1.1

“It was only for the good of his subjects that he collected taxes from them, just as the Sun draws moisture from the Earth to give it back a thousand folds” – Kalidas in Raghuvansh eulogizing King Dalip

Income Tax has been in force in different forms for years. If we go through the history of India, we get relevant information regarding the taxation system in India. In ancient history, it is mentioned about such system which was imposed on the income, expenditure and other subject. When most of the European civilization were in hopping stage, the Maurya Empire in India had a well-developed taxation policy. Kautilya, a minister in the Maurya Empire, wrote a book (Arthashastra) on taxation around 327 B.C., is good evidence of contemporary Indian thinking on State administration, economics and fiscal policy. In modern India, income tax was introduced for the first time in 1860 by Sir James Wilson in order to meet the losses sustained by the Government on account of the Military Mutiny of 1857. The Act was replaced with the new Act from time to time and the present the Income-tax Act, 1961 comes into force from 01/04/1962.

Why Taxation

In a welfare state, the government is responsible for the welfare of its citizens, which includes healthcare, education, employment, infrastructure, social security, and other development needs. To finance these services, the government needs revenue, and its primary source of revenue is taxation. This means that the government collects taxes from the public to fund public welfare expenditures. Though nobody enjoys handing over their hard-earned money, **taxes are compulsory or enforced contributions to the government’s** revenue by the public. The government may levy taxes on income, business profits, or wealth, or add it to the cost of some goods, services and transactions.

Basic Reasons to impose taxation

- **To provide basic facilities for every citizen of the country:** Whatever money is received by the government from taxation is spent by it for the welfare of the citizens of the country. Some of the services provided by the government are: health care, electricity, roads, education system, free houses for the poor, water supply, police, firefighters, judiciary system, disaster relief, taking care of bridges and other things of public welfare.
- **To finance multiple governments:** All the local governments of the state like village panchayats, block panchayats and municipal corporations receive funds from the finance commission.
- **Protection of the life:** Taxpayers receive the protection of life and wealth from the government in case of external aggression, internal armed rebellion or any other situation.

Direct Tax & Indirect Tax

There are two types of taxes: Direct Tax and Indirect Tax. Tax, of which incidence and impact fall on the same person, is known as Direct Tax, such as Income Tax. On the other hand, tax, of which incidence and impact fall on two different persons, is known as Indirect Tax, such as GST, etc. It means, in the case of Direct Tax, tax is recovered directly from the assessee, who ultimately bears such taxes, whereas in the case of Indirect Tax, tax is recovered from the assessee, who passes such burden to another person & is ultimately borne by consumers of such goods or services.

Type of Taxation

Direct Tax	Indirect Tax
<ul style="list-style-type: none"> Incidence and impact fall on the same person Assessee, himself bears such taxes. Thus, it pinches the taxpayer. Levied on income E.g. Income Tax Progressive in nature i.e., higher tax are levied on person earning higher income and vice versa. 	<ul style="list-style-type: none"> Incidence and impact fall on two different persons Tax is recovered from the assessee, who passes such burden to another person. Thus, it does not pinch the taxpayer. Levied on goods and services. Thus, this type of tax leads to inflation and have wider base. E.g. GST, Customs Duty, etc. Regressive in nature i.e., all persons will bear equal wrath of tax on goods or service consumed by them irrespective of their ability. Useful tool to promote social welfare by checking the consumption of harmful goods or sin goods through higher rate of tax.

Constitutional Validity of Taxes

The Constitution of India is the supreme law of India. Any tax law, which is not in conformity with the Constitution, is called ultra vires the Constitution and held as illegal and void.

Some of the provisions of the Constitution are given below:

Article 265	No tax shall be levied or collected (it includes collection or recovery) except by the authority (Article 245 and Article 123) of law.
Article 245	Parliament may make laws for the whole or any part of the territory of India
Article 123	When Parliament is in recess, the President has the power to promulgate Ordinances
Article 270	All the taxes & duties except specified shall be levied by the Central Government & distributed between Union & State Governments in the manner specified by the President or through recommendation of the finance commission.

Article 271	Parliament may at any time increase any of the duties or taxes referred in those articles by a surcharge for purposes of the Union and the whole proceeds of any such surcharge shall form part of the Consolidated Fund India
Article 246	Read with Schedule VII divides the subject matter of law made by the legislature into three categories

Article 265 of the Constitution lays down that no tax shall be levied or collected except by the authority of law. It means the tax proposed to be levied must be within the legislative competence of the legislature imposing the tax*. Article 246 read with Schedule VII divides the subject matter of law made by the legislature into three categories:

- Union list (only the Central Government has the power of legislation on subject matters covered in the list)
- State list (only the State Government has the power of legislation on subject matters covered in the list)
- Concurrent list (both Central & State governments can pass legislation on subject matters).

If a state law relating to an entry in List III is repugnant to a Union law relating to that entry, the Union law will prevail, and the state law shall, to the extent of such repugnancy, be void. (**Article 254**).

Following major entries in the respective list enable the legislature to make law on the matter:

Union List (List I)	Entry 82 - Taxes on income other than agricultural income i.e. Income-tax
State List (List II)	Entry 46 - Taxes on agricultural income.

Administration of Tax Laws

The administrative hierarchy of tax law is as follows:

Taxpoint:

- Both of the Boards have been constituted under the Central Board of Revenue Act, 1963.
- CBDT deals with levy and collection of all direct tax whereas matters relating to levy and collection of Central indirect tax are dealt by CBIC.

Sources or Component of Income Tax Law in India

1. Income tax Act, 1961 (Amended up to date) [Provides What to do?]

The provisions of income tax extend to the whole of India and became effective from 1/4/1962 (Sec. 1). The Act contains provisions for:

- (a) determination of taxable income;
- (b) determination of tax liability;
- (c) procedure for assessment, appeals, penalties and prosecutions; and
- (d) powers and duties of Income-tax authorities.

Taxpoint:

- The Act has been divided into 23 chapters (covering 298 sections) and 14 schedules. Few of them are further sub-divided.
- It is extended to the whole of India
 - “India” means the territory of India as referred to in article 1 of the Constitution, its territorial waters, seabed and subsoil underlying such waters, continental shelf, exclusive economic zone or any other maritime zone as referred to in the Territorial Waters, Continental Shelf, Exclusive Economic Zone and other Maritime Zones Act, 1976, and the air space above its territory and territorial waters [Sec. 2(25A)]

2. Income-tax Rules, 1962 (Amended up to date) [Provides How to do?]

- (a) As per Sec. 295, the Board may, subject to the control of the Central Government, make rules for the whole or any part of India for carrying out the purposes of the Act.
- (b) Such rules are made applicable by notification in the Gazette of India.
- (c) These rules were first made in 1962 and are known as Income tax Rules, 1962.
- (d) Rules are for implantation or execution of the Act.

Since then, many new rules have been framed or existing rules have been amended from time to time and the same has been incorporated in the aforesaid rules.

3. Annual Amendments

- (a) Income-tax Act has undergone several amendments from the time it was originally enacted through the Union Budget*. Every year [on 1st Feb**], a Finance Bill (a part of the Union Budget) is presented before the Parliament by the Finance Minister. The Bill contains various amendments which are sought to be made in the areas of direct and indirect taxes levied by the Central Government.
- (b) When the Finance Bill is approved by both the Houses of Parliament and receives the assent of the President, it becomes the Finance Act. The provisions of such Finance Act are thereafter incorporated in the Income Tax Act.
 - Amendments made in the direct tax shall be effective from next year, unless specified otherwise
 - In GST, amendments are expected after every GST council meeting.
 - Amendments made in other indirect tax shall be effective from mid night, unless specified otherwise
- (c) If on the 1st day of April of the Assessment Year, the new Finance Act has not been enacted, the provisions

* According to Article 112 of the Indian Constitution, the Union Budget of a year is a statement of the estimated receipts and expenditure of the government for that particular year. Union Budget is classified into Revenue Budget and Capital Budget. Revenue budget includes the government's revenue receipts and expenditure. There are 2 kinds of revenue receipts - tax and non-tax revenue. If revenue expenditure exceeds revenue receipts, the government incurs a revenue deficit. Capital Budget includes capital receipts and payments of the government. Loans from public, foreign governments and RBI form a major part of the government's capital receipts. Fiscal deficit is incurred when the government's total expenditure exceeds its total revenue. Budget is prepared under the Fiscal Responsibility and Budget Management Act, 2003 (FRBM Act).

** However, in the year of election, in the month of Feb, interim budget is presented by the Govt and after election final budget is presented by the new Govt.

in force in the preceding Assessment Year or the provisions proposed in the Finance Bill before the Parliament, whichever is more beneficial to the assessee, will apply until the new provisions become effective [Sec. 294]

Note: Besides these amendments, whenever it is found necessary, the Government introduces amendments in the form of various Amendment Acts and Ordinances.

4. Notification, Circulars and Clarifications

- (a) U/s 119, the Board may issue certain notifications*, circulars and clarifications** from time to time, which have to be followed and applied by the Income tax authorities.
- (b) Effect of circulars: These circulars or clarifications are binding upon the Income tax authorities, but the same are not binding on the assessee. However, assessee can claim benefit under such circulars.

Note: These circulars are not binding on the Income Tax Appellate Tribunal or on the Courts.

5. Judicial decision

- (a) Decision of the Supreme Court: Any decision given by the Supreme Court shall be applicable as law till there is any change in law by the Parliament. Such decision shall be binding on all the Courts, Tribunals, Income tax authorities, assessee, etc.
- (b) Contradiction in the decisions of the Supreme Court: In case, there is apparently contradiction in two decisions, the decision of larger bench, whether earlier or later, shall always prevail. However, where decisions are given by benches having equal number of judges, the decision of the recent case shall be applicable.
- (c) Decisions given by a High Court or ITAT: Decisions given by a High Court or ITAT are binding on all assessees and Income tax authorities, which fall under their jurisdiction, unless it is over ruled by a higher authority.

Basic principles for charging Income Tax [Sec. 4]

1. Income of the previous year of a person is charged to tax in the immediately following assessment year.
2. It is not a one-time tax.
3. Rate of tax is applicable as specified by the Annual Finance Act of that year. Further, though the Finance Act prescribes the rates of tax, in respect of certain income, the Income Tax Act itself has prescribed specific rates, e.g. Lottery income is to be taxed @ 30% (Sec.115BB)
4. In respect of income chargeable to tax, tax shall be deducted at source, or paid in advance (wherever applicable).

Sec. 4 is a charging section and it is the backbone of the Income Tax Act. The tax liability arises by virtue of this section and it arises at the close of a previous year. However, the finalisation of amount of tax liability is postponed to the assessment year.

Income of the previous year of a person is charged to tax in the immediately following assessment year.

Assessment Year (A.Y.) [Sec. 2(9)]

Assessment year means the period of 12 months commencing on the 1st day of April every year. It is the year (just after the previous year) in which income earned in the previous year is charged to tax. E.g., A.Y.2025-26 is a year, which commences on April 1, 2025 and ends on March 31, 2026. The income of an assessee earned in the previous year 2024-25 is assessed in the A.Y. 2025-26.

* Notification is a mode of communication system, though one way, by the department with all stakeholders

** Circulars and clarifications are internal communication systems, though one way, by the department to their subordinates.

Taxpoint:

- Duration: Period of 12 months starting from 1st April.
- Relation with Previous Year: It falls immediately after the Previous Year.
- Purpose: Income of a previous year is assessed and taxable in immediately following Assessment Year.

Previous Year [Sec.3]

Previous Year means the financial year immediately preceding the Assessment Year. Income earned in a year is assessed in the next year. The year in which income is earned is known as Previous Year and the next year in which income is assessed is known as Assessment Year. It is mandatory for all assessee to follow financial year (from 1st April to 31st March) as previous year for Income-Tax purpose.

Financial Year

According to sec. 2(21) of the General Clauses Act, 1897, a Financial Year means the year commencing on the 1st day of April. Hence, it is a period of 12 months starting from 1st April and ending on 31st March of the next year. It plays a dual role i.e. Assessment Year as well as Previous Year.

Example: Financial year 2024-25 is -

- Assessment year for the Previous Year 2023-24; and
- Previous Year for the Assessment Year 2025-26.

Determination of the first previous year in case of a newly set-up business or profession or for a new source of income

In case of	Previous year is the period
Business or profession being newly set-up	Beginning with the date of setting up of the business & ending on 31st March of that financial year.
A source of income newly coming into existence	Beginning with the date on which the new source of income comes into existence & ending on 31st March of that financial year.

Notes:

1. Above explanation signifies that the first previous year may be a period of less than 12 months but in any case it cannot exceed a period of 12 months. However, next and subsequent previous years shall always be a period of 12 months.
2. Where an assessee has an existing regular income from various sources and he earns an income from a new source during the financial year, his previous year shall commence -
 - For the existing income: From 1st April of previous year; and
 - For new income: From the date when on which the new source of income comes into existence.

However, assessee is liable to tax on aggregate income from all the sources, therefore, all the income will be included in the previous year.

Exceptions to the general rule that income of a Previous Year is taxed in its Assessment Year

				
Sec. 172 Income of a non-Resident assessee from shipping business	Sec. 174 Income of the person, leaving India either permanently/ for a long period	Sec. 174A Income of bodies, formed for a short duration	Sec. 175 Income of the person likely to transfer his property to avoid tax	Sec. 176 Income of a discontinued business. In the Case, the assessing Offer (AO) has the discretionary power

This is the general rule that income of the previous year of an assessee is charged to tax in the immediately following assessment year. However, in the following cases, income of the previous year is assessed in the same year in order to ensure smooth collection of income tax from the taxpayer who may not be traceable, if assessment is postponed till the commencement of the Assessment Year:

1. Income of a non-resident assessee from shipping business (Sec. 172)
2. Income of a person who is leaving India either permanently or for a long period (Sec. 174)
3. Income of bodies, formed for a short duration (Sec. 174A)
4. Income of a person who is likely to transfer property to avoid tax (Sec. 175)
5. Income of a discontinued business (Sec. 176). In this case, the Assessing Officer has the discretionary power i.e. he may assess the income in the same previous year or may wait till the Assessment year.

- c. a person who is assessable in respect of income or loss of another person;
- d. every person who is deemed to be an assessee under any provision of this Act; and
- e. a person who is deemed to be an ‘assessee in default’ under any provision of this Act. E.g. A person, who was liable to deduct tax but has failed to do so, shall be treated as an ‘assessee in default’.

Heads of Income [Sec. 14]

According to Sec.14 of the Act, all income of a person shall be classified under the following five heads:

1. Salaries;
2. Income from house property;
3. Profits and gains of business or profession;
4. Capital gains;
5. Income from other sources.

For computation of income, all taxable income should fall under any of the five heads of income as mentioned above. If any type of income does not become part of any one of the above mentioned first four heads, it should be part of the fifth head, i.e. Income from other sources, which may be termed as the residual head.

Significance of heads of income

- Income chargeable under a particular head cannot be charged under any other head.
- The Act has self-content provisions in respect of each head of income.
- If any income is charged under a wrong head of income, the assessee may lose the benefit of deduction available to him under the correct head.

Distinguish between Heads of income and Sources of income

There are only five heads of income as per Sec. 14 of the Act, but the assessee may generate the income from various sources. Income from various sources is required to be classified into given heads (i.e., 5 heads) of income. Each head of income contains a method of computation of income under the respective head.

In the same head of income, there may be various sources of income. E.g. under the head ‘Income from house property’, there may be two or more house properties and each house property shall be termed as a source of income. The source of income decides under which head (among the five heads) income shall be taxable.

* Finance Ministry has clarified that LPG subsidy received by an individuals in their bank accounts will continue to be exempt from income tax.

Point	Heads of Income	Sources of Income
Number	There are 5 heads of income under the Act	There are not countable numbers of sources of income
Sequence	Source of income is categorized under respective head.	Each source of income is required to be classified under respective head.
Provision	The Act contains different code for computation of income for each head of income.	There is no code for different sources of income
Origin	It is mere classification of various source of income	It refers to the origin wherefrom income arises.

Gross Total Income (GTI) [Sec. 80B(5)]

Gross total income is the aggregate of income under all the five heads of income after adjusting the set-off & carry forward of losses. Deductions under chapter VIA is provided from GTI, to arrive at Total income or taxable income.

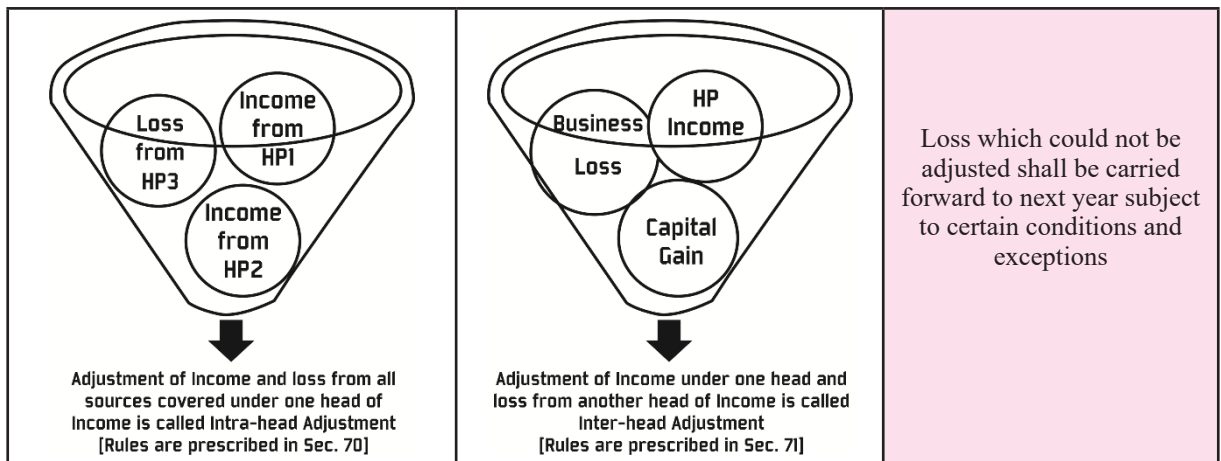

Generally, an assessee is taxed on income accruing to him only and he is not liable to tax for income of another person. However, there are certain exceptions to the above rule (mentioned u/s 60 to 64). Sec. 60 to 64 deals with the provisions of clubbing of income, under which an assessee may be taxed in respect of income accrued to other person, e.g. certain income of minor child shall be clubbed in the hands of his parents, income from asset transferred to spouse for inadequate consideration shall be clubbed in the hands of the transferor, etc. These provisions have

been enacted to counteract the tendency on the part of the taxpayers to dispose off their income or income generating assets to escape tax liability. Income shall be, first, computed in the hands of recipient and then clubbing shall be made head wise. Gross total income shall also include income to be clubbed in hands of assessee and, of course, income received by the assessee which is subject to be clubbed in hands of other person shall be reduced from the gross total income of the assessee.

For computation of Gross Total Income (GTI), income from various sources is computed under the five heads of income. If all the sources and heads are having positive income (i.e. profit) then the same can simply be added to compute GTI. However, if certain source(s) or certain head(s) have negative income (i.e. loss) then such loss needs to be adjusted with income of another source(s) or head(s). Set off means adjustment of loss from one source or one head against income from another source or another head.

If a negative income is not fully set off in the current year, then the unabsorbed loss shall be carried forward to subsequent years subject to certain restrictions and conditions [e.g. Income from other sources (other than losses from activity of owning and maintaining horse races) cannot be carried forward.]

Total Income (TI) [Sec. 2(45) read with section 80A(1)]

Total income means the total amount of income referred to in sec. 5, computed in the manner laid down in this Act. In other words, it means gross total income as reduced by deductions admissible under chapter VIA.

$$\text{Total Income} = \text{Gross Total Income} - \text{Deduction under chapter VIA (i.e., deduction u/s 80C to 80U)}$$

Tax is required to be computed on total income after applying provision of rounding off as provided in sec. 288A. For the purpose

of computation of tax, total income may be divided into two parts viz. income on which special rate of tax is applicable and other income. Income which is subject to special rate of tax shall be taxed at special rate mentioned in the Act itself and tax on other income shall be computed considering regular rate of tax mentioned in the Finance Act.

