax exceeds GAV (Negative NAV)	In case municipal tax paid includes tax paid for several past years and the total amount of tax so paid by the owner exceeds GAV, then Net Annual Value (NAV) can be negative.
Refund of tax	Refund of Municipal tax paid for a property is not taxable u/s 22.

Advance Municipal Tax paid by the assessee	<p>Municipal tax paid in advance is not allowed, as the Act provides that "the taxes levied by any local authority in respect of property shall be deducted, irrespective of the previous year in which the liability to pay such taxes was incurred by the owner." [Proviso to sec. 23 of Income tax Act, 1961]</p> <p>As per the above language it is construed that for claiming deduction in respect of municipal tax, such tax must have already been levied by the local authority. Hence payment of municipal tax in advance (liability in respect of which has not yet incurred) shall not be allowed as deduction in the year of payment.</p>

Municipal tax is calculated on municipal value.

Notes

- Though municipal tax is allowed on cash basis (only if paid by owner) but advance municipal tax is not allowed.
- Municipal tax paid by tenant is not allowed as deduction.
- ₹ 2,00,000 (being municipal tax of past years paid during the year) + 5% of ₹ 3,00,000 (municipal tax of current year paid during the year).

6.7 DEDUCTIONS U/S 24

The list of deduction u/s 24 is exhaustive i.e., no deduction can be claimed in respect of expenditures which are not specified under this section e.g., no deduction is allowed for repairs, collection charges, insurance, ground rent, land revenue, etc.

1. **Standard deduction u/s 24(a)**

30% of the net annual value is allowed as standard deduction in respect of all expenditures (other than interest on borrowed capital) irrespective of the actual expenditure incurred.

Note: Where NAV is negative or zero, standard deduction u/s 24(a) is not available.

2. **Interest on loan or borrowed capital u/s 24(b)**

Interest payable on amount borrowed for the purpose of purchase, construction, renovation, repairing, extension, renewal or reconstruction of house property can be claimed as deduction on accrual basis.

For the purpose of calculation, interest on loan is divided into two parts:

Pre-construction period means the period starting from the day of commencement of construction or the day of borrowing whichever is later and ending on March 31 immediately prior to the year of completion of construction.

Example: X has taken a loan on 1/4/1998 for construction of house property. Construction started on 1/6/2000 and completed on 17/8/2011. In such case, pre construction period will be a period starting from 1/6/2000 and ending on 31/3/2011.

Treatment: Interest for pre-construction period (to the extent it is allowed as deduction under any other provisions of the Act) will be accumulated and claimed as deduction over a period of 5 continuous years in equal installments commencing from the year of completion of construction.

Post-construction period means the period starting from the beginning of the year in which construction is completed and continues until the loan is repaid.

Treatment: It can be fully claimed as deduction in the respective year(s).

In the given example, post-construction Period will start from 01/04/2011

In nutshell, tax treatment is as under:

Particulars	Pre-construction period	Post-construction period
Starts from	The day of commencement of construction or the day of borrowing, whichever is later	The first day of the previous year in which construction is completed
Ends on	March 31 immediately prior to the year of completion of construction	When loan is fully paid
Tax treatment	The interest incurred during aforesaid period shall be accumulated and allowed as deduction in 5 equal installments from the year of completion of construction.	The interest expenses for the year (on accrual basis) shall be allowed as deduction in the respective year.

Other Points

- Interest on borrowed capital is allowed on accrual basis even if the books of account are kept on cash basis.
- Interest paid on fresh loan, which is taken to repay the original loan (being taken for above-mentioned purpose) shall be allowed as deduction.
- Interest on new loan, taken for paying outstanding interest on old loan, is not deductible
- Amount paid as brokerage or commission, for arrangement of the loan, is not deductible.
- Interest on loan taken for payment of municipal tax, etc. is not allowed as deduction.

Amount not deductible from Income from house property [Sec. 25]

Any interest chargeable under this Act which is payable outside India, is not allowed as deduction if:

- on such interest, tax has not been deducted at source and paid as per the provision of chapter XVIIIB; and
- in respect of such interest there is no person in India who may be treated as an agent u/s 163.

Notes

- Interest on loan is allowed on accrual basis.
- The purpose of loan must be repair, renovation, construction or purchase of property.
- As per sec. 25, any payment outside India without deduction of tax at source and when the payee has no agent in India is not allowed as deduction. It is assumed that the payee has no agent in India.
- Interest payable outside India without TDS whether paid or unpaid is not allowed as deduction. It is assumed that the payee has no agent in India.
- Since loan is utilised for renovation of HP2 hence deduction shall be allowed from income of HP2. Mortgage of HP1 is irrelevant.

Calculate interest on loan allowed for assessment year 2018-19 to 2023-24 from the following information:

Loan was taken on 1/1/2014 ₹ 5,00,000 @ 12% p.a.

Construction commenced on 1/8/2014. Construction completed on 31/3/2019. Repayment made as under:

On 1/4/2015	On 1/4/2018	On 1/4/2021	On 1/7/2022
₹ 1,00,000	₹ 1,00,000	₹ 1,00,000	₹ 1,00,000

Solution

Since construction started on 1/8/2014, hence pre-construction period starts from 1/8/2014 and since construction completed on 31/3/2019, hence pre construction period ends on 31/3/2018 and post construction period starts from the year 2018-19. Finally, pre construction period is from previous year 2014-15 to previous year 2017-18 and post construction period is from previous year 2018-19 onwards. Thus, pre-construction period interest are as under:

Previous Year	Amount	Month	Interest @ 12%
2014-15	5,00,000	8	40,000
2015-16	4,00,000	12	48,000
2016-17	4,00,000	12	48,000
2017-18	4,00,000	12	48,000
Total interest for pre-construction period			1,84,000

Total interest for pre-construction period is ₹ 1,84,000 which shall be allowed in 5 equal installments i.e., ₹ 36,800 p.a. from P.Y. 2018-19 to 2022-23.

Computation of interest

Assessment Year	Previous Year	Pre construction period Interest	Post construction period Interest	Total Interest
2018-19	2017-18	--	--	--
2019-20	2018-19	36,800	36,000	72,800
2020-21	2019-20	36,800	36,000	72,800
2021-22	2020-21	36,800	36,000	72,800
2022-23	2021-22	36,800	24,000	60,800
2023-24	2022-23	36,800	15,000	51,800

1. ₹ 3,00,000 * 12%

2. ₹ 2,00,000 * 12%

3. On ₹ 2,00,000 @ 12% for 3 months

₹ 6,000

On ₹ 1,00,000 @ 12% for 9 months

₹ 9,000

Total

₹ 15,000

6.8 SELF-OCCUPIED PROPERTY [SEC. 23(2)(a)]

As per sec. 23(2)(a), a house property shall be termed as self occupied property where such property or part thereof:

- is in the occupation of the owner for the purposes of his own residence;
- is not actually let out during the whole or any part of the previous year; and
- no other benefit there from is derived by the owner.

Treatment: The annual value of such house or part of the house shall be taken to be nil.

If an assessee occupies more than two house properties as self-occupied, he is allowed to treat only two houses as self-occupied at his option. The remaining self-occupied house property(ies) shall be treated as 'Deemed to be let out'. [Treatment of 'deemed to be let out' property is discussed later in this chapter.]

Taxpoint: In the light of the above provision –

Combination	Treated as
Fully self occupied	Self occupied property
Partly self occupied & partly vacant	Self occupied property
Partly self occupied & partly let out	Partly self occupied & partly let out (<i>discussed later</i>)
Partly self occupied & partly use for business purpose	Self occupied to the extent used for self occupation

**Note:**

Available to	Benefit u/s 23(2)(a) can be claimed by an Individual and HUF. The benefit is not available to other assessee like company, firm, etc.
When owner want to change his option	It is not necessary that once a house property is treated as self-occupied it shall be continuously treated as self-occupied. Such option may be changed every year without any permission.
When owner occupies a house in some other capacity	When the assessee occupies his house but not in the capacity of owner then benefit under this section cannot be claimed. E.g. Owner let out the house to his employer & gets back the property as rent free accommodation. In such case, though the owner himself occupies the property but as an employee of the tenant & not as an owner. In such case, property shall be treated as let-out & not self-occupied
When more than one house property used in a combined form	If an assessee has a house property, which consist of two or more residential units & all such units are self-occupied used in a combined form, the annual value of the entire house shall be taken as nil as there is only one property, though it has more than one residential unit.

Computation of taxable income of self-occupied property

Net annual value of self-occupied property shall be taken as nil. As a consequence, deduction u/s 24(a) (standard deduction) shall also be nil. Interest on loan u/s 24(b) shall be allowed, subject to certain ceiling.

Computation at a glance

Particulars	Amount
Net Annual Value	Nil
Less: Interest on borrowed capital u/s 24(b)	***
Income from house property	(***)
Standard deduction u/s 24(a) is not available	

Net Annual value

Net Annual value of two self-occupied house properties, at the choice of the assessee, is taken as nil. He can choose those house properties as self-occupied through which tax liability can be reduced.

Normally (but not always) house property with higher gross annual value is treated as self-occupied property but it is advised to calculate total income under the head 'Income from house property' by applying each option separately and then choose the option which reduces total income.

Interest on loan u/s 24(b)

Interest on loan taken for construction, acquisition, repair, renovation or extension is allowed according to the following table:

Conditions	Maximum Interest allowed in aggregate
Where loan is taken on or after 1/4/1999 and following conditions are satisfied - 1. Loan is utilized for construction or acquisition of house property on or after 1-4-1999; 2. Such construction or acquisition is completed within 5 years from the end of the financial year in which the capital was borrowed; and	₹ 2,00,000

3. The lender certifies that such interest is payable in respect of the loan used for the acquisition or construction of the house or as refinance of the earlier loan outstanding (principal amount) taken for the acquisition or construction of the house.	
In any other case	₹ 30,000
Taxpoint: In any case, deduction in respect of interest on loan on self-occupied properties cannot exceed ₹ 2,00,000 in a year.	

Notes

1. Calculation and deduction of interest for the period of pre and post construction, acquisition, etc. is same as discussed in the case of let out house property.
2. Assessee shall always have nil income or loss upto ₹ 2,00,000 from properties u/s 23(2) (a).

In nutshell, treatment of interest on loan is as under:

Nature of property	When loan was taken	Purpose of loan	Allowable (Maximum limit) ^{2, 3}
Self-occupied	On or after 01/04/1999	Construction or purchase of house property ¹	₹ 2,00,000
Self-occupied	On or after 01/04/1999	For Repairs of house property	₹ 30,000
Self-occupied	Before 01/04/1999	Construction or purchase of house property	₹ 30,000
Self-occupied	Before 01/04/1999	For Repairs of house property	₹ 30,000
Let-out	Any time	Construction or purchase of house property	No maximum limit

1. Subject to other two other conditions. If other two conditions are not fulfilled, then maximum limit is restricted to ₹ 30,000.
2. Including interest for pre-construction period.
3. Aggregate limit for all house properties treated as self-occupied.

Notes	-	1	2	3	4	5	6

Notes

- As loan was taken before 1/4/1999 hence, the maximum ceiling is ₹ 30,000.
- As loan was taken on or after 1/4/1999 for the construction of house property, which is completed within 5 years from the end of financial year in which such loan was taken, hence the maximum ceiling is enhanced to ₹2,00,000. It is assumed that required certificate has been furnished.
- Maximum ceiling is ₹ 2,00,000.
- If loan was taken before 1/4/1999 as well as on or after 1/4/1999 then the total interest allowed in aggregate cannot exceed ₹ 2,00,000. However, the limit for interest allowed in respect of loan taken prior to 1/4/1999 shall be ₹ 30,000. Since the first loan is taken on 1/4/1998 and construction completed on 1/2/2000. Hence the pre-construction period is 1998-99, for which interest ₹ 27,000 (i.e. ₹ 1,80,000 * 15%) shall be allowed in 5 equal installments i.e. ₹ 5,400 every year. However, such pre-construction period interest is allowed only for 5 years i.e. from 1999-2000 to 2003-2004, therefore such interest shall not be allowed in subsequent year. Total eligible interest on first loan is ₹ 27,000 (i.e. Pre-construction period interest Nil + Post construction period interest ₹27,000). Further eligible interest on second loan is ₹ 1,00,000 (i.e. 10% of ₹ 10,00,000). Hence the total allowable interest u/s 24(b) shall be ₹ 1,27,000.
- The enhanced limit is only for construction or acquisition of house property, here the loan is taken for repair purpose for which maximum ceiling is ₹ 30,000.
- If loan was taken before 1/4/1999 as well as on or after 1/4/1999 then the total interest allowed in aggregate cannot exceed ₹ 2,00,000. However, the limit for interest allowed in respect of loan taken prior to 1/4/1999 shall be ₹ 30,000. Since the first loan is taken on 1/4/1998 and construction completed on 1/2/2000. Hence the pre-construction period is 1998-99, for which interest ₹ 27,000 (i.e., ₹ 1,80,000 * 15%) shall be allowed in 5 equal installments i.e. ₹ 5,400 every year. However, such pre-construction period interest is allowed only for 5 years i.e. from 1999-2000 to 2003-2004, therefore such interest shall not be allowed in subsequent years. Total eligible interest on first loan is ₹ 27,000 (i.e., Pre-construction period interest Nil + Post construction period interest ₹ 27,000), i.e. within the ceiling of ₹ 30,000. Further eligible interest on second loan ₹ 2,80,000 (i.e. 14% of ₹ 20,00,000). However, the total ceiling of interest in case of self occupied property cannot exceed ₹ 2,00,000, hence the total allowable interest u/s 24(b) shall be ₹ 2,00,000.

Illustration 15 [Rent free accommodation –vs.- Self occupied house property]

Miss Anjali owns a house property, which is let out, to her employer company for a monthly rent of ₹ 20,000. Company allotted the same house to Miss Anjali as rent-free accommodation. Municipal tax paid ₹ 20,000, interest on loan paid ₹ 90,000. Comment on tax treatment under the head income from house property.

Solution

Though Miss Anjali owns the house and uses it for self-occupation as well, still she cannot treat the said house property as self occupied. This is because she uses the property not as owner but as an employee.

Hence, rent received by her from employer shall be taxable as under:

Particulars	Details	Amount
Gross Annual Value (20,000 * 12)		2,40,000
Less: Municipal tax		20,000
Net Annual Value		2,20,000
Less: Deduction u/s		
24(a) Standard deduction	66,000	
24(b) Interest on loan	90,000	1,56,000
Income from house property		64,000

Note: Since the assessee receives the benefit of rent-free accommodation hence she will be further taxed under the head 'Salaries' for perquisite being rent-free accommodation.

6.9 UNOCCUPIED PROPERTY [SEC. 23(2)(b)]

Where an assessee has a residential house (kept for self-occupation) and it cannot actually be occupied by the owner owing to his employment, business or profession carried on at any other place and hence he has to reside at that place in a building not belonging to him, such house shall be termed as unoccupied property.

Taxpoint:

- Assessee has a residential house kept for self-occupation.
- The house cannot be occupied by the owner owing to his employment and no other benefit is derived from such house. In case house remains unoccupied by the owner owing to his personal convenience, then no benefit under this section shall be allowed
- He has to reside in a house not belonging to him, whether rent is paid for that house or not.

Treatment: Same as self occupied property.

Computation at a glance

Particulars	Amount
Net Annual Value	Nil
Less: Interest on borrowed capital u/s 24(b)	***
Income from house property	(***)

Notes

- a. An assessee cannot claim benefit u/s 23(2)(a) as well as 23(2)(b) in the same previous year.
- b. An assessee can claim benefit u/s 23(2)(b) even though he has other house properties.

6.10 DEEMED TO BE LET-OUT HOUSE PROPERTY [SEC. 23(4)]

Where the assessee occupies more than two house properties as self-occupied or has more than two unoccupied properties, then for any two of them, benefit u/s 23(2) can be claimed (at the choice of the assessee) and remaining property or properties shall be treated as 'deemed to be let out'.

Treatment:

1. **Gross Annual value:** Since assessee does not let out such property & do not receive rent, therefore GAV will be determined from Step 1 only. Step 2, 3 & 4 of calculation GAV are irrelevant.

Taxpoint: GAV of deemed to be let out property will be the 'Reasonable expected rent (RER)' of the property.

2. **Municipal taxes** and deduction u/s 24(a) and 24(b) shall be available as in the case of let out house property.

Solution

In the given case, there are two options:

Option 1: Take H1 & H3 as Self-Occupied (S/O) and H2 as Deemed to be Let-Out (DLO)

Option 2: Take H1 as Deemed to be Let-Out (DLO) and H2 & H3 as Self-Occupied (S/O)

6.11 PARTLY SELF-OCCUPIED AND PARTLY LET-OUT [SEC. 23(3)]

6.11 Partly self-occupied and partly let-out [Sec. 23(3)]

Where a house or part of the house, which is self-occupied, is let out during any part of the previous year, such property is termed as 'Partly self-occupied and partly let out'. Further, such division may be made in the following ways:

1) Area wise division

2) Time wise division

3) Area as well as Time wise division

Case 1) Area wise Division

In this case, a house property consists of two or more independent units and one or more of which are self-occupied and remaining units are let out.

Treatment

- Self-occupied portion & let out portion shall be treated as two separate house (i.e. Unit A & Unit B);
- Common value like municipal value, fair rent, standard rent, municipal tax and interest shall be proportionately divided;

- Income of both units shall be computed separately.

Illustration 17

Miss Paro has a house property having two separate residential units (unit A covering 40% of total area and unit B covering 60% of total area). Unit A is self-occupied by the assessee and unit B is let out to Sri Devdas for a monthly rent of ₹ 3,000. With the following further information, compute her taxable income from house property:

Municipal Value	₹ 1,00,000	Municipal Tax	10%
Fair Rent	₹ 1,20,000	Interest on Loan	₹ 30,000
Standard Rent	₹ 2,00,000	Annual charge	₹ 5,000

Case 2) Time wise division

In such case, the house property is self occupied by the assessee for a part of the year and let out for remaining part of the year.

Treatment

In such case, assessee will not get deduction for the self-occupied period and income will be computed as if the property is let out throughout the year. In this regard, it is to be noted that the reasonable expected rent (RER) shall be taken for the full year but the actual rent receivable (ARR) shall be taken only for the let-out period.

Merger of Case 1 and Case 2

Illustration 21

Mr. Ajnabi has a house property in Cochin. The house property has two equal dimension residential units. Unit 1 is self occupied throughout the year and unit 2 is let out for 9 months for ₹ 10,000 p.m. and for remaining 3 months it was self-occupied. Compute his taxable income from the following details:

Municipal value ₹ 2,00,000, Fair Rent ₹ 1,60,000, Standard rent ₹ 3,00,000, Municipal tax 10% (60% paid by assessee), Interest on loan ₹ 40,000, Expenditure on repairs ₹ 20,000.

Solution**Working**

1. Computation of Gross Annual Value (GAV)

Particulars	Working	Unit 1	Unit 2
Municipal Value	1:1	1,00,000	1,00,000
Fair Rent	1:1	80,000	80,000
Standard Rent	1:1	1,50,000	1,50,000
Reasonable Expected Rent	Higher of MV & FR (RER cannot exceed SR)	Nil	1,00,000
Actual Rent Receivable	₹ 10,000 * 9	--	90,000
Gross Annual Value	Higher of Step 1 & 2	Nil	1,00,000

2. Municipal tax = 10% of ₹ 2,00,000 = ₹ 20,000 being divided in the ratio 1:1 between Unit 1 and Unit 2. Out of such Municipal tax only 60% is paid, therefore, Municipal tax allowed as deduction in case of Unit 2 is only ₹ 6,000 [i.e. ₹ 20,000 * ½ * 60%].

3. Interest on loan is divided in unit A and unit B in 1:1 as both units are of equal dimension.

6.12 RECOVERY OF UNREALISED RENT AND ARREARS RENT [SEC. 25A]

Applicability

The assessee has received arrears of rent received from a tenant or the unrealised rent realised subsequently from a tenant

Tax Treatment

The amount so received shall be taxable under the head 'Income from house property' in the year of receipt after deducting standard deduction @ 30% of such amount.

Arithmetically, taxable amount shall be -

$$70\% \times [\text{Recovery of Arrear Rent or Unrealised Rent}]$$

Taxpoint

- No other deduction shall be allowed from such income except standard deduction i.e. 30% of such receipt. (even legal expenditure shall not be allowed as deduction)
- The income is taxable on cash basis.

Note: Such receipt shall be chargeable as income from house property although the assessee is not the owner of such property in the year of receipt.

Mr. Lucky Ali owns a house property let out since 1/4/2018 to a school for monthly rent of ₹ 10,000. There was no change in rent till 31/3/2022. On 1/4/2022, as per court decision rent was increased to ₹ 12,000 p.m. with retrospective effect from 1/4/2020 and duly paid by school in the same year. Legal expenditure for such suit has been incurred by Mr. Ali ₹ 30,000. Discuss tax treatment u/s 25A.

Solution

Arrears rent belongs to the period 1/4/2020 to 31/3/2022 i.e., for 24 months.

Arrears rent received = ₹ 2,000 * 24 months = ₹ 48,000

Such rent is taxable in the year of receipt as under:

Particulars	Amount
Arrears of rent received	48,000
Less: Standard deduction u/s 24(a) equal to 30% of such rent	14,400
Income from house property u/s 25A	33,600

Note: Legal expenditure is not deductible.

X Ltd. has two house properties both of which are vacant. Municipal value of 1st house property is ₹ 1,00,000 and that of 2nd is ₹ 80,000. It has computed income from house property as under:

Particulars	Details	Amount
HP1: Self occupied [Sec. 23(2)(a)]		
Net Annual Value (NAV)	Nil	
Less: Interest on loan u/s 24(b)	Nil	
Income from HP1		Nil
HP2: Deemed to be let out [Sec. 23(4)]		
Gross Annual Value (GAV)	80,000	
Less: Municipal tax	Nil	
Net Annual Value (NAV)	80,000	
Less: Standard deduction u/s 24(a) @ 30% of NAV	24,000	56,000
Income from house property		56,000

Do you agree with the computation of income from house property of the assessee.

Solution

In the above computation, X Ltd. has claimed benefit of self-occupation, whereas, such benefit can be claimed only by an individual or HUF. A company form of assessee cannot claim such benefit. Hence, income under the head Income from house property will be as under:

Computation of income from house property of X Ltd. for the A.Y. 2023-24

Particulars	Details	Amount
HP1: Deemed to be let out [Sec. 23(4)]		
Gross Annual Value (GAV)	1,00,000	
Less: Municipal tax	Nil	
Net Annual Value (NAV)	1,00,000	
Less: Standard Deduction u/s 24(a) @ 30% of NAV	30,000	70,000
HP2: Deemed to be let out [Sec. 23(4)]

Less: Municipal tax	Nil	
Net Annual Value (NAV)	80,000	
Less: Standard Deduction u/s 24(a) @ 30% of NAV	24,000	56,000

7.1 MEANING OF BUSINESS & PROFESSION

Business [Sec. 2(13)]

Business includes –

- any trade, commerce or manufacture; or
- any adventure or concern in the nature of trade, commerce or manufacture.

Generally, business means recurring economic activity, but for income tax purpose an isolated activity may be termed as business depending upon facts and circumstances. Following elements shall be considered to judge a transaction as business transaction:

- Nature of commodity
- Intention of the party
- Efforts applied in transaction
- Periodicity of transaction
- Nature of transaction (whether incidental to a business or not)

Profession [Sec. 2(36)]

Profession includes vocation. Profession requires purely intellectual skill or manual skill on the basis of some special learning and qualification gathered through past training or experience e.g. chartered accountant, doctor, lawyer etc. Professional skill can be acquired only after patient study (in a particular system either a college, university or institute) and application (i.e. experience)

Vocation implies natural ability of a person to do some particular work e.g. singing, dancing, etc. The term "vocation" is different from the term "hobby". Vocation must have the earning feature. It can be treated as an earning means by which a man passes his life. Unlike profession, vocation does not require a degree or special learning.

Notes

1. **Profit Motive:** If the motive of an activity is pleasure only, it shall not be treated as business activity.
2. **Business vs Profession:** An income arising out of trade, commerce, manufacture, profession or vocation shall have the same treatment in Income tax Act. However, a little segregation is required to be made between business and profession while applying sec. 44AA, sec. 44AB, sec. 40AD, sec. 44ADA, etc. (discussed later in this chapter).

 - Duty draw back (received/receivable) for export e.g. duty drawback, etc. [Sec. 28(iic)]

5. **Perquisite from business or profession [Sec. 28(iv)]:** The value of any benefit or perquisite, whether convertible into money or not, arising from business or profession shall be taxable under this head.

Examples: If an authorized dealer of a company receives a car (over and above his commission) from the company on achieving sale-target then market value of such car shall be taxable under the head 'Profits & gains of business or profession'.

6. **Remuneration to partner [Sec. 28(v)]:** Any interest salary, bonus, commission or remuneration received by a partner from the firm (or Limited Liability Partnership) shall be taxable as business income in the hands of the partner to the extent allowed in hands of firm (or Limited Liability Partnership) u/s 40(b).

However, there are certain expenditures specified u/s 43B, which shall be deductible only on cash basis.

As per sec. 145(3), where the Assessing Officer is not satisfied about the correctness or completeness of the accounts of the assessee, or has not been regularly followed by the assessee, or income has not been computed in accordance with the notified standards, the Assessing Officer may make an assessment in the manner provided u/s 144 i.e. Best Judgment Assessment.

2. **Negative income:** Income includes negative income i.e. loss.
3. **Notional profit:** A person cannot do business with himself, hence notional profit is not taxable. E.g. If proprietor withdraws goods costing ₹ 10,000 for personal use at an agreed value of ₹ 12,000 then profit of ₹ 2,000 shall not be taxable.
4. **Anticipated profit or loss:** Anticipated or potential profit or loss, which may or may not arise in future are not considered for deriving taxable income.
5. **Legality of business:** There is no difference between legal or illegal business from income tax point of view. Even income of illegal business shall be taxable.

Following incomes are though in the nature of profits and gains of business or profession, shall not be taxable under this head:

1. **Rent from house property** is taxable u/s 22 under 'Income from house property' even though -
 - the assessee is engaged in the business of letting out properties on rent; or
 - such property is held as stock in trade

Note: However, where letting of house supporting the smooth running of the business (i.e. incidental to business), then such income shall be taxable under this head.

2. **Dividend on shares** is taxable u/s 56(2)(i) under the head 'Income from other sources' even though the assessee deals in shares and such shares are held as stock in trade. The provision is not applicable in case of interest on securities held as stock in trade.

General Notes

1. **Capital -vs.- Revenue expenditure:** Capital expenditures are not allowed as deduction, unless & until expressly allowed whereas revenue expenditures are allowed as deduction until & unless expressly disallowed under the Income tax Act.
2. **Expenditure of non-assessable business:** Any expenditure of a non-assessable business is not allowed as deduction. For instance, expenditure for earning agricultural income is not allowed as deduction from income of an assessable business.
3. **Expenditure must relate to the business of the assessee:** Expenditure must have been incurred by the assessee for its business.

Note: In case where the assessee incurs expenditure for its own business, the mere fact that the benefit of such expenditure is enjoyed by some other person, cannot deny the admissibility of the expenditure.

4. **Anticipated loss or expenditure:** Subject to certain exceptions, no deductions are allowed for anticipated losses. E.g. provision for bad & doubtful debts.
5. **Notional expenditure:** No one can earn income from himself/herself. For instance, rent paid to a sole proprietor, salary to proprietor, interest on capital to proprietor, etc. are not income in the hands of the proprietor. Hence, it is not deductible from the income of business as expenditure.
6. **Onus to proof:** Onus to proof lies with the assessee. It is the responsibility of the assessee to prove that a particular expenditure is to be allowed as deduction in his case.

7.5 SPECIFIC DEDUCTIONS

As per sec. 29, income under this head will be computed considering the provisions of sec. 30 to 43DB, which decides the admissibility of expenditures for computing income under this head.

7.6 RENT, RATES, TAXES, REPAIRS & INSURANCE FOR BUILDING [SEC. 30]

Rent, rates, taxes, repairs & insurance for premises used for the purpose of business or profession shall be allowed under this section. Points to be noted in this regard:

1. **Use of building:** The building is to be used for the purpose of business or profession. However, if the building is not exclusively used for the purpose of business or profession then deduction shall be restricted to a fair proportion of above expenditure which the Assessing Officer may determine [Sec. 38(2)].
2. **Notional Rent:** Rent paid to proprietor is disallowed but rent paid by firm to its partner for using his premises is an allowed expenditure.
3. **Current repair vs Capital repair:** Only current repairs are allowed as deduction. Capital repairs are not allowed as deduction whether the assessee occupies the building as a tenant or as a landlord.

Current repair (irrespective of the amount involved) means -

- a repair incurred to preserve and maintain an existing asset; and

4. **Municipal taxes:** Rates & taxes (for e.g. land revenue, municipal tax, etc) are deductible on cash basis [Sec. 30 read with sec. 43B]

1. **Use of asset:** The asset must be used for the purpose of business or profession. However, if the asset is not exclusively used for the purpose of business or profession then deduction shall be restricted to a fair proportion of above expenditure, which the Assessing Officer may determine [Sec. 38(2)].
2. **Current repair vs Capital repair:** Only current repairs are allowed as deduction.

Examples:

Conditions for claiming depreciation

Depreciation is allowed provided the following conditions are satisfied:

Condition 1: Asset must be owned by the assessee.	Condition 2: Asset must be used for the purpose of business or profession during the previous year.
Notes	
<ul style="list-style-type: none"> • Beneficial owner: Assessee need not be a registered owner, even a beneficial owner can claim depreciation. 	<ul style="list-style-type: none"> • Passive use -vs- Active use: Use includes active use as well as passive use. Active use means actual use of the property for the purpose of business or profession. Whereas passive use includes "ready to use". It means, if a property was not actually used for business or profession but was ready to use in the previous year, in such case, assessee can claim depreciation on such assets
<ul style="list-style-type: none"> • Co-owner: In case of joint ownership, depreciation is allowed on proportionate basis. 	
<ul style="list-style-type: none"> • Property acquired on hire purchase: In case of hire purchase, the buyer can claim depreciation even though he does not get legal title of the asset till he pays the last instalment. 	<ul style="list-style-type: none"> • Partly used for business or profession: As per sec. 38, if an asset is partly used for business or profession and partly used for personal purpose, then proportionate depreciation (as determined by the Assessing Officer) shall be allowed.
<ul style="list-style-type: none"> • Capital expenditure on a property by the lessee: Where an assessee being a lessee of a property incurs any capital expenditure by way of improvement, extension, super construction, etc. on a building being used for his business or profession, he is entitled to depreciation in respect of such capital expenditure. 	<ul style="list-style-type: none"> • House property let out to tenant for smooth running of the business: If an assessee lets out a property to his employee and where such letting-out supports smooth flow of his business, then rent received from employee shall be chargeable under the head "Profits & gains of business or profession" and such property shall be eligible for depreciation u/s 32. Similarly, where an assessee makes available his property to any Government agency for locating branch of a nationalized bank, police station, post office, tax office, railway staff quarters, etc. for the purpose of running the business of assessee more efficiently, then such letting out shall be deemed to be incidental to business and depreciation on such building shall be allowed u/s 32.
<ul style="list-style-type: none"> • Sec. 53A of Transfer of Property Act: Possessor of an immovable property u/s 53A of Transfer of Property Act can claim depreciation even though he is not the registered owner of the property. 	

Method of computing depreciation (other than power units)

The method of computing depreciation as per Income tax Act is entirely different from accountancy method. For Income tax purpose, assets are categorised into Block of Assets.

Block of Assets [Sec. 2(11)]

Block of assets means a group of assets of same nature, in respect of which same rate of depreciation is charged. In other words, to fall in the same block, the following two conditions are to be satisfied:

- Assets must be of same nature;
Tangible assets being building, machinery, plant or furniture, and

Intangible assets, being know-how, patents, copy-rights, trade marks, licenses, franchises or any other business or commercial rights of similar nature acquired on or after 1-4-1998 (it does not include goodwill);

- Rate of depreciation on such asset must be same.

Method of Depreciation

Depreciation shall be allowed on written down value method at the rates prescribed.

Calculation of depreciation (at a glance)

Particulars	Amount
W.D.V of the block at the beginning of the previous year	***
Add: Assets (falling within the block) acquired during the previous year	***
	ABC
Less: Sale Proceeds of assets (falling within the block) sold during the previous year [\$subject to max. of ABC]	(DE)\$
Written Down Value [# XYZ cannot be negative]	XYZ#
Less: Depreciation (as a % on XYZ)	(***)
Opening WDV for 1st day of next year	****

When depreciation is not charged

Depreciation is not charged in the following two cases:

1. When 'DE' (Sale proceeds) exceeds ABC, the excess shall be treated as short term capital gain.
2. When 'XYZ' (Value of block before depreciation) is positive but the block does not have any asset. In such case, such positive value shall be treated as short term capital loss.

Significance of date of purchase (Effect of time on depreciation)

Where -

- a. an asset is acquired by the assessee during the previous year; and
 - b. is put to use in the same previous year for less than 180 days,
- the depreciation in respect of such asset is restricted to 50% of the normal depreciation.

Except above, date of purchase has no relevance.

Taxpoint: There is no significance of date of sale for computation of depreciation.

Mr. X, a grower and manufacturer of tea, purchased machinery (15%) on 10-04-2021 for ₹ 10 lakh. He computed depreciation for A.Y. 2023-24 as given below; needs your comment on his working:

Particulars	Amount
Opening W.D.V. as on 1/4/2021	Nil
Add: Assets purchased during the year	10,00,000
	10,00,000
Less: Depreciation for the P.Y. 2021-22 $[₹ 10,00,000 * 15% * 40\%]$	60,000
(As he is engaged in the business of growing and manufacturing tea; hence 60% is considered as part of agricultural income)	
Opening W.D.V. as on 1/4/2022	9,40,000
Less: Depreciation for the P.Y. 2022-23 $[₹ 9,40,000 * 15% * 40\%]$	56,400
Opening W.D.V. as on 1/4/2023	8,83,600

Further, compute his business income for A.Y. 2023-24 assuming that his income before depreciation and without reducing element of agricultural income is ₹ 8,00,000/-

Solution

The method of computation of depreciation followed by Mr. X is not correct as Expl. 7 to sec.43(6) provides that:

"Where the income of an assessee is derived, in part from agriculture and in part from business chargeable to income-tax under the head "Profits and gains of business or profession", for computing the written down value of assets acquired before the previous year, the total amount of depreciation shall be computed as if the entire income is derived from the business of the assessee under the head "Profits and gains of business or profession" and the depreciation so computed shall be deemed to be the depreciation actually allowed under this Act."

The correct computation of depreciation is as follow:

Particulars	Amount
Opening W.D.V. as on 1/4/2021	Nil
Add: Assets purchased during the year	10,00,000
	10,00,000
Less: Depreciation for the P.Y. 2021-22 $[₹ 10,00,000 * 15\%]$	
(Considering the entire income as taxable income)	1,50,000
Opening W.D.V. as on 1/4/2022	8,50,000
Less: Depreciation for the P.Y. 2022-23 $[₹ 8,50,000 * 15\%]$	1,27,500
Opening W.D.V. as on 1/4/2023	7,22,500

Computation of business income of Mr. X for A.Y. 2023-24

Particulars	Amount
Income before depreciation and without reducing element of agricultural income	8,00,000
Less: Depreciation	1,27,500
	6,72,500
Less: Agricultural Income being 60% of above	4,03,500
Profits and Gains of Business or Profession	2,69,000

7.11 DEPRECIATION IN CASE OF POWER UNITS

An undertaking engaged in the business of generation or generation and distribution of power may charge depreciation (in respect of asset acquired after 31/3/1997) at its choice under -

- Written-down value method as followed by all other assessee (usual); or
- Straight-line method at the prescribed rate in 'Appendix IA' of the Income Tax Rules on actual cost of asset (not the block value of asset)

However, such option shall be exercised before the due date of furnishing return of income. Further, it may be noted that once the option is exercised, it shall be applicable for all subsequent assessment years.

Profit on transfer of such asset to the maximum of accumulated depreciation shall be treated as balancing charge. The difference between sale price and actual cost shall be treated as capital gain. Taxpoint: Balancing Charge = - ve value of [WDV of assets – (Sale value + Scrap value)] However, balancing charge cannot exceed accumulated depreciation claimed on such asset.
Treatment	Terminal depreciation is fully allowed as deduction as a business loss.	As per sec. 41(2), balancing charge is fully taxable as business income in the previous year in which such income falls due. The provision holds good even if the business does not exist in that year.

Dr. R purchased a house property on 1-12-2020 for ₹ 10,00,000. Till 1-12-2022, the same was self-occupied as a residence. On this date, the building was brought into use for the purpose of his medical profession. What would be the depreciation allowable for the assessment year 2023-24?

**Solution**

In case a building is used for personal purpose subsequently brought into business, the cost of acquisition shall be the purchase or construction cost of the building as reduced by the notional depreciation by applying the rate applicable on the date of such conversion. In the given case cost of asset for the business shall be computed as under:

Particulars	Building
Rate of depreciation	10%
Cost of building on 1.12.2020	10,00,000
Less: Depreciation (Being used for less than 180 days hence, depreciation charged 50% of normal depreciation i.e. ₹ 10,00,000 * 50% * 10%)	50,000
WDV on 31.3.2021	9,50,000
Less: Depreciation	95,000
WDV on 31.3.2022	8,55,000

Computation of depreciation u/s 32

Cost of building on 1/4/2022	8,55,000
Depreciation for the year 2022-23	85,500

Computation of Business Profit on Presumptive Basis [Sec. 44AD]

Applicable to	<p>A resident individual, resident Hindu undivided family or a resident partnership firm</p> <p>Note: The provision is not applicable in case of the following:</p> <ul style="list-style-type: none"> ● Limited liability partnership firm ● A person carrying on profession as referred to u/s 44AA ● A person earning income in the nature of commission or brokerage; or ● A person carrying on any agency business ● A person carrying on the business of plying, hiring or leasing goods carriages referred to in sec. 44AE

Estimated income	<ul style="list-style-type: none"> Where amount of turnover or gross receipts is received by an account payee cheque or account payee bank draft or use of ECS or through other prescribed electronic modes during the previous year or before the due date of filing return of income 	6% of such turnover or receipts

E.g. an assessee claims to be taxed on presumptive basis u/s 44AD for A.Y. 2022-23. For A.Y. 2023-24 and 2024-25, he offers income on the basis of presumptive taxation scheme. Illustration 19

X Co., a firm, is engaged in the business of trading of cloth (turnover of 2022-23 being ₹ 57,80,000, out of which ₹ 25,00,000 has been received in account payee cheque). It wants to claim the following deductions:

Particulars	Amount
Salary and interest to partners [as permitted by sec. 40(b)]	60,000
Salary to employees	4,90,000
Depreciation	2,70,000
Cost of materials used	35,90,000

Other expenses	13,45,000
Total	57,55,000
Net profit (₹ 57,80,000 – ₹ 57,55,000)	25,000

Determine the net income of X & Co. for the assessment year 2023-24 assuming that (i) taxable interest income is ₹ 90,000; (ii) Long term capital gain is ₹ 1,40,000; and (iii) the firm is eligible for a deduction of ₹ 15,000 under sec. 80G.

Solution

Since turnover from business does not exceed ₹ 2 crore, hence sec. 44AD is applicable. However, income computed as per provision other than provision of sec. 44AD is less than estimated income, hence, the firm may be assessed for such lesser income provided following conditions are satisfied –

- Maintain books of account as prescribed u/s 44AA; and
- Get accounts audited u/s 44AB.

Where it maintains accounts and gets it audited

Computation of total income of X & Co. for the A.Y. 2023-24

Income from Other Sources: Interest Income	90,000
Gross Total Income	2,55,000
Less: Deduction u/s 80G	15,000
Total Income	2,40,000

It is assumed that all the expenditures are allowed.

Where it does not maintain account or fails to get accounts audited

Illustration 20

Mr. Sukhvinder is engaged in the business of plying goods carriages. On 1st April, 2022, he owns 10 trucks (out of which 6 are heavy good vehicles of (unladen weight of each is 20 ton)). On 2/5/2022, he sold one of the heavy goods vehicles & purchased a light goods vehicle on 6th May, 2022. This new vehicle could however be put to use only on 15-6-2022.

Compute the total income of Mr. Sukhvinder for the A.Y. 2023-24, taking note of the following data:

Particulars	Amount	Amount
Freight Charges collected		8,70,000
Less: Operational expenses	6,25,000	
Depreciation as per Sec. 32	1,85,000	
Other Office expenses	15,000	8,25,000
Net Profit		45,000
Other business and non-business income		70,000

Solution

Alternative 1) Direct estimation of income u/s 44AE

Vehicle	No. of vehicle	Details	Amount
Light	4	₹ 7,500 * 4 vehicles * 12 months	3,60,000
Heavy	5	₹ 1,000 * 5 vehicles * 12 months * 20 ton	12,00,000
Heavy	1	₹ 1,000 * 1 vehicle * 2# months * 20 ton	40,000
Light	1	₹ 7,500 * 1 vehicles * 11# months	82,500
Income from business of plying goods carriage			16,82,500
Add: Other business and non-business income			70,000
Total Income			17,52,500

Income shall be calculated from the month when assessee acquired the property whether it has been put to use or not. For this purpose, any fraction of the month shall be considered as month.

Alternative 2) Computation of income as per the provision of sec. 28 to 38

Particulars	Amount	Amount
Freight charges collected		8,70,000
Less: Expenditure related to business		
Operational expenses	6,25,000	
Depreciation u/s 32	1,85,000	
Other office expenses	15,000	8,25,000
Income from business of plying goods carriage		45,000
Add: Other business and non-business income		70,000
Total Income		1,15,000

Since Mr. Sukhvinder has lower taxable income in alternative 2 hence his total income is ₹ 1,15,000. But to claim such lower income than the estimated income (computed in alternative 1) as per provision of section 44AE, he will have to —

- Maintain books of account as required u/s 44AA; and - Get his accounts audited.