Further, it is to be noted that tax is calculated on total income rather than aggregate of separate tax calculated on income falling under each head of income. That’s why it is said that income tax is one tax and not collection of tax.

Distinguish between Gross Total Income and Total Income

Basis	Gross Total Income	Total Income
Meaning	Gross total income is the aggregate of income under all the five heads of income after adjusting the set-off & carry forward of losses	Total income means the total amount of income referred to in sec. 5, computed in the manner laid down in this Act [Sec. 2(45)]
Tax calculation	Tax is not calculated on this income	Tax is required to be calculated on this income
Rounded off	Gross total income is not required to be rounded off	Total income is required to be rounded off u/s 288A
Clubbing of Income	Gross total income includes (exclude) income which is subject to club	Total income includes (excludes) income which is subject to club
Set off of losses	Current year’s losses and brought forward eligible losses shall be adjusted headwise and aggregate of income after adjusting such loss shall be considered as gross total income.	No adjustment is required again for such losses
Deductions under chapter VIA	Eligible deduction under chapter VIA shall not be considered while computing gross total income	Eligible deduction under chapter VIA shall be reduced from gross total income to derive total income

Rounding-off of total income [Sec. 288A]

The total income so computed will have to be rounded off to the nearest multiple of ₹ 10, i.e., if the last figure in the ‘rupee element’ is ₹ 5 or more, it should be rounded off to the next higher amount, which is a multiple of ₹ 10. The ‘paise’ element should be ignored.

Thus, if the total income works out to ₹ 7,41,645, it should be rounded off to ₹ 7,41,650, but if it works out to ₹ 7,41,644.98, it should be rounded off to ₹ 7,41,640.

Rounding-off of tax [Sec. 288B]

Tax calculated on the total income should be rounded off to the nearest ₹ 10. Amount of tax (including TDS or advance tax), interest, penalty, etc. and refund shall be rounded off to the nearest ₹ 10.

Provision illustrated

Tax liability actually worked out (₹)	4,876.49	6,452.50	8,738.92	5,132.75
Tax liability as rounded off (₹)	4,880	6,450	8,740	5,130

Procedure for computation of tax liability (in case of an individual)

1 st Step	Determination of Residential status	Determine the residential status of the assessee.	
2 nd Step	Computation of income	Compute income under several heads of income giving the effect of clubbing of income.	
3 rd Step	Aggregate the income i.e., Gross Total Income	Tax is levied on the total income of the assessee, hence income under several heads is to be aggregated giving the effect of set-off and carry forward of losses.	
4 th Step	Deduction under chapter VIA	Provide deductions as per several provisions (Sec. 80C to 80U) of chapter VIA from gross total income. The result is total income.	
5 th Step	Total Income [Rounding off of income (u/s 288A)]	Total Income is rounded off to the nearest multiple of ₹ 10 (ignoring paise).	
6 th Step	Compute tax liability considering these points	Annual-tax	Income tax is charged annually.
		Rate of tax	Rate of tax as applicable in the relevant Assessment Year.
		Rates fixed by the Finance Act	Rates of tax being fixed by the annual Finance Act are considered. However, few rates are specified in the Act itself.
		Total income and tax liability shall be calculated as per the provisions of the Act as they stand on 1st April of the Assessment Year	
7 th Step	Rebate u/s 87A	Resident individual whose income does not exceed specified limit, is eligible for rebate from tax. Reduce the amount of rebate from tax liability calculated in step 6	
8 th Step	Surcharge	If total income of the assessee exceeds the specified limit, surcharge on tax (as computed in step 6) shall be levied. Such surcharge is subject to marginal relief.	
9 th Step	Health and Education cess	To the amount so derived (in step 6 less step 7 add step 8), add Health and Education Cess [@ 4% on tax liability] and ascertain total tax liability (being tax, surcharge and cess).	
10 th Step	Rounding off of tax (u/s 288B)	The amount so payable (after reducing relief, TDS, TCS and Advance Tax) shall be rounded off to the nearest multiple of ₹ 10 (ignoring paise).	

Capital -vs.- Revenue

Receipts

A capital receipt is not liable to tax, unless specifically provided in the Act, whereas, a revenue receipt is not exempted, unless specifically provided in the Act. Further, capital receipts are to be charged to tax under the head “Capital Gains” and revenue receipts are taxable under other heads. The Act does not provide exhaustive definition of the income, thus, distinction between capital receipts and revenue receipts is not easily made. However, based on a number of judicial pronouncements, the following principles are worthwhile to note:

1. **Receipt in lump sum or in Instalments:** Whether any income is received in lump sum or in instalments, it will not make any difference as regards its nature, e.g., an employee is to get a salary of ₹ 10,000 p.m. Instead of this he enters into an agreement to get a sum of ₹ 3,60,000 in lump sum to serve for a period of 3 years. The receipt where it is monthly remuneration or lump sum for 3 years is a revenue receipt.
2. **Nature of receipt in the hands of recipient:** Whether a receipt is capital or revenue will be determined in the hands of the persons receiving such income. No attention will be paid towards the source from which the amount is coming. Salary even if paid out of capital by a new business will be it revenue receipt in the hands of employee.
3. **Accounting treatment:** The name given to the transaction by the parties involved or its treatment in the books of account may not alter its character as capital or revenue.
4. **Income from wasting assets:** Profits from capital which is consumed and exhausted in the process of realization, e.g. royalties from mines and quarries, is taxable as income regardless of the consumption of capital involved in the process.
5. **Magnitude of receipt:** The magnitude of the receipt, whether big or small, cannot decide the nature of the receipt.
6. **Time of receipt:** The nature of the receipt has to be determined at the time when it is received and not afterwards when it has been appropriated by the recipient.
7. **Quality of receipt:** Whether the income is received voluntarily or under a legal obligation, it will not make any difference as regards its nature.
8. **Tests as to the purpose of keeping an article:** If a person purchases a piece of sculpture to keep as decoration piece in his house, if sold later on, will bring capital receipt but if the same sculpture is sold by an art dealer it will be his revenue receipt.

Instances of transactions which are capital in nature but specifically taxable:

1. Capital gains arising from sale of capital assets being defined u/s 2(14). [Sec. 45]
2. Compensation for termination of service or modification in the terms of service [Sec. 17(3)]
3. Compensation or other payments due to or received by the persons specified u/s 28(ii)/28(va).

Expenses

Similarly, a capital expenditure is not allowable as expenses, unless specifically allowed in the Act, whereas, a revenue expenditure is allowable as expenses, unless specifically disallowed in the Act. Based on a number of judicial pronouncements, the following principles are worthwhile to note:

1. **Acquiring asset or advantage of enduring nature:** Bringing into existence an asset or advantage of enduring nature* would lead to the inference that the expenditure disbursed is of a capital nature.

* ‘enduring’ does not mean ‘everlasting’ or ‘perpetual’.

2. **Capital assets belonging to third parties:** Even though an expenditure results in the creation of a capital asset, if the capital asset belongs to a third party, such expenses will be treated as revenue expenditure.
3. **Profit-earning process:** Where the outgoing expenditure is so related to the carrying on or the conduct of the business that it may be regarded as an integral part of the profit-earning process and not for acquisition of an asset or a right of a permanent character, the possession of which is a condition of the carrying on of the business, the expenditure may be regarded as revenue expenditure
4. **Object of the transaction:** The object of the transaction which has impact on the business, the nature of trade for which the expenditure is incurred and the purpose thereof, etc.
5. **Fixed capital -vs.- Circulating capital:** An item of disbursement may be regarded as of a capital nature when it is related to a fixed capital, whereas if it is related to circulating capital or stock-in-trade it would be treated as revenue expenditure.
6. **Expenditure on removing restriction:** Where the assessee has an existing right to carry on a business, any expenditure made by it during the course of business for the purpose of removal of any restriction or obstruction or disability would be on revenue account, provided the expenditure does not result in the acquisition of any capital asset.
7. Payment made to rival dealer to ward off competition in business would constitute capital expenditure
8. If the expenditure is a part of the working expenses in ordinary commercial trading, it is not capital but revenue expenditure.
9. If the expenditure is incurred for the initial outlay or for extension of business or substantial replacement of equipment, it is capital expenditure but if it is incurred for running the business or is laid out as part of the process of profit making, it is revenue in character.
10. If expenditure is incurred for ensuring the regular supply of raw material, maybe for period extending over several years, it is on revenue account
11. When an owner incurs expenditure on additions in a building which enhances its value the expenditure can be of a capital nature. But, if a tenant incurs an expenditure on a rented building for its renovation, he does not acquire any capital asset, because the building does not belong to him and, ordinarily, such an expenditure will be of a revenue nature.
12. Acquisition of the goodwill of the business is acquisition of a capital asset, and, therefore, its purchase price would be capital expenditure. It would not make any difference whether it is paid in a lump sum at one time or in instalments distributed over a definite period. Where, however, the transaction is not one for acquisition of the good-will, but for the right to use it, the expenditure would be revenue expenditure
13. Expenses incurred by the assessee for the purpose of creating, curing or completing the title is capital expenditure and on the other hand if such expenses are incurred for the purpose of protecting the same, it is revenue expenditure.

Diversion & Application of Income

There is a very thin line of difference between Diversion of income & Application of income.

Diversion of income: Where by virtue of an obligation, income is diverted before it reaches to the assessee, it is known as diversion of income & it is not taxable (i.e. even if the assessee were to collect the income he does so on behalf of the person to whom it is payable).

Example: A, B and C are co-authors of a book. The publisher of the book gave the whole royalty of ₹6,00,000 to A. A paid ₹2,00,000 to B and C each. Such payment is not application of income but diversion of income.

Application of income: Whereas, application of income means to discharge an obligation (which is gratuitous or self-imposed) after such income reaches the assessee & hence it is taxable.

Analysis of case (1) and case (2)

Increase in income	₹ 20,000
Liability for surcharge increased	₹ 1,31,550

To provide relaxation from levy of surcharge to a taxpayer where the total income exceeds marginally above ₹ 50 lakh or ₹ 1 crore or 2 crores or 5 crores, the concept of marginal relief is designed.

Condition: Total income exceeds ₹ 50,00,000 (or ₹ 1 crore or 2 crores or 5 crores)

Relief: Marginal relief is provided to ensure that the additional income tax payable including surcharge on excess of income over ₹ 50,00,000 or ₹ 1,00,00,000 or ₹ 2,00,00,000 or ₹ 5,00,00,000 is limited to the amount by which the income is more than ₹ 50,00,000 or ₹ 1,00,00,000 or ₹ 2,00,00,000 or ₹ 5,00,00,000

$$\text{Marginal relief} = [(\text{Income tax} + \text{surcharge}) \text{ on income}] - [(\text{Income tax (including surcharge, if applicable)} \text{ on } ₹ 50,00,000) + (\text{Income} - ₹ 50,00,000)] \text{ (if positive)}$$

Similar relief shall also be provided where income exceeds marginally above ₹ 1 crore or ₹ 2 crores or ₹ 5 crores. In that case, the aforesaid equation shall be changed accordingly.

Now, computation of tax liability is made after considering marginal relief:

Particulars	Working	Case 1	Case 2	Case 3	Case 4
Liability [A]		13,09,500	13,15,500	16,12,500	28,42,500
Add: Surcharge	B = [10% of (A)]	Nil	1,31,550	1,61,250	4,26,375
Tax and surcharge	C	13,09,500	14,47,050	17,73,750	32,68,875
Less: Marginal relief	[(C) - {₹ 13,12,500 + ₹ 10,000}]	Nil	1,24,550	Nil	
	[(C) - {₹ 30,93,750 + ₹ 1,00,000}]				75,125
Effective Surcharge [D]		Nil	7,000	1,61,250	3,51,250
Liability after surcharge	[A + D]	13,09,500	13,22,500	17,73,750	31,93,750

Add: Health & Education cess	4% of above	52,380	52,900	70,950	1,27,750
Total	Rounded off u/s 288B	13,61,880	13,75,400	18,44,700	33,21,500

Taxpoint: The concept of marginal relief is not applicable in case of cess.

Residential Status and Scope of Total Income

1.2

Will income of Mr. Elon Musk in US taxable in India. The answer is no. One may thought that who is liable to be taxed in India. Loosely, it can be said that taxability of income of a person depends on his chances of utilization of Indian resources. In whose case chances of utilization of Indian resources are high, he will pay tax more and vice versa. Sec. 6 and sec. 5 of the Act provides the parameter. Section 4 of the Income-tax Act, which is the charging section, provides that income-tax shall be charged on every person at the rates prescribed for the year by the annual Finance Act. The charge of tax shall be made on the total income of the assessee computed in accordance with the various provisions of the Act. Section 5 of the Act, however, provides the meaning and scope of total income in terms of residential status of an assessee.

The taxability of a person depends upon his residential status in India for any particular previous year. The term residential status must not be confused with an individual's citizenship in India. An individual may be a citizen of India but may not be a resident for a particular previous year. Similarly, a foreign citizen may be a resident of India for the purpose of income tax for a particular previous year. Residential status of an assessee determines the scope of chargeability of his income. Whether a person will be charged to a particular income or not, depends on his residential status.

Sec. 6 provides the test for residential status for the persons which can be categorized as under:

1.2.1 General points to be kept in mind regarding residential status of a person

Different for each previous year	Residential status is determined in respect of each previous year. In other words, residential status of a person may vary from one previous year to another previous year.
Single Status for each source of income	A person can have only one residential status for a previous year i.e. he cannot be a resident for one source of income and non-resident for another source.
Impact of citizenship	Citizenship and residential status are two different concepts. A citizen of India may not be a resident in India for the purpose of income-tax.
Country Specific	A person can have same residential status in more than one country.

1.2.2 Determination of Residential Status

Individual [Sec. 6(1)]

First of all, an individual is classified as resident or non-resident and again a resident individual may further be categorized as Ordinarily Resident or Not Ordinarily Resident in India.

Resident in India

An individual is said to be a resident in India, if he satisfies any one of the following conditions -

- (i) He is in India in the previous year for a period of 182 days or more [Sec. 6(1)(a)]; or
- (ii) He is in India for a period of 60 days or more during the previous year and for 365 or more days during 4 previous years immediately preceding the relevant previous year [Sec. 6(1)(c)]

Taxpoint:

- ▶ Given Conditions are alternative in nature i.e. assessee needs to satisfy any one condition.
- ▶ For the purpose of counting the number of days stayed in India, both the date of departure as well as the date of arrival are considered to be in India.
- ▶

Sec. 6(1)(a): P.Y: Stays 182 days or more
Or
Sec/ 6(1)(c): P.Y: Stays 60 days or more
+ 4 PPY: Stays 365 days or more

Non-Resident in India

An assessee who is not satisfying sec. 6(1) shall be treated as a non-resident in India for the relevant previous year.

Illustration 3

Sam came to India first time during the P.Y. 2024-25. During the previous year, he stayed in India for (i) 50 days; (ii) 183 days; & (iii) 153 days. Determine his residential status for the A.Y. 2025-26.

Solution:

- (i) Since Sam resides in India only for 50 days during the P.Y. 2024-25, he does not satisfy any of the conditions specified in sec. 6(1). He is, therefore, a non-resident in India for the P.Y. 2023-24.
- (ii) Since Sam resides in India for 183 days during the previous year 2024-25, he satisfies one of the conditions specified in sec. 6(1). He is, therefore, a resident in India for the P.Y. 2024-25.
- (iii) Sam resides in India only for 153 days during the previous year 2024-25. Though he resided for more than 60 days during the previous year but in 4 years immediately preceding the previous year (as he came to India for the first time), he did not reside in India. Hence, he does not satisfy any of the conditions specified in sec. 6(1). Thus, he is a non-resident for the P.Y. 2024-25.

Illustration 4

Andy, a British national, comes to India for the first time during 2020-21. During the financial years 2020-21, 2021-22, 2022-23, 2023-24 and 2024-25, he was in India for 55 days, 60 days, 80 days, 160 days and 70 days respectively. Determine his residential status for the assessment year 2025-26.

Solution:

During the previous year 2024-25, Andy was in India for 70 days & during 4 years immediately preceding the previous year, he was in India for 355 days as shown below:

Year	2020-21	2021-22	2022-23	2023-24	Total
No. of days stayed in India	55	60	80	160	355

Thus, he does not satisfy Sec.6(1) & consequently, he is a non-resident in India for the P.Y. 2024-25.

Exceptions to the above rule

A. In the following cases, condition (ii) of sec. 6(1) [i.e. sec. 6(1)(c)] is irrelevant:

1. An Indian citizen, who leaves India during the previous year for employment purpose*.
2. An Indian citizen, who leaves India during the previous year as a member of the crew of an Indian ship.

Taxpoint: The above assessee shall be treated as a resident in India only if he resides in India for 182 days or more in the relevant previous year.

B. In case of an Indian citizen or a person of Indian origin# comes on a visit to India during the previous year, modified condition (ii) of sec. 6(1) is applicable:

Case	Modified condition (ii) of sec. 6(1)
His total income, other than the income from foreign sources!, exceeds ₹ 15 lakhs during the previous year	He is in India for a period of 120 days or more (but less than 182 days) during the previous year and for 365 or more days during 4 previous years immediately preceding the relevant previous year
His total income, other than the income from foreign sources, does not exceed ₹15 lakhs during the previous year	He is in India for a period of 182 days or more during the previous year. In short , sec. 6(1)(c) is not applicable.

* The employment may be in India or may be outside India

Person of Indian origin: A person is deemed to be of Indian origin if he or either of his parents or grand parents were born in undivided India. Here, grand parents may be paternal or maternal.

! “Income from foreign sources” means income which accrues or arises outside India (except income derived from a business controlled in or a profession set up in India) and which is not deemed to accrue or arise in India.

- C. An individual shall be deemed to be resident in India, if the following conditions are satisfied
- He is a citizen of India
 - His total income, other than the income from foreign sources, exceeds ₹ 15 lakhs during the previous year;
 - He is not satisfying any of the basic conditions given u/s 6(1) [i.e., 182 days **or** 60 days + 365 days]; and
 - He is not liable to tax in any other country or territory by reason of his domicile or residence or any other criteria of similar nature. [Sec. 6(1A)]

Taxpoint:

- However, if such individual has satisfied either of the basic conditions, then he shall be treated as resident in India u/s 6(1).
- Further note that the exception is not applicable in the case of a foreign citizen even if he is a person of Indian origin.
- If these conditions are satisfied, then such individual shall be deemed as resident irrespective of number of days of his stay in India.
- Liable to tax in relation to a person and with reference to a country means that there is an income-tax liability on such person under the law of that country for the time being in force. It shall include a person who has subsequently been exempted from such liability under the law of that country.

Rule 126	
In the case of an individual, being a citizen of India and a member of the crew of a ship, the period of stay in India shall, in respect of an eligible voyage, not include the following period:	
the period beginning	the period ending
Period beginning on the date entered into the Continuous Discharge Certificate in respect of joining the ship by the said individual for the eligible voyage	Period ending on the date entered into the Continuous Discharge Certificate in respect of signing off by that individual from the ship in respect of such voyage
Explanation:	
“Eligible voyage” shall mean a voyage undertaken by a ship engaged in the carriage of passengers or freight in international traffic where-	
i. for the voyage having originated from any port in India, has as its destination any port outside India; &	
ii. for the voyage having originated from any port outside India, has as its destination any port in India.’.	
Example: In the Continuous Discharge Certificate the date of joining is recorded as 1st January 2025 and the date of ending the voyage is recorded as 31st January 2025, then the entire period of 31 days shall be excluded from his stay in India	

Illustration 5

Miss Pal, an Indian citizen, left India for first time on 1st April, 2024 for joining job in Tokyo. She came to India on 11th Jan, 2025 for only 170 days. Determine her residential status for P.Y. 2024-25.