Remuneration to a representative partner

Remuneration to a representative partner shall be taxable in the hands of such partner and not in hands of organization so represented. However, provision of sec. 40(b) will be applicable.

Treatment in the hands of partner

Share of profit: Partners' share in the total income of the firm is exempt in the hands of partner [Sec. 10(2A)]. Income of a firm shall be taxed in hands of firm only and the same can under no circumstances be taxed in hands of its partners. The entire profit credited to the partner's account in the firm would be exempt from tax in hands of such partners, even if the income chargeable to tax becomes Nil in the hands of the firm on account of any exemption or deduction as per provisions of the Income-tax Act.

Interest and remuneration to partner: Interest and remuneration to partner shall be taxable in the hands of partner, to the extent it is exempted in the hands of firm.

Example: 1: A, B & C are partners in ABC & Co. Interest on capital allowed @ 16% to A ₹ 16,000, B ₹ 8,000 and C ₹ 32,000. Interest treatment in the hands of firm is as under –

Partner	Allowed @ 12%	Remaining Disallowed	Business Income of the Partner
A	12,000	4,000	12,000
B	6,000	2,000	6,000
C	24,000	8,000	24,000

Example: 2: A, B & C are partners in ABC & Co which has sustained a loss of ₹ 2,00,000 during the previous year. Remuneration paid to A ₹ 75,000, B ₹ 1,00,000 and C ₹ 50,000. Since the firm is running in loss hence the maximum remuneration allowed to the firm is ₹ 1,50,000. In such case, taxable amount in hands of partner shall be the proportionate amount of remuneration allowed in hands of firm, calculated as under:

Partner	Workings	Taxable remuneration
A	75,000 / 2,25,000 * 1,50,000	50,000
B	1,00,000 / 2,25,000 * 1,50,000	66,667

8.4 PERIOD OF HOLDING

While computing the period of holding of any capital asset, the following points are to be considered to decide the nature of asset, whether short term or long term –

- Period after liquidation:** In case of shares, if company goes into liquidation, the period after the date of commencement of liquidation is to be excluded.
- Date of transfer:** For calculating the period of holding of a capital asset, the date on which the asset is transferred is to be excluded.
- Conversion of preference shares into equity shares:** In such case, period of holding includes the period for which the preference shares were held by the assessee. 8.5 TRANSFER [SEC. 2(47)]

Transfer in relation to a capital asset includes:

- Sale, Exchange & Relinquishment of the asset;
- Extinguishment of any right in an asset;
- Compulsory acquisition of an asset under any law;
- Conversion of asset into stock-in-trade by the owner;
- Any transaction of immovable property u/s 53A of the Transfer of Property Act, 1882;
- Any transaction which has the effect of transferring or enabling the enjoyment of any immovable property.
- Maturity or redemption of a zero coupon bond

**Taxpoint:**

- Above definition is indicative and not exhaustive
- Above definition is applicable only in relation to capital assets and not otherwise.
- ³It also includes

- disposing of or parting with an asset or any interest therein, or
- creating any interest in any asset in any manner whatsoever,

directly or indirectly, absolutely or conditionally, voluntarily or involuntarily, by way of an agreement (whether entered into in India or outside India) or otherwise, notwithstanding that such transfer of rights has been characterised as being effected or dependent upon or flowing from the transfer of a share or shares of a company registered or incorporated outside India.

Exchange

Exchange includes barter which means mutual transfer of ownership of one thing for the ownership of another

Notes: In case of exchange though there is only one transaction the tax liability arises on both the parties. The sale consideration shall be taken as the fair market value of assets received.

Relinquishment of the asset

Relinquish literally means 'to withdraw from' or 'to abandon' or 'to give up any thing or any right' or 'to cease to hold' or 'to surrender'. Hence, relinquishment means act of surrendering. In other words, it means interest of a person in a property is either given up, abandoned, or surrendered but the property in which right is relinquished continues to exist.

Taxpoint:

- Right of the assessee in the asset is given up or abandoned;
- Asset itself continues to exist after such relinquishment and becomes the property of someone else.
- There must be mutual consent of the parties. A unilateral action of writing off the claim in the books of account cannot be treated as relinquishment.

Extinguishment of any right in an asset

Extinguishment literally means 'to put a total end to' or 'total destruction' or 'blot out of existence' or 'annihilation'. Extinguishment does not mean extinguishment of asset itself but to extinguishment of holder's right to the asset and such right cannot be held by someone else

Incidences of extinguishments –

- **Cancellation of licences:** Abandonment of a project and termination of industrial licence, shall be treated as transfer.
- **Reduction of share capital:** When a part of the share capital is paid to the shareholder by a company, such reduction of share capital shall be treated as extinguishment of proportionate right in the shares and such shareholder shall be liable to capital gain.

³ The Apex Court in the case of Vodafone International Holdings B.V. –vs.– UOI [2012] 204 Taxman 408 has held that the transfer of shares of the foreign holding company do not results in an extinguishment of the foreign company control of the Indian company and it also does not constitute an extinguishment and transfer of an asset situated in India. Transfer of the foreign holding company's share off-shore, cannot result in an extinguishment of the holding company right of control of the Indian company nor can it be stated that the same constitutes extinguishment and transfer of an asset/ management and control of property situated in India.

To nullify the decision of the Apex Court, Finance Act, 2012 has inserted the said explanations w.r.e.f. 01-04-1962.

When there is a reduction of capital by a company and amounts are distributed to shareholder, such amount has two components –

- a. Distribution attributable to accumulated profits i.e. chargeable as deemed dividend u/s 2(22)(d);
 - b. Distribution attributable to capital i.e. subject to tax u/s 45
- **Forfeiture of share:** Forfeiture or surrender of shares indicates extinguishment or relinquishment of right of shareholder in such shares, which have been forfeited by the company. As in CIT vs Vania Silk Mills Pvt. Ltd it was held that the term extinguishment includes all possible transactions which results in the destruction, annihilation, termination, cessation or cancellation of any right in an asset whether corporeal or incorporeal. Though there is no consideration in case of share forfeiture or surrender, still such transaction shall be treated as transfer and liable to capital gain.

Compulsory acquisition of an asset under any law

Normally, sale means a mutual will full agreement between two or more parties. But for the purpose of sec. 2(47), transfer includes compulsory acquisition of any property under any law in force.

Conversion of asset into stock in trade by the owner

Generally, a transfer requires two or more parties, but in Income tax Act even one party's involvement may constitute transfer. As per sec. 2(47)(iv) where an asset is converted by the owner into or treated by him as 'stock in trade' of the business carried on by him, such conversion or treatment shall constitute transfer.

Any transaction of immovable property u/s 53A of the Transfer of Property Act

Any transaction of immovable property in which possession is allowed against part performance of the contract shall be treated as transfer [Sec. 53A of the Transfer of Property Act, 1882].

Any transaction which has enabled the enjoyment of any immovable property

Any transaction which has the effect of transferring or enabling the enjoyment of any immovable property whether by way of becoming a member of, or acquiring shares in a co-operative society, company or other association of persons or by way of any agreement or any arrangement or in any other manner, is treated as transfer.

Property held by a member of a company, co-operative society or other association of persons to whom a building or a part thereof is allotted or leased under House Building Scheme of the company or association, is treated as deemed owner of that building or a part thereof.

Under the scheme of owning flats in co-operative housing societies, the legal ownership in the flats can be said to vest in the individual members themselves and not in the co-operative societies. Therefore for all purposes including attachment and recovery of tax, etc. the individual member should be regarded as the legal owner.

Taxpoint

- Assessee is a member of a company, co-operative society or other AOP.
- He has been allotted or leased a building on account of such membership.

i. **Indexed cost of acquisition**

“Indexed cost of acquisition” means the ‘cost of acquisition’ (as discussed in case of short term capital gain) adjusted according to the price level of the year of sale. As per explanation to sec.48, “Indexed cost of acquisition” is an amount which bears to the ‘cost of acquisition’ the same proportion as Cost Inflation Index for the year in which the asset is transferred bears to the Cost Inflation Index for the first year in which the asset was held by the assessee or for the year beginning on 1/4/2001, whichever is later.

$$\text{Taxpoint: Indexed cost of acquisition} = \text{Cost of acquisition} \times \frac{\text{Index of the year of transfer}}{\text{Index of the year of acquisition}}$$

ii. **Indexed cost of improvement**

$$\text{Indexed cost of improvement} = \text{Cost of improvement} \times \frac{\text{Index of the year of transfer}}{\text{Index of the year of improvement}}$$

Similarly, cost of units in the consolidating plan of the scheme of the mutual fund shall be deemed to be the cost of units in a consolidated plan of a mutual fund scheme.
 - Assets covered u/s 56(2)(x) [Sec. 49(4)] [Refer chapter 'Income from Other Sources']
 - Conversion of inventory into capital assets [Discussed later on]

Cost of acquisition of an asset	Where cost of acquisition of previous owner is ascertainable.	Cost of acquisition of previous owner.
	Where cost of acquisition of previous owner is unascertainable	The fair market value of the asset on the date on which the previous owner had acquired the same shall be deemed to be the cost of acquisition.

Period of holding	Period of holding of the previous owner shall be considered for classifying the asset into short term or long-term capital asset.

⁶ In case of an immovable property declared under the scheme, the period for which such property is held shall be reckoned from the date on which such property is acquired if the date of acquisition is evidenced by a deed registered with any authority of a State Government. ⁷ However, in case of CIT –vs.- Manjula J Saha 16 Taxmann 42 (Bombay), the Hon'ble Bombay High Court has held that index benefit is available from the year in which asset was acquired by the previous owner or for the year beginning on the 1st day of April, 1981, whichever is later.

Taxpoint:	
Indexed cost of acquisition = Cost of acquisition X $\frac{\text{Index of the year of transfer}}{\text{Index of the year in which the asset was first held by the current owner}}$	
Indexation benefit on cost of improvement	Indexation benefit shall be available from the year when the improvement expenditure incurred whether by current owner or by the previous owner.

Mrs. Parminder has jewellery, being gifted on 1/04/2005 by her brother Jitendar. Jitendar acquired such asset for ₹ 60,000 as on 1/07/1995. On 1/07/2002, Jitendar has sewn a diamond worth ₹ 25,000 in such jewellery. On 1/04/2009, Mrs. Parminder incurred polish expenditure on such jewellery costing ₹ 5,000. As on 1/04/2022, Mrs. Parminder sold such jewellery for ₹ 12,00,000. Brokerage @ 1% of sale value was paid by her. The fair market value of the jewellery as on –

1/04/2001 is ₹ 2,00,000; 1/04/2005 is ₹ 5,00,000; and 1/04/2022 is ₹ 7,50,000.

Compute capital gain in hands of Mrs. Parminder for the A.Y. 2023-24.

Solution

Computation of capital gain in the hands of Mrs. Parminder for the A.Y. 2023-24

Particulars	Working	Details	Amount
Sale consideration			12,00,000
Less: Expenses on transfer	1% of ₹ 12,00,000		12,000
Net sale consideration			11,88,000
Less: i) Indexed cost of acquisition	₹ 2,00,000 * 331/117	5,65,812	
ii) Indexed cost of improvement	₹ 25,000 * 331/105	78,810	6,44,622
Long Term Capital Gain			5,43,378

Notes:

- Fair market value as on 1/04/2005 and 1/04/2022 are irrelevant.
- Cost of acquisition shall be taken as cost of acquisition in the hands of previous owner or fair market value as on 1/04/2001, whichever is higher. However, indexation benefit shall be available from the year in which the assessee acquired the property.
- Benefit of indexation in case of cost of improvement shall be available when the actual improvement expenditure was incurred.
- Polish expenditure on jewellery does not amount to improvement as such expenditure is not a capital expenditure and does not increase value of the asset.
- However, in case of CIT –vs.- Manjula J Saha, the Hon'ble Bombay High Court has held that index benefit is available from the year in which asset was acquired by the previous owner or for the year beginning on the 1st day of April, 2001, whichever is later. If this view is considered then indexed cost of acquisition

would have been calculated by taking the CII of F.Y. 2001-02 (as denominator) and in that case, indexed cost of acquisition would be ₹ 6,62,000.

In nutshell

1. If an asset is acquired before 1/04/2001 then its cost of acquisition will be higher of a) Actual cost of acquisition or b) Fair market value of the asset as on 1/04/2001.
2. Any cost of improvement before 1/04/2001 shall not be considered.
3. Index benefit shall be available from the year when the improvement expenditure incurred whether by current owner or by the previous owner.
4. In order to find out whether an asset is short term or long term capital asset, the period of holding of previous owner shall be considered
5. In case of cost of acquisition, index benefit shall be available from the year when the current owner first held the property. However, in case of CIT –vs.- Manjula J Saha 16 Taxmann 42 (Bombay), the Hon'ble Bombay High Court has held that index benefit is available from the year in which asset was acquired by the previous owner or for the year beginning on the 1st day of April, 2001, whichever is later.

Cases where indexation benefit is not available even on transfer of long term capital asset

- **Debenture or Bonds:** In case of transfer of bonds and debentures other than capital indexed bonds issued by the Government or Sovereign Gold Bond issued by the RBI under the Sovereign Gold Bond Scheme, 2015 [Sec. 48].
- **Slump Sale:** Transfer of an undertaking or division in a slump sale [Sec. 50B]. (Discussed later in this chapter)
- **Virtual Digital Asset:** Transfer of crypto currency [Sec. 115BBH] (Discussed later in this chapter)
- **Equity shares and equity oriented fund referred to in sec. 112A** (Discussed later in this chapter)
- **Certain transactions by a non-resident:** In case of a non-resident, capital gain arising on the transfer of shares in or debentures of an Indian company acquired in foreign currency. It will be computed as per First Proviso to sec. 48 (discussed later in this chapter). Further, in case of transaction u/s 115AB, 115AC, etc. index benefit is not available.
- **Transfer of Global Depository Receipt:** Transfer of Global Depository Receipt purchased in foreign currency by a resident individual being employee of an Indian Company [Sec. 115ACA]

Solution

Computation of capital gain in the hands of Miss Isha for the A.Y. 2023-24

Particulars	Working	Details	Amount
Sale consideration			1,45,000
Less: Expenses on transfer	½ % of ₹ 1,45,000		725

Less: i) Cost of acquisition	1,000 Debentures @ ₹ 120 each	1,20,000	
ii) Cost of improvement		Nil	1,20,000
Long Term Capital Gain			24,275

Note: Though the asset sold is long term capital asset still indexation shall not be applicable as indexation benefit is not available on transfer of debentures.

8.10 NOTIONAL SALE CONSIDERATION

In some cases, notional sale value is considered rather than actual sale value e.g.

Section	Case	Deemed value of consideration
45(1A)	Insurance claim received on damage or destruction of capital asset	Compensation received in cash or fair market value (as on date of receipt) of assets received as compensation.
45(2)	Conversion of capital assets into stock in trade	Fair market value of the asset as on date of such conversion.

Fifth proviso to sec. 48	Shares debentures or warrants transferred by the employee by way of gift or under an irrevocable trust.	Market value of the asset as on date of such transfer
50C	Transfer in case of land or building or both	Value determined for payment of stamp duty (if consideration declared by the assessee is less)
Detail study shall be made in respective sections, later in this chapter. Further, aforesaid list is not exhaustive.		

8.11 TREATMENT OF ADVANCE MONEY RECEIVED AND FORFEITED [SEC. 51]

W.e.f. A.Y. 2015-16⁸, any sum of money received as an advance or otherwise in the course of negotiations for transfer of a capital asset shall be taxable as 'Income from Other Sources', if,—

- such sum is forfeited; and
- the negotiations do not result in transfer of such capital asset [Sec. 56(2)(ix)]

Taxpoint: Where any sum of money, received as an advance or otherwise in the course of negotiations for transfer of a capital asset, has been included in the total income of the assessee for any previous year as per sec. 56(2)(ix), then, such sum shall not be deducted from the cost for which the asset was acquired or the written down value or the fair market value, as the case may be, in computing the cost of acquisition.

8.12 TREATMENT OF COMPENSATION PAID BY THE TRANSFEROR

If transferor commits default and transferee receives any compensation (apart from refund of advance money), then compensation received by the transferee shall be treated as sale consideration against transfer of (relinquishment of) purchasing right and charged to capital gain.

⁸ Where any capital asset has previously undergone negotiation for its transfer, any advance or other money received and retained by the assessee (not by the previous owner) on or before 31-03-2014 in respect of such negotiation shall be deducted from the cost for which the asset was acquired or the WDV or the fair market value, as the case may be.

Taxpoint: Treatment of compensation paid by the transferor shall be as under –

Nature of asset transferred	Right to purchase
Nature of transfer	Relinquishment
Cost of acquisition	Nil
Sale consideration	Amount of compensation

COMPUTATION OF CAPITAL GAIN IN CERTAIN CASES

8.13 CAPITAL GAIN IN CASE OF INSURANCE CLAIM [SEC. 45(1A)]

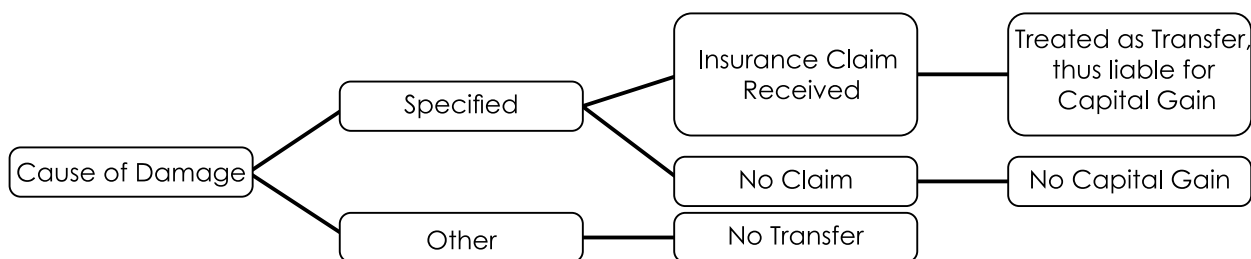

As per the Supreme Court in CIT vs Vania Silk Mills (P) Ltd., any compensation received as insurance claim for loss of capital assets shall not be taxable. However, w.e.f. A.Y. 2000-2001, sec. 45(1A) has been inserted, which nullify the impact of the above case law (to some extent).

As per provision of this section, any compensation received from an insurance company for the specified damages# is treated as transfer. Such transfers are liable to capital gain in the year of receipt of compensation.

Specified damages

Damages caused due to –

- Flood, typhoon, hurricane, cyclone, earthquake or other natural calamities; or
- Riot or civil disturbance; or
- Accidental fire or explosion; or
- Action by an enemy and an action taken in combating an enemy (whether with or without a declaration of war)

For computation of capital gain, various terms to be interpreted as under:

Sale consideration	If compensation received is in cash	Compensation so received
	If compensation received is in kind	Fair Market value (as on date of receipt) of assets received as compensation.
Cost of acquisition / Cost of improvement / Expense on transfer	As usual	
Indexation benefit available (if any)	Till year of destruction	
Taxable	In the year of receipt of compensation	
Tax rate	As applicable in the year of receipt of compensation	

Note: Compensation received for damage of machinery shall be treated u/s 41(1) to the extent expenditure incurred on repair and renovation of damaged machinery and such repair and renovation expenditure shall be allowed u/s 31. However, compensation in excess of repair & renovation expenditure shall be treated as capital receipt and shall not be liable to tax. Sec. 45(1A) shall not be applicable as there is no transfer of capital asset.

Compensation received for any other damages to capital asset: Compensation received for any other damages of capital asset (e.g. loss of capital assets due to theft, road accident or sunk of ship due to technical error, etc.) shall be treated as a capital receipt and shall not be taxable.

Compensation received for any damages to non-capital asset: A revenue receipt may be chargeable u/s 28 or 56. E.g. compensation received on theft of stock in trade shall be taxable as business income.

Destruction of asset without insurance: Where an asset is destroyed and there is no insurance or insurance compensation is not received, neither sec. 45(1A) nor sec. 45 shall be attracted and destruction of asset shall not be treated as transfer. Cost of such asset destroyed is not an allowable loss under the Income Tax Act.

Example: Mr. X acquired a residential building for self occupation on 5/5/2020 for ₹ 90 lacs. On 7/4/2022, the property caught fire. No insurance was made. Such loss of ₹ 90 lacs is not an allowable loss under Income tax Act.

Illustration 6

Lucky has a house property acquired on 18/08/2009 for ₹ 6,00,000. He used the house for his own residential purpose. On 18/08/2012 he incurred capital expenditure on re-construction of house ₹ 3,00,000. On 15/05/2022, he brought office goods (inflammable) worth ₹ 1,00,000 at home to be delivered to a party staying near to his home. At the night of that day accidental fire took place and damaged the whole house property, furniture worth ₹ 5,00,000 and business stock.

Insurance claim received on 18/08/2022 –

1. for the house ₹ 1,00,000 in cash & a new house allotted to him (fair market value of which is ₹ 44,00,000 on 18/08/2022);
2. for house-hold furniture ₹ 2,00,000; and
3. for stock ₹ 80,000.