Solution:

Number of days Miss Pal stayed in India can be calculated as under:

P.Y.	Apr	May	June	July	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Total
24-25	1	-	-	-	-	-	-	-	-	21	28	31	81
25-26	30	31	30	19	-	-	-	-	-	-	-	-	110

Since she left India for employment purpose, hence for becoming resident she has to stay in India for at least 182 days. However, she is in India for only 81 days during the previous year, thus she is a non-resident for the P.Y. 2024-25.

Points to be kept in mind

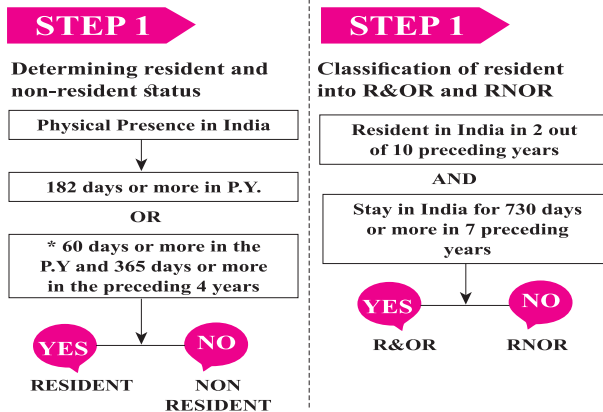

- (a) Stay at same place in India is not necessary.
- (b) Continuous stay in India is not necessary.
- (c) A person shall be deemed to reside in India, if he is on the territorial waters of India*. For instance, if an individual stays on a ship, which is in the territorial waters of India, then it shall be treated as his presence in India.

Additional conditions to test whether resident individual is ‘Ordinarily resident or not’ [Sec. 6(6)]

A resident individual in India can further be categorised as -

- (i) Resident and ordinarily resident in India
- (ii) Resident but not ordinarily resident in India

Resident and ordinarily resident

* Substituted by 182 days for (i) person leaving India for employment; (ii) person leaving India as a crew of an Indian ship; (iii) a citizen of India of PIO who comes to India on a visit during the P.Y.

Resident but not ordinarily resident

If a resident individual does not satisfy both additional conditions as given u/s 6(6), he is “Resident but not ordinarily resident in India”.

Exceptions

- A. An individual shall be **deemed to be resident but not ordinarily resident** in India, if following conditions are satisfied:

If a resident individual satisfies the following two additional conditions, he will be treated as resident & ordinarily resident in India -

- (a) He has been resident in India [as per sec. 6(1)] in at least 2 out of 10 previous years immediately preceding the relevant previous year; and
- (b) He has resided in India for a period of 730 days or more during 7 previous years immediately preceding the relevant previous year.

Taxpoint: To be a Resident & Ordinarily resident in India, one has to satisfy at least one condition of sec. 6(1) & both the additional conditions of sec. 6(6).

* Territorial water extends to 12 nautical miles (1 nautical miles = 1.1515 miles = 1.853 km) into the sea from the base line on the coast of India and include any bay, gulf, harbour, creek or tidal river

- (a) He is a citizen of India
 - (b) His total income, other than the income from foreign sources, exceeds ₹ 15 lakhs during the previous year; and
 - (c) He is not liable to tax in any other country or territory by reason of his domicile or residence or any other criteria of similar nature.
 - (d) He is deemed to be resident in India u/s 6(1A).
- B. An individual shall be **deemed to be resident but not ordinarily resident** in India, if following conditions are satisfied:
- (a) He is an Indian citizen or a person of Indian origin.
 - (b) He comes on a visit to India during the previous year
 - (c) His total income, other than the income from foreign sources, **exceeds ₹15 lakhs** during the previous year
 - (d) He is in India for a period of **120 days** or more (but less than 182 days) during the previous year and for 365 or more days during 4 previous years immediately preceding the relevant previous year.

Taxpoint: If aforesaid conditions are satisfied, then such individual shall be deemed to be resident but not ordinarily resident even though he has satisfied both conditions specified u/s 6(6).

2. His total income does not exceed ₹ 15,00,000.
3. All conditions of sec. 6(1A) are satisfied.
4. He is liable to pay tax in other country.
5. His stay in India exceeds 120 days (but does not exceed 182 days)
6. He has satisfied one condition of sec. 6(1) [i.e. 182 days criteria] and dual conditions of sec. 6(6)
7. He is not satisfying any of the condition provided in sec. 6(1)
8. He has satisfied one condition of sec. 6(1) [i.e. 182 days criteria] and dual conditions of sec. 6(6)

Illustration 6

Mr. X, aged 19 years, left India for first time on May 31, 2024. Determine his residential status for the previous year 2024-25 if:

- (i) He left India for employment purpose
- (ii) He left India on the world tour.

Solution:

During the previous year 2024-25, Mr. X was in India for 61 days as shown below –

P.Y.	Apr	May	June	July	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Total
24-25	30	31	-	-	-	-	-	-	-	-	-	-	61

During the previous year 2024-25, X stayed in India for 61 days. Further, he was in India for more than 365 days during 4 years immediately preceding the relevant previous year (as he left India for the first time).

- (i) Since he left India for employment purpose, condition of sec. 6(1)(c) shall not be applicable on such assessee. He will be treated as resident in India, if and only if, he resided in India for at least 182 days during the previous year. Hence, Mr. X is a non-resident in India for the previous year 2024-25.
- (ii) Since he left India on the world tour, which is not an exception of sec. 6(1), satisfaction of any one condition of sec. 6(1) makes him resident in India for the previous year 2024-25. As he satisfies 2nd condition of sec. 6(1) [shown above], he is resident in India. Further, he also satisfies dual conditions specified u/s 6(6) (since he left India for the first time). Therefore, he is an ordinarily resident for the previous year 2024-25.

Illustration 7

X came to India for first time on July 24, 2020. From July 24, 2020 to December 25, 2021 he was in India. Again, he came to India on August 5, 2024 for employment purpose & left India on November 25, 2024 permanently. Determine his residential status for the previous year 2024-25 assuming -

- (a) He is a foreign citizen
- (b) He is an Indian citizen

Solution:

During the previous year 2024-25, X was in India for 113 days as shown below:

Year	Apr	May	June	July	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Total
24-25	-	-	-	-	27	30	31	25	-	-	-	-	113

Further, he was in India for more than 365 days during 4 years immediately preceding the previous year as shown below:

Year	Apr	May	June	July	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Total
20-21	-	-	-	8	31	30	31	30	31	31	28	31	251
21-22	30	31	30	31	31	30	31	30	25	-	-	-	269
22-23	-	-	-	-	-	-	-	-	-	-	-	-	-
23-24	-	-	-	-	-	-	-	-	-	-	-	-	-

As he satisfies condition given in sec. 6(1)(c), he is a resident in India.

Further, he was resident during 2 out of 10 years immediately preceding the relevant previous year but he was in India only for 520 days in 7 years immediately preceding the relevant previous year. As he is not satisfying dual conditions of sec. 6(6), he is a resident but not ordinarily resident in India for the previous year 2024-25.

Note: His status shall remain same in both the cases as -

- (a) Foreign citizens are not covered by ‘exceptions to sec. 6(1)(c)’.
- (b) Coming in India for employment purpose is not covered by ‘exceptions to sec. 6(1)(c)’.

Illustration 8

X, a foreign citizen, resides in India during the previous year 2024-25 for 83 days. Determine his residential status for the previous year 2024-25 assuming his stay in India during the last few previous years are as follows -

Year	Days	Year	Days	Year	Days	Year	Days
2009-10	220 days	2013-14	36 days	2017-18	137 days	2021-22	175 days
2010-11	15 days	2014-15	115 days	2018-19	265 days	2022-23	15 days
2011-12	257 days	2015-16	123 days	2019-20	310 days	2023-24	67 days
2012-13	110 days	2016-17	65 days	2020-21	121 days		

Solution:

During the previous year 2024-25, X was in India for 83 days & during 4 years immediately preceding the previous year, he was in India for 378 days as shown below:

Year	2020-21	2021-22	2022-23	2023-24	Total
No. of days stayed in India	121	175	15	67	378

Thus, he satisfies one of the conditions specified u/s 6(1) & consequently, he becomes resident in India in the P.Y. 2024-25. Further, to determine whether X is an ordinarily resident or not, he needs to satisfy both conditions laid down u/s 6(6).

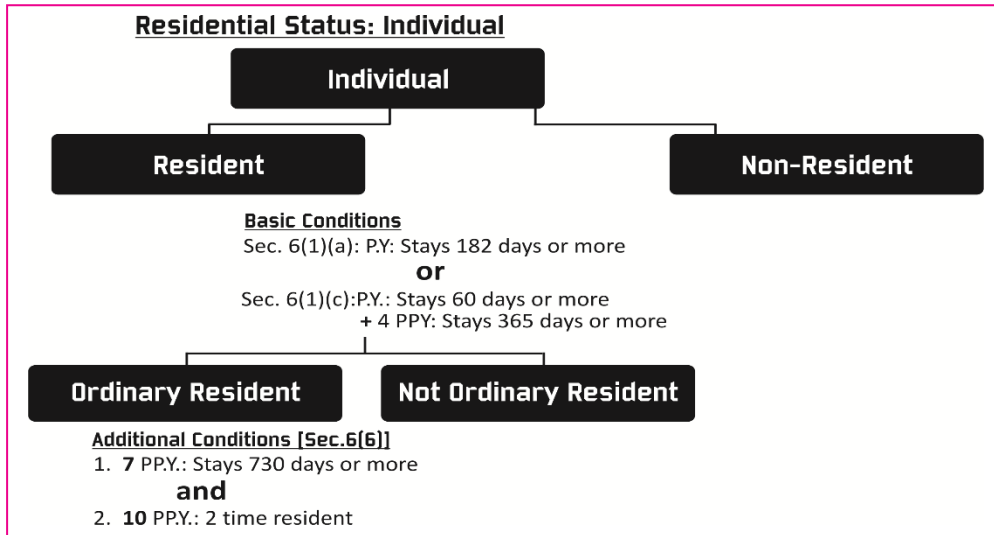

Year	Presence in India (In Days)	Resident or Non resident	Condition satisfied to become a resident
2023-2024	67	Resident	6(1)(c)
2022-2023	15	Non Resident	None
2021-2022	175	Resident	6(1)(c)
2020-2021	121	Resident	6(1)(c)
2019-2020	310	Resident	Both
2018-2019	265	Resident	Both
2017-2018	137	Non Resident	None
2016-2017	65	Resident	6(1)(c)
2015-2016	123	Resident	6(1)(c)
2014-2015	115	Resident	6(1)(c)

Condition (i) of sec. 6(6) requires that an individual should be resident in India for at least 2 out of 10 years preceding the relevant previous year. X was resident in India for 8 out of 10 years immediately preceding the previous year. Thus, he satisfies this condition.

Condition (ii) of sec. 6(6) requires that an individual should be present in India for at least 730 days during 7 years preceding to relevant previous year. X was in India for 1090 days during 2017-18 to 2023-24. Hence, he satisfies this condition also.

X satisfies condition (ii) of sec. 6(1) as well as both the conditions of sec. 6(6). Thus, he is a resident and ordinarily resident in India for the previous year 2024-25.

Residential Status, at a glance

Subject to certain exceptions

Hindu Undivided Family (HUF) [Sec. 6(2)]

An HUF can be either a resident or non-resident in India. Again, a resident HUF can further be classified as 'Ordinarily resident' and 'Not ordinarily resident'.

Resident HUF: When the control & management¹ of affairs of HUF is wholly or partly situated in India during the relevant previous year, then it is treated as resident in India.

¹ Control & management means -

- ⊙ controlling & directive power;
- ⊙ actual control & management (mere right to control & manage is not enough);
- ⊙ central control & management and not the carrying out of day to day affairs.

The place of central control & management is situated where the head, the seat & the directing power is situated.

Non-resident HUF: An HUF is non-resident in India if the control & management¹ of its affairs is *wholly* situated outside India.

Ordinarily resident in India: If the '*karta*' or manager of a resident HUF satisfies both additional conditions given u/s 6(6), HUF is said to be an ordinarily resident. If the '*karta*' or manager of a resident HUF do not satisfies both additional conditions given u/s 6(6), HUF is said to be a not-ordinarily resident.

Taxpoint: Residential status of the karta for the previous year is not important but his status for preceding 10 years is important.

Company [Sec. 6(3)]

Resident Company: An Indian company is always a resident in India.

A non-Indian company is said to be a resident in India, if its place of effective management, in that year, is in India.

“Place of effective management” means a place where key management and commercial decisions that are necessary for the conduct of the business of an entity as a whole, are in substance made.’

Non-Resident Company: If place of effective management, in that year, is not in India, the said company is non-resident in India for the relevant previous year.

Taxpoint: In case of company, there is no sub-division like ‘Ordinarily resident’ or ‘Not ordinarily resident’.

Firm or an Association of Persons (AOP) or Body of Individuals (BOI) [Sec. 6(4)]

Resident: A firm or an AOP or BOI is said to be a resident in India, if control & management of its affairs are wholly or partly situated in India during the relevant previous year.

Control & management is vested in hands of partners in case of firm and principal officer in case of an AOP/BOI.

Non-resident: If control & management of its affairs are situated wholly outside India, then it is a non-resident in India.

Taxpoint: In case of firm or BOI or AOP, there is no subdivision like ‘Ordinarily resident’ or ‘Not ordinarily resident’.

Any other person

Resident: Any other assessee will be treated as resident in India if the control & management of its affairs is situated wholly or partly in India.

Non-Resident: If control & management of affairs of the assessee, are situated wholly outside India, it is a non-resident in India.

- ◉ **Explanation 1:** Income accruing or arising outside India shall not be deemed to be received in India within the meaning of sec. 5 by reason only of the fact that it is taken into account in a balance sheet prepared in India.
- ◉ **Explanation 2:** Income which has been included in the total income of a person on the basis that it has accrued or arisen or is deemed to have accrued or arisen to him shall not again be so included on the basis that it is received or deemed to be received by him in India.

1.2.4 Income received in India

Income received in India is taxable in all cases (whether accrued in India or elsewhere) irrespective of residential status of the assessee, therefore it is significant to know the meaning of income received in India. If the place, where the recipient gets the money (on first occasion) under his control, is in India, it is said to be income received in India.

Taxpoint: Receipt is different from remittance. The receipt of income refers to the first occasion when the recipient gets the money under his control. Once the amount is received as income (at any place outside India), any subsequent remittance or transmission of the amount to India does not result to receipt in India

Example 5: Mr. X, a non-resident, received dividend from an Italian company in Japan on 15/12/2024. On 17/12/2024, he remitted such income in India. Such income shall not be taxable in India as income has neither received in India nor accrued in India.

Salary accrued to a non-resident seafarer for services rendered outside India on a foreign going ship (with Indian flag or foreign flag) shall not be included in the total income merely because the said salary has been credited in the NRE account maintained with an Indian bank by the seafarer.

Illustration A

Miss Monica, a foreign national, comes India every year for 90 days since 2008-09.

- Determine her residential status for the previous year 2024-25.
- Will your answer differ, if she comes India for 100 days instead of 90 days every year.

Solution

- Since Miss Monica stayed for 90 days during the previous year 2024-25 and for 360 days (90 days x 4 years) during the 4 years immediately preceding the previous year, hence, she is not satisfying any of the conditions of sec. 6(1). Thus, she is a non-resident for the previous year 2024-25.
- Since Miss Monica stayed for 100 days during the previous year 2024-25 and for 400 days (100 days x 4 years) during the 4 years immediately preceding the previous year, hence, she is satisfying sec. 6(1)(c). Thus, she is resident for the previous year 2024-25. Further, she resided for only 700 days (100 days x 7 years) during the 7 years immediately preceding the previous year. Hence, she does not satisfy one of the conditions of sec. 6(6). Thus, she is resident but not ordinarily resident for the previous year 2024-25.

Mr. Sid, a British national, joined XYZ Co. Ltd. as an engineer in India on 1st May, 2014. On 31st December, 2015, he went to Sri Lanka on deputation. On 1st April, 2020, he came back to India and left for Sri Lanka again on 31st May, 2020. He returned to India and joined his original post on 1st July, 2024. Determine his residential status for the A.Y. 2025-26.

* Refer chapter "Income from Other Sources". Further, the deeming provision is applicable only in case of money and not applicable in case of movable or immovable properties.

** Subject to DTAA and exceptions provided in sec. 56(2)(x)

Solution

Number of days Mr. Sid stayed in India in past few years can be calculated as under:

SN	P.Y.	Apr	May	June	July	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Total
0	24-25	-	-	-	31	31	30	31	30	31	31	28	31	274
1	23-24	-	-	-	-	-	-	-	-	-	-	-	-	0
2	22-23	-	-	-	-	-	-	-	-	-	-	-	-	0
3	21-22	-	-	-	-	-	-	-	-	-	-	-	-	0
4	20-21	30	31	-	-	-	-	-	-	-	-	-	-	61
5	19-20	-	-	-	-	-	-	-	-	-	-	-	-	0
6	18-19	-	-	-	-	-	-	-	-	-	-	-	-	0
7	17-18	-	-	-	-	-	-	-	-	-	-	-	-	0
8	16-17	-	-	-	-	-	-	-	-	-	-	-	-	0
9	15-16	30	31	30	31	31	30	31	30	31	-	-	-	275
10	14-15	-	31	30	31	31	30	31	30	31	31	28	31	335

On the basis of data drawn, residential status of Mr. Sid in last few years can be decided as under:

Year	Previous Year	Presence in India (In days)	Resident (R) or Non resident (NR)	Condition satisfied to become a resident
1	2023-2024	0	NR	None
2	2022-2023	0	NR	None
3	2021-2022	0	NR	None
4	2020-2021	61	NR	None
5	2019-2020	0	NR	None
6	2018-2019	0	NR	None
7	2017-2018	0 = 61	NR	None
8	2016-2017	0	NR	None
9	2015-2016	275	R	6(1)(a)
10	2014-2015	335	R	6(1)(a)

Since assessee resided in India for 274 days in the previous year 2024-25, hence he satisfies sec. 6(1)(a). Therefore, he is resident in India.

Further, since he is resident in India for 2 years out of 10 years preceding the previous year (as shown in the above working), but resided in India for less than 730 days out of 7 immediately preceding years, hence he does not satisfy one of the conditions of sec. 6(6), therefore, he is resident but not ordinarily resident.

Conclusion: Resident but not ordinarily resident.

Agricultural Income

1.3

Agriculture income is exempt under the Indian Income Tax Act. The reason for exemption of agriculture income from Central Taxation is that the Constitution gives exclusive power to make laws with respect to taxes on agricultural income to the State Legislature.

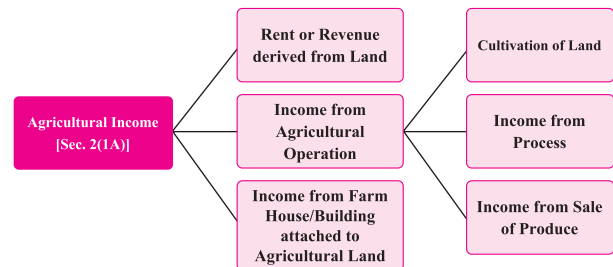

1.3.1 Meaning

By virtue of sec. 2(1A), agricultural income means -

1. **Rent or Revenue:** Any rent or revenue derived from a land, which is situated in India & is used for agricultural purposes\$;

Taxpoint:

- Rent may be in cash or in kind.
- Assessee may be the owner or tenant of such land.

2. **Cultivation of Land:** Any income derived from such land by agriculture^{\$}
3. **Income from Process:** Any income derived from such land by the performance by –
 - (a) a cultivator;
 - (b) receiver of rent in kind;- of any process ordinarily employed by a them to render the produce raised or received by him fit to be taken to market.
4. **Income from Sale of Produce:** Any income derived from such land by the sale by
 - (a) a cultivator of the produce raised by him; or
 - (b) receiver of rent-in-kind of the produce received by him;- in respect of which no process has been performed other than a process required to render it fit for the market.

Taxpoint: The process must be employed only to convert ‘the produce or rent in kind’ in marketable form. If marketing process is performed on the ‘produce or rent in kind’, which can be sold in its raw form in market, then income derived from such product is partly agricultural & partly non-agricultural income. (Detail discussion is given later in this chapter)
5. **Income from Let Out of Agricultural House Property:** Any income derived from a building subject to fulfillment of the following conditions -
 - (a) The building should be occupied by the cultivator or receiver of rent in kind.
 - (b) The building should be on or in the immediate vicinity of the land, being situated in India and used for agricultural purposes.

- (c) The building should be used as dwelling house or store-house or other out building.
- (d) The land is either situated in –
 - (i) Rural area; or
 - (ii) Urban area* and assessed to land revenue / local rates.

Taxpoint:

- Where such land or building is used for non-agricultural purpose then any income derived from such land or building shall not be treated as agricultural income.
- Income derived from land being let out for storing crop shall not be agricultural income.
- Building should be owned and occupied by the land-holder if he receives rent or revenue from the land. On the other hand, in case of cultivator or receiver of rent in kind, it is enough that the building is occupied by him.

💡

(a) **Profit on transfer of agricultural land:** Profit on transfer of agricultural land shall not be treated as agricultural income.

(b) **Nexus between agro-activity and agro-income:** There must be a close nexus between agro-activity and agro-income. Income by way of sale of commodity, being different from what is raised and processed, is not agricultural income. E.g. Assessee growing mulberry leaves to feed silkworms and to obtain silk-cocoons, income on sale of such silk-cocoons shall not be treated as agricultural income.

§Agriculture or Agricultural operations or Agricultural purposes: The Act nowhere defines the term agricultural operations or agricultural purposes. However, the Supreme Court laid down guidelines for the determination of the scope of these terms in CIT -vs.- Raja Benoy Kumar Sahas Roy. Accordingly, for the purpose, agricultural activity is divided into two parts:

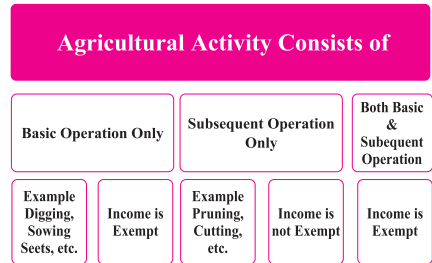

(a) **Basic Operation:** It means application of human skill & labour upon the land, prior to germination.

E.g. Tilling of land, sowing of seeds, planting, irrigation, etc.

Taxpoint: Any spontaneous growth from land itself (i.e. without any human effort) cannot be termed as agricultural operation.

(b) **Subsequent Operation:** It means operations -

- which fosters the growth and preserves the produce;

* Following is considered as urban area:

- a. land which is situated within the jurisdiction of any Municipality (whether known as a municipality, municipal corporation, notified area committee, town area committee, town committee, or by any other name) or Cantonment Board having population of 10,000 or more; or
- b. in any area within the distance, measured aerially,—

Population of the municipality or cantonment board	Area within the aerial distance from the local limits of such municipality or cantonment board is treated as non-rural area
More than 10,000 but not exceeding 1,00,000	Upto 2 kilometres
More than 1,00,000 but not exceeding 10,00,000	Upto 6 kilometres
More than 10,00,000	Upto 8 kilometres

Population, according to the last preceding census of which the relevant figures have been published before the first day of the previous year, shall be considered.

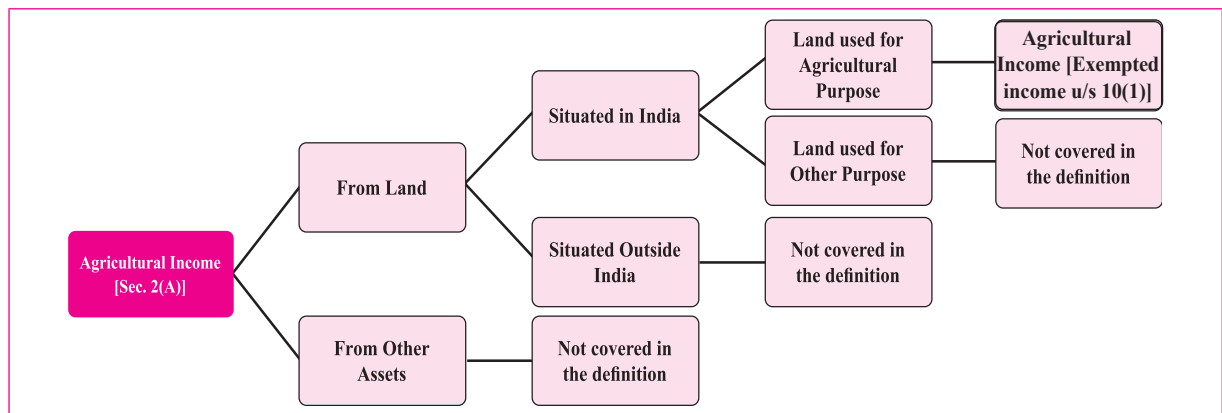

- for rendering the produce fit for sale in market; and
- which are performed after the produce sprouts from the land.

E.g. Digging the soil around the growths, removal of undesirable undergrowths, weeding, tending, pruning, cutting, harvesting, etc.

Taxpoint:

Activity	Whether treated as agricultural activity?
Mere Basic Operation	Agricultural activity
Mere Subsequent Operation	Not an agricultural activity
Subsequent operation together with basic operation	Agricultural activity

Agricultural Income, at a glance

Land must be in India

1.3.2 Instances of Agricultural (Agro) Income

1. Income from growing trade or commercial products like jute, cotton, etc. is an agro income.
2. Income from growing flowers and creepers is an agro income.
3. Plants sold in pots are an agro income provided basic operations are performed.
4. **Remuneration and interest to partner:** Any remuneration (salary, commission, etc.) received by a partner from a firm engaged in agricultural operation is an agro income.
Interest on capital received by a partner from a firm, engaged in agricultural operation is an agro income.
5. Income arising by sale of trees grown on denuded parts of the forest after replanting and by carrying on subsequent operations, is an agro income.
6. Compensation received from insurance company for damage caused by hail-storm to the green leaf of the assessee's tea garden is agricultural income. Further, no part of such compensation consists of manufacturing income, as such compensation cannot be apportioned under Rule 8 between manufacturing income and agricultural income.
7. Any fee derived from land used for grazing of cattle, being used for agricultural operation, is an agro income.
8. Any income derived from saplings or seedlings grown in a nursery shall be deemed to be agricultural income.

1.3.3 Instances of Non-agricultural (Non-agro) Income

1. Salary received by an employee from any business (having agricultural income) is non-agro income.
2. Dividend received from a company engaged in agricultural operation is non-agro income.
3. Income from salt produced by flooding the land with sea-water is non-agro income.
4. Income from fisheries, poultry farming, dairy farming, butter & cheese making, etc. is non-agro income.
5. Breeding & rearing of livestock is non-agro income.
6. Interest received by a moneylender in the form of agricultural produce is non-agro income.
7. Profit on sale of standing crops after harvest, where such crops were acquired through purchase is non-agro income.
8. Royalty income from mines is non-agro income.
9. Remuneration to a Director or Managing Director from a company engaged in agricultural business is non-agro income. The provision holds good even when such remuneration is on the basis of certain percentage of net profit.
10. Income earned by a cultivator from conversion of sugarcane (raised on own land) to jaggery is non-agro income to the extent to which income is related to such conversion only. This is because sugarcane itself is marketable.
11. Interest on arrears of rent receivable in respect of agricultural land is non-agro income.
12. Income from a land situated outside India is non-agro income
13. Annuity received by a person in consideration of transfer of agricultural land, is non-agro income.
14. Income on supply of water for agricultural operation is non-agro income. The provision holds good even when such income is received in the form of agro-produce.
15. Income from sale of trees and grasses grown spontaneously (without any human effort), is non-agro income.

1.3.4 Treatment of Partly Agricultural & Partly Non-Agricultural Income

In case assessee is engaged in an integrated activity, comprising of agricultural activity as well as non-agricultural activity, then profit of such integrated activity shall be segregated into agricultural income and non-agricultural income in the following manner –

Rule	Case	Agricultural Income	Non-Agricultural Income
8	Assessee is engaged in the business of growing and manufacturing tea in India E.g., If an assessee earns ₹ 5 lakh (as per sec. 28) from the business of growing & manufacturing tea in India, then his business income will be ₹ 2 lakh (i.e., 40% of ₹ 5 lakh) & agro income will be ₹ 3 lakh (i.e. 60% of ₹ 5 lakh)	60% of income	40% of income
7A	Assessee is engaged in the business of growing and manufacturing rubber in India	65% of income	35% of income
	Assessee is engaged in the business of growing and manufacturing Coffee in India		
7B(1)	➤ Coffee grown and cured by the seller in India	75% of income	25% of income

Rule	Case	Agricultural Income	Non-Agricultural Income
7B(1A)	➤ Coffee grown, cured, roasted and grounded by the seller in India, with or without mixing chicory or other flavouring ingredients	60% of income	40% of income
Salary and interest received by a partner from a firm growing and manufacturing tea, coffee or rubber: Such remuneration or interest shall be treated as partly agricultural income and partly business income as stated above.			

Any other case

For computing agricultural income from a business having both agricultural as well as non-agricultural income,

1. Assessee is required to prepare two Profit or Loss statements, one for agro-business & another for non agro-business
2. Agro expenses debited to Agro Profit or Loss and non agro expenses shall be debited to Non agro-business Profit or Loss
Note: Non-apportionable expenditure, related to composite business of agriculture and non-agriculture, is fully charged to non-agricultural business.
3. Market value of any agricultural produce, which is utilised as raw material in such business, is to be treated as income for agro-business and expenditure for non agro-business.

1.3.5 Impact of agricultural income on tax computation

Sec. 10(1) of the Act exempts agricultural income from tax as our Constitution does not provide power to the Parliament to levy tax on agro-income. However, since 1973 an indirect method* has been found, to levy tax on agro-income. According to this method, agricultural income is included in the total income of the assessee for deciding the tax slab of the assessee.

The way to apply higher rate of tax-slab on non-agricultural income by including agricultural income in the total income of the assessee are as under:

Conditions for including agricultural income in the total income of the assessee

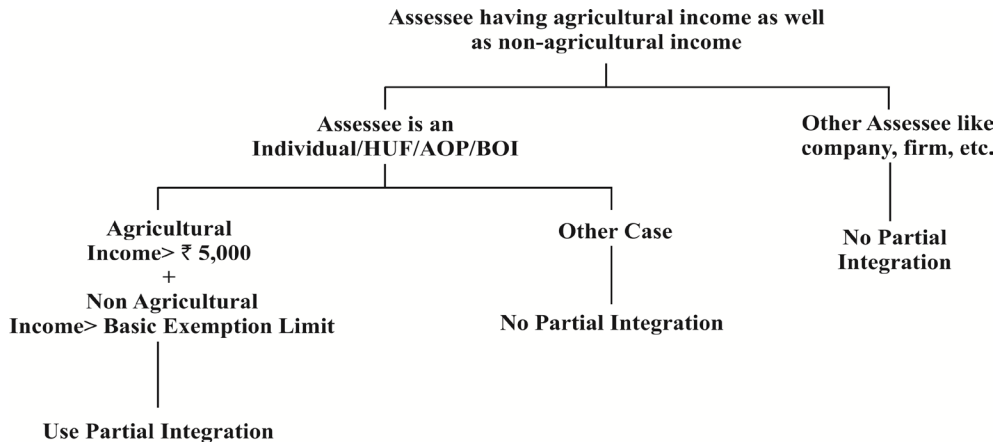

1. The assessee is an individual, a Hindu-undivided family, a body of individual, an association of person or an artificial juridical person.
2. The assessee has non-agricultural income exceeding the maximum amount of exemption (i.e. ₹ 3,00,000/- if assessee is paying tax under the default tax regime, however, if assessee is paying tax under old regime then in case of Senior citizen ₹ 3,00,000, Super Senior citizen ₹ 5,00,000 and in case of other individual/ HUF/AOP / BOI /artificial juridical person ₹ 2,50,000)
3. The agricultural income of the assessee exceeds ₹ 5,000.

“Salary is the recompense or consideration given to a person for the pains he has bestowed upon another’s business”
– Stroud’s Judicial Dictionary

2.1.1 Basic Elements of Salary

- Payer and payee must have employer and employee (or Master & Servant) relationship; and
- Payment must have been made by the employer in such capacity.

Employer-employee relationship

A payment can be construed as salary only if the payer is the employer and the payee is the employee of the payer.

- **Criteria for employer-employee relationship:** The key criteria to hold this relationship is that, employee is always bound to work as per the direction and supervision of the employer.
- **Payment in employer’s capacity:** To treat any payment as salary it is necessary that the payer, being the employer, must have made the payment in such (employer’s) capacity.
- **Contract of service vs contract for service:** In “contract of service”, the employer can direct and control the duties and the manner of performance of the employee hence employer-employee relationship exists in such contract. However, in case of “contract for service” the contractee can simply decide and quote the object or target to be achieved but cannot decide or direct the manner of performance.
- **Agent and Principal:** If a person is acting as an agent for his principal, any commission or remuneration earned by the agent is not taxable under the head “Salaries”. This is because, an agent is not the employee of his principal.
- **Salary received by a partner** from its firm shall not be taxable as salary, because there is no employer-employee relationship between the firm and the partner. Such salary shall be taxable under the head “Profits & gains of business or profession”.
- **Salary received by proprietor from his proprietorship firm** is not an income. As proprietor and proprietorship firm are the same person and *no one can earn from himself*.
- **Remuneration to director** from his company can be treated as salary only if the director is employee of the company, otherwise the same shall be taxable under the head “Income from other sources”.

Note : Directors’ sitting fee is taxable under the head “Income from other sources”.

- **Pension received by the widow** or legal heir of deceased employee is not taxable as salary as no employer-employee relationship exists between the payer and the payee. However, such amount shall be taxable under the head “Income from other sources”.
- **Remuneration received by Judges** is taxable under the head “Salaries” even though they are not having any employer.

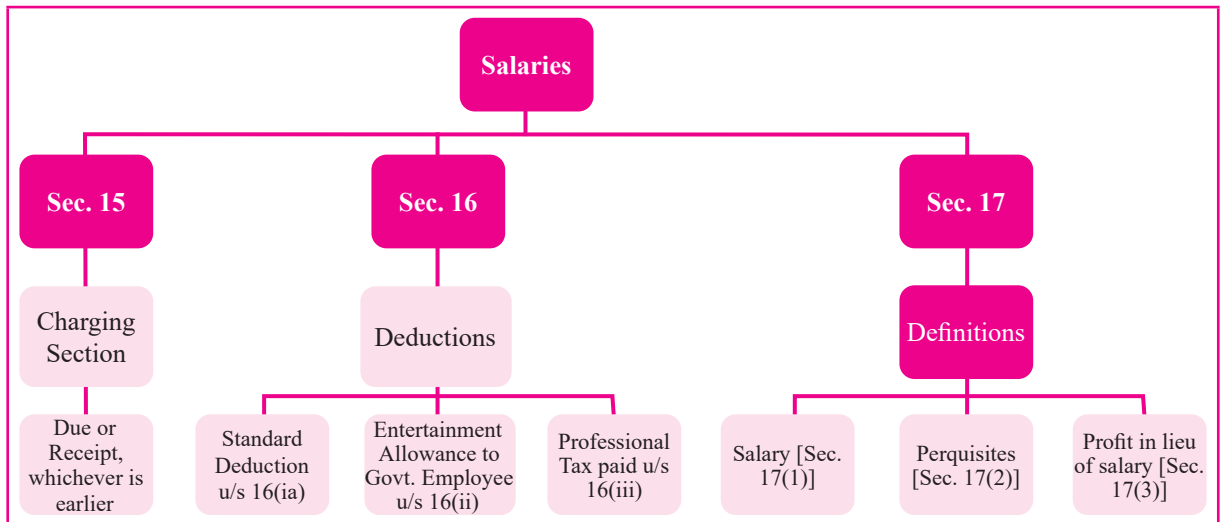

Concluding the above discussions, a payment received for services rendered, from a person other than employer, is not taxable under the head “Salaries” but may be taxed under the head “Profits & gains of business or profession” or “Income from other sources”.

Illustration 1 :

State whether the following receipts should be treated as salary or not?

- A teacher receives emoluments in kind from school in which he teaches.
Yes, it is immaterial whether salary has been received in cash or in kind.
- A teacher of a college receives fees from an University for checking answer sheets.
No, as employer – employee relationship does not exist between payer and payee. (College-teacher is not the employee of the University). Such receipt shall be taxable under the head ‘Income from other sources’.
- A payment made to the Member of the Parliament or the State legislature.
No, as employer-employee relationship does not exist.
A member of the Parliament or the State legislature is not treated as employee of the Government. Payment received by them shall be taxable under the head “Income from other sources”.

2.1.2 Section-wise Scheme

2.1.3 Definition of Salary [Sec. 17(1)]

As per sec. 17(1) of the Income-tax Act, 1961, salary includes the following :

- a) Wages;

- b) Any annuity or pension;
- c) Any gratuity;
- d) Any fees, commission, perquisite or profits in lieu of or in addition to any salary or wages;
- e) Any advance of salary;
- f) Any payment received in respect of any period of leave not availed of by the assessee;
- g) The portion of the annual accretion in any previous year to the balance at the credit of an employee, participating in recognised provident fund, to the extent it is taxable;
- h) Transferred balance in a Recognised Provident Fund to the extent it is taxable.
- i) Contribution made by the employer in the previous year, to the account of an employee under a pension scheme referred to in sec. 80CCD [National Pension Scheme and Atal Pension Yojana]
- j) Contribution made by the Central Government in the previous year, to the Agniveer Corpus Fund account of an individual enrolled in the Agnipath Scheme referred to in sec. 80CCH.

2.1.4 General Notes

- ⦿ **Salary & Wages** are identical in the Income-tax Act
- ⦿ **Voluntary Payments:** The Act does not make any difference between voluntary and contractual payment. Both are taxable as salary.
- ⦿ **Remuneration for Extra Work:** Where an employee gets extra payment from his employer (in such capacity) for work performed outside the duties of his office and thus, such payment shall be taxable as salary.
- ⦿ **Salary from more than one source:** If an individual receives salary from more than one employer during the same previous year, salary from each employer shall be accumulated and taxable under the head “Salaries”.
- ⦿ **Salary from former, present or prospective employer** is chargeable to tax under the head “Salaries”. E.g. Pension from a former employer and advance salary from prospective employer shall be taxable under the head “Salaries”.
- ⦿ **Salary paid tax-free:** If tax on salary is paid by the employer, then it is termed as ‘salary paid tax-free’. In such case, to compute the income under the head ‘Salaries’ the amount of tax paid by the employer (on behalf of employee) has to be added to the amount received by the employee. However, tax paid by the employer should be subtracted from tax liability of the employee.

Further, as per sec. 10(10CC), the income-tax paid by the employer on non-monetary perquisites on behalf of the employee would be exempt in the hands of the employee

- ⦿ **Foregoing of salary:** Once salary has been earned by an employee, its subsequent waiver does not make it exempt from tax liability. Such waiver shall be treated as application of the income.

Note: However, where an employee opts to surrender his salary to the Central Government u/s 2 of Voluntary Surrender of Salaries (Exemption from Taxation) Act, 1961, the salary so surrendered shall not be taxable.