State –

- Tax-treatment under the head Capital gains.
- How shall your answer differ if such compensation is received by the assessee on 15/04/2023.

Solution

As the damage occurred due to accidental fire, such case is governed by the provision of sec. 45(1A)

Computation of capital gain in the hands of Lucky for the A.Y. 2023-24

Particulars	Workings	Details	Amount (₹)
Sale consideration of house	₹ 1,00,000 + ₹ 44,00,000		45,00,000
Less: Expenses on transfer			Nil
Net sale consideration			45,00,000
Less: i) Indexed cost of acquisition	₹ 6,00,000 * 331/148	13,41,892	
ii) Indexed cost of improvement	₹ 3,00,000 * 331/200	4,96,500	18,38,392
Long Term Capital Gain			26,61,608

For Furniture: No capital gain liability arises as furniture is a personal asset of the assessee and hence not a capital asset. Compensation received on loss of furniture shall be treated as capital receipt and hence not liable to tax.

For Stock: Compensation received on loss of stock shall be liable to tax u/s 28. In the given case, loss of ₹ 20,000 (₹ 1,00,000 – ₹ 80,000) shall be allowed under the head "Profits & gains of business or profession"

In case such compensation is received on 15/04/2023 then the capital gain of ₹ 26,61,608 as computed above shall be taxable in the Assessment year 2024-25.

8.14 CAPITAL GAIN ON ULIP [SEC. 45(1B)]

Situation

Any person receives at any time during any previous year any amount under a unit linked insurance policy, to which exemption u/s 10(10D) does not apply on account of the applicability of the fourth and fifth provisos thereof (i.e. excess premium paid then prescribed limit), including the amount allocated by way of bonus on such policy

Treatment

Any profits or gains arising from receipt of such amount by such person shall be chargeable to income-tax under the head "Capital gains" and shall be deemed to be the income of such person of the previous year in which such amount was received and the income taxable shall be calculated in such manner as may be prescribed.

8.15 CAPITAL GAIN ON CONVERSION OF CAPITAL ASSETS INTO STOCK-IN-TRADE [SEC. 45(2)]

From A.Y. 1985-86 onwards, conversion of capital assets into stock in trade shall be treated as transfer u/s 2(47). For computation of capital gain, various terms to be interpreted are as under:

Sale consideration	Fair Market value as on date of such conversion.
Cost of acquisition/Cost of improvement/ Expenditure on transfer	As usual
Indexation benefit available (if any)	Till year of conversion
Taxable	In the year in which such stock is actually sold
Tax rate	As applicable in the year of actual sale of such stock
Treatment of difference of actual sale value and Fair market value as on date of conversion	[Actual sale value – FMV as on date of conversion – Expenditure on transfer] shall be treated as business Income.

Illustration 7

Ali has 10,000 shares of X (P) Ltd. acquired on 15/05/1981 for ₹ 12 each. On 15/07/1983 he converted 6,000 of such shares into stock in trade. On that date, market value of such share was ₹ 15 each. On 1/05/2007, he further converted 2,000 of such shares into stock in trade. On such date, market value of the share was ₹ 30 each. On 17/02/2023, he sold all shares for ₹ 225 each. Brokerage incurred 2%. State tax treatment. Fair market value of such shares as on 01-04-2001 was ₹ 16/-

Solution

In the given case, shares held by Ali can be divided into three categories –

Category A: 6,000 shares being converted into stock in trade as on 15/07/1983: Sec. 45(2) is applicable on the conversion effected on or after 1/04/1984. Hence, on conversion of 6,000 shares, sec. 45(2) shall not be applicable. Hence, on transfer of such asset no capital gain arises.

Category B: 2,000 shares being converted into stock in trade as on 1/05/2007: As per sec. 45(2), such conversion shall be deemed to be transfer u/s 2(47) and shall be liable to tax in the year of actual sale. For this purpose, fair market value as on date of conversion (₹ 30 each) shall be treated as sale consideration and fair market value on 01-04-2001 shall be considered as cost of acquisition. The difference between actual sale value (₹ 225) and fair market value as on date of conversion (₹ 30 each) shall be treated as business income.

Category C: 2,000 shares (remaining) held as investments: Transfer of such share shall be liable to capital gain. Computation of capital gain in the hands of Ali for the A.Y. 2023-24

Particulars	Category B		Category C	
	Details	Amount (₹)	Details	Amount (₹)
Sale consideration	2,000 * ₹ 30	60,000	2,000 * ₹ 225	4,50,000
Less: Expenses on transfer		Nil	2% of ₹ 4,50,000	9,000
Net Sale Consideration		60,000		4,41,000
Less: i) Indexed cost of acquisition	2,000*16*129/100	41,280	2000*16*331/100	1,05,920
ii) Indexed cost of improvement		Nil		Nil
Long Term Capital Gain		18,720		3,35,080

Computation of Profits & gains of business or profession in the hands of Ali for the A.Y. 2023-24

Particulars	Category A		Category B	
	Details	Amount (₹)	Details	Amount (₹)
Sale consideration	6,000 * ₹ 225	13,50,000	2,000 * ₹ 225	4,50,000
Less: Expenses on transfer	2% of ₹ 13,50,000	27,000	2% of ₹ 4,50,000	9,000
Net Sale Consideration		13,23,000		4,41,000
Less: Cost of goods sold	₹ 151 * 6,000	90,000	₹ 302 * 2,000	60,000
Profits & gains of business or profession		12,33,000		3,81,000
<p>1. Provision of sec. 45(2) shall be applicable from A.Y. 1985-86, since such shares are converted before A.Y. 1985-86, hence the difference between cost price (₹ 12) and market price (₹ 15) on the date of such conversion shall neither be liable to capital gain nor business income. Further cost of goods sold shall be taken as fair market value as on the date of such conversion i.e. ₹ 15.</p> <p>2. Fair market value of share on conversion of such asset into stock in trade.</p>				

8.16 COMPUTATION OF CAPITAL GAIN IN CASE OF DEPRECIABLE ASSETS [SEC. 50]

Meaning	<p>The capital asset which forms a part of a block of assets⁹ in respect of which depreciation has been allowed u/s 32(1)(ii) as per WDV method.</p> <p>E.g. a residential house property being not used for business purpose, on which no depreciation is allowed under Income tax Act shall be treated as a non-depreciable asset. Whereas if the same house is used for the residence of employee of the business and depreciation has been claimed under I.T. Act then it shall be treated as depreciable asset.</p>
---------	---

⁹ Block of asset does not include goodwill of business or profession

Nature of Capital gain	Capital gain arising on transfer of depreciable asset shall always be a short-term capital gain.
Benefit of indexation	Indexation benefit cannot be claimed on such asset.
Computation	For computation of capital gain on transfer of such asset, refer Depreciation (u/s 32) of the chapter "Profits & gains of business or profession"
Note: Depreciable asset itself may be a long term capital asset or short term capital asset depending upon the period of holding (whether held for more than 36 months or not), however gain on transfer of aforesaid depreciable asset shall always be short term capital gain.	

8.17 TRANSFER OF SECURITY BY DEPOSITORY [SEC. 45(2A)]

An assessee may have security in form of a physical script or in dematerialized form. The securities held in dematerialized form shall be dealt as per sec. 45(2A) and for computation of capital gain, various terms to be interpreted are as under:

Cost of acquisition	Cost of acquisition and the period of holding of any securities shall be determined on the basis of the first-in-first-out method (FIFO)#.
Period of holding	
Sale consideration	As usual
Benefit of indexation	
Expenditure on transfer	

In this connection, CBDT vide Circular No. 768, dated 24/6/1998 has clarified that:

- In case of assessee who has securities partly in physical form and partly in dematerialized form, FIFO method will be applied only in respect of the dematerialized holding. This is because in case of sale of dematerialized securities, the securities held in physical form are not considered as they continue to remain in the possession of the investor and are identifiable separately.
- An assessee may have more than one account in case of depository system and in such case FIFO technique shall be applied for each account separately.
- For deciding FIFO technique the date of entry in 'De-Mat Account' is significant and the date of purchase of security is irrelevant.

8.18 CAPITAL GAIN ON TRANSFER OF CAPITAL ASSETS BY A PARTNER/MEMBER TO FIRM/AOP/BOI AS CAPITAL CONTRIBUTION [SEC. 45(3)]

Where a partner or member (whether existing or new) transfers any of its capital assets to firm, AOP or BOI of which he is a member by way of capital contribution, the same shall be treated as transfer. Tax treatment of such transfer shall be as under:

Sale consideration	The amount recorded in books of account of the firm/AOP/BOI, as value of such assets.
Cost of acquisition/Cost of improvement/Expenditure on transfer	As usual
Taxable	In the year of such transfer
Indexation benefit	As usual

Note: Fair market value of such asset is irrelevant to decide sale consideration.

Illustration 8

ABC & Co. has three partners A, B and C sharing profit or loss in the ratio 5:3:2. They admitted D as a new

partner on 31/03/2022 for 1/5th share and D is to bring ₹ 2,00,000 as his capital which he brought in form of furniture (earlier used in his home) ₹ 50,000 immediately & further brought jewellery of which fair market value is ₹ 2,00,000 on 2/04/2022 (however such assets was recorded in the books at ₹ 1,50,000). D had acquired such jewellery for ₹ 45,000 on 7/07/2001. Compute capital gain in the hands of Mr. D.

Solution

In the given case, Mr. D brought two assets:

- Furniture, being a personal effect, is not a capital asset and hence, not liable to capital gain.
- Jewellery being a capital asset, hence liable to capital gain as under –

Computation of capital gain in the hands of Mr. D for the A.Y. 2023-24

Particulars	Working	Details	Amount (₹)
Sale consideration			1,50,000
Less: Expenses on transfer			Nil
Net sale consideration			1,50,000
Less: i) Indexed cost of acquisition	₹ 45,000 * 331/100	1,48,950	
ii) Indexed cost of improvement		Nil	1,48,950
Long Term Capital Gain			1,050
Sale consideration shall be the amount recorded in books of account of the firm and market value of such asset is irrelevant.			

8.19 CAPITAL GAIN ON TRANSFER OF CAPITAL ASSETS BY A FIRM/AOP/BOI TO PARTNER/MEMBER BY WAY OF DISTRIBUTION ON ITS DISSOLUTION [SEC. 45(4) R.W.S 9B]

Situation

Where a specified person receives during the previous year any money or capital asset or both from a specified entity in connection with the reconstitution of such specified entity,

- "Specified entity" means a firm or other association of persons or body of individuals (not being a company or a co-operative society);
- "Specified person" means a person, who is a partner of a firm or member of other association of persons or body of individuals (not being a company or a co-operative society) in any previous year.
- "Reconstitution of the specified entity" means, where—
 - one or more of its partners or members, as the case may be, of such specified entity ceases to be partners or members; or
 - one or more new partners or members, as the case may be, are admitted in such specified entity in such circumstances that one or more of the persons who were partners or members, as the case may be, of the specified entity, before the change, continue as partner or partners or member or members after the change; or
 - all the partners or members, as the case may be, of such specified entity continue with a change in their respective share or in the shares of some of them;

Treatment

In the hands of specified entity u/s 9B

Any profits and gains arising from such deemed transfer of capital asset or stock in trade or both, as the case may be, by the specified entity shall be:

- deemed to be the income of such specified entity of the previous year in which such capital asset or stock in trade or both were received by the specified person; and
- chargeable to income-tax as income of such specified entity under the head "Profits and gains of business or profession" or under the head "Capital gains"
- for aforesaid purposes, fair market value of the capital asset or stock in trade or both on the date of its receipt by the specified person shall be deemed to be the full value of the consideration received or accruing as a result of such deemed transfer of the capital asset or stock in trade or both by the specified entity.

In the hands of specified entity u/s 45(4)

Any profits or gains arising from such receipt by the specified person shall be chargeable as income of such specified entity under the head "Capital gains".

- It shall be deemed to be the income of such specified entity of the previous year in which such money or capital asset or both were received by the specified person.
- Transfer of stock in trade shall be treated as business profit

Method of computation of profits or gains

Such profits or gains shall be determined in accordance with the following formula:

$$A = B + C - D$$

where,

- A = Income chargeable as capital gains of the specified entity
If the value of "A" is negative, its value shall be deemed to be zero.
- B = Value of any money received by the specified person from the specified entity on the date of such receipt;
- C = Fair market value of the capital asset received by the specified person from the specified entity on the date of such receipt
- D = Balance in the capital account (represented in any manner) of the specified person in the books of account of the specified entity at the time of its reconstitution.
 - The balance is to be calculated without taking into account the increase in the capital account of the specified person due to revaluation of any asset or due to self-generated goodwill or any other self-generated asset.
 - "Self-generated goodwill" and "Self-generated asset" mean goodwill or asset, as the case may be, which has been acquired without incurring any cost for purchase or which has been generated during the course of the business or profession.

Taxpoint

When a capital asset is received by a specified person from a specified entity in connection with the reconstitution of such specified entity, this provision shall operate in addition to the provisions of sec. 9B and the taxation under the said provisions thereof shall be worked out independently.

Illustration 9

Case 1:

- There are three partners "A", "B" and "C" in a firm "FR", having one third share each. Each partner has a capital balance of ₹ 10 lakh in the firm. There are three pieces of lands "S", "T" and "U" in that firm and there is no other capital asset in that firm. Book value of each of the land is ₹ 10 lakh. All these lands were

acquired by the firm more than 2 years ago.

- Partner "A" wishes to exit. The firm revalues its lands based on valuation report from a registered valuer, as defined in rule 11U of the Rules, and as per that valuation report fair market value of lands "S" and "T" is ₹ 70 lakh each, while fair market value of land "U" is ₹ 50 lakh. On the exit of partner "A", the firm decides to give him ₹ 11 lakh of money and land "U" to settle his capital balance.
- In accordance with the provisions of sec. 9B, it would be deemed that the firm "FR" has transferred land "U" to the partner "A" at its fair market value of ₹ 50 lakh. Let us assume that the indexed cost of acquisition of land "U" is ₹ 15 lakh.
- Now on account of the deeming provisions of sec. 9B, it is deemed that the firm "FR" has transferred land "U" to partner "A". Thus, an amount of ₹ 50 lakh less ₹ 15 lakh would be charged to tax in the hands of firm "FR" under the head "Capital gains". For partner "A", the cost of acquisition of this land would be ₹ 50 lakh. Hence, the amount of ₹ 35 lakh is charged to long term capital gains and let us assume that the tax is ₹ 7 lakh (assume no surcharge or cess just for ease of calculation and illustration purposes).
- This, net book profit after tax of ₹ 33 lakh (capital gains of ₹ 40 lakh without indexation less tax of ₹ 7 lakh) is to be credited in the capital account of each of the three partners, i.e. ₹ 11 lakh each. Thus partner "A" capital account would increase to ₹ 21 lakh. This exercise is required to be carried out since sec. 9B mandates that it is to be deemed that the firm "FR" has transferred the land "U" to partner "A" and the long term capital gains of ₹ 35 lakh is chargeable to tax in the hands of the firm "FR".
- As against capital balance of ₹ 21 lakh, partner "A" has received ₹ 61 lakh (₹ 11 lakh of money plus land "U" of fair market value of ₹ 50 lakh). Thus ₹ 40 lakh is required to be charged to tax u/s 45(4). This shall be in addition to an amount of ₹ 35 lakh charged to tax u/s 9B.
- On account of sec. 48(iii), read with rule 8AB of the Rules, this ₹ 40 lakh is to be attributed to the remaining assets of the firm "FR" on the basis of increase in their value due to revaluation based on the valuation report of registered valuer. In this case as per revaluation there are only two capital assets remaining; lands "S" and "T". In both cases the value has increased by ₹ 60 lakh each. Thus, out of ₹ 40 lakh, ₹ 20 lakh shall be attributed to land "S" and ₹ 20 lakh to land "T". When either of these lands gets sold, this amount attributed to them would be reduced from sales consideration.
- The amount of ₹ 40 lakh which is charged to tax u/s 45(4) shall be charged as long term capital gains in view of rule 8AA(5), since the amount of ₹ 40 lakh is attributed to land "S" and land "T" which are both long term capital assets at the time of taxation of ₹ 40 lakh u/s 45(4).

Case 2:

- There are three partners "A", "B" and "C" in a firm "FR", having one third share each. Each partner has a capital balance of ₹ 100 lakh in the firm. There is a piece of land "S" of book value of ₹ 30 lakh. There is patent "T" of written down value of ₹ 45 lakh. And there is cash of ₹ 225 lakh. The land was acquired by the firm more than two years ago. The patent was acquired/developed/registered one year back.
- Partner "A" wishes to exit. The firm revalue its land and patent based on valuation report from a registered valuer, as defined in rule 11U, and as per that valuation report fair market value of land "S" is ₹ 45 lakh and fair market value of patent "T" is ₹ 60 lakh. As per the valuation report there is also self-generated goodwill of ₹ 30 lakh. On the exit of partner "A", the firm decides to give him ₹ 75 lakh in money and land "S" to settle his capital balance.
- In accordance with the provisions of sec. 9B, it would be deemed that the firm "FR" has transferred land "S" to the partner "A" at its fair market value of ₹ 45 lakh. Let us assume that the indexed cost of acquisition of land "S" is ₹ 45 lakh.
- Now on account of the deeming provisions of sec. 9B, it is deemed that the firm "FR" has transferred land "S" to partner "A". However, since the sale consideration is equal to indexed cost of acquisition, there will

not be any capital gains tax. For partner "A", the cost of acquisition of this land would be ₹ 45 lakh.

- The net book profit of ₹ 15 lakh (capital gains of ₹ 15 lakh without indexation) is to be credited in the capital account of each of the three partners, i.e. ₹ 5 lakh each. Thus partner "A" capital account would increase to ₹ 105 lakh. This exercise is required to be carried out since sec. 9B mandates that it is to be deemed that the firm "FR" has transferred the land "S" to partner "A". Thus, any gain in the books is to be apportioned to partners' capital accounts.
- As against capital balance of ₹ 105 lakh, partner "A" has received ₹ 120 lakh (money of ₹ 75 Lakh plus land "S" of fair market value of ₹ 45 lakh). Thus ₹ 15 Lakh is required to be charged to tax u/s 45(4).
- On account of sec. 48(iii), read with rule 8AB and this guidance note, this ₹ 15 lakh is to be attributed to the remaining capital assets of the firm "FR" on the basis of increase in the value due to revaluation of existing capital assets, or due to recognition of the value of self-generated goodwill, based on the valuation report of registered valuer. In this case as per this report the value of patent "T" has increased by ₹ 15 lakh and the self-generated goodwill value has been recognised at ₹ 30 lakh. Thus, one third of ₹ 15 lakh (i.e. ₹ 5 lakh) would be attributed to patent "T", while two third of ₹ 15 lakh (i.e. ₹ 10 lakh) would be attributed to self-generated goodwill. ₹ 5 lakh attributed to patent "T" shall not be added to the block of the assets and no depreciation shall be available on the same. When patent "T" gets transferred subsequently, this ₹ 5 Lakh attributed shall be reduced from the full value of the consideration received or accruing as a result of transfer of patent "T" by the firm "FR", and the net value shall be considered for reduction from the written down value of the intangible block u/s 46(6)(c) or for calculation of capital gains, as the case may be, u/s 50. Let us say that Patent T is sold for ₹ 25 lakh. ₹ 5 lakh shall be reduced from ₹ 25 lakh and only net amount of ₹ 20 lakh shall be considered for reduction from the written down value of the intangible block or for calculation of capital gains, as the case may be, u/s 50. Similarly when goodwill gets sold subsequently, ₹ 10 lakh would be reduced from its sales consideration u/s 48(iii).
- The amount of ₹ 15 lakh which is charged to tax u/s 45(4) shall be charged as short term capital gains, as ₹ 5 lakh is attributed to the Patent "T" which is part of block of assets and ₹ 10 lakh is attributed to self-generated goodwill. Both of these are to be characterised as short term capital gains.

Note:

For the purpose of calculation of depreciation u/s 32, the written down value of the block of asset "intangible" of which Patent "T" is part, would remain ₹ 45 lakh and would not be increased to ₹ 60 lakh due to revaluation during the year. In this regard it may be highlighted that the following provisions are relevant in determining the amount on which depreciation is allowable:

- Explanation 2 of sec. 32(1) provides that the term "written down value of the block of assets" shall have the same meaning as in sec. 46(6)(c).
- Sec. 46(6)(c), with respect to block of assets, inter- alia, provides that the aggregate of the written down values of all the assets falling within that block of assets at the beginning of the previous year is to be increased by the actual cost of any asset falling within that block, acquired during the previous year. This clause does not allow any increase on account of revaluation.
- Sec. 43(1) which defines "Actual cost" as actual cost of the assets to the assessee. In revaluation, there is no actual cost to the assessee
- Further, sec. 32 not allow depreciation on goodwill. If in the given example "self generated goodwill" is replaced by "self-generated asset", even then the depreciation will not be admissible on the amount of ₹ 30 lakh recognised in valuation. In this regard it may be highlighted that the above mentioned provisions are also applicable to "self-generated asset" and since there is no actual cost to assessee in case of "self-generated asset", depreciation is not allowable u/s 32 on an asset whose actual cost is nil.