2.1.5 Basis of Charge [Sec. 15]

Salary is chargeable to tax either on ‘due’ basis or on ‘receipt’ basis, whichever is earlier. Hence, taxable salary includes:

- a) **Advance salary** (on ‘receipt’ basis): Salary paid in advance is taxable under the head ‘Salaries’ in the year of receipt.

Note: Such advance salary shall not be included again in the total income when the salary becomes due.

- b) **Outstanding salary** (on 'due' basis): Salary falling due is taxable under the head 'Salaries' in the year in which it falls due.

Note: Such due salary shall not be included again in the total income when it is received.

- c) **Arrear salary:** Any increment in salary with retrospective effect which have not been taxed in the past, such arrears will be taxed in the year in which it is allowed. Arrear salary are taxable on receipt basis

Provision Illustrated:

Mr. X joined A Ltd. for a salary of ₹ 25,000 p.m. on 1/4/2022. In the year 2023-24, his increment decision was pending. On 1/12/2024, his increment was finalized as for 2023-24: ₹ 5,000 p.m. and for 2024-25 ₹ 7,500 p.m. Such arrear salary received on 5/12/2024. Find Gross taxable salary. Further, salary of April 2025 has also been received in advance on 15/03/2025.

Solution :

Gross taxable salary for the previous year 2024-25 shall be calculated as under :

Particulars	Workings	Amount
Salary for 2024-25	$(25,000 + 5,000 + 7,500) \times 12$	4,50,000
Arrear salary for 2023-24	$(5,000) \times 12$	60,000
Advance salary for April 2025	$(25,000 + 5,000 + 7,500)$	37,500
Gross total salary		5,47,500

Taxpoint : Method of accounting followed by the employee is irrelevant.

Salary due vs Salary accrued

Salary due is different from salary accrued.

Example: Mr. X joined an organisation for ₹ 40,000 p.m. on 1st Dec. 2024, in which salary falls due on 1st day of every next month. In such case taxable salary for the previous year 2024-25 shall be ₹ 30,000 calculated as under:

Month	Amount of Salary	Due date of salary	Taxable in the P.Y.
December 2024	40,000	1/1/2025	2024-25
January 2025	40,000	1/2/2025	2024-25
February 2025	40,000	1/3/2025	2024-25
March 2025	40,000	1/4/2025	2025-26

Advance salary vs Advance against salary

'Advance salary' is taxable u/s 17(1)(e) whereas 'Advance against salary' is treated as loan hence, not taxable under the head "Salaries".

Place of accrual of salary

Salary which is received in India or earned in India shall be taxable in hands of all assessee whether resident or non resident in India. Salary is deemed to be earned in India provided -

- (a) The service is rendered in India;
- (b) The rest period or leave period, which is preceded and succeeded by the service rendered in India and forms part of the service contract of employment.

Exceptions: Salary paid to a Government employee, being a citizen of India, is deemed to accrue in India, irrespective of place of work [Sec. 9(1)(iii)].

Taxpoint: Salary is earned at the place where service is rendered.

Employee	Employer	Place of service	Salary received	Taxable
Any	Any	India	Any where	Yes
Any	Any	Any where	In India	Yes
Ordinarily resident in India	Any	Any where	Any where	Yes
Indian citizen	Government	Outside India	Any where	Yes

- Pay-Scale (Grade system):** It is a system of payment where increment scale is pre-known to employee. E.g. Basic salary is given as 5,000 – 1,000 – 8,000 – 2,000 – 12,000. The above data indicates the increment schedule. As per this schedule initial payment is ₹ 5,000 p.m. which will be increased by ₹ 1,000 every year until salary reaches to ₹ 8,000 p.m. Once salary reaches to ₹ 8,000 then increment will be ₹ 2,000 every year till salary reaches the scale of ₹ 12,000. Accordingly, basic salary is calculated.
- Dearness Allowance (DA) or Dearness Pay (DP):** It is an extra amount given to an employee to meet the burden of inflation or increased cost of living. This is fully taxable.

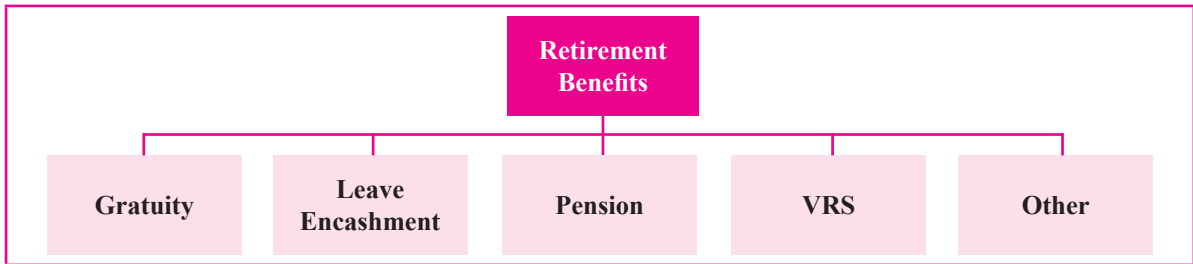

Note : Sometimes, it is given that DA/DP is not forming a part of retirement benefit (Leave encashment, Pension, Provident Fund, etc.). In such case, DA/DP itself shall be fully taxable. However, for calculating taxable Leave encashment, Pension, HRA, etc., DA/DP will be included in 'salary' only if it forms a part of the retirement benefit.

- Fees :** An employee may be given apart from basic salary, extra remuneration for doing specific job under the terms of employment. Such extra remuneration is termed as fee and shall be fully taxable.

- ◉ **Commission** : It may be as a percentage of turnover or as a percentage of profit. In either case, it is taxable.
- ◉ **Bonus**: Bonus may be contractual or voluntary. In either case, it is fully taxable.
 - (i) Contractual bonus is taxable as bonus whereas voluntary bonus is taxable as perquisite.
 - (ii) It is taxable in the year of receipt.
 - (iii) If arrear bonus is received, assessee can claim relief u/s 89(1).

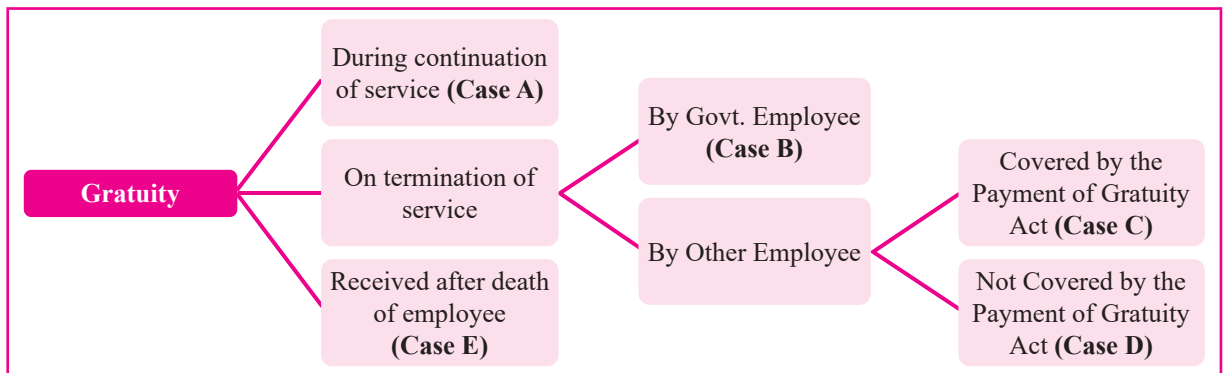

Retirement Benefits

2.1.6 Gratuity

Gratuity is a retirement benefit given by the employer to the employee in consideration of past services. Sec. 10(10) deals with the exemptions from gratuity income. Such exemption can be claimed by a salaried assessee. Gratuity received by an assessee other than employee shall not be eligible for exemption u/s 10(10). E.g. Gratuity received by an agent of LIC of India is not eligible for exemption u/s 10(10) as agents are not employees of LIC of India.

Treatment :

Case A: Gratuity received during continuation of service

Gratuity received during continuation of service is fully taxable in the hands of all employees (whether Government or non-Government employee).

Case B: Gratuity received at the time of termination of service by Government employee

Gratuity received at the time of termination of service by Government employee is fully exempt from tax u/s 10(10)(i).

Taxpoint: Government employee, here, includes employee of the Central or the State Government or local authority but does not include employee of statutory corporation.

Case C: Gratuity received at the time of termination of service by non-government (including foreign government) employee, covered by the Payment of Gratuity Act

In such case, minimum of the following shall be exempted from tax u/s 10(10)(ii):

1. Actual Gratuity received;
2. ₹ 20,00,000; or
3. 15 working days salary for every completed year of service

[Arithmetically, $\frac{15}{26} \times \text{Completed year of service} \times \text{Salary p.m.}$]

Notes:

- a) Completed year of service includes any fraction in excess of 6 months. (e.g. 7 years 9 months will be treated as 8 years; 7 years 5 months will be treated as 7 years and 7 years 6 months will be treated as 7 years).
- b) Salary here means Basic + DA, last drawn

In case of an employee of a **seasonal establishment**: 15 days shall be replaced by 7 days. (i.e., $\frac{7}{26} \times \text{Completed year of service} \times \text{Salary p.m.}$)

In case of a **piece-rated employee**: 15 days salary would be computed on the basis of average of total wages (excluding wages paid for over time) received for a period of 3 months immediately preceding the termination of his employment.

1. Actual Gratuity received;
2. ₹ 20,00,000; and
3. $\frac{1}{2} \times \text{Completed year of service} \times \text{Average Salary p.m.}$

Notes:

- a) While calculating completed year of service *ignore* any fraction of the year. (e.g. 7 years 9 months will be treated as 7 years only)
- b) Average Salary here means, Basic + DA[#] + Commission (being a fixed percentage on turnover) being last 10 months average salary, immediately preceding the month of retirement. (E.g. If an employee retires on 18/11/2024 then 10 months average salary shall be a period starting from Jan' 2024 and ending on Oct' 2024).
- [#] If DA is not forming a part of retirement benefit then the same shall not be included in salary for above purpose. However, DA itself shall be fully taxable.

Taxable Gratuity		5,85,000		6,51,600

Workings for case (b):

- Completed year of service is 30 years.
- Salary here means (Basic + Dearness Allowance) last drawn. i.e. (₹ 60,000 + ₹ 10,200) = ₹ 70,200

Workings for case (c):

- Completed year of service is 29 years.
- Salary here means Basic + Dearness Allowance + Commission on turnover, being last 10 months average just preceding the month of retirement, as shown below:

Particulars	1	2	3	4	5	6	7	8	9	10	Total
	Feb'24	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	
Basic	55,000	55,000	60,000	60,000	60,000	60,000	60,000	60,000	60,000	60,000	5,90,000

Total											7,92,000
Average salary = ₹ 7,92,000 / 10 months											79,200

Note :

- Gratuity may be paid in the case of retirement, resignation, termination or death.
- While claiming the statutory amount (i.e. ₹ 20,00,000) any amount earlier claimed as deduction u/s 10(10) shall be reduced from ₹ 20,00,000.

Example: An assessee left a job in the year 2001-02 and claimed a deduction of ₹ 40,000 for gratuity in that year. He joined another organisation, left the same in the year 2024-25, and received a gratuity of ₹ 19,80,000. While calculating exemption for gratuity for the assessment year 2025-26, statutory amount of ₹ 20,00,000 shall be reduced by earlier deduction claimed i.e. ₹ 40,000. Hence, statutory deduction limit for the assessee in the A.Y. 2025-26 will be ₹ 19,60,000 only.

- Where gratuity is received from more than one employer:** Where gratuity is received from more than one employer in the same previous year, the aggregate amount exempt from tax shall not exceed statutory deduction.

Case E : Gratuity received after death of employee

The Act is silent on treatment of gratuity received after death of employee. However, on following grounds, it can be concluded that gratuity received by a legal heir shall not be taxable in the hands of the recipient -

- ⊙ A lump sum payment made gratuitously to widow or legal heir of employee, who dies while in service, by way of compensation or otherwise is not taxable under the head "Salaries". [Circular No.573, Dated 21.08.1990]
- ⊙ Unutilised deposit under the capital gains deposit account scheme shall not be taxable in the hands of legal heir. [Circular No.743 dated 6/5/1996]
- ⊙ Legal representative is not liable for payment of tax on income that has not accrued to the deceased till his death.
- ⊙ Leave salary paid to the legal heir of deceased employee is not taxable as salary. [Circulars Letter No. F.35/1/65-IT(B), dated 5/11/1965]. Further, leave salary by a legal heir of the Government employee who died in harness is not taxable in the hands of the recipient [Circulars No.309, dated 3/7/1981].

Taxpoint: If gratuity becomes due before the death of the assessee (no matter when and by whom received), it shall be taxable in the hands of employee. Whereas if gratuity becomes due after the death of assessee, it shall not be taxable (even in the hands of legal heir of the assessee).

Illustration 4 :

Mrs. X is working with ABC Ltd. since last 20 years 9 months. Her salary structure is as under:

Basic ₹ 35,000 p.m. Dearness allowance ₹ 13,000 p.m.

On 15/12/2024, she died. State the treatment of gratuity in following cases:

Case 1: Mrs. X retired on 10/12/2024 & gratuity ₹ 8,00,000 received by her husband (legal heir) as on 18/12/2024.

Case 2: Husband of Mrs. X received gratuity on 18/12/2024 falling due after death of Mrs. X.

Mrs. X is covered by the Payment of Gratuity Act.

Solution :

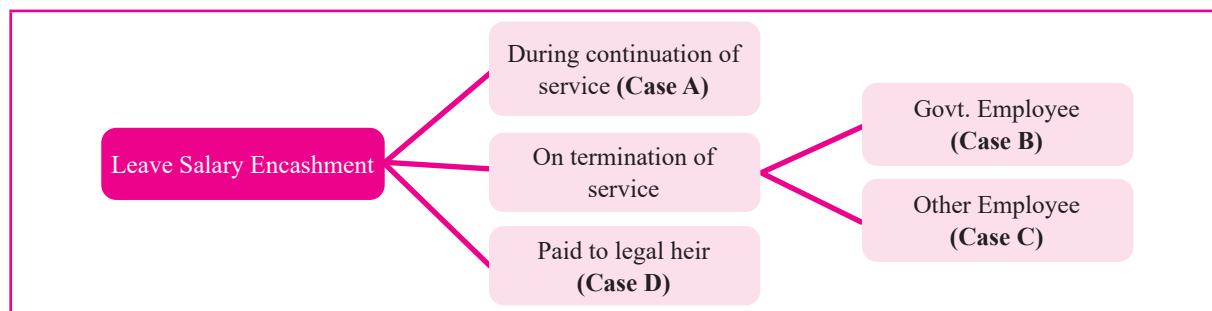

In **Case 1**, Computation of taxable gratuity in hands of Mrs. X for the A.Y. 2025-26

Particulars	Details	Amount
Total Gratuity received		8,00,000
Less : Minimum of the following is exempted as per Sec 10(10)(ii):		
a) Actual gratuity received	8,00,000	
b) Statutory Amount	20,00,000	
c) $\frac{15}{26} \times$ completed year of service x salary p.m. [$\frac{15}{26} \times 21 \times ₹ 48,000$]	5,81,538	5,81,538
Taxable Gratuity		2,18,462

In **Case 2**, Since gratuity falls due after the death of Mrs. X hence the same is not taxable in hands of Mrs. X. The said gratuity is not taxable even in hands of husband of Mrs. X.

2.1.7 Leave Salary Encashment

As per service contract and discipline, normally, every employee is allowed certain period of leave (with pay) every year. Such leave may be availed during the year or accumulated by the employee. The accumulated leave lying to the credit of an employee may be availed subsequently or encashed. When an employee receives an amount for waiving leave lying to his credit, such amount is known as leave salary encashment.

Treatment :**Case A : Leave salary received during continuation of service**

Leave salary during continuation of service is fully taxable in the case of the Government employee as well as other employees [Sec. 17(1)(va)].

Case B: Leave salary received by Government employee on termination of service

At the time of termination of service, leave salary received by the Central or State Government employee is fully exempted u/s 10(10AA)(i).

Taxpoint: Government employee here does not include employee of local authority or public sector undertaking or foreign Government employee.

Case C: Leave salary received by non-Government employee on termination of service

At the time of termination of service, leave salary received by a non-Government employee (including employee of foreign Government, local authority, public sector undertaking) is exempted to the minimum of the following u/s 10(10AA)(ii):

- a) Actual amount received as leave salary
- b) ₹ 25,00,000/-
- c) $10 \times$ Average salary p.m.
- d) To the maximum of 30 days (normally taken as 1 month) average salary¹ for every completed year of service², subject to deduction for actual leave availed during the tenure of service.

Academically: $\{(1 \times \text{completed year of service}) - \text{leave actually taken in terms of month}\} \times \text{average salary p.m.}$

^{1.} Average salary means Basic + DA# + Commission (as a fixed percentage on turnover) being last 10 months average salary ending on the date of retirement or superannuation. (e.g. if an employee retires on 18/11/2024 then 10 months average salary shall be a period starting from 19th Jan' 2024 and ending on 18th Nov' 2024).

If DA is not forming a part of retirement benefit then the same shall not be included in salary for the above purpose. However, DA itself shall be fully taxable.

^{2.} While calculating completed year of service, ignore any fraction of the year. E.g. 10 years 9 months shall be taken as 10 years.

Notes :

- a. **Leave encashment received from more than one employer:** Where leave encashment is received from more than one employer in the same previous year, the aggregate amount exempt from tax shall not exceed the statutory deduction i.e. ₹ 25,00,000.
- b. **Earlier deduction claimed for leave encashment:** While claiming the statutory amount (i.e. ₹ 25,00,000) any deduction claimed earlier as leave encashment shall be reduced from ₹ 25,00,000.

Illustration 5 :

- a. Mr. Bhanu is working in Zebra Ltd. since last 25 years 9 months. The Company allows 2 months leave for every completed year of service to its employees. During the job, he had availed 20 months leave. At the time of retirement on 10/8/2024, he got ₹ 7,50,000 as leave encashment. As on that date, his basic salary was ₹ 35,000 p.m., D.A. was ₹ 20,000 p.m., Commission was 5% on turnover + ₹ 2,000 p.m. (Fixed p.m.). Turnover effected by the assessee during last 12 months (evenly) ₹ 50,00,000. Bhanu got an increment of ₹ 10,000 p.m. from 1/1/2024 in basic and ₹ 5,000 p.m. in D.A. Compute his taxable leave encashment salary.
- b) How shall your answer differ if the assessee had taken 2 months leave instead of 20 months, during his continuation of job.

Solution :**Working :**

- Completed year of service: 25 years 9 months = 25 years
- As per sec. 3(35) of the General Clauses Act, 1897, month shall mean a month reckoned according to the British calendar e.g. the period commencing from 7th September & end on 6th October shall be a month.
- Salary here means Basic + Dearness Allowance + Commission on turnover (last 10 months average from the date of retirement)

Particulars	Oct' 23 (21 days)	Nov	Dec	Jan' 24	Feb	Mar	April	May	June	July	Aug 10 Days	Total

Mr. Das retired on 31/3/2025. At the time of retirement, 18 months leave was lying to the credit of his account. He received leave encashment equivalent to 18 months Basic salary ₹ 1,26,000. His employer allows him 1½ months leave for every completed year of service. During his tenure, he availed of 12 months leave. At the time of retirement, he also gets D.A. ₹ 3,000. His last increment of ₹ 1,000 in basic was on 1/4/2024. Find taxable leave encashment.

Solution :**Working :**

- Calculation of completed year of service:** Employee has received 18 months leave encashment on termination of service as well he had enjoyed leave of 12 months during his tenure. That means he had received a leave benefit of 30 months. Since leave allowed by employer is 1½ months for every completed year of service, this signifies that Mr. Das had completed 20 years (being 30/1½) of service.