All cases are part of Circular No. 14/2021 dated 02/07/2021

8.20 CAPITAL GAIN ON TRANSFER BY WAY OF COMPULSORY ACQUISITION [SEC. 45(5)]

Sec. 45(5) is applicable on the following cases –

- When the transfer of a capital asset (other than urban agro-land) is by way of compulsory acquisition under any law; or
- When a capital asset is transferred and the consideration of transfer is to be determined or approved by the Central Government (not by a State Government) or the Reserve Bank of India.

Tax treatment of initial compensation received [Sec. 45(5)(a)]

Sale consideration	Total compensation or consideration received or receivable
Cost of acquisition / Cost of improvement	As usual
Expenditure on transfer	Legal expenditure incurred to recover claim shall be allowed as deduction.
Taxable	In the year when such compensation / consideration (or part thereof) is first received.
Indexation benefit available	Till the year of compulsory acquisition.

Tax treatment of enhanced compensation [Sec. 45(5)(b)]

Mr. Joseph has 1,000 equity shares of X Ltd. that he acquired on 17/08/2007 through will of his father. His father acquired such shares on 17/07/2004 through gift from his father in law (Mr. Z). Mr. Z acquired such shares on 18/08/2000 for ₹ 20 each. Fair market value of such shares as on –

1/04/2001	17/07/2004	17/08/2007
₹ 18 each	₹ 25 each	₹ 40 each

On 31/03/2013, X Ltd. amalgamated with Y Ltd. and amalgamated company issued its 3 equity shares for every two equity shares of amalgamating company. On 2/04/2022, Mr. Joseph sold 1,000 shares of Y Ltd to one of his friends for ₹ 38 each. Compute capital gain.

Solution

- When any shares become the property of assessee in a scheme of amalgamation, period of holding of shares in amalgamated company shall be aggregate of period of holding of shares in amalgamating company prior to amalgamation and period of holding of share in amalgamated company. Hence, in the given case, asset transferred (being shares of Y Ltd) were treated as long-term capital asset.
- Calculation of cost of acquisition of shares of Y Ltd.

Cost of shares of X Ltd. (i.e., cost of the previous owner#) (1,000 share @ ₹ 20 each)	₹ 20,000
Shares received on amalgamation of Y Ltd. (3 for every 2 shares held)	1,500 shares
Cost of acquisition per share of Y Ltd. (₹ 20,000/1,500)	₹ 13.33
<p>#: Previous owner: Previous owner means the last owner who acquired the asset for a value. In the given case Mr. Joseph acquired the shares through will of his father. Hence, literally Joseph's father is previous owner. But since Joseph's father has not purchased such shares but acquired by way of gift from his father in law, hence for this purpose, Mr. Z is the previous owner. [Sec. 49(1)]</p>

Computation of cost of acquisition of such capital assets in certain cases

The cost of acquisition for the long-term capital asset acquired on or before 31st of January, 2018 will be higher of the following:

- A. the actual cost of acquisition of such asset;
- B. the lower of –
 - a. the fair market value of such asset as on 31/01/2018¹³;
 - b. the full value of consideration received or accruing as a result of the transfer of the capital asset

Taxpoint:

- No Index benefit is available
- The holding period will be counted from the date of acquisition
- The cost of acquisition of bonus shares acquired before 31st January, 2018 will be determined as per aforesaid rule. Therefore, the fair market value of the bonus shares as on 31st January, 2018 will be taken as cost of acquisition (except in some situations explained in following examples).

Examples

Scenario 1 – An equity share is acquired on 1st of January, 2017 at ₹ 100, its fair market value is ₹ 200 on 31st of January, 2018 and it is sold on 1st of April, 2022 at ₹ 250.

As the actual cost of acquisition is less than the fair market value as on 31st of January, 2018, the fair market value of ₹ 200 will be taken as the cost of acquisition and the long-term capital gain will be ₹ 50 (₹ 250 – ₹ 200).

Scenario 2 – An equity share is acquired on 1st of January, 2017 at ₹ 100, its fair market value is ₹ 200 on 31st of January, 2018 and it is sold on 1st of April, 2022 at ₹ 150.

In this case, the actual cost of acquisition is less than the fair market value as on 31st of January, 2018. However, the sale value is also less than the fair market value as on 31st of January, 2018. Accordingly, the sale value of

¹² + Applicable Surcharge and Cess

¹³ The highest price of the capital asset quoted on such exchange on 31/01/2018 shall be considered as fair market value

₹ 150 will be taken as the cost of acquisition and the long-term capital gain will be NIL (₹ 150 – ₹ 150).

Scenario 3 – An equity share is acquired on 1st of January, 2017 at ₹ 100, its fair market value is ₹ 50 on 31st of January, 2018 and it is sold on 1st of April, 2022 at ₹ 150.

In this case, the fair market value as on 31st of January, 2018 is less than the actual cost of acquisition, and therefore, the actual cost of ₹ 100 will be taken as actual cost of acquisition and the long-term capital gain will be ₹ 50 (₹ 150 – ₹ 100).

Scenario 4 – An equity share is acquired on 1st of January, 2017 at ₹ 100, its fair market value is ₹ 200 on 31st of January, 2018 and it is sold on 1st of April, 2022 at ₹ 50.

In this case, the actual cost of acquisition is less than the fair market value as on 31st January, 2018. The sale value is less than the fair market value as on 31st of January, 2018 and also the actual cost of acquisition. Therefore, the actual cost of ₹ 100 will be taken as the cost of acquisition in this case. Hence, the long-term capital loss will be ₹ 50 (₹ 50 – ₹ 100) in this case.

Treatment

Capital gain may be calculated and assessed in any of the following two options:

Step	Option 1	Option 2
1st	Find sale consideration	Find sale consideration
2nd	Deduct expenditure on transfer, indexed cost of acquisition and indexed cost of improvement as usual.	Deduct expenditure on transfer, cost of acquisition and cost of improvement. Taxpoint: No indexation benefit shall be available.
3rd	The balancing amount [i.e., (1) – (2)] is long term capital gain	The balancing amount [i.e., (1) – (2)] is long term capital gain.
4th	Such capital gain shall be taxed @ 20% + surcharge (if any) + education cess.	Such capital gain shall be taxed @ 10% + surcharge (if any) + education cess.

Note: Though the tax rate in option 2 is lower, but since no indexation benefit is available, it is difficult to state which option is better for assessee. However, in the case of transfer of listed debentures and listed bonds, Option 2 will be better as compared to Option 1, as because in such asset indexation benefit is not available.

Lottery income received = Lottery income earned – Tax deducted at source on such income#

9.9 INCOME BY WAY OF INTEREST RECEIVED ON COMPENSATION OR ON ENHANCED COMPENSATION [SEC.56(2)(viii)]

Interest received by an assessee on compensation or on enhanced compensation, as the case may be, shall be deemed to be the income of the year in which it is received.

E.g., During the previous year 2022-23, Mr. X received ₹ 65,000 (₹ 45,000 pertaining to the previous year 2021-22) as interest on delayed compensation. Such interest after allowing standard deduction shall be considered as an income of the previous year 2022-23 (irrespective of previous year to which such interest pertains). Thus, ₹ 32,500 (i.e., ₹ 65,000 – ₹ 32,500 being standard deduction @ 50%) shall be considered as income of the previous year 2022-23.

9.10 EMPLOYEE'S CONTRIBUTION TOWARDS STAFF WELFARE FUND OR SCHEME [SEC. 56(2)(ic)]

shall be treated as income of the employer under this head if not taxable under the head "Profits & gains of business or profession". Subsequently, when such sum is credited by the employer to the employee's account in the relevant fund on or before the due date prescribed under the relevant Act, then deduction of equal amount is available.

9.11 INTEREST ON SECURITIES [SEC. 56(2)(id)]

As per sec. 2(28B), "interest on securities" means -

- a. Interest on any security of the Central Government or a State Government;
- b. Interest on debentures or other securities issued by or on behalf of -
 - a local authority; or
 - a company; or
 - a corporation established by a Central, State or Provincial Act.

**Tax treatment**

Case	Treatment
When the securities are held as stock-in-trade	Interest on securities is charged to tax under the head 'Profits & gains of business or profession'
When the securities are held otherwise than as stock-in-trade.	Interest on such securities is charged to tax under the head 'Income from other sources'

Chargeability: It is taxable as per cash basis or due basis, depending on the method of accounting regularly followed by the assessee. However, where no method of accountancy is followed, then it shall always be taxable on due basis.

Due date of interest: Interest shall be taxable when such interest falls due. Interest on securities shall not accrue on day-to-day basis. It accrues on the due date of interest as prescribed by the issuing authority. Entire interest shall be charged in the hands of assessee who holds security on such date (irrespective of the date of acquisition of such security). E.g. Mr. X acquired debenture of A Ltd. as on 7/9/2022. Due date of interest on debenture is 31st March every year. Interest on such debenture shall be taxable in hands of Mr. X for the whole year.

Taxpoint: In case of death of assessee before the due date, the income of the whole year shall be taxable in the hands of recipient of income.

Grossing-up of interest if it is given net of TDS: Sometime in the problem, Interest income received is given rather than Interest earned. In such case, students are required to gross up the interest income received. Relation between interest income earned and interest income received is as under:

Interest income received = Interest income earned – Tax deducted at source on such income#

Accordingly, Gross income from interest = [Interest received * 100 / (100 - TDS rate i.e.10%)]

Tax is required to be deducted @ 10%. However, in certain cases, tax is not required to be deducted (For further details refer Chapter Tax Deducted at Source)

Expenditure allowed as deductions

By virtue of sec. 57(i) and (iii), the following expenditure are deductible from interest income:

- Collection expenditure
- Interest on loan
- Any other expenditure

Taxpoint: However, any expenses covered u/s 58 shall not be allowed

Avoidance of tax by certain transaction in securities [Sec. 94]

- Bond Washing Transactions [Sec. 94(1)]:** Interest on securities shall not accrue on day-to-day basis. It accrues on the due date of interest as prescribed by issuing authority. Entire interest shall be charged in the hands of assessee who holds security on such date (irrespective of the date of acquisition of such security). Tax liability may be evaded by transferring securities just before the due date of interest (interest includes dividend) to any person (like friend or relative who has low income) and reacquiring the same, after the interest is received by the transferee. With this practice, income, which should have been charged at higher rate, shall be charged at lower rate or nil rates. To avoid these practices, sec. 94(1) provides that - where an assessee transfers the securities before the due date of interest and reacquires the same, then the interest received by the transferee will be deemed to be the income of the transferor.

E.g: Mr. X transferred 1,000 10% debentures (due date of interest of such debenture is 31st March every year), to his brother Mr. Y on 27/03/2023 to evade tax. Such security is repurchased by him on 5/04/2023. Interest for the previous year 2022-23, though received by Mr. Y shall be taxable in hands of Mr. X due to sec. 94(1).

2. **Transaction relating to securities resulting into less or no income:** Sec. 94(2) provides that -
- Where a person has had at any time during the previous year any beneficial interest in securities; &
 - The result of any transaction relating to such securities is that, either no income is received by him or the income received by him is less than the income from such securities on day to day basis,
- then the income from such securities for such year shall be deemed to be the income of such person.

Exceptions to sec. 94(1) & 94(2)[Sec. 94(3)]

However, nothing provided in sec. 94(1) and (2) shall be applicable, if the owner of securities satisfies the AO that -

- i. There has been no avoidance of income tax or the avoidance of income tax is exceptional and not systematic; and
- ii. There was not any avoidance of income tax u/s 94 during 3 years preceding the previous year.

Note: The Assessing Officer may (by notice in writing) require any person to furnish within such time (not less than 28 days), such particulars as he considers necessary in respect of all securities -

- of which such person was the owner; or
- in which he had a beneficial interest at any time during the period specified in the notice [Sec. 94(6)]

10.1 INTRODUCTION

Generally, an assessee is taxed on income accruing to him only and he is not liable to tax for income of another person. However, there are certain exceptions to the above rule (mentioned u/s 60 to 64). Sec. 60 to 64 deals with the provisions of clubbing of income, under which an assessee may be taxed in respect of income accrued to other person, e.g. certain income of minor child shall be clubbed in the hands of his parents, income from asset transferred to spouse for inadequate consideration shall be clubbed in the hands of the transferor, etc. These provisions have been enacted to counteract the tendency on the part of the taxpayers to dispose off their income or income-generating assets to escape tax liability

10.2 GENERAL RULES

● Computation of income to be clubbed

The income, which is to be clubbed, shall be first computed in the hands of recipient and all expenditure related to such income shall be allowed as per the respective provisions of the Act and thereafter the net income shall be clubbed.

E.g.: Standard deduction u/s 24(a) from Income from house property shall be allowed in the hands of the recipient and thereafter the net income shall be clubbed.

● Clubbing Head

Income shall be, first, computed in the hands of recipient and then clubbing shall be made head wise.

E.g.: Bank interest of minor child shall be clubbed under the head "Income from other sources" of parent.

● Deduction under chapter VIA

If the clubbed income is eligible for deduction u/s 80C to 80U, then such deduction shall be allowed to the

assessee in whose hands such income is clubbed. E.g. If interest on saving bank account of the minor is clubbed in the hands of parent u/s 64(1A) then parent can claim deduction u/s 80TTA.

● **Clubbing of negative income**

As per explanation 2 to sec. 64, clubbing of income includes clubbing of negative income i.e. where an income is liable to be clubbed, loss from the same source shall also be clubbed. Clubbing provisions is mandatory and shall be applied even in those cases where the application of such provision causes loss of revenue to the Income tax department.

10.3 TRANSFER OF INCOME WITHOUT TRANSFERRING ASSETS [SEC. 60]

Where an income is transferred without transferring the asset yielding such income, then income so transferred shall be clubbed in the hands of the transferor.

The above provision holds good -

- whether the transfer is revocable or not; or
- whether the transaction is effected before or after the commencement of this Act.

10.4 REVOCABLE TRANSFER [SEC. 61]

If an assessee transfers an asset under a revocable transfer, then income generated from such asset, shall be clubbed in the hands of the transferor.

Revocable transfer

As per sec. 63(a), a transfer shall be deemed to be revocable if -

- It contains any provision for the retransfer (directly or indirectly) of any part or whole of the income/assets to the transferor; or
- It, in any way, gives the transferor a right to re-assume power (directly or indirectly) over any part or whole of the income/assets.

Exceptions [Sec. 62]

As per sec. 62(1), the provision of sec. 61 shall not apply to an income arising to a person by virtue of -

- A transfer by way of creation of a trust which is irrevocable during the lifetime of the beneficiary;
- Any transfer which is irrevocable during the lifetime of the transferee; or
- Any transfer made before 1.4.61, which is not revocable for a period exceeding 6 years.

In any case, the transferor must not derive any benefit (directly or indirectly) from such income.

Note: As per sec. 62(2), income, in any of the above exceptional case, shall be taxable as under -

Situation	Taxable in hands of
When the power to revoke the transfer arises (whether such power is exercised or not)	Transferor
When the power to revoke the transfer does not arise	Transferee

Discuss the tax treatment in the following cases:

Case	Solution
a. Harish has transferred certain securities owned by him to a trust for his married sister, Harsha, as on 1/7/2022. He has the power to revoke the trust at his desire. On 31/3/2024, he revoked such trust. Income accrued for the previous year 2022-23 and 2023-24 are ₹ 1,20,000 and ₹ 1,50,000 respectively and such income is received and enjoyed by Harsha.	Since the asset has been transferred under a revocable clause, hence, by virtue of sec. 61, income accrued on securities during the previous year 2022-23 ₹ 1,20,000 and 2023-24 ₹ 1,50,000, though received by Harsha, shall be taxable in the hands of Harish.

Since asset has been transferred under a revocable clause, hence, by virtue of sec. 61, income accrued on such property shall be chargeable in hands of Raja for previous year 2022-23 as well as for 2023-24. This is because all income arising to the transferor by virtue of any revocable transfer shall be chargeable in hands of the transferor as and when the power to revoke the transfer arises whether or not such power has been exercised. Since Raja had the power of revocation from beginning therefore income shall be clubbed in his hand from the date of transfer.
c. Seema transferred on 1/4/2022 her property to Neema for the life time of Neema with a clause that after death of Neema, property shall be back to Seema. Neema died on 1/4/2023. Since asset has been transferred which is irrevocable during the lifetime of the transferee hence, by virtue of sec. 62, income accrued on such property shall be chargeable in hands of Neema for the P.Y. 2022-23. However, income for the P.Y. 2023-24 shall be chargeable in hands of the Seema as because after death of Neema, Seema got the power to revoke the transfer and when the power to revoke the transfer arises, income is clubbed in hands of transferor even the power has not been exercised.

10.9 LIABILITY OF THE TRANSFeree [SEC. 65]

Applicability

Where, by reason of the -

- provisions contained in this Chapter; or
- provisions contained in sec. 27(i)

the income from any asset (or from membership in a firm) of a person other than the assessee, is included in the total income of the assessee.

Impact

On the service of a notice of demand by the Assessing Officer in this behalf, the person in whose name such asset stands (or who is a member of the firm) shall be liable to pay that portion of the tax levied on the assessee which is attributable to the income so included.

Notes

- Such liability cannot exceed the value of assets so transferred.
- Where any such asset is held jointly by more than one person, they shall be jointly and severally liable to pay the tax which is attributable to the income from the assets so included.

Taxpoint: After application of provisions of clubbing (on transfer of property without adequate consideration as discussed above in several sections), income is taxable and tax liability arises in the hands of the transferor. But sec. 65 empowers the income tax authorities to serve demand notice (in respect of tax on clubbed income) upon transferee.

10.10 IMPORTANT GENERAL NOTES

TDS	Where an income is includible u/s 64 and tax has been deducted at source from such income, the credit of tax deducted at source shall be given to the person in whose hands the income is taxable [Sec. 199].
Advance Tax	The advance tax paid by the income earner (say spouse or minor child) with reference to such income is not eligible for adjustment towards the tax liability of the individual in whose hands such income has been clubbed. In such case, it is open to the payer of advance tax (i.e. spouse or the minor child) to apply for refund of advance tax so paid.
Mode of Clubbing cannot be changed for the benefit of the revenue	Unless there are compelling circumstances the modes of clubbing cannot be changed by the ITO. Merely, for the benefit of the revenue such mode cannot be changed.

Illustration 8

A proprietary business was started by Smt. Sonam Mundhra in the year 2020. As on 1.4.2021 her capital in business was ₹ 3,00,000.

Her husband, Shri Vikash Mundhra, gifted ₹ 2,00,000, on 10.04.2021, which amount Smt. Sonam invested in her business on the same date. Smt. Sonam earned profits from her proprietary business for the financial years 2021-22, ₹ 1,50,000 and financial year 2022-23 ₹ 3,90,000. Compute the income, to be clubbed in the hands of Sonam's husband for the A.Y. 2023-24.

Solution

Where asset transferred to spouse is invested in the proprietary business then proportionate share being calculated in following manner shall be clubbed in the hands of transferor:

$$\frac{\text{Income of such business} * \text{Value of such assets as on the 1st day of the P.Y.}}{\text{Total investment in the business by the transferee as on the 1st day of the P.Y.}}$$

$$\frac{\text{Income of such business} * \text{Value of such assets as on the 1st day of the P.Y.}}{\text{Total investment in the business by the transferee as on the 1st day of the P.Y.}}$$

$$= ₹ 3,90,000 * ₹ 2,00,000 / ₹ 6,50,000 = ₹ 1,20,000$$

Hence, ₹ 1,20,000 shall be clubbed in the hands of husband of Smt. Sonam

¹ Computation of total investment in the business on 1-4-2022

Particulars	Amount
Investment as on 1-4-2021	₹ 3,00,000
Add: Investment of gift from husband on 10-4-2021	₹ 2,00,000
Add: Net profit earned during the year 2021-22 (assumed reinvested in the business)	₹ 1,50,000
Total investment in the business as on 1-4-2022	₹ 6,50,000

Income arising from accretion to transferred asset shall not be liable to clubbing.

Assume, Net profit earned during the year 2021-22 is retained in the business.

Alternatively, one can assume that net profit earned during the year 2021-22 is withdrawn. In such case income to be clubbed shall be computed as under:

$$\frac{\text{Income of such business} * \text{Value of such assets as on the 1st day of the P.Y.}}{\text{Total investment in the business by the transferee as on the 1st day of the P.Y.}}$$

$$\frac{\text{Income of such business} * \text{Value of such assets as on the 1st day of the P.Y.}}{\text{Total investment in the business by the transferee as on the 1st day of the P.Y.}}$$

$$= ₹ 3,90,000 * ₹ 2,00,000 / ₹ 5,00,000 = ₹ 1,56,000$$

Hence, ₹ 1,56,000 shall be clubbed in the hands of husband of Smt. Sonam

1. Computation of total investment in the business on 1-4-2022

Particulars	Amount
Investment as on 1-4-2021	₹ 3,00,000
Add: Investment of gift from husband on 10-4-2021	₹ 2,00,000
Total investment in the business as on 1-4-2022	₹ 5,00,000

11.1 INTRODUCTION

For computation of Gross Total Income (GTI), income from various sources is computed under the five heads of income. If all the sources and heads are having positive income (i.e. profit) then the same can simply be added to compute GTI. However, if certain source(s) or certain head(s) have negative income (i.e. loss) then such loss needs to be adjusted with income of another source(s) or head(s). Set off means adjustment of loss from one source or one head against income from another source or another head.