2. Salary here means, Basic + DA + Commission, being last 10 months average from the date of retirement. There is no increment in last 10 months (last increment was on 1/4/2024) and there is no commission, hence Average Salary = ₹ 7,000 (i.e. ₹ 1,26,000/18) + ₹ 3,000 = ₹ 10,000 p.m.

Computation of taxable leave encashment of Mr. Das for the A.Y. 2025-26 :

Particulars	Details	Amount
Leave Encashment received		1,26,000
Less: Minimum of the following is exempt u/s 10(10AA)(ii):		
a) Actual amount received	1,26,000	
b) Statutory Amount	25,00,000	
c) 10 months × Av. Salary p.m. (10 × 10,000)	1,00,000	
d) {1 × completed year of service - Leave taken} × Avg. salary p.m. [{1 x 20 – 12} × ₹ 10,000]	80,000	80,000
Taxable Leave Encashment		46,000

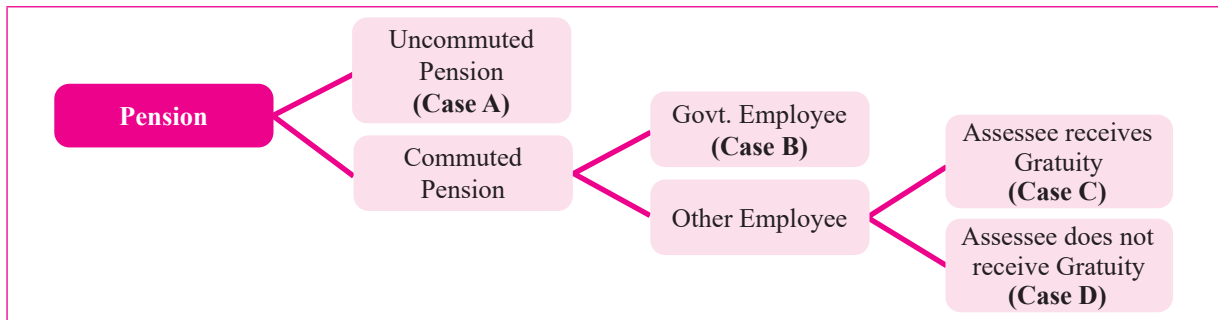

Case D: Leave salary paid to the legal heir

Leave salary paid to the legal heir of deceased employee is not taxable. [Circulars Letter No. F.35/1/65-IT(B), dated 5/11/1965]. Further, leave salary received by a legal heir of the Government employee who died in harness is not taxable in the hands of the recipient [Circulars No.309, dated 3/7/1981].

2.1.8 Pension [Sec. 10(10A)]

Pension means a periodical payment received by an employee after his retirement. On certain occasions, employer allows to withdraw a lump sum amount as the present value of periodical pension. When pension is received periodically by employee, it is known as Uncommuted pension. On the other hand, pension received in lump sum is known as Commuted pension. Such lump sum amount is determined considering factors like the age and health of the recipient, rate of interest, etc.

Treatment :

Case A: Uncommuted pension

Uncommuted pension is fully taxable in the hands of all employees whether Government or Non –Government employee.

Taxpoint: It is immaterial whether the employee is covered by the Payment of Gratuity Act or not.

Case D: Commuted pension received by an employee who does not receive gratuity [Sec. 10(10A)(ii)]

One half of total pension (which assessee is normally entitled for) commuted is exempt.

Case a) Government employee; Case b) Non-Government employee & not receiving gratuity

Case c) Non-Government employee (receiving gratuity, but not covered by the Payment of Gratuity Act)

Solution :

- b) Perquisite may be contractual or voluntary. However, an unauthorized advantage taken by an employee without his employer’s sanction cannot be considered as a perquisite under the head salary (but it shall be taxable as income from other sources).
- c) Perquisite may be received from the former, present or prospective employer
- d) Member of household includes:
 - Spouse (whether dependent or not)
 - Parents (whether dependent or not);

- b) whether the employee is full time director or a part time; and
- c) whether he was a director throughout the previous year or not.

Taxpoint:

- A director-employee shall be treated as specified employee of that company only.

- Director even for a day is construed as specified employee of such company.

Substantial interest means the employee who beneficially holds 20% or more voting power in the employer company.

Taxpoint:

- Such employee shall be treated as specified employee of that company only.

- Substantial interest must be held by the assessee individually, and not together with relative.

Taxpoint:

- Where salary is received from two or more employers, the aggregate salary from all employers shall be considered for calculation of above ceiling. And if aggregate salary exceeds ₹ 50,000 p.a. the employee shall be treated as specified employee of all employers.

Example: Mr. Rohan is working with X & Co. and Y Ltd. His taxable monetary salary from X & Co. is ₹ 36,000 p.a. and from Y Ltd. is ₹ 45,000 p.a. Since the aggregate salary is more than ₹ 50,000 p.a. Mr. Rohan will be treated as specified employee for both the employer i.e. X & Co. and Y Ltd.

- Even 'DA not forming a part of salary for retirement benefit' shall be included in salary, while determining the above limit of ₹ 50,000 p.a.

2.1.16 Valuation of Perquisites

Valuation of Rent-free unfurnished accommodation (RFA) [Rule 3(1)]

Rent-free accommodation is taxable in the hands of all employees (except the Judges of High Court or Supreme Court and Official of the Parliament or Union Minister and a leader of Opposition).

Accommodation here includes fixed as well as floating structure.

Fixed Structure	A house, flat, farm house (or a part there of), accommodation in hotel, motel, service apartment, a guest house, etc.
Floating Structure	A caravan, mobile home, ship etc.

For the purpose of valuation, employees are divided into two categories:

- a. Employees of the Central or State Government or of any undertaking under the control of the Government;
- b. Other employees

D) Central and State Government Employee (including military person)

Where the accommodation is provided by the Central Government or any State Government to the employees either holding office or post in connection with the affairs of the Union or of such State, the value of perquisite in respect of such accommodation is equal to the licence fee, which would have been determined by the Central or State Government in accordance with the rules framed by the Government.

{**Academically**, the taxable value of the perquisite will be mentioned in the problem}

Taxpoint: Employees of a local authority or a foreign government are not covered under this category.

II) Other Employees (residual category)

The value of perquisite is determined as per the following table:

City in which accommodation is provided	Accommodation is owned by the employer	Accommodation is not owned by the employer
Having population exceeding 40 lacs as per 2011 census	10% of salary for the period during which the employee occupied the said accommodation.	Rent paid or payable by the employer or 10% of salary, whichever is lower.
Having population exceeding 15 lacs but not exceeding 40 lacs as per 2011 census	7.5% of salary for the period during which the employee occupied the said accommodation.	
Any other city	5% of salary for the period during which the employee occupied the said accommodation.

a) **Salary for the purpose of Rent free accommodation:** Salary here means:

Basic + Dearness allowance/pay (if it forms a part of retirement benefit) + Bonus + Commission + Fees + All other taxable allowances (only taxable amount) + Any other monetary payment by whatever name called (excluding **perquisites and lump-sum payments received at the time of termination of service or superannuation or voluntary retirement, like gratuity, severance pay leave encashment, voluntary retrenchment benefits, commutation of pension and similar payments**)

Taxpoint :

- Salary shall be determined on due basis.
- Where an assessee is receiving salary from two or more employers, the aggregate salary for the period during which accommodation has been provided (by any of the employer) shall be considered.
- Monetary payments, which are not in the nature of perquisite, shall be considered. E.g. Leave encashment received during the continuation of service shall be included in salary for this purpose. However, if such pay leave is received at the time of retirement, then such receipt shall not be considered.
- Here salary does not include employer’s contribution to Provident Fund of the employee.

b) **Cap on Valuation in subsequent year(s):** W.e.f. 01-09-2023, where the same accommodation is continued to be provided to the same employee for more than one previous year, the aforesaid calculation shall be restricted to the amount calculated as per the following formula:

$$\text{Amount calculated for the first P.Y.} \times \frac{\text{CII for the P.Y. for which the amount is calculated}}{\text{CII for the P.Y. in which the accommodation was initially provided to the employee}}$$

- CII – Cost Inflation Index as notified for the purpose of sec. 48
- First previous year means the previous year 2023-24, or the previous year in which the accommodation was provided to the employee, whichever is later.

Valuation of accommodation provided at concessional rent

Valuation will be made as if the rent-free accommodation is provided and the amount so computed will be reduced by the rent payable by the employee.

Value of Rent free accommodation as usual	*****
Less: Rent payable by employee to employer for the above facility	*****
Taxable value of perquisite	*****

Taxpoint:

- The above rule of valuation shall be applicable in case of the Government employee also.
- Accommodation shall be deemed to have been provided at a concessional rate, if the value of accommodation computed in such manner as may be prescribed, exceeds the rent recoverable from, or payable by, the assessee

Accommodation provided in a hotel

In this case, value of perquisite shall be minimum of the following:

- a) 24% of salary for the period such accommodation is provided; or
- b) Actual charges paid or payable to such hotel.

However, if the following conditions are satisfied then nothing is taxable -

- ⦿ Such accommodation is provided for a period not exceeding in aggregate 15 days; and
- ⦿ Such accommodation is provided on transfer of employee from one place to another place.

Note: If the employee pays any rent, the value so determined shall be reduced by the rent actually paid or payable by the employee

Taxpoint:

- ⦿ Salary here has the same meaning as in the case of rent-free accommodation.
- ⦿ Above rule shall be applicable whether the assessee is a Government or a Non-Government employee.
- ⦿ If the facility is provided for more than 15 days, then the perquisite is exempt for first 15 days and thereafter taxable. E.g. if facility has been provided for 45 days then taxable perquisite shall be only for last 30 days.
- ⦿ Hotel includes licensed accommodation in the nature of motel, service apartment or guest house.

2.1.17 Insurance premium payable by employer

As per sec. 17(2)(v), following sums payable by an employer shall be taxable perquisite in the hands of all employees, whether it is paid directly or through a fund (other than recognised provident fund or approved superannuation fund or deposit-linked insurance fund),

Taxpoint: If such shares are allotted or transferred not for above reasons (i.e., for providing know-how, etc.), then it is not taxable as perquisite. E.g., if such option is granted to the employee against acquisition of immovable property by the company, then such benefit shall not be considered as perquisite. However, employee is liable to pay tax, if any, under the head ‘Capital Gain’

Perquisites :

Value of perquisite	***

Notes:

Option means a right but not an obligation granted to an employee to apply for the specified security or sweat equity shares at a predetermined price.

Tax on perquisite of specified securities and sweat equity shares is required to be paid in the year of exercising of option. However, where such shares or securities are allotted by the current employer, being an eligible start-up, the perquisite is taxable in the year

- after the expiry of 48 months from the end of the relevant assessment year
- in which sale of such security or share are made by the assessee
- in which the assessee ceases to be the employee of the employer,

whichever is earlier.

₹ 100	₹ 180	₹ 440	₹ 470

Compute taxable perquisite, if any, in hands of Mr. R for A.Y. 2025-26.

Solution :

Since shares are allotted by the company after 31-03-2024 (even though it is exercised by the employee on 31-03-2024), hence, it is taxable in A.Y. 2025-26. Value of the perquisite is as under:

Less: The amount actually paid by assessee in respect of such shares [₹ 50 × 100 shares]	5,000
Value of perquisite	39,000

Note: For the purpose of computing capital gain on the transfer of these shares by Mr. R, ₹ 44,000 (i.e. ₹ 440 per share) shall be considered as cost of acquisition of such shares.

2.1.36 Provident Fund

Provident fund scheme is a saving device in the hands of salaried class. It is a retirement benefit scheme. Under this scheme, a stipulated sum is regularly deducted from the salary of the employee as his contribution towards the fund. The employer also, generally, contributes a similar amount out of his pocket to the fund. The employer's and employee's contribution are together invested in such fund. Interest earned thereon is also credited to the fund of the employee. Thus, provident fund scheme is a great media to initiate and mobilise small savings to a large scale. On termination of service or retirement, employee receives the whole accumulated fund, subject to certain conditions. Hence, provident fund has four components i.e. Employer's contribution; Employee's contribution; Interest on employer's contribution; and Interest on employee's contribution

Provident fund is of four types, viz:

- Statutory Provident Fund (SPF):** Statutory provident fund is set up under the provisions of the Provident Funds Act, 1925. Government and Semi-Government organisations, local authorities, railways, Universities and recognised educational institutions maintain Statutory Provident Fund.

- b) **Recognised Provident Fund (RPF):** The provident fund scheme is framed under the Employee's Provident Fund and Miscellaneous Provisions Act, 1952 (hereinafter referred as PF Act). Further, if an employer creates his own scheme for provident fund then he can do so subject to recognition from the Commissioner of Income tax. It is governed by Part A of Schedule IV to the Income-tax Act, 1961. This schedule contains various rules regarding the following:
- (i) Recognition of the fund
 - (ii) Employee's and employer's contribution to the fund
 - (iii) Treatment of accumulated balance etc.
- c) **Unrecognised Provident Fund (URPF):** If a provident fund scheme is created by an employer, which is not recognised by the Commissioner of Income tax, then such fund is known as an Unrecognised provident fund.
- d) **Public Provident Fund (PPF):** The Central Government has established a fund for the benefit of public to mobilise personal savings. Any member of the public (on his own behalf or on behalf of a minor of whom he is a gurdian), whether salaried or self-employed, can contribute to the fund by opening a provident fund account at any branch of the State Bank of India or its subsidiaries or other specified bank or post offices. Even a salaried employee can simultaneously become a member of employee's provident fund (whether statutory, recognised or unrecognised) and public provident fund. For getting a deduction u/s 80C (available only under old regime), a member is required to contribute to the PPF a minimum of ₹ 500 in a year. The maximum amount that may qualify for deduction on this account is ₹ 1,50,000 as per PPF rules. Interest is credited every year but payable only at the time of maturity. Interest earned on this fund is exempt from tax u/s 10(11).

Illustration 33:

Sri Ramprasad retired on 1/7/2024. On retirement, he received from his provident fund ₹ 3,00,000 as lump sum consisting of:

Employer's contribution	₹ 1,25,000
Employee's contribution	₹ 1,25,000

Mention the treatment of amount so received if –

- 1) The Provident Fund is Unrecognised Provident Fund
- 2) The Provident Fund is Recognised Provident Fund and
 - a) Employee retired after 23 years 7 months service.
 - b) Employee retired after 4 years 7 months service due to his blindness.
 - c) Employee retired after 3 years 7 months service and joined another company having RPF and the old RPF balance has been transferred to new employer's RPF.
 - d) Employee retired after 3 years 10 months service and started his own business.

Solution :

- 1) Lump sum received from URPF is taxable as under:

Employer's contribution	₹ 1,25,000 taxable as salary
Employee's contribution	₹ 1,25,000 not taxable
Interest on employer's contribution	₹ 25,000 taxable as salary
Interest on employee's contribution	₹ 25,000 taxable as income from other sources

Note: Total amount received is ₹ 3,00,000. Employer's and employee's contribution together is ₹ 2,50,000. So, the balance ₹ 50,000 is interest. As employer and employee contributed equal amount hence the interest is also divided equally.

2. (a) Since employee retires after five years of service hence lump sum amount received from RPF is fully exempted – Sec. 10(12)
- (b) Since employee retires due to his incapability to work, hence lump sum received from RPF is fully exempted - Sec. 10(12)
- (c) Though employee left the job before five years of service but joined another organisation maintaining RPF and did not withdraw the amount but transferred the balance in RPF account with new organisation, hence the same will be treated as continuation of service and lump sum from RPF is fully exempted - Sec. 10(12)
- (d) Since employee left the job before five years of service, hence amount received shall be taxable as in case of URPF [discussed above in (1)].

Points to be remembered

1. Employer’s Contribution to the New pension System (as specified u/s 80CCD) is fully taxable under the head ‘Salaries’. However, deduction is available u/s 80CCD.

Deduction u/s 80CCD(2) in respect of employer’s contribution would be available to an assessee irrespective of the regime under which he pays tax. However, deduction u/s 80CCD(1)/(1B) in respect of employee’s contribution would be available to an assessee only if he opts for old regime

2. Central Government’s contribution to Agniveer Corpus Fund account would form part of salary.

Deduction u/s 80CCH(2) in respect of Central Government’s contribution would be available to an assessee irrespective of the regime under which he pays tax. However, deduction u/s 80CCH(1) in respect of employee’s contribution would be available to an assessee only if assessee opts for old regime

3. The amount or the aggregate of amounts of any contribution made to the account of the assessee by the employer:

- (a) in a Recognised Provident Fund (RPF);
- (b) in the scheme referred to in sec. 80CCD(1) [i.e., NPS]; and
- (c) in an approved superannuation fund,

- in excess of ₹ 7,50,000 in a previous year shall be taxable

Taxpoint: There is combined upper limit of ₹ 7,50,000 in respect of employer’s contribution in a year to NPS, superannuation fund and recognised provident fund and any excess contribution is taxable.

4. The annual accretion (like interest, dividend, etc.) during the previous year to the balance at the credit of the aforesaid fund or scheme to the extent it relates to the contribution referred above shall be taxable

Payment from Approved Superannuation Fund [Sec. 10(13)]

Any payment from an approved superannuation fund made -

- on the death of a beneficiary; or
 - to an employee in lieu of or in commutation of an annuity on his retirement at or after a specified age or on his becoming incapacitated prior to such retirement; or
 - by way of refund of contributions on the death of a beneficiary; or
 - by way of refund of contributions to an employee on his leaving the service (otherwise than by retirement at or after a specified age or on his becoming incapacitated prior to such retirement) to the extent to which such payment does not exceed the contributions made prior to 1-4-1962 and any interest thereon.
 - by way of transfer to the account of the employee under a pension scheme referred to in sec. 80CCD and notified by the Central Government
- is exempt

Transferred Balance (Conversion of URPF to RPF) [Rule 11(4) of Part A of the Fourth schedule]

An organisation maintaining URPF, may later get recognition from Commissioner of Income tax. In such case, the accumulated balance under URPF shall be converted to RPF. Tax treatment of such transferred balance will be as under:

Calculation is made of all sums comprised in the transferred balance that would have been liable to income tax if the recognition of the fund had been in force from the date of institution of the fund. However, in case of serious accounting difficulty, the Commissioner may make a summary calculation of such aggregate.

Such aggregate sum is deemed to be the income received by the employee in the previous year in which the recognition of the fund takes effect.

Note: On taxability of such conversion, assessee cannot claim relief u/s 89(1).

Illustration 34 :

Mr. Sharma has been appointed as an accountant of ABC Ltd as on 1/4/2022, since then he is working with the same company. The salary structure and increment details are as under:

Basic ₹ 5000 - 1000 - 8000 - 1500 - 14000

D.A. ₹ 3000 – 500 – 5000 – 1000 - 10000

He and his employer contribute to URPF 14% of basic and DA.

Every year 9% interest is credited to such fund. As on 1/4/2024, the fund gets recognition. Hence, the accumulated balance in URPF was transferred to RPF. Comment on tax treatment of such transferred balance.

Solution :

Statement showing treatment of transferred balance:

Year	Employer's contribution to fund	Exempted amount considering the fund as RPF	Difference
2022-2023	14% of (60,000 + 36,000) i.e. ₹ 13,440	12% of ₹ 96,000 i.e. ₹ 11,520	₹ 1,920
2023-2024	14% of (72,000 + 42,000) i.e. ₹ 15,960	12% of ₹ 1,14,000 i.e. ₹ 13,680	₹ 2,280
Total			₹ 4,200

Current year (i.e. 2024-25) contribution shall be treated as RPF and the taxable amount will be ₹ 2,640 [being (14 - 12)% of (₹ 84,000 + ₹ 48,000) i.e. 2% of ₹ 1,32,000].

Since the interest rate is less than the exempted limit (i.e. 9%), hence interest portion is not taxable.

Total taxable salary on account of provident fund for the A.Y. 2025-26 is ₹ 6,840 (being ₹ 4,200 + ₹ 2,640).

16(iii) Professional Tax (₹ 1,600 + ₹ 600)	2,200	52,200
Taxable Salary		40,600

Notes :**A. Conversion of Net Salary into Gross Salary**

Sometimes net basic salary is given after deduction of TDS, Loan repayment, PF deduction etc that needs to be grossed up as under:

Net Salary = Gross Salary – Employee's contribution to provident fund – TDS – loan repayment by employee – other deduction from salary (if any).

Examples: Find basic salary of Mr. Singh having the following salary structure:

a. Net Basic Salary received	₹ 1,00,000
b. Deduction from salary 10% of basic salary as contribution to RPF	
c. TDS	₹ 9,000
d. Repayment of earlier loan	₹ 35,000

In this case, Basic Salary shall be computed as under:

Net basic salary = Basic salary – TDS – Loan repayment – Contribution to RPF

Let the basic salary be X

$$1,00,000 = X - 9,000 - 35,000 - 0.1X$$

$$1,44,000 = 0.9X$$

X = 1,60,000. Hence, basic salary for the year is ₹ 1,60,000.

B. Meaning of Salary for different purposes

Medical Allowance	12,000	--
Bonus	5,500	--

Income from House Property

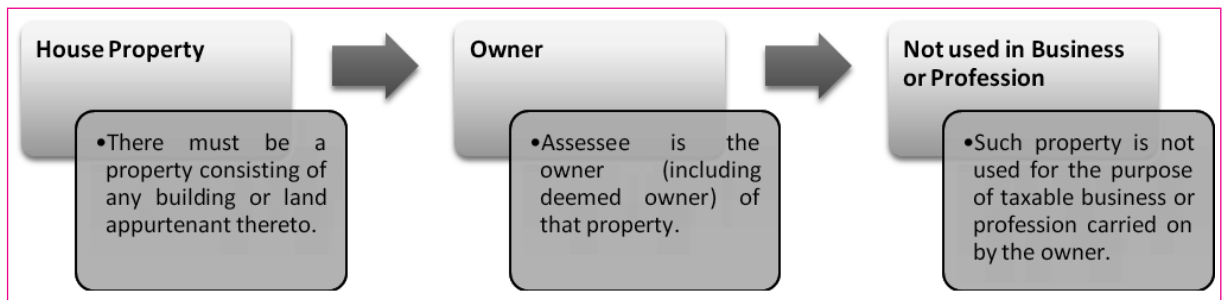

2.2

As per sec. 22, the annual value of property consisting of any building or land appurtenant thereto of which assessee is the owner, other than such portion of such property as he may occupy for the purposes of any business or profession carried on by him shall be chargeable to income tax under the head “Income from house property.”

It is an exceptional feature of this head that rather than actual income from house property, earning capacity of house property is taxable. As stated u/s 22 that “annual value” of the property is taxable rather than actual income of the property. (Annual value being discussed in later part of this chapter)

2.2.1 Chargeability [Sec. 22]

Annual value of the property shall be taxable under the head “Income from house property” subject to the following :

Condition 1 : Building or land appurtenant thereto

The term ‘house property’ is not defined in the Income tax Act. However, various judicial interpretation has construed the term house property as -

- any land surrounded by wall having roof or not; and
- any land appurtenant to a building.

Notes :

- Building includes an enclosure of bricks, stone work or even mud walls
- Building includes residential as well as commercial houses.
- Vacant land is not a house property. Hence, income from letting of vacant land is not taxable under this head but taxed as business income or as income from other sources.
- Roof is not necessary for a non-residential house property. A large stadium or a open air swimming pool is also considered as building

- e. It should be a permanent structure meant for a useful purpose.
- f. If a building consists of several flats, then each flat is considered as a separate house property.
- g. An incomplete, a ruined or demolished house cannot be termed as house property.
- h. Land appurtenant to a building includes car parking area, approach roads, backyards, courtyards, etc. attached to such building.

Condition 2 : Owner

Annual value of a property is assessed to tax only in the hands of the owner even if he is not in receipt of any income. Any person other than the owner, even though he is in receipt of rent shall not be liable to tax under this head. That is why, income from sub-letting is not taxable under this head but under the head ‘Income from other sources’. E.g. Mr. X being a tenant of a house property acquired it at a monthly rent of ₹ 10,000 from Mr. Y (owner of such house property). Mr. X sublets the property to Mr. Z for a monthly rent of ₹ 12,000. Income from subletting being ₹ 2,000 p.m. is taxable as business income or as income from other sources.

Owner includes legal owner, beneficial owner and deemed owner.

Legal owner : Legal owner means a person who has the legal title of the property as per the Transfer of Property Act, Registration Act, etc.

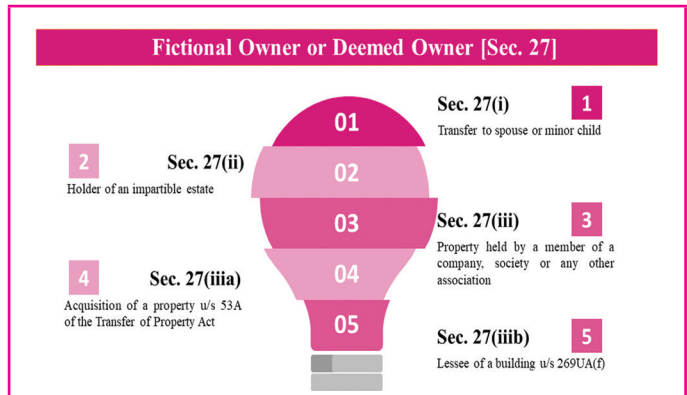

Beneficial owner : For income tax purpose it is not necessary that the property must be registered in the name of the assessee. If the assessee is enjoying the property as an owner to full extent he will be treated as a beneficial owner of such property and will be charged under the head ‘Income from house property’.

Fictional owner or Deemed owner [Sec. 27]

U/s 27, in the following cases, a person shall be treated as deemed owner of the property and liable to tax (in such case legal owner or beneficial owner shall not be further liable to tax)

1. Transfer to spouse or minor child [Sec. 27(i)] : When an individual transfer a house property to -

- his or her spouse (not being a transfer in connection with an agreement to live apart); or
- a minor child (not being a married daughter)
 - without adequate consideration, then transferor shall be treated as deemed owner of such property.

E.g. : Mr. X transfers his house property worth ₹ 5,00,000 to Mrs. X out of love and affection. In such case, though Mrs. X is the legal owner but Mr. X will be liable to tax as deemed owner of such property.

Note : In case of transfer to spouse, marriage should subsist on both the days i.e., on the day of transfer as well as on the day when income arises.

Taxpoint :

- Transferee must be spouse or minor child other than married daughter.
- Transfer must be without adequate consideration.
- Transferred property must be a house property. E.g. Mr. X transfers cash of ₹ 5,00,000 to Mrs. X and

Mrs. X purchases a house property from such cash, then such transfer of cash and subsequent purchase of property shall not attract provision of sec. 27(i). However, the income from such property shall be clubbed in the hands of Mr. X as per the provision of sec. 64(1)(iv) [For detail refer chapter Clubbing of Income].

2. **The holder of an impartible estate [Sec. 27(ii)] :** The holder of an impartible estate (property which is not legally divisible) is treated as deemed owner of house property. Impartible estate is an estate to which the assessee has succeeded by grant or covenant.
3. **Property held by a member of a company, society or any other association [Sec. 27(iii)] :** Property held by a member of a company, co-operative society or other association of persons to whom a building or a part thereof is allotted or leased under House Building Scheme of the company or association, is treated as deemed owner of that building or a part thereof.

Taxpoint :

- Assessee is the member of a company, co-operative society or other AOP.
 - He has been allotted or leased a building on account of such membership.
 - Though he is not the legal owner of such property, still he will be liable to tax.
4. **A person who acquired a property u/s 53A of the Transfer of Property Act [Sec. 27(iiiia)] :** A person who is allowed to take or retain possession of any building (or part thereof) in part performance of a contract u/s 53A of the Transfer of Property Act, 1882, is deemed as the owner of that building (or part thereof).

Taxpoint :

- Assessee has taken the possession of the property.
 - He has partly performed or promised to perform the contract i.e., he has paid (or is ready to pay) a part of the consideration.
 - The contract must be in writing. Though sale-deed might not be executed in favour of the buyer, still certain other document like 'power of attorney' or 'agreement to sell' has been executed.
5. **Lessee of a building u/s 269UA(f) [Sec. 27(iiib)] :** A person who acquires any right u/s 269UA(f) in or with respect to any building or part thereof, by way of lease agreement for a period not less than 12 years is deemed as the owner of that building (or part thereof).

Notes :

- a. Lease period should not be less than 12 years [as per sec. 269UA(f)] including extension period.
- b. Above provision does not include any right by way of lease from month to month or for a period not exceeding 1 year.

E.g. : X lets out a property to Miss Y on a lease of 9 years. However, Miss Y has a right to renew the lease for further period of 3 years. In such case, Miss Y shall be deemed as an owner of the property u/s 27. However, if such right of renewal of lease (for 3 years) is subject to condition that at each occasion it will be renewed for a period of 11 months, then X will be owner of the property and liable to tax u/s 22.

Condition 3: Property is not used for business or profession carried on by the assessee

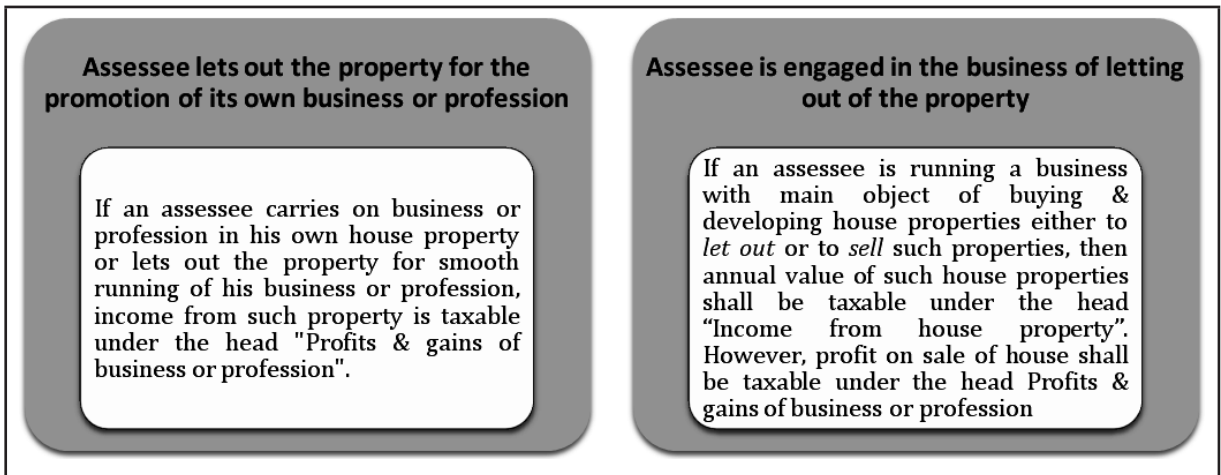

When a person carries on business or profession in his own house property, annual value thereof is not taxable u/s 22 provided income of such business is chargeable to tax.

Incidences thereof

- **Letting out to employees:** If an assessee lets out the property to his employee, where such letting out supports smooth flow of his business, then such letting out shall be deemed to be incidental to business and such rent shall be chargeable under the head "Profits & gains of business or profession".

- ◉ **Letting out to Government Agencies:** Where an assessee let out his property to any Government agency for locating branch of a nationalized bank, police station, post office, excise office, railway staff quarters, etc. for the purpose of running the business of assessee more efficiently, such letting out shall be deemed to be incidental to business and such rent shall be chargeable under the head “Profits & gains of business or profession”.
- ◉ **Letting out to ancillary units:** Where an assessee lets out its property to ancillary units, which manufactures components required by the assessee. Income from such letting out shall be taxable under the head “Profits & gains of business or profession”.

Letting out property for promotion of own business –vs.- Business of letting out the property :

*However where the assessee is engaged in the business of letting out of commercial properties, income therefrom would be chargeable under the head Profits and Gains of Business or Profession.

2.2.2 Some special cases

Foreign property

If house property is situated abroad, then annual value of such property shall be taxable as :

Assessee	Condition for taxability
Ordinarily resident	Always taxable
Not ordinarily resident or Non resident	Income must be received in India

Note: The annual value of such property would be computed as if the property is situated in India.

Disputed ownership

Merely, due to dispute regarding the title of property, assessment cannot be postponed. In such case, person who is in receipt of income or who enjoys the possession of the property is assessable to tax.

Composite rent

Together with rent of the building, if the owner gets charges for other services or rent of other assets provided in the building (e.g. furniture, machinery, etc.), amount so received is termed as ‘composite rent’.

Composite Rent = Rent for building + Rent for assets / Charges for various services

* Rayala Corporation -vs.- ACIT (2016) 386 ITR 500 (SC) read with amendment made through Finance (No. 2) Act, 2024

Tax treatment of composite rent is as follows :

- ◉ **Rent including charges for amenities or services like garden facility, food, lighting, etc. or other separable assets (like machinery, plant, furniture):** If the owner of house property gets composite rent for both property as well as for services rendered or other separable asset, such composite rent shall be treated as under :

Particulars	Taxable under the head
Sum received for the use of building.	‘Income from house property’.
Sum received for other amenities or other separable assets.	‘Profits & gains of business or profession’; or ‘Income from other sources’

However, if segregation of composite rent is not possible, then the whole amount will be taxed either under the head ‘Profits & gains of business or profession’ or ‘Income from other sources’.

Taxpoint : Rent from paying guest is, generally, taxable under the head ‘Income from other sources’.

- ◉ Letting of building with other inseparable assets (like machinery, plant, furniture): If letting of only building is not possible or not acceptable to the other party, then sum received as rent from the properties is chargeable as business income or income from other sources even if the composite rent is segregable. E.g., letting out of hotel rooms, auditoriums, etc.

Co-ownership [Sec. 26]

If two or more persons own a house property jointly, then they are known as co-owners. If individual share of each co-owner is definite and ascertainable then the share of each such person shall be taxable as his income from house property.

Tax treatment :

1. Share of each co-owner in the income from the property as computed in accordance with sec. 22 to 25 shall be included in his total income.
2. Where the house property is owned by co-owners and is occupied by each of the co-owner then all of them can claim benefit u/s 23(2)(a) and interest on loan shall be allowed to all the co-owners to the extent of ₹ 30,000 / ₹ 2,00,000 as the case may be.

Note : Provision of Sec. 26 is mandatory and not optional.

Partner’s property used by the firm

The business carried on by the firm should be regarded as carried on by all the partners. Thus, annual letting value of a property belonging to the assessee which is in occupation of the firm in which assessee is the partner, is not includible in income of the assessee-partner u/s 22

Property held as stock-in-trade [Sec. 23(5)]

Where house property is held as stock-in-trade & not let out during any part of the previous year, then annual value of such property shall be computed as under :

Period	Annual Value
Up to 2 year from the end of the financial year in which the certificate of completion of construction of the property is obtained from the competent authority	Annual value of such property shall be taken to be nil.
After the completion of aforesaid period	Annual value of such property shall be computed as per other provisions. (Discussed later)

2.2.3 Exempted properties

Income from the following house properties are exempted from tax :

1. Any one palace or part thereof of an ex-ruler, provided the same is not let out [Sec. 10(19A)].
Taxpoint : If the ex-ruler has a house property and the part of which is self-occupied and remaining let out then only the self occupied part of the house property shall be exempted.
2. House property of a local authority [Sec. 10(20)].
3. House property of an approved scientific research association [Sec. 10(21)].
4. House property of an educational institution [Sec. 10(23C)].
5. House property of a hospital [Sec. 10(23C)].
6. House property of a person being resident of Ladakh [Sec. 10(26A)]
7. House property of a political party [Sec. 13A]
8. House property of a trade union [Sec. 10(24)]
9. A farm house [Sec. 10(1)]
10. House property held for charitable purpose [Sec. 11]
11. House property used for own business or profession [Sec. 22].

2.2.4 Computation of Income

The chapter is divided into the following categories for the purpose of computation:

- Let out property [Sec. 23(1)]
- Self-occupied property [Sec. 23(2)(a)].
- Deemed to be let out property [Sec. 23(4)].
- Property not actually occupied by the owner [Sec. 23(2)(b)]
- Partly let out and partly self occupied property [Sec. 23(3)]
- Recovery of arrears of rent and unrealized rent [Sec. 25A]

2.2.5 Let out property [Sec. 23(1)]

Income from house property		****

Gross Annual Value (GAV) :

Normally, income tax is charged on income, but under the head ‘Income from house property’, tax is not charged on the rent earned from house property but on the inherent earning capacity of the house property. Such earning capacity is termed as Annual Value. Annual value is determined considering the following factors :

A. Actual Rent Receivable [ARR]

Any sum receivable as rent of the house property for the previous year is an evidence for determining the earning capacity of the building. Such actual rent receivable is to be computed on accrual basis. However, where tenant pays rent, which is influenced by benefits provided by the owner of the property, such rent must be disintegrated to determine actual rent i.e. De-facto rent of the property.

De facto rent = ARR – Cost of amenities.

Taxpoint:

- While computing actual rent receivable, outstanding rent shall be considered but advance rent received during the financial year is not to be considered.
- Municipal tax paid by the tenant should not be considered while computing de-facto rent.
- Similarly, de-facto rent shall not be increased by notional interest on deposit received by the owner from the tenant.

B. Gross Municipal Value

It means the annual value of the property decided by municipality on which they charge municipal tax. Such valuation may also be taken as evidence of earning capacity of a property.

In metro cities (i.e. Chennai, Delhi, Kolkata, Mumbai), municipal authorities charge tax on Net Municipal Value after giving a deduction for repairs (being 10% of Gross Municipal value) and an allowance for service taxes (like sewerage tax, water tax etc. as a % of Net Municipal value). Hence, the relation between Gross Municipal Value and Net Municipal Value can be concluded as under -

In metro cities	$NMV = GMV - 10\% \text{ of } GMV - \text{Sewerage/Water Tax etc. (as a \% of NMV)}$
In non-metro cities	$GMV = NMV$

C. Fair or Notional rent of the property

Fair or notional rent of a property means rent fetched by a similar property in the same or similar locality. Though two properties might not be exactly similar still it is an indicator of rent reasonably expected from the property. An inflated or deflated rent due to emergency, relationship and such other conditions need to be adjusted to determine fair rent.

For instance, a property was let out to a friend for a monthly rent of ₹ 2,000 which might be let out to another person at the rate of ₹ 2,500 p.m. In such case, fair rent of the property shall be ₹ 2,500 p.m.

D. Standard rent under the Rent Control Act

Standard rent is the maximum rent, which a person can legally recover from his tenant under the Rent Control Act prevailing in the State in which the property is situated. A landlord cannot reasonably expect to receive from a tenant any amount more than Standard Rent. Accordingly, it can be concluded that if the property is covered by the Rent Control Act then Reasonable Expected Rent (RER) cannot exceed Standard Rent.

Taxpoint : Reasonable Expected Rent cannot exceed Standard Rent but can be lower than Standard Rent

Computation of Gross Annual Value

Step 1 : Calculate reasonable expected rent (RER) of the property being higher of the following:

- a. Gross Municipal Value.
- b. Fair Rent of the property.

Note : RER cannot exceed Standard Rent.

* Reasonable Expected Rent (RER) is also known as Annual Letting Value (ALV).

Step 2 : Calculate Actual Rent Received or Receivable (ARR) for the year less current year unrealised rent (UR) subject to certain conditions[#].