If a negative income is not fully set off in the current year, then the unabsorbed loss shall be carried forward to subsequent years subject to certain restrictions and conditions [e.g. Income from other sources (other than

losses from activity of owning and maintaining horse races) cannot be carried forward.]

Adjustment of Income and loss from all sources covered under one head of Income is called Intra-head Adjustment [Rules are prescribed in Sec. 70]

Adjustment of **Income under one head and loss from another head** of Income is called [Rules are prescribed in Sec. 71]

Loss which could not be adjusted shall be carried forward to next year subject to certain conditions and exceptions

11.2 INTER SOURCE ADJUSTMENT (INTRA-HEAD ADJUSTMENT) [SEC. 70]

When the net result of any source of income is loss, it can be set off against income from any other source under the same head. Sec. 70 deals with the set off of loss from one source against income from another source under the same head of income, subject to the following exceptions –

- a. **Long term capital loss** can be set off only against long term capital gain [Sec. 70(3)]. However, short-term capital loss can be set off against short term as well as long term capital gains [Sec. 70(2)].

Example: Computation of Income under the head “Capital gains” of Mr. X for the A.Y. 2023-24

Particulars	Case A	Case B
Short term capital gain	80,000	(90,000)
Long term capital gain	(40,000)	1,20,000
Income under the head “Capital gains”	80,000	30,000

- b. **Loss of a speculation business** can be set off only against the profits of a speculation business, under the head ‘Profits and gains of business or profession’. However, loss from a non-speculative business can also be set off against income from speculation business [Sec. 73(1)]

Example: Computation of “Profits & gains of business or profession” of Mr. X for the A.Y. 2023-24

Particulars	Case A	Case B
Speculation business	80,000	(90,000)
Non speculation business	(40,000)	1,00,000
Profits & gains of business or profession	40,000	1,00,000

- c. **Loss of a specified business covered u/s 35AD** can be set off only against the profits of other specified business. However, loss from a non-specified business can be set off against income from specified business.
- d. **Loss incurred in activity of owning and maintaining race horses** can be set off against income from such activity only [Sec. 74A]

Example: Computation of "Income from other sources" of Mr. X for the A.Y. 2023-24

Particulars	Case A	Case B
Activity of owning and maintaining race-horses	80,000	(90,000)

Taxpoint: Above provisions provides restriction on losses, however income from aforesaid source (i.e. a to d) is available for setting off any loss from any other source under the same head.

- e. **Loss from a source, income of which is exempt u/s 10**, cannot be set off against any income.
- f. **No loss can be set off against winning from lotteries**, crossword puzzles, races, card games, gambling or betting, etc. [Sec. 58(4) & 115BB]. Similarly, set off of losses is not permissible against unexplained income, investment, money, etc. chargeable u/s 68 / 69A / 69B / 69C / 69D [Sec. 115BBE]

Income from other sources	(₹ 90,000)
Income from lotteries	₹ 3,50,000

Mr. Bhola is seeking your advice relating to set off and carry-forward.

Solution

Statement showing application of sec. 71

Particulars	Amount
Salaries	80,000
Income from house property	(1,30,000)
Income from other sources	
Winning from lotteries	3,50,000
Other income	(90,000)
Gross total income	3,50,000
Conclusion	
Casual income shall be fully taxable as no loss can be set off against such income.	3,50,000
Losses to be carried forward	
a) Loss under the head "Income from house property"	(1,30,000)
b) Loss under the head "Income from other sources", as such loss cannot be carried forward.	Nil
Income under the head 'Salaries' is first adjusted with the loss under the head 'Income from other sources' as the same cannot be carried forward. Though loss under the head 'Income from other sources' is ₹ 90,000 and such loss could be adjusted with income under the head 'Salaries' only to the extent of ₹ 80,000 still the remaining loss of ₹ 10,000 cannot be carried forward.	

3. **Mandatory feature of sec. 70 and 71: Assessee is bound to follow sec. 70 and 71, there is no choice or option whether to set off the loss or not. Even partial set off is not permissible when entire loss can otherwise be set off.**

Illustration 5

Mr. Tej Singh has the following income details –

Solution

Assessee is bound to follow sec.70 and 71 and there is no choice or option whether to set off the loss or not. Even partial set off is not permissible when full loss can otherwise be set off. Hence in the given case income of Mr. Tej Singh shall be ₹ 4,80,000 (carry forward of loss shall not be permissible) as computed under:

Particulars	Amount (₹)
Income from house property	(30,000)
Salaries	4,80,000
Income from other sources	30,000
Gross total income	4,80,000

4. **Set-off of clubbed income: From the clubbed income, one can set off the losses.**

11.5 CARRY FORWARD OF LOSS

In case where the income of an assessment year is insufficient to set off the losses of the year then such losses (which could not be set off) can be carried forward to subsequent assessment year(s) for set off against income of such subsequent year(s). However, all losses cannot be carried forward, e.g. losses under the head 'Income from other sources' (other than loss from 'Activity of owning and maintaining race-horses') cannot be carried forward. Following losses can be carried forward:

1. Loss under the head 'Income from house property' [Sec. 71B]
2. Loss under head "Profits and gains of business or profession" other than speculation loss [Sec. 72]
3. Loss from speculation business [Sec. 73]

Loss under the head 'Income from house property' can be carried forward and can be set off against income under the same head only.

Period for which carry-forward shall be allowed: 8 assessment years immediately succeeding the assessment year in which such loss is first computed.

Filing of return: Loss under the head 'Income from house property' can be carried forward even when a belated return is filed [as sec. 80 and 139(3) are not applicable to sec. 71B].

Loss under the head "Profits and gains of business or profession" (other than speculation loss) can be carried forward and set off against income under the same head.

Note: For this purpose business profit includes profits derived from a business activity but assessable under the heads other than 'Profit and gains of business or profession', e.g. Dividend income when shares are held as stock, though taxable under the head 'Income from other sources' but business loss can be set off against such income.

Period for which carry-forward shall be allowed: 8 assessment years immediately succeeding the assessment year in which such loss is first computed.

Academic note: In the assessment year 2023-24, losses prior to the assessment year 2015-2016 cannot be set off.

Condition: Such business is re-established, reconstructed or revived by the assessee, within a period of 3 years from the end of the previous year in which such mishap took place.

Treatment: Losses of such business [including the past eligible losses (to be carried forward)] shall be adjusted with profit of the year in which business is so revived and if the loss cannot be wholly setoff, then it shall further be allowed to be carried forward for 7 years.

2. Set off of losses relating to the year of closure of business against deemed profit [Sec. 41(5)]

Situation: Where any part of loss (not being a speculation loss), which arose during the previous year remains unabsorbed in the previous year in which business ceased to exist.

Treatment: Such loss shall be allowed to be carried forward for any number of years (without restriction of 8 years) against income chargeable to tax u/s 41(1); (3); (4); (4A).

Taxpoint: Such loss can be set off even if the return of loss is not submitted in time.

Notes

2. **Filing of return in time:** As per sec. 80, the business loss cannot be carried forward unless it is determined in pursuance of a return filed by the assessee u/s 139(3), within time as prescribed u/s 139(1).

6. **Assessee must be same who incurred the loss:** Business losses can be carried forward and set off against the profits of the assessee who incurred the loss i.e. assessee must be same to carry forward the loss. However, this rule has the following exceptions –

- the profits or gains chargeable being less than the amount of depreciation.

Tax treatment: Allowance or the part of the allowance of depreciation which remains unabsorbed shall be (subject to sec. 72 and sec. 73) added to the amount of the depreciation for the following previous year and deemed to be the depreciation-allowance for that previous year, and so on for the succeeding previous years.

RELIEFS

This Study Note includes

13.1 Relief [Sec. 89]

13.2 Relief from taxation in income from retirement benefit account maintained in a notified country [Sec. 89A]

When an assessee is charged for -

- Arrear or Advance salary; or
- Gratuity, Commuted pension, etc.

- then he may fall under higher rate of tax (of progressive tax-slab) e.g. instead of 20% he may have to pay tax @ 30%. To compensate aggrieved assessee from such higher rate, sec. 89(1) provides for 'Relief'.

13.1 RELIEF [SEC. 89]

Applicable to: An assessee, who is in receipt of -

- a. Arrear salary or Advance salary or in any other way is in receipt, in any one financial year, of salary for more than 12 months; or
- b. Profit in lieu of salary u/s 17(3) e.g. gratuity, commuted pension, etc.; or
- c. Family pension, being paid in arrears.

Note: An assessee, who receives leave encashment during continuation of his service, can also claim relief u/s 89.

Conditions to be satisfied

Charged at higher rate: Due to above receipt, total income of the assessee is assessed at a rate higher than that at which it would otherwise have been assessed.

Apply to Assessing Officer: Assessee has made an application in this behalf to the Assessing Officer.

Quantum of Relief: As computed by method provided in Rule 21A

Method of calculation of relief [Rule 21A]

Relief when salary is paid in arrears or in advance, etc

Where any portion of salary/family pension is received in arrears or in advance (hereinafter referred as additional salary), following steps are to be followed for calculating relief -

Step	Particulars
1	Calculate the tax payable for the previous year in which such additional salary is received, on: 1(a) Total income including additional salary 1(b) Total income excluding additional salary

2	Calculate the tax payable for the previous year to which such additional salary relates, on – 2(a) Total income including additional salary 2(b) Total income excluding additional salary
3	a. Add tax calculated on 1 (a) and 2(b) = Tax on receipt basis b. Add tax calculated on 1 (b) and 2(a) = Tax on accrual basis
4	Relief u/s 89 = Tax on receipt basis – Tax on accrual basis

Illustration 1:

Mr. Sai, an employee, furnishes the following particulars for previous year ending on 31-3-2023:

Salary income as computed (after all deduction) for the year	₹ 5,07,000
During the year arrear of bonus were received (not included above) relates to F.Y. 1997-98	₹ 5,000
Assessed income of financial year 1997-98 (consists of salary only)	₹ 56,000
On 25-3-2023, amount deposited in PPF A/c	₹ 50,000
Income from other sources for the P.Y. 2022-23	₹ 50,000

You are requested to compute relief u/s 89(1) in terms of tax payable. The rates for the A.Y. 1998-99 are:

On first ₹ 40,000	- Nil
On next ₹ 20,000	- 10%
On next ₹ 60,000	- 20%
On balance	- 30%

Ignore standard deduction u/s 16(i) applicable in the P.Y. 1997-98

Solution:

Assumptions: Assessed income of 1997-98 consists only salary income.

Computation of relief u/s 89

Particulars	Amount (₹)	Amount (₹)

Relief when payment is in the nature of taxable gratuity

Where past services extend over a period of fifteen years

	Particulars
1	Calculate total income and tax liability considering taxable gratuity of the relevant previous year.
2	Calculate total income and tax on total income in respect of each of the 3 previous years immediately preceding the relevant previous year, adding 1/3rd of the taxable gratuity in each of the 3 years.
3	Calculate average rate of tax for each year. Average rate of tax (in %) = $\frac{\text{Tax, surcharge and cess after rebate of respective year} * 100}{\text{Total Income}}$
4	Calculate average of "average rate of tax" of 3 previous years immediately preceding the relevant previous year.
5	Calculate tax on taxable gratuity by applying average rate of tax of the relevant previous year.
6	Calculate tax on taxable gratuity by applying average of average rate of tax (as computed in step 4)
7	Relief u/s 89 = Tax as per Step 5 – Tax as per Step 6

Illustration 2.

During the previous year, Shri Prajapati received from his employer ₹ 2,00,000 as gratuity, out of which ₹ 1,10,000 is exempt u/s 10. His relevant data of last few previous years are as follows:

	P.Y.2021-22	P.Y.2020-21	P.Y.2019-20	P.Y.2018-19

Where past services extend over a period of 5 years but does not exceed 15 years

In this case, calculation of relief u/s 89 is same as in case of service extending over 15 years, with only exception that instead of taking average of tax-rate of 3 years, take average tax-rate of 2 years. Similarly, taxable gratuity shall be divided in past 2 years rather than 3 years. Further, following table can be referred:

	Particulars
1	Calculate total income and tax on total income considering taxable gratuity of the relevant previous year.
2	Calculate total income and tax on total income in respect of each of the 2 previous years immediately preceding the relevant previous year, adding 1/2 of the taxable gratuity in each of the 2 years.
3	Calculate average rate of tax for each year. Average rate of tax (in %) = $\frac{\text{Tax, surcharge and education cess after rebate of respective year} * 100}{\text{Total Income}}$
4	Calculate average of "average rate of tax" of 2 previous years immediately preceding the relevant previous year.
5	Calculate tax on taxable gratuity by applying average rate of tax of the relevant previous year.
6	Calculate tax on taxable gratuity by applying average of average rate of tax (as computed in step 4)
7	Relief u/s 89 = Tax as per Step 5 – Tax as per Step 6

Where past services do not extend over five years

Relief u/s 89 is not applicable.

Relief when payment is in the nature of compensation on termination of employment

Any compensation received by the assessee from his employer on termination of his employment is eligible for relief u/s 89 subject to following conditions –

- a. Employment is terminated after continuous service for not less than 3 years; and
- b. The unexpired portion of term of employment is also not less than 3 years.

Method of calculating relief: In this case, calculation of relief u/s 89 is same as in case of gratuity (where service extends over 15 years).

However, where assessee claims exemption u/s 10(10C), relief u/s 89 is not available to the assessee for such compensation.

Relief when payment is in the nature of commutation of pension

In this case, calculation of relief u/s 89 is same as in case of gratuity (where service extends over 15 years).

Relief in case of other payments

In any other case, the Board may grant relief after examining circumstances of the case.

Tax credit for alternate minimum tax [Sec. 115JD]

- The excess of alternate minimum tax paid over the regular income-tax payable of that year shall be allowed as tax credit.
- Mathematically, tax credit available = Tax paid u/s 115JC – Regular Tax payable
- However, no interest shall be payable on the tax credit allowed.
- The amount of tax credit determined shall be carried forward and set off but such carry forward shall not be allowed beyond the 15th assessment year immediately succeeding the assessment year in which tax credit becomes allowable.
- The tax credit shall be allowed set-off in a year when regular tax becomes payable by the assessee.
- Set off in respect of brought forward tax credit shall be allowed for any assessment year to the extent of the difference between the alternate minimum tax payable u/s 115JC for that assessment year and the balance of the tax credit, if any, shall be carried forward. In other words, after setting off of AMT credit, tax liability of the year cannot be less than AMT for that year.
- The amount of tax credit in respect of any income-tax paid in any country or specified territory outside India u/s 90 or 90A or 91, allowed against the alternate minimum tax payable, exceeds the amount of the tax credit admissible against the regular income-tax payable by the assessee, then, while computing the amount of credit u/s 115JD, such excess amount shall be ignored.
- If the amount of regular income-tax or the AMT is reduced or increased as a result of any order passed under this Act, the amount of tax credit allowed under this section shall also be varied accordingly.

**Examples**

	₹
(a) Tax liability u/s 115JC (AMT)	500
Regular Tax liability	1,000
Difference	500

₹ 500 cannot be treated as credit because liability u/s 115JC (AMT) is not greater than regular tax liability.

(b) Year 1	₹
Liability u/s 115JC (AMT)	2,000
Regular Tax Liability	1,000
	1,000 It can be carried forward
Year 2	₹
Liability u/s 115JC (AMT)	2,500
Regular Tax Liability	5,000
Difference	2,500

Now regular liability is more than liability u/s 115JC (AMT), the credit carried forward can be set off to the extent of the difference i.e., ₹ 2,500

In year 2, tax payable shall be as under:	₹
Regular Tax Liability	5,000
Less: Set off of AMT credit	1,000
Tax payable (before surcharge and cess)	4,000

In the above example, if the credit carried forward was ₹ 3,500, then tax payable in year 2 would be calculated as under:

	₹
Regular Tax Liability	5,000
Less: Set off of AMT credit	2,500
Tax payable (Credit available ₹ 3,500 but restricted to ₹ 2,500)	2,500

Here ₹ 1,000 (being balance credit left i.e., ₹ 3,500 – ₹ 2,500) is carried forward to the next year.

In other words, the excess of regular tax over AMT u/s 115JC is the amount of maximum set off permissible.

HINDU UNDIVIDED FAMILY

14.3 MEANING OF HUF

The term Hindu Undivided Family (or Joint Hindu Family) is not defined in the Income-tax Act. The term HUF has the same meaning as in Hindu law. A Hindu Undivided Family (HUF) consists of all persons lineally descended from a common ancestor including their wives and unmarried daughters.

Taxpoint: Only those undivided families are covered here, to which Hindu law applies.

Notes

1. An HUF is not the creation of a contract. Its membership arises from status.
2. Jain families are also treated as Hindu undivided family for the purpose of Income-tax Act. However, Muslim undivided family cannot be treated as HUF.
3. Once a family is assessed as Hindu undivided family, it will continue to be assessed as such till its partition.

14.4 ESSENTIAL REQUIREMENTS OF AN HUF

An assessee shall be assessed as HUF if the following conditions are satisfied:

1. **Joint family property:** There should be a joint family property, which consists of either ancestral property or any property acquired with the aid of ancestral property.

Ancestral property: It is a property, which a man inherits from any of the three immediate male ancestors i.e. -

- His father;
- His grand father; and
- His great grand father

Notes

- a. Property inherited from any other person (e.g. father in law, uncle, etc.) is not an ancestral property.
 - b. In the following cases income of ancestral property is taxable as income of HUF -
 - Family of widow-mother and sons (minor or major)
 - Family of husband and wife having no child.
 - Family of two or more brothers.
 - Family of uncle and nephew.
 - Family of mother, son and son's wife.
 - Family of a male and his late brother's wife.
2. **Coparcener:** There should be a coparcener. Coparcener means any person who satisfies two tests:
 - He/she acquires by birth an interest in joint family property; and
 - He/she has right to enforce partition.

Member of HUF vs Coparcener

1. Coparcener must be a member of the family but a member may or may not be the coparcener of the family.

Taxpoint: All coparcener must be the member of the family but all members need not be coparcener of the family.

2. Coparcener acquires interest in the property of the HUF by birth. A person may acquire membership in HUF otherwise than by birth.
3. Member of the family who is not a coparcener of the family has no right to claim partition.

Taxpoint: A child in the womb of his mother is entitled to share of HUF property, on partition.

14.5 SCHOOL OF HINDU LAW

There are two schools of Hindu law -

- a. Dayabhaga School of Hindu Law; and
- b. Mitakshara School of Hindu Law

Law	Dayabhaga School of Hindu Law	Mitakshara School of Hindu Law
Applicable to	Rules of Dayabhaga school prevails in the State of West Bengal and Assam	Rules of Mitakshara school prevail over rest of India.
Features		
Interest in property	As per this thought, a son acquires interest in ancestral property only after the death of his father. Taxpoint: A son does not acquire interest in the ancestral property mere by birth.	As per this thought, a son acquires interest in ancestral property as soon as he is born. Taxpoint: A son acquires an equal interest in the ancestral property with his father mere by birth.
Right to claim partition	Since son has no interest in ancestral property, he cannot claim partition till his father is alive. Taxpoint: Father enjoys an absolute right to dispose of the property of the family.	Since son acquires interest in ancestral property by his birth, therefore he can claim partition at any time.
Fluctuation in coparcenary interest	The coparcenary interest does not fluctuate on every birth or death of a male member. It fluctuates only on death of the father.	The coparcenary interest fluctuates on every birth or death of a male member.
Note: After Hindu Succession (Amendment) Act 2005, the daughter (in the same manner as the son) of a coparcener shall by birth become a coparcener in her own right. The female heir can demand the partition of coparcenary property.		

14.6 COMPUTATION OF TOTAL INCOME AND TAX LIABILITY OF HUF

There is no specific provision in Income-tax Act for computation of total income of HUF. Total income and tax liability of HUF shall be computed in same manner as in case of an individual.

Taxpoint:

Tax rate, health & education cess	: As in case of an individual
Residential Status	: Refer chapter "Residential Status"
Computation of income under various heads	: As usual, however, HUF cannot have any income under the head 'Salaries'.
Clubbing of income	: As usual. Sec. 64(1) & (1A) are not applicable in case of an HUF as it is specifically applicable to individual. Specially refer sec. 64(2).
Setoff & Carry forward of losses	: As usual
Deductions	: Refer chapter "Deductions & Relief"
Return and Assessment	: As usual
Advance tax	: As in case of an individual
Alternative Tax Regime u/s 115BAC	: Available

Following points shall be considered –

1. **Remuneration to member of HUF due to investment of HUF fund:** Where joint fund is invested in a company or a firm, fees or remuneration received by any member of HUF as a director or partner from such company

or firm by virtue of such investment shall be treated as income of the HUF. On the other hand, where such remuneration or fees is received by virtue of service rendered by such member (in his personal capacity) then such amount shall be taxable in hands of such member

2. **Income from ancestral property may not be taxed in the hands of HUF in certain cases:** As per Dayabhaga school, son has no right in the property during the life time of father, hence income arising from ancestral property to father, having no brother as coparcener, shall be treated as income of father and not of HUF.
3. **Remuneration to Karta:** Any genuine (not excessive) remuneration paid to the Karta for conducting business of the HUF is allowed expenditure in the hands of the HUF provided such remuneration is paid under a bonafide agreement and is in the interest of the family business.
4. **Personal income of the members:** Income of the member of HUF acquired in his personal capacity shall not be taxable in the hands of HUF.

Taxpoint: 'Stridhan' is an absolute property of a woman, income therefrom is not taxable in the hands of HUF.

5. **Income from impartible estate:** Though the impartible estate belongs to the family, income arising therefrom is taxable in the hands of the holder of the 'estate' and not in the hands of the HUF.

How shall your answer differ if (in illustration 1) members are A Ltd (a foreign company) & Mrs. B?

**Solution**

In this case, A Ltd. is taxable @ 41.60% (40% + 4% cess) which is lower than maximum marginal rate of tax. Hence, entire income of the AOP shall be taxable @ 42.744% (i.e., MMR). However, if MMR is lower than tax rate applicable to A Ltd., in that case A Ltd. share's in the income of the AOP would be taxable at the rate applicable to that company and balance income of the AOP @ MMR.

15.1 MEANING

It is a measure, in which person who are making payment of income are responsible to deduct tax from such income (at specified rates) and pay only net amount. Tax so deducted (called TDS) shall be deposited with the Government's treasury within the stipulated time. The payer will issue a certificate in Form 16 or 16A¹ to the payee and the payee will get credit for TDS and his tax liability shall be reduced to that extent. In nutshell, the provisions are merely a mode of collection of income tax and a check on tax evasion through proper control and information.

Objects

- Quicker realisation of tax.
- Effective realisation of tax.

There are several provisions in the Act for TDS², being discussed infra:

15.2 TDS ON SALARY [SEC.192]

Who is responsible to deduct tax

Any person responsible for paying any income chargeable under the head "Salaries" (i.e. employer) is required to deduct tax at source.

When tax shall be deducted

Tax shall be deducted at the time of payment of such income.

Rate of TDS

Tax shall be deducted at the average rate of tax, computed on basis of prescribed rates in force for the financial year in which payment to employee is made.

Other Points

Following points shall be kept in mind by the person responsible to deduct tax at source u/s 192 -

1. **Maximum exempted limit:** Tax shall not be deducted if taxable salary is less than basic exemption limit.
2. **Payment of tax by employer:** The employer paying any income in the nature of non-monetary perquisite may pay, at his option, tax on such income without making any deduction therefrom at the time when such tax was otherwise deductible. For this purpose, tax shall be determined at the average of income-tax computed on the basis of the rates in force for the financial year, on the income chargeable under the head "Salaries". It is to be noted that tax paid on non-monetary perquisites by the employer shall not be considered as income of the employee.
3. **Particulars of perquisites:** The employer shall furnish a statement to the employee (whose salary exceeds ₹ 1,50,000) giving correct and complete particulars of perquisites or profits in lieu of salary provided to employee and the value thereof in Form 12BA provided salary of such employee exceeds ₹ 2,00,000.
4. **Salary from more than one source:** As per Sec. 192(2), where assessee is working simultaneously with more than one employer, he may furnish to any one employer at his choice, details (in Form No. 12B) of income taxable under the head "Salaries" due to or received by him from other employer(s) and such employer shall deduct tax on aggregate salary.
5. **Treatment of other income:** As per Sec. 192(2B), where an assessee who receives any income chargeable under the head "Salaries" has, in addition, any income chargeable under any other head of income for the same financial year, he may (or may not) furnish to employer the particulars (in plain paper) of—
 - such other income (only income and not loss)
 - tax deducted on such other income as per provision of this chapter;
 - the loss, if any, under the head "Income from house property" (Losses under any other head are not to be considered)

Tax deducted u/s 192 shall be higher of the following:

- Tax deductible from income, that would be so deductible, if loss under the head 'Income from House Property', other income (only income) and the tax deducted thereon had been taken into account.
 - Tax deductible from income under the head "Salaries", that would be so deductible (after adjusting loss under the head Income from house property), if the other income (or loss) and the tax deducted thereon had not been taken into account.
6. **Evidence of claim:** The responsible person shall, for the purposes of estimating income of the assessee or computing tax deductible, obtain the evidence or proof or particulars of prescribed claims (including claim for set-off of loss) from the assessee in such form and manner as may be prescribed.
 7. **TDS on ESOP:** ESOPs have been a significant component of the compensation for the employees of start-ups, as it allows the founders and start-ups to employ highly talented employees at a relatively low salary amount with balance being made up via ESOPs. ESOPs are taxed as perquisites u/s 17(2). The taxation of ESOPs is split into two components:
 - i. Tax on perquisite as income from salary at the time of exercise.
 - ii. Tax on income from capital gain at the time of sale.

The tax on perquisite is required to be paid at the time of exercising of option which may lead to cash flow problem as this benefit of ESOP is in kind. In order to ease the burden of payment of taxes by the employees of the eligible start-ups or TDS by the start-up employer, it is provided that for the purpose of deducting or paying tax, a person, being an eligible start-up [u/s 80-IAC], responsible for paying any income to the assessee being such perquisite, deduct or pay, as the case may be, tax on such income within 14 days:

- a. after the expiry of 48 months from the end of the relevant assessment year; or

- b. from the date of the sale of such specified security or sweat equity share by the assessee; or
 c. from the date of which the assessee ceases to be the employee of the person;
 - whichever is the earlier.

The tax shall be deducted or paid at the rates in force of the financial year in which the said security or sweat equity share is allotted or transferred.

Similar provision is applicable, in case, employee is paying tax directly (in case tax is not deducted).

Who is responsible to deduct tax: Where sale of goods or provision of services of an e-commerce participant is facilitated by an e-commerce operator through its digital or electronic facility or platform (by whatever name called), such e-commerce operator shall deduct tax.

- c. Such e-commerce participant has furnished his Permanent Account Number or Aadhaar number to the e-commerce operator.

When tax shall be deducted: At the time of payment or crediting the payee, whichever is earlier.

Taxpoint: Any payment made by a purchaser of goods or recipient of services directly to an e-commerce participant for the sale of goods or provision of services or both, facilitated by an e-commerce operator, shall be deemed to be the amount credited or paid by the e-commerce operator to the e-commerce participant and shall be included in the gross amount of such sale or services for the purpose of deduction of tax

Other Points

- A transaction in respect of which tax has been deducted by the e-commerce operator (or which is not liable to deduction due to threshold limit), shall not be liable to TDS under any other provisions. However, any amount received is or receivable by an e-commerce operator for hosting advertisements or providing any other services which are not in connection with the sale or services, other provision relating to TDS, if any, is applicable.
- "Electronic commerce" means the supply of goods or services or both, including digital products, over digital or electronic network;
- "e-Commerce operator" means a person who owns, operates or manages digital or electronic facility or platform for electronic commerce;
- "e-Commerce participant" means a person resident in India selling goods or providing services or both, including digital products, through digital or electronic facility or platform for electronic commerce;
- "Services" includes "fees for technical services" and fees for "professional services", as defined in sec. 194J
- E-auction services carried out through an electronic portal [Circular No. 20/2021 dated 25-11-2021]
- In case of purchase of goods through the digital or electronic facility or platform, every e-commerce operator, facilitating the sale of goods or provision of services of an e-commerce participant through its digital or electronic facility or platform, is required to deduct tax at source u/s 194-O.
- In an e-auction, the e-auctioneer is only responsible for the price discovery, and the transaction of purchase/sale is carried out directly by the purchase & seller. Further, the price so discovered can be negotiated between parties without the knowledge of the e-auctioneer. Thus, the CBDT has clarified that section 194-O shall not apply in relation to e-action activities carried out by e-auctioneers if the prescribed conditions have been satisfied.

Exemption or relaxation from the provision

When the recipient applies to the Assessing Officer in Form 13 and gets a certificate authorising the payer to deduct tax at lower rate or deduct no tax [Refer sec. 197]

When tax shall be deducted: In case of a specified senior citizen, the specified bank shall, after giving effect to the deduction allowable under Chapter VI-A and rebate allowable u/s 87A, compute the total income of such specified senior citizen for the relevant assessment year and deduct income-tax on such total income on the basis of the rates in force (i.e. slab rates).

Taxpoint:

- Such specified senior citizen is not required to file his return of income for the assessment year relevant to the previous year in which the tax has been deducted.
- Specified bank means notified banking company
- Specified senior citizen means an individual, being a resident in India:

Tax Deducted at Source (TDS)

- a. who is of the age of 75 years or more at any time during the previous year;
- b. who is having income of the nature of pension and no other income except the interest income received or receivable from any account maintained by such individual in the same specified bank in which he is receiving his pension income; and
- c. has furnished a declaration to the specified bank containing such particulars, in such form and verified in such manner, as may be prescribed.

15.34 TDS ON CERTAIN SUMS FOR PURCHASE OF GOODS [SEC. 194Q]

Who is responsible to deduct tax: Any person, being a buyer who is responsible for paying any sum to any resident seller for purchase of any goods of the value or aggregate of such value exceeding ₹ 50 lakhs in any previous year.

- "Buyer" means a person whose total sales, gross receipts or turnover from the business carried on by him exceed ₹ 10 crore during the financial year immediately preceding the financial year in which the purchase of goods is carried out. However, buyer does not include certain notified person provided they satisfied specified conditions.

When tax shall be deducted: At the time of payment or crediting the payee, whichever is earlier.

Taxpoint: Where any amount is credited to any account (for e.g. "Suspense account" or by any other name) instead of seller account, such crediting shall be deemed to be credit of such sum to the account of the seller.

Rate of TDS: 0.1% of such sum exceeding ₹ 50 lakhs. In case where seller do not have PAN, then rate of TDS shall be 5%

Taxpoint

- TDS u/s 194Q shall be deducted on the taxable value i.e. exclusive of GST component (or other indirect tax component). However, on the amount paid as advance, TDS shall be deducted on entire amount since GST component cannot be separately identified. [Circular 13/2021 dated 30-06-2021]
- The provision is not applicable where seller is Central or State Government. The exemption is not applicable where seller is public sector undertaking or corporation. [Circular 20/2021 dated 25-11-2021]
- Purchase Return: The tax is required to be deducted at the time of payment or credit, whichever is earlier. Thus, before purchase return happens, the tax must have already been deducted u/s 194Q on that purchase. If that is the case and against this purchase return the money is refunded by the seller, then this tax deducted may be adjusted against the next purchase against the same seller. No adjustment is required if the purchase return is replaced by the goods by the seller as in that case the purchase on which tax was deducted u/s 194Q has been completed with goods replaced.
- The provisions of this section shall not apply to a transaction on which:
 - a. tax is deductible under any of the provisions of this Act; and
 - b. tax is collectible u/s 206C other than a transaction to which sec. 206C(1H) applies.
- 194O -vs.- 194Q: If tax has been deducted by the e-commerce operator on a transaction u/s 194-O [including transactions on which tax is not deducted on account of 194-O(2)], that transaction shall not be subjected to tax deduction u/s 194Q.
- Though sec. 206C(1H) provides exemption from TCS if the buyer has deducted tax at source on goods purchased by him, to remove difficulties it is clarified that this exemption would also cover a situation where instead of the buyer the e-commerce operator has deducted tax at source on that transaction of sale of goods by seller to buyer through e-commerce operator.
- 194O -vs.- 206C(1H): Similarly, if a transaction is both within the purview of section 194-O as well as sec. 206C(1H), tax is required to be deducted u/s 194-O. The transaction shall come out of the purview of

sec. 206C(1H) after tax has been deducted by the e-commerce operator on that transaction. Once the e-commerce operator has deducted the tax on a transaction, the seller is not required to collect the tax u/s 206C(1H) on the same transaction. It is clarified that here primary responsibility is on e-commerce operator to deduct the tax u/s 194-O and that responsibility cannot be condoned if the seller has collected the tax u/s 206C(1H). This is for the reason that the rate of TDS u/s 194-O is higher than rate of TCS u/s 206(1H).

- 194Q -vs.- 206C(1H): If a transaction is both within the purview of sec. 194-Q as well as sec. 206C(1H), the tax is required to be deducted u/s 194-Q. The transaction shall come out of the purview of sec. 206C(1H) after tax has been deducted by the buyer on that transaction. Once the buyer has deducted the tax on a transaction, the seller is not required to collect the tax u/s 206C(1H) on the same transaction. However, if, for any reason, tax has been collected by the seller before the buyer could deduct tax u/s 194-Q on the same transaction, such transaction would not be subjected to tax deduction again by the buyer. This concession is provided to remove difficulty, since tax rate of deduction and collection are same in section 194Q and sec. 206C(1H).
- The provision is not applicable in case of following transactions:
 - a. Transaction in securities and commodities traded through recognised stock exchange
 - b. Transaction in electricity, renewable energy certificate and energy saving certificate through power exchanges [Circular 13/2021 dated 30-06-2021]

15.35 TDS ON BENEFIT OR PERQUISITE IN RESPECT OF BUSINESS OR PROFESSION [SEC. 194R]^{NEW}

Who is responsible to deduct tax: Any person responsible for providing to a resident, any benefit or perquisite, whether convertible into money or not, arising from business or the exercise of a profession, by such resident.

- However, tax is not required to be deducted where provider of such facility is an individual or a Hindu undivided family, whose total sales, gross receipts or turnover does not exceed ₹ 1 crore in case of business or ₹ 50 lakhs in case of profession, during the financial year immediately preceding the financial year in which such benefit or perquisite, as the case may be, is provided by such person
- Person responsible for providing means the person providing such benefit or perquisite, or in case of a company, the company itself including the principal officer thereof

When tax shall be deducted: Before providing such benefit or perquisite to a resident.

Rate of TDS: 10% of the value or aggregate of value of such benefit or perquisite

When TDS is not applicable: Where the value or aggregate of value of the benefit or perquisite provided or likely to be provided to such resident during the financial year does not exceed ₹ 20,000

Taxpoint

Where the benefit or perquisite, as the case may be, is wholly in kind or partly in cash and partly in kind but such part in cash is not sufficient to meet the liability of deduction of tax in respect of whole of such benefit or perquisite, the person responsible for providing such benefit or perquisite shall, before releasing the benefit or perquisite, ensure that tax required to be deducted has been paid in respect of the benefit or perquisite

Clarification issued by the CBDT [Circular No. 12/2022 dated 16/06/2022 read with Circular No. 18/2022 dated 13/09/2022]

- 1 Is it necessary that the person providing benefit or perquisite needs to check if the amount is taxable under clause (iv) of section 28 of the Act, before deducting tax u/s 194R of the Act?

Ans. No

2. Is it necessary that the benefit or perquisite must be in kind for section 194R of the Act to operate?

Ans. Tax u/s 194R is required to be deducted whether the benefit or perquisite is in cash or in kind

3. Whether sales discount, cash discount and rebates are benefit or perquisite?

Ans. Sales discounts, cash discount or rebates allowed to customers from the listed retail price represent lesser realization of the sale price itself. To that extent, purchase price of the customer is also reduced.

Logically these are also benefits though related to sales/purchase. Since TDS u/s 194R is applicable on all forms of benefit/perquisite, tax is required to be deducted. However, it is seen that subjecting these to tax deduction would put seller to difficulty. To remove such difficulty, it is clarified that no tax is required to be deducted u/s 194R on sales discount, cash discount and rebates allowed to customers.

There could be another situation, where a seller is selling its items from its stock in trade to a buyer. The seller offers two items free with purchase of 10 items. In substance, the seller is actually selling 12 items at a price of 10 items. Let us assume that the price of each item is ₹ 12. In this case, the selling price for the seller would be ₹ 120 for 12 items. For buyer, he has purchased 12 items at a price of ₹ 10. Just like seller, the purchase price for the buyer is ₹ 120 for 12 items and he is expected to record so in his books. In such a situation, again there could be difficulty in applying section 194R provision. Hence, to remove difficulty it is clarified that on the above facts no tax is required to be deducted u/s 194R.

However, it is clarified that situation is different when free samples are given and the above relaxation would not apply to a situation of free samples.

Similarly, this relaxation should not be extended to other benefits provided by the seller in connection with its sale. E.g., when a person sponsors a trip for the recipient and his/her relatives upon achieving certain targets or when a person provides free ticket for an event.

The relaxation provided from non-deduction of tax for sales discount and rebate is only on those items and should not be extended to others.

It is further clarified that these benefits/perquisites may be used by owner/director/employee of the recipient entity or their relatives who in their individual capacity may not be carrying on business or exercising a profession. However, the tax is required to be deducted by the person in the name of recipient entity since the usage by owner/director/employee/relative is by virtue of their relation with the recipient entity and in substance the benefit/perquisite has been provided by the person to the recipient entity.

To illustrate, the free medicine sample may be provided by a company to a doctor who is an employee of a hospital. The TDS u/s 194R is required to be deducted by the company in the hands of hospital as the benefit/perquisite is provided to the doctor on account of him being the employee of the hospital. Thus, in substance, the benefit/perquisite is provided to the hospital. The hospital may subsequently treat this benefit/perquisite as the perquisite given to its employees (if the person who used it is his employee) u/s 17 and deduct tax u/s 192. In such a case it would be first taxable in the hands of the hospital and then allowed as deduction as salary expenditure. Thus, ultimately the amount would get taxed in the hands of the employee and not in the hands of the hospital. Hospital can get credit of tax deducted u/s 194R by furnishing its tax return. It is further clarified that the threshold of ₹ 20,000 is also required to be seen with respect to the recipient entity. Similarly, the tax is required to be deducted u/s 194R if the benefit or perquisite is provided to a doctor who is working as a consultant in the hospital. In this case the benefit or perquisite provider may deduct tax u/s 194R with hospital as recipient and then hospital may again deduct tax u/s 194R for providing the same benefit or perquisite to the consultant.

To remove difficulty, as an alternative, the original benefit or perquisite provider may directly deduct tax u/s 194R in the case of the consultant as a recipient.

The provision of section 194R of the Act shall not apply if the benefit or perquisite is being provided to a Government entity, like Government hospital, not carrying on business or profession.

4. How is the valuation of benefit/perquisite required to be carried out?

Ans. The valuation would be based on fair market value of the benefit or perquisite except in following cases:-

- i. The benefit/perquisite provider has purchased the benefit/perquisite before providing it to the recipient. In that case the purchase price shall be the value for such benefit/perquisite.
- ii. The benefit/perquisite provider manufactures such items given as benefit/perquisite, then the price that it charges to its customers for such items shall be the value for such benefit/perquisite.

It is further clarified that GST will not be included for the purposes of valuation of benefit/perquisite for TDS u/s 194R.

5. Many a times, a social media influencer is given a product of a manufacturing company so that he can use that product and make audio/video to speak about that product in social media. Is this product given to such influencer a benefit or perquisite?

Ans. Whether this is benefit or perquisite will depend upon the facts of the case. [In case of benefit or perquisite being a product like car, mobile, outfit, cosmetics etc and if the product is returned to the manufacturing company after using for the purpose of rendering service, then it will not be treated as a benefit/perquisite for the purposes of sec. 194R. However, if the product is retained then it will be in the nature of benefit/perquisite and tax is required to be deducted accordingly u/s 194R.

6. Whether reimbursement of out of pocket expense incurred by service provider in the course of rendering service is benefit/perquisite?

Ans. Any expenditure which is the liability of a person carrying out business or profession, if met by the other person is in effect benefit/perquisite provided by the second person to the first person in the course of business/profession.

Let us assume that a consultant is rendering service to a person "X" for which he is receiving consultancy fee. In the course of rendering that service, he has to travel to different city from the place where is regularly carrying on business or profession. For this purpose, he pays for boarding and lodging expense incurred exclusively for the purposes of rendering the service to "X". Ordinarily, the expenditure incurred by the consultant is part of his business expenditure which is deductible from the fee that he receives from company "X". In such a case, the fee received by the consultant is his income and the expenditure incurred on travel is his expenditure deductible from such income in computing his total income. Now if this travel expenditure is met by the company "X", it is benefit or perquisite provided by "X" to the consultant.

However, sometimes the invoice is obtained in the name of "X" and accordingly, if paid by the consultant, is reimbursed by "X". In this case, since the expense paid by the consultant (for which reimbursement is made) is incurred wholly and exclusively for the purposes of rendering services to "X" and the invoice is in the name of "X", then the reimbursement made by "X" being the service recipient will not be considered as benefit/perquisite for the purposes of section 194R. If the invoice is not in the name of "X" and the payment is made by "X" directly or reimbursed, it is the benefit/perquisite provided by "X" to the consultant for which deduction is required to be made u/s 194R.

In GST, if service provider incurs an expense as "pure agent", then GST input credit is allowed to service recipient and not to service provider. Broadly speaking a pure agent is one who while making a supply to the recipient, also receives and incurs expenditure on some other supply on behalf of the recipient and claims reimbursement (as actual, without adding it to the value of his own supply) for such supplies from the recipient of the main supply. While the relationship between them (provider of

service and recipient of service) in respect of the main service is on a principal to principal basis, the relationship between them in respect of other ancillary services is that of a pure agent.

The GST valuation rules provide that expenditure incurred as a pure agent, will be excluded from the value of supply, and thus also from aggregate turnover. However, such exclusion of expenditure incurred as a pure agent is possible only and only if all the conditions required to be considered as a pure agent and further conditions stipulated in the rules are satisfied by the supplier in each case. The supplier would have to satisfy the following conditions (in addition to the condition required to be satisfied to be considered as a pure agent) for exclusion from the value as under:-

- i. the supplier acts as a pure agent of the recipient of the supply, when he makes payment to the third party on authorization by such recipient;
- ii. the payment made by the pure agent on behalf of the recipient of supply has been separately indicated in the invoice issued by the pure agent to the recipient of service; and
- iii. the supplies procured by the pure agent from the third party as a pure agent of the recipient of supply are in addition to the services he supplies on his own account.

In case these conditions are not satisfied, such expenditure incurred is included in the value of supply under GST. However, in the abovementioned case of "pure agent", if all the conditions are satisfied, the GST input credit is allowed to the recipient and it is not considered as supply of the pure agent, it is clarified that amount incurred by such "pure agent" for which he is reimbursed by the recipient would not be treated as benefit/perquisite for the purpose of section 194R of the Act.

However, if out of pocket expenses (reimbursement) are already part of the consideration in the bill on which tax is deducted under the relevant provisions of the Act, other than sec. 194R, in accordance with the Circular No 715 dated 8th August 1995, it is clarified that there will not be further liability for tax deduction u/s 194R

7. If there is a dealer conference to educate the dealers about the products of the company - Is it benefit/perquisite?

Ans. The expenditure pertaining to dealer/business conference would not be considered as benefit/perquisite for the purposes of section 194R in a case where dealer/business conference is held with the prime object to educate dealers/customers about any of the following or similar aspects:

- i. new product being launched
- ii. discussion as to how the product is better than others
- iii. obtaining orders from dealers/customers
- iv. teaching sales techniques to dealers/customers
- v. addressing queries of the dealers/customers
- vi. reconciliation of accounts with dealers/customers

However, such conference must not be in the nature of incentives/benefits to select dealers/customers who have achieved particular targets.

Further, in the following cases the expenditure would be considered as benefit or perquisite for the purposes of section 194R:-

- i. Expense attributable to leisure trip or leisure component, even if it is incidental to the dealer / business conference.
- ii. Expenditure incurred for family members accompanying the person attending dealer / business conference
- iii. Expenditure on participants of dealer/business conference for days which are on account of prior stay or overstay beyond the dates of such conference.

Ans. It is further clarified that

- i. it is not necessary that all dealers are required to be invited in a dealer/business conference for the expenses to be not considered as benefit/perquisite for the purposes of tax deduction u/s 194R.
- ii. Expenditure on participants of dealer/business conference for days which are on account of over stay prior to the dates of conference or beyond the dates of such conference would be considered as benefit/perquisite for the purposes of section 194R of the Act. However, a day immediately prior to actual start date of conference and a day immediately following the actual end date of conference would not be considered as over stay.
- iii. Further, there may be expenses during such dealer/business conference which need to be classified as benefit/perquisite and tax is required to be deducted under section 194R of the Act. However, there may be practical difficulties in identifying such benefit/perquisite to actual recipient due to the fact that it is a group activity and reasonable allocation is not possible. Noncompliance of the provision of section 194R of the Act, in such a case, would not only result in disallowance under clause (ia) of section 40 of the Act but may also result in treating the benefit/perquisite provider as assessee in default under section 201 of the Act with all other consequences.

In order to remove these practical difficulties, it is clarified that if benefit/perquisite is provided in a group activity in a manner that it is difficult to match such benefit/perquisite to each participant using a reasonable allocation key, the benefit/perquisite provider may at his option not claim the expense, representing such benefit/perquisite, as deductible expenditure for calculating his total income. If he decides to opt so, he will not be required to deduct tax u/s 194R on such benefit/perquisite and therefore he will not be treated as assessee in default u/s 201 of the Act. Thus, in such a case he must add back the expenditure, representing such benefit/perquisite, to calculate his total income if such expenditure is debited in the account.

8. Section 194R provides that if the benefit/perquisite is in kind or partly in kind (and cash is not sufficient to meet TDS) then the person responsible for providing such benefit or perquisite is required to ensure that tax required to be deducted has been paid in respect of the benefit or perquisite, before releasing the benefit or perquisite. How can such person be satisfied that tax has been deposited?

Ans. The requirement of law is that if a person is providing benefit in kind to a recipient and tax is required to be deducted u/s 194R, the person is required to ensure that tax required to be deducted has been paid by the recipient. Such recipient would pay tax in the form of advance tax. The tax deductor may rely on a declaration along with a copy of the advance tax payment challan provided by the recipient confirming that the tax required to be deducted on the benefit/perquisite has been deposited. This would be then required to be reported in TDS return along with challan number. This year Form 26Q has included provisions for reporting such transactions.

In the alternative, as an option to remove difficulty if any, the benefit provider may deduct the tax u/s 194R and pay to the Government. The tax should be deducted after taking into account the fact the tax paid by him as TDS is also a benefit u/s 194R. In the Form 26Q he will need to show it as tax deducted on benefit provided.

Further, a question is also arise that where Company "A" gifts a car to its dealer "B" and deducted tax on this benefit under section 194R, Dealer "B" uses this car in his business. Will he get deduction for depreciation in calculating his income under the head "profits and gains of business or profession"?

In this regard, it is clarified that once Company "A" has deducted tax on gifting of car in accordance with section 194 R of the Act (or released the car after dealer "B" showed him payment of tax on such benefit) and dealer "B" has included this benefit as income in his income tax return, it would be deemed that the "actual cost" of the car for the purposes of section 32 of the Act shall be the amount of benefit included by dealer "B" as income in his income-tax return. Hence, dealer "B" can get depreciation on fulfillment of other conditions for claiming depreciation.

- 9** Whether Embassy/High Commissions are required to deduct tax under section 194R of the Act?
- Ans.** For the removal of difficulty it is clarified that the provision of section 194R is not applicable on benefit/perquisite provided by, an organization in scope of The United Nations (Privileges and Immunity Act) 1947, an international organization whose income is exempt under specific Act of Parliament (such as the Asian Development Bank Act 1966), an embassy, a High Commission, legation, commission, consulate and the trade representation of a foreign state
- 10.** Whether issuance of bonus share/right share is a benefit or perquisite if issued by a company in which the public are substantially interested as defined in sec. 2(18) and whether tax is required to be deducted u/s 194R of the Act?
- Ans.** In case of bonus shares which are issued to all shareholders by a company in which the public are substantially interested as defined in sec. 2(18), it has been represented that this does not result in any benefit to shareholders as the overall value and ownership of their holding does not change. Further cost of acquisition of bonus share is taken as nil for capital gains computation when this share is sold. Similar representations have been received seeking clarity on issuance of right shares. It is clarified that the tax u/s 194R is not required to be deducted on issuance of bonus or right shares by a company in which the public are substantially interested, where bonus shares are issued to all shareholders by such a company or right shares are offered to all shareholders by such a company, as the case may be.
- 11.** If loan settlement/waiver by a bank is to be treated as benefit/perquisite, it would lead to hardship as the bank would need to incur the additional cost of tax deduction in addition to the haircut that he has taken. Will section 194R of the Act apply in such a situation?
- Ans.** It is true that waiver or settlement of loan by the bank may be an income to the person who had taken the loan. It is also true that subjecting such a transaction to tax deduction u/s 194R would put extra cost on such bank, as this would require payment of tax by the deductor in addition to him taking a haircut already. Hence, to remove difficulty, it is clarified that one-time loan settlement with borrowers or waiver of loan granted on reaching settlement with the borrowers would not be subjected to TDS u/s 194R.
- As stated earlier, this clarification is only for the purposes of sec. 194R. The treatment of such settlement/waiver in the hands of the person who had got benefitted by such waiver would not be impacted by this clarification. Taxability of such settlement/waiver in the hands of the beneficiary will be governed by the relevant provisions of the Act

- 1 Who is required to deduct tax when the transfer of VDA is taking place on or through an Exchange and payment is made by the purchaser to the Exchange (directly or through broker) and then from the Exchange it goes to seller directly or through the broker?

Ans. According to sec. 194S, any person who is responsible for paying to any resident any sum by way of consideration for transfer of VDA is required to deduct tax. Thus, in a peer to peer (i.e. direct buyer to seller) transaction, the buyer (i.e person paying the consideration) is required to deduct tax u/s 194S.

However, if the transaction is taking place on or through an Exchange there is a possibility of tax deduction requirement u/s 194S at multiple stages. Hence, in order to remove difficulties for transactions taking place on or through an Exchange, the following clarifications are issued:-

- i. **In a case where the transfer of VDA takes place on or through an Exchange and the VDA being transferred is owned by a person other than the Exchange:**

In this case buyer would be crediting or making payment to the Exchange (directly or through a broker). The Exchange then would be required to credit or make payment to the owner of VDA being transferred, either directly or through a broker. Since there are multiple players, to remove difficulty it is clarified that:

1. Tax may be deducted u/s 194S only by the Exchange which is crediting or making payment to the seller (owner of the VDA being transferred). In a case where broker owns the VDA, it is the broker who is the seller. Hence, the amount of consideration being credited or paid to the broker by the Exchange is also subject to tax deduction u/s 194S.

2. In a case where the credit/payment between Exchange and the seller is through a broker (and the broker is not seller), the responsibility to deduct tax under section 194S of the Act shall be on both the Exchange and the broker. However, if there is a written agreement between the Exchange and the broker that broker shall be deducting tax on such credit/payment, then broker alone may deduct the tax under section 194S of the Act. The Exchange would be required to furnish a quarterly statement (in Form no 26QF) for all such transactions of the quarter on or before the due date prescribed in the Income-tax Rules, 1962.
- ii. **In a case where the transfer of VDA takes place on or through an Exchange and the VDA being transferred is owned by such Exchange:**

In this case there are no multiple players. The buyer is required to deduct tax under section 194S of the Act. However, there may be a practical issue as the buyer may not know whether the VDA being transferred is owned by the Exchange or not. Hence, there may be genuine doubt in the mind of buyer with regard to its responsibility to deduct tax under section 194S of the Act. This difficulty would also be there if the buyer is buying VDA from an Exchange through a broker.

To remove this difficulty, it is clarified that while the primary responsibility to deduct tax under section 194S of the Act, in this case, remains with the buyer or his broker, as an alternative the Exchange may enter into a written agreement with the buyer or his broker that in regard to all such transactions the Exchange would be paying the tax on or before the due date for that quarter. The Exchange would be required to furnish a quarterly statement (in Form No. 26QF) for all such transactions of the quarter on or before the due date prescribed in the Income-tax Rules, 1962. The Exchange would also be required to furnish its income tax return and all these transactions must be included in such return. If these conditions are complied with, the buyer or his broker would not be held as assessee in default under section 201 of the Act for these transactions.

For the purpose of this circular,-

- i. The term "Exchange" means any person that operates an application or platform for transferring of VDAs, which matches buy and sell trades and executes the same on its application or platform.
- ii. The term "Broker" means any person that operates an application or platform for transferring of VDAs and holds brokerage account/accounts with an Exchange for execution of such trades.

2. Question no 1 was with respect to transactions where the consideration for transfer of VDA is not in kind. How will this operate in a situation where it is in kind or in exchange of another VDA?

Ans. According to proviso to sec. 194S(1), there could be situations where the consideration is in kind or in exchange of another VDA or partly in kind and cash is not sufficient to meet the TDS liability. In these situations, the person responsible for paying such consideration is required to ensure that tax required to be deducted has been paid in respect of such consideration, before releasing the consideration.

In the above situation, the buyer will release the consideration in kind after seller provides proof of payment of such tax (e.g. Challan details etc.). In a situation where VDA "A" is being exchanged with another VDA "B", both the persons are buyer as well as seller. One is buyer for "A" and seller for "B" and another is buyer for "B" and seller for "A". Thus both need to pay tax with respect to transfer of VDA and show the evidence to other so that VDAs can then be exchanged. This would then be required to be reported in TDS statement along with challan number. This year Form No. 26Q has included provisions for reporting such transactions. For specified persons, Form No. 26QE has been introduced.

However, if the transaction is through an Exchange there is practical issue in implementing this provision. In order to address this practical issue and to remove difficulty, it is clarified that in such a situation, as an alternative, tax may be deducted by the Exchange. Such an alternative mechanism can be exercised by the Exchange based on written contractual agreement with the buyers/sellers.

If such an alternative mechanism is exercised,

- i. the Exchange would be required to deduct tax for both legs of the transactions and pay to the Government. In the Form 26Q it will, for the reasons explained before, need to report it as tax deducted on both legs of the transaction.
- ii. the buyer and seller would not be independently required to follow the procedure prescribed in proviso to sec. 194S(1).

When the Exchange opts for deduction of tax under section 194S of the Act on such transactions, there is also a possibility that the tax amount deducted is also in kind and needs to be converted into cash before it can be deposited with the Government. In this regard, the following mechanism shall be adopted by the Exchange

- i. At the time of transaction, the Exchange will deduct TDS in the pair being traded. For example, in case of trade for Monero to Deso, 1% of Monero and 1% Deso will be deducted as tax under section 194S of the Act by the Exchange and balance shall be transferred to the customer. The trail of transactions evidencing deduction of 1% of consideration for every VDA to VDA trade shall be maintained by the Exchange.
- ii. The Exchanges shall immediately execute a market order for converting this tax deducted in kind (1% Monero/ 1% Deso in the above example) to one of the primary VDAs (BT, ETH, USDT, USDC) which can be easily converted into INR. This step will ensure that the tax deducted under section 194S of the Act in the form of non-primary VDAs like Deso/Monero is converted to an equivalent of primary VDAs which have a ready INR market. Time stamps of timing of orders to be maintained to ensure such conversion of VDAs withheld to be done on immediate basis by the Exchange. If the taxes are withheld in primary VDAs, this step would be ignored.
- iii. All the tax deducted under section 194S of the Act in the form of primary VDAs {or converted into primary VDA under step (ii)} will be accumulated for the day. Time limit will be from 00:00 hours to 23:59 hours. VDA accumulation by the Exchange shall be verifiable from the trail of orders for VDA to VDA trades executed during the day.
- iv. The accumulated balance of primary VDAs at 00.00 hours will be converted into INR based on the market rate existing at that time. In order to bring in consistency and to avoid discretion, the Exchanges are required to place market order at 00:00 hours for the tax withheld {or converted under step (ii)} in form of primary VDAs for conversion into INR. These sell market orders shall be executed based on the open buy orders in the market. Price and quantity data for every matched trade shall be maintained by the Exchange and shall be available for verification. It shall be verifiable from the system coding that the conversion into INR happened at the first available buy order based on the prevailing buy order book of the respective Exchange at the time of conversion. As a practice, the respective Exchange liquidating the VDA shall be prohibited to be a buyer for these VDAs.
- v. Customer will be issued a contract note over email which will include the amount of tax withheld in kind under section 194S and the amount of INR realized from such tax withheld.
- vi. The tax withheld in kind under section 194S of the Act and converted into INR by following the above procedure shall be deposited in the Government Account as per the time line and process given in the Income-tax Rules 1962.

It is clarified that there would not be any further TDS for converting the tax withheld in kind in the form of VDA into INR or from one VDA to another VDA and then into INR.

3. How will this operate in a situation where it is in kind or in exchange of another VDA?

Ans. For all other transactions (not covered by circular no 13/2022), this circular is being issued under section 119 for proper administration of the Act.

1. Liability to deduct tax at source under section 194S of the Act when the consideration is other than in kind

According to section 194S, any person who is responsible for paying to any resident any sum by way of consideration for transfer of VDA is required to deduct tax. Thus, in a peer to peer (i.e. buyer to seller without going through an Exchange) transaction, the buyer (i.e. person paying the consideration) is required to deduct tax under section 194S. The tax so deducted is required to be deposited with Government in accordance with the time and procedure prescribed in the Act read with the relevant provisions of the Income-tax Rules, 1962.

After deduction, the deductor is required to furnish a quarterly statement (in Form No. 26Q) for all such transactions of the quarter on or before the due date prescribed in the Income-tax Rules, 1962. For specified person Form 26QE has been introduced.

It may be clarified that the TDS shall be on consideration for transfer of VDA less GST.

2. Liability to deduct tax at source under section 194S of the Act when the consideration is in kind or in exchange of VDA

According to the proviso to sub-section (1) of section 194S of the Act, there could be a situation where the consideration is in kind or in exchange of another VDA or partly in kind and cash is not sufficient to meet the TDS liability. In this situation, the person responsible for paying such consideration is required to ensure that tax required to be deducted has been paid in respect of such consideration, before releasing the consideration.

Thus, the buyer will release the consideration in kind after seller provides proof of payment of such tax (e.g. challan details etc.). In a situation where VDA "A" is being exchanged with another VDA "B", both the persons are buyer as well as seller. One is buyer for "A" and seller for "B" and another is buyer for "B" and seller for "A". Thus both need to pay tax with respect to transfer of VDA and show the evidence to other so that VDAs can then be exchanged. This would then be required to be reported in TDS statement along with challan number by both of them. This year Form 26Q has included provisions for reporting such transactions. For specified persons, Form 26QE has been introduced.

4. Whether the provision of section 194Q of the Act is also applicable on transfer of VDA?

Ans. Without going into the merit whether VDA is goods or not, it is clarified that once tax is deducted under section 194S of the Act, tax would not be required to be deducted under section 194Q of the Act.

5. Whether the consideration for transfer of VDA shall be on Gross basis after including GST/commission or it shall be on "net basis" after exclusion of these items.

Ans. In order to remove difficulty, it is clarified that the tax required to be withheld under section 194S of the Act shall be on the "net" consideration after excluding GST/charges levied by the deductor for rendering service.

6. In transactions where payment is being carried out through payment gateways, there may be tax deduction twice. To illustrate that a person 'XYZ' is required to make payment to the seller for transfer of VDA. He makes payment of one lakh rupees through digital platform of "ABC". On these facts liability to deduct tax under section 194S of the Act may fall on both "XYZ" and "ABC. Is tax required to be deducted by both?

Ans. In order to remove this difficulty, it is provided that in the above example, the payment gateway will not be required to deduct tax under section 194S of the Act on a transaction, if the tax has been deducted by the person ('XYZ') required to make deduction under section 194S of the Act. Hence, in the above example, if "XYZ" has deducted tax under section 194S of the Act on one lakh rupees, "ABC" will not be required to deduct tax under section 194S of the Act on the same transaction. To facilitate proper implementation, "ABC" may take an undertaking from "XYZ" regarding deduction of tax.

 - Cost plus contract is a construction contract in which the contractor is reimbursed for allowable or otherwise defined costs, plus a mark up on these costs or a fixed fee.

Contract Revenue

- Contract revenue shall comprise of:

- Contract revenue and contract costs associated with the construction contract should be recognised as revenue and expenses respectively by reference to the stage of completion of the contract activity at the reporting date.
- The recognition of revenue and expenses by reference to the stage of completion of a contract is referred to as the percentage of completion method. Under this method, contract revenue is matched with the contract costs incurred in reaching the stage of completion, resulting in the reporting of revenue, expenses and profit which can be attributed to the proportion of work completed.

Changes in Estimates

- The percentage of completion method is applied on a cumulative basis in each previous year to the current estimates of contract revenue and contract costs. Where there is change in estimates, the changed estimates shall be used in determination of the amount of revenue and expenses in the period in which the change is made and in subsequent periods.

- c. There is reasonable certainty of its ultimate collection.

Rendering of Services

- Revenue from service transactions shall be recognised by the percentage completion method.
- Under this method, revenue from service transactions is matched with the service transaction costs incurred in reaching the stage of completion, resulting in the determination of revenue, expenses and profit which can be attributed to the proportion of work completed.
- However, when services are provided by an indeterminate number of acts over a specific period of time, revenue may be recognised on a straight line basis over the specific period.
- Revenue from service contracts with duration of not more than 90 days may be recognised when the rendering of services under that contract is completed or substantially completed.

Interest

- Interest shall accrue on the time basis determined by the amount outstanding and the rate applicable.

 - Obligating event is an event that creates an obligation that results in a person having no realistic alternative to settling that obligation.
 - Contingent liability is:
 - a. a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the person; or

The amount recognised for the reimbursement shall not exceed the amount of the provision.
- Where a person is not liable for payment of costs in case the third party fails to pay, no provision shall be made for those costs.
- An obligation, for which a person is jointly and severally liable, is a contingent liability to the extent that it is expected that the obligation will be settled by the other parties.