[#]Unrealised Rent [Rule 4]: Unrealised Rent of current year shall be deducted in full from Actual Rent Receivable, provided the following conditions are satisfied :

- i) The tenancy is bona fide;
- ii) The defaulting tenant has vacated the property or steps have been taken to compel him to vacate the property;
- iii) The defaulting tenant is not in occupation of any other property of the assessee;
- iv) The assessee has taken all reasonable steps to institute legal proceeding for the recovery of the unpaid rent or has satisfied the Assessing Officer that legal proceedings would be worthless.

Step 3 : Compare the values calculated in step 1 and step 2 and take the higher one.

Step 4 : Where there is vacancy and owing to such vacancy the 'ARR – UR' is less than the RER, then 'ARR - UR' computed in step 2 will be treated as GAV.

In nutshell, GAV shall be computed as under :

Steps	Particulars	Amount
1 st	Compute Reasonable Expected Rent [RER]	
	Gross Municipal Value (a)	****
	Fair Rent (b)	****
	Higher of the (a) and (b) [A]	****
	Standard Rent [B]	****
	Reasonable Expected Rent [Lower of (A and B)] [C]	****
2 nd	Actual Rent Received or Receivable (ARR) – Unrealised Rent of the current year (UR) [D]	****
3 rd	Gross Annual Value	
4 th	Higher of C and D shall be considered as GAV	****
	However, where 'ARR – UR' is lower due to vacancy, then 'ARR - UR' computed in step 2 will be treated as GAV.	****

Solution :

Computation of Gross Annual Value :

Step	Particulars	Working	H1	H2	H3	H4	H5	H6
1 st	Calculation of RER	Higher of GMV and FR (RER cannot exceed SR)	300	180	280	225	250	240

- In H1 and H2 Actual rent receivable is already higher than RER therefore vacancy period is not making any impact (i.e. step 4 of computation discussed earlier in theory) on GAV.
- In H3 & H4, ARR is less than RER due to vacancy (otherwise ARR would have been ₹ 3,00,000 & ₹ 2,40,000 respectively). Therefore, GAV will be the ARR computed in step 2.
- In H5, ARR is less than RER not only due to vacancy but also due to other factors. In such case, value of RER shall be taken as GAV.
- In H6, ARR is less than RER due to vacancy period otherwise ARR would have been equal to RER.

Illustration 43 :

X owns a house property in Pune, details relating to which are Municipal value ₹ 2,00,000 p.a., Fair rent ₹ 1,80,000 p.a., Standard rent ₹ 2,10,000 p.a. It is let out throughout the previous year (rent ₹ 10,000 p.m. up to 15/10/2024 and ₹ 12,000 p.m. thereafter). The property is transferred by X to Y on February 28, 2025. However, Y failed to recover rent for March, 2025. Find gross annual value of the property in the hands of X and Y for the A.Y. 2025-26

Solution :

Since the property being sold to Y on last day of February 2025 hence previous year period for X is 11 months and for Y is 1 month, accordingly gross annual value shall be:

Steps	Particulars	X (11 months)	Y (1 month)
	Fair rent (FR)	1,65,000	15,000
	Municipal Value	1,83,333	16,667

[#] Calculation of Rent Receivable for 11 months

$$[(\text{₹ } 10,000 * 6.5 \text{ months}) + (\text{₹ } 12,000 * 4.5 \text{ months})] = \text{₹ } 1,19,000$$

Find out the gross annual value in respect of the following properties for the A.Y. 2025-26 :

(₹ in '000)

Particulars	H1	H2	H3
Gross Municipal value	150	180	120
Fair rent	140	140	240
Standard rent	120	240	300
Actual rent if property is let out throughout the previous year 2024-25	180	300	150
Unrealised rent of the previous year 2024-25	25	40	20
Unrealised rent of the year prior to the previous year 2023-24	30	50	60
Period when the property remains vacant (in number of months)	3	1	-

Solution :

Working: Calculation of ARR – Unrealised Rent

H1 : $[\{(1,80,000/12) * 9\} - 25,000] = \text{₹ } 1,10,000$

H2 : $[\{(3,00,000/12) * 11\} - 40,000] = \text{₹ } 2,35,000$

H3 : $[1,50,000 - 20,000] = \text{₹ } 1,30,000$

Computation of Gross Annual Value :

(₹ in '000)

Step	Particulars	Working	H1	H2	H3
1 st	Calculation of RER	Higher of GMV and FR (RER cannot exceed SR)	120	180	240
2 nd	ARR less current year unrealized rent (for let out period only)	Working 1	110	235	130
3 rd	Higher of above	Higher of Step 1 & Step 2	120	235	240
4 th	Gross Annual Value		110¹	235	240²

¹In H1, till step 3 ARR is less than RER due to vacancy [otherwise ARR would have been ₹ 1,55,000 (being ₹ 1,80,000 – ₹ 25,000). Therefore, GAV will be the ARR computed in step 2.

²In H3 there is no vacancy hence step 3 gives GAV.

Find out the gross annual value in the following cases for the A.Y. 2025-26 :

Particulars	H1 (₹)	H2 (₹)
Situated at	Chandigarh	Amritsar
Municipal value p.a.	60,000	60,000
Fair rent p.a.	70,000	70,000

From October 1, 2024 to February, 2025	9,000	8,500

For the remaining period properties were vacant.

Solution :

Working 1) Actual rent

For H1 [(5,000 * 4) + (9,000 * 5)] = ₹ 65,000

For H2 [(6,000 * 4) + (8,500 * 5)] = ₹ 66,500

Computation of gross annual value

(₹ in '000)

Step	Particulars	Working	H1	H2
1 st	RER	Higher of GMV and FR (RER cannot exceed SR)	70	50
2 nd	ARR	Working 1	65	66.5
3 rd	Higher of above	Higher of Step 1 & Step 2	70	66.5
4 th	Gross Annual Value		65¹	66.5²

¹ In H1, ARR is less than RER due to vacancy [otherwise ARR would have been ₹ 86,667 {being (₹ 65,000/9) × 12}]. Therefore, GAV will be the ARR computed in step 2.

² In H2, Actual rent receivable is not less than RER, therefore vacancy period is not making any impact (i.e. step 4 of computation discussed earlier in theory) on GAV.

2.2.6 Taxes levied by local authority (Municipal Tax) [Proviso to Sec. 23(1)]

Tax levied by the municipality or local authority is deductible from Gross Annual Value (GAV). As per sec. 27(vi), taxes levied by a local authority in respect of any property shall include service taxes levied by such local authority in respect of such property. Municipal tax includes Service taxes like fire tax, water tax, etc. levied by a local

authority.

Such taxes shall be computed as a % of Net Municipal Value and allowed as deduction subject to the following conditions :

1. It should be actually paid during the previous year.\
2. It must be paid by the assessee.

Taxpoint : Unpaid municipal tax or municipal tax paid by tenant shall not be allowed as deduction.

3. It must be related to the previous year or any year preceding the previous year.

Taxpoint :

Tax paid to foreign local authority	If property is situated in a foreign country, tax paid to foreign local authority shall be allowed as deduction
Tax exceeds GAV (Negative NAV)	In case municipal tax paid includes tax paid for several past years and the total amount of tax so paid by the owner exceeds GAV, then Net Annual Value (NAV) can be negative.
Refund of tax	Refund of Municipal tax paid for a property is not taxable u/s 22.
Advance Municipal Tax paid by the assessee	Municipal tax paid in advance is not allowed, as the Act provides that “the taxes levied by any local authority in respect of property shall be deducted, irrespective of the previous year in which the liability to pay such taxes was incurred by the owner.” [Proviso to sec. 23 of Income tax Act, 1961] As per the above language it is construed that for claiming deduction in respect of municipal tax, such tax must have already been levied by the local authority. Hence payment of municipal tax in advance (liability in respect of which has not yet incurred) shall not be allowed as deduction in the year of payment.

The list of deduction u/s 24 is exhaustive i.e., no deduction can be claimed in respect of expenditures which are not specified under this section e.g., no deduction is allowed for repairs, collection charges, insurance, ground rent, land revenue, etc.

1. Standard deduction u/s 24(a)

Interest payable on amount borrowed for the purpose of purchase, construction, renovation, repairing, extension, renewal or reconstruction of house property can be claimed as deduction on accrual basis.

For the purpose of calculation, interest on loan is divided into two parts :

In nutshell, tax treatment is as under :

Particulars	Pre-construction period	Post-construction period
Starts from	The day of commencement of construction or the day of borrowing, whichever is later	The first day of the previous year in which construction is completed
Ends on	March 31 immediately prior to the year of completion of construction	When loan is fully paid
Tax treatment	The interest incurred during aforesaid period shall be accumulated and allowed as deduction in 5 equal installments from the year of completion of construction.	The interest expenses for the year (on accrual basis) shall be allowed as deduction in the respective year.

Other Points :

- a. Interest on borrowed capital is allowed on accrual basis even if the books of account are kept on cash basis.
- b. Interest paid on fresh loan, which is taken to repay the original loan (being taken for above-mentioned purpose) shall be allowed as deduction.
- c. Interest on new loan, taken for paying outstanding interest on old loan, is not deductible

- d. Amount paid as brokerage or commission, for arrangement of the loan, is not deductible.
- e. Interest on loan taken for payment of municipal tax, etc. is not allowed as deduction.

Amount not deductible from Income from house property [Sec. 25]

Any interest chargeable under this Act which is payable outside India, is not allowed as deduction if :

- ⊙ on such interest, tax has not been deducted at source and paid as per the provision of chapter XVIIIB; and
- ⊙ in respect of such interest there is no person in India who may be treated as an agent u/s 163.

- As per sec. 25, any payment outside India without deduction of tax at source and when the payee has no agent in India is not allowed as deduction. It is assumed that the payee has no agent in India.
- Interest payable outside India without TDS whether paid or unpaid is not allowed as deduction. It is assumed that the payee has no agent in India.
- Since loan is utilised for renovation of HP2 hence deduction shall be allowed from income of HP2. Mortgage of HP1 is irrelevant.

Calculate interest on loan allowed for assessment year 2020-21 to 2025-26 from the following information :

Loan was taken on 1/1/2016 ₹ 5,00,000 @ 12% p.a.

Construction commenced on 1/8/2016. Construction completed on 31/3/2021. Repayment made as under :

On 1/4/2017	On 1/4/2020	On 1/4/2023	On 1/7/2024
₹ 1,00,000	₹ 1,00,000	₹ 1,00,000	₹ 1,00,000

Solution :

Since construction started on 1/8/2016, hence pre-construction period starts from 1/8/2016 and since construction was completed on 31/3/2021, hence pre construction period ends on 31/3/2020 and post construction period starts from the year 2020-21. Finally, pre construction period is from previous year 2016-17 to previous year 2019-20 and post construction period is from previous year 2020-21 onwards. Thus, pre-construction period interest are as under :

Previous Year	Amount	Month	Interest @ 12%
2016-17	5,00,000	8	40,000
2017-18	4,00,000	12	48,000
2018-19	4,00,000	12	48,000
2019-20	4,00,000	12	48,000
Total interest for pre-construction period			1,84,000

Total interest for pre-construction period is ₹ 1,84,000 which shall be allowed in 5 equal installments i.e., ₹ 36,800 p.a. from P.Y. 2020-21 to 2024-25.

Computation of interest :

Assessment Year	Previous Year	Pre-construction period Interest	Post-construction period Interest	Total Interest

2021-22	2020-21	36,800	36,000 ¹	72,800

3. On ₹ 2,00,000 @ 12% for 3 months

Test Yourself

- As on 1/1/2019, Mr. Fantoosh borrowed ₹ 5,00,000 @ 10% p.a. from State Bank of India, to be repaid in two equal installments on 1/4/2024 and 1/4/2028. Construction completed on 17/6/2022. Due to liquidity problem, he borrowed ₹ 3,50,000 @ 8% from his friend on 1/4/2024 and paid 1st installment of previous loan. Calculate interest on loan allowed for assessment year 2025-26.

2.2.8 Self-occupied property / Unoccupied Property [Sec. 23(2)]

As per sec. 23(2)(a), a house property shall be termed as self occupied property where such property or part thereof :

- ⦿ is in the occupation of the owner for the purposes of his own residence;
- ⦿ is not actually let out during the whole or any part of the previous year; and
- ⦿ no other benefit there from is derived by the owner.

Where an assessee has a residential house (kept for self-occupation) and it cannot actually be occupied by the owner owing to his employment, business or profession carried on at any other place and hence he has to reside at that place in a building not belonging to him, such house shall be termed as unoccupied property.

Treatment : The annual value of such house or part of the house shall be taken to be nil.

If an assessee occupies more than **two** house properties as self-occupied, he is allowed to treat only two houses as self-occupied at his option. The remaining self-occupied house property(ies) shall be treated as 'Deemed to be let out'. [Treatment of 'deemed to be let out' property is discussed later in this chapter.]

Taxpoint : In the light of the above provision :

Combination	Treated as
Fully self occupied	Self occupied property
Partly self occupied & partly vacant	Self occupied property
Partly self occupied & partly let out	Partly self occupied & partly let out (discussed later)
Partly self occupied & partly use for business purpose	Self occupied to the extent used for self occupation

Note :

Available to	Benefit u/s 23(2)(a) can be claimed by an Individual and HUF. The benefit is not available to other assessee like company, firm, etc.
When owner want to change his option	It is not necessary that once a house property is treated as self-occupied it shall be continuously treated as self-occupied. Such option may be changed every year without any permission.
When owner occupies a house in some other capacity	When the assessee occupies his house but not in the capacity of owner then benefit under this section cannot be claimed. E.g. Owner let out the house to his employer & gets back the property as rent free accommodation. In such case, though the owner himself occupies the property but as an employee of the tenant & not as an owner. In such case, property shall be treated as let-out & not self-occupied.
When more than one house property used in a combined form	If an assessee has a house property, which consist of two or more residential units & all such units are self-occupied used in a combined form, the annual value of the entire house shall be taken as nil as there is only one property, though it has more than one residential unit.

Computation of taxable income of self-occupied property

Net annual value of self-occupied property shall be taken as nil. As a consequence, deduction u/s 24(a) (standard deduction) shall also be nil. Interest on loan u/s 24(b) shall be allowed, subject to certain ceiling.

Computation at a glance :

Particulars	Amount
Net Annual Value	Nil
Less : Interest on borrowed capital u/s 24(b) [Available only if assessee opt for old regime]	***
Income from house property	(***)
Standard deduction u/s 24(a) is not available	

Net Annual value :

Net Annual value of two self-occupied house properties, at the choice of the assessee, is taken as nil. He can choose those house properties as self-occupied through which tax liability can be reduced.

Normally (but not always) house property with higher gross annual value is treated as self-occupied property but it is advised to calculate total income under the head 'Income from house property' by applying each option separately and then choose the option which reduces total income.

Interest on loan u/s 24(b) [Available only if assessee opts for old regime]

Interest on loan taken for construction, acquisition, repair, renovation or extension is allowed according to the following table :

Conditions	Maximum Interest allowed in aggregate
Where loan is taken on or after 1/4/1999 and following conditions are satisfied - 1. Loan is utilized for construction or acquisition of house property on or after 1-4-1999; 2. Such construction or acquisition is completed within 5 years from the end of the financial year in which the capital was borrowed; and 3. The lender certifies that such interest is payable in respect of the loan used for the acquisition or construction of the house or as refinance of the earlier loan outstanding (principal amount) taken for the acquisition or construction of the house.	₹ 2,00,000
In any other case	₹ 30,000
Taxpoint : In any case, deduction in respect of interest on loan on self-occupied properties cannot exceed ₹ 2,00,000 in a year.	

Notes :

- Calculation and deduction of interest for the period of pre and post-construction, acquisition, etc. is same as discussed in the case of let out house property.
- Assessee shall always have nil income or loss upto ₹ 2,00,000 from properties u/s 23(2)(a).

In nutshell, treatment of interest on loan is as under :

Nature of property	When loan was taken	Purpose of loan	Allowable (Maximum limit) ^{2,3}
Self-occupied	On or after 01/04/1999	Construction or purchase of house property ¹	₹ 2,00,000
Self-occupied	On or after 01/04/1999	For Repairs of house property	₹ 30,000
Self-occupied	Before 01/04/1999	Construction or purchase of house property	₹ 30,000
Self-occupied	Before 01/04/1999	For Repairs of house property	₹ 30,000
Let-out	Any time	Construction or purchase of house property	No maximum limit

1. Subject to other two other conditions. If other two conditions are not fulfilled, then maximum limit is restricted to ₹ 30,000.
2. Including interest for pre-construction period.
3. Aggregate limit for all house properties treated as self-occupied.

Solution :

Sri Jayram has a house property used for own residence for 9 months and for remaining 3 months of the previous year, it was unused. Gross Municipal value of the property ₹ 6,00,000 p.a. Fair Rent ₹ 5,00,000, Standard Rent ₹ 4,00,000. He incurred repair expenditure of ₹ 10,000 & paid municipal tax ₹ 5,000 during the year. Compute income from house property in the following cases for the A.Y. 2025-26 (assuming he has opted for the old regime):

1. He borrowed ₹ 1,00,000 @ 12% (simple interest) on 17/8/1998 for purchase of the house property and such amount as well as interest is still unpaid.
2. He borrowed ₹ 10,00,000 @ 12% (simple interest) on 17/8/1998 for purchase of the house property and such amount as well as interest is still unpaid.
3. He borrowed ₹ 5,00,000 @ 12% (simple interest) on 17/8/1999 for construction of the house property, construction of which was completed on 31/3/2000 and such amount is still unpaid.
4. He borrowed ₹ 20,00,000 @ 18% (simple interest) on 17/8/1999 for construction of the house property, construction of which was completed on 31/3/2000 and such amount is still unpaid.
5. He borrowed ₹ 1,80,000 @ 15% on 1/4/1998 and further borrowed ₹ 10,00,000 @ 10% on 17/8/1999 for construction of the house property and such amount is still unpaid. Construction completed on 1/2/2000.
6. He borrowed ₹ 5,00,000 @ 12% on 1/4/2001 for repairs of the house property.
7. He borrowed ₹ 1,80,000 @ 15% on 1/4/1998 and further borrowed ₹ 20,00,000 @ 14% on 17/8/1999 for construction of the house property and such amount is still unpaid. Construction completed on 1/2/2000.

Solution :

Computation of income from house property in different cases :

Particulars	Case 1	Case 2	Case 3	Case 4	Case 5	Case 6	Case 7
Net Annual Value	Nil	Nil	Nil	Nil	Nil	Nil	Nil
Less : Deduction u/s 24(b) Interest on Loan	12,000	30,000	60,000	2,00,000	1,27,000	30,000	2,00,000
Income from House Property	(12,000)	(30,000)	(60,000)	(2,00,000)	(1,27,000)	(30,000)	(2,00,000)
Notes	-	1	2	3	4	5	6

Notes :

- As loan was taken before 1/4/1999 hence, the maximum ceiling is ₹ 30,000.
- As loan was taken on or after 1/4/1999 for the construction of house property, which is completed within 5 years from the end of financial year in which such loan was taken, hence the maximum ceiling is enhanced to ₹ 2,00,000. It is assumed that required certificate has been furnished.
- Maximum ceiling is ₹ 2,00,000.
- If loan was taken before 1/4/1999 as well as on or after 1/4/1999 then the total interest allowed in aggregate cannot exceed ₹ 2,00,000. However, the limit for interest allowed in respect of loan taken prior to 1/4/1999 shall be ₹ 30,000. Since the first loan is taken on 1/4/1998 and construction completed on 1/2/2000. Hence the pre-construction period is 1998-99, for which interest ₹ 27,000 (i.e. ₹ 1,80,000 * 15%) shall be allowed in 5 equal installments i.e. ₹ 5,400 every year. However, such pre-construction period interest is allowed only for 5 years i.e. from 1999-2000 to 2003-2004, therefore such interest shall not be allowed in subsequent year. Total eligible interest on first loan is ₹ 27,000 (i.e. Pre-construction period interest Nil + Post construction period interest ₹ 27,000). Further eligible interest on second loan is ₹ 1,00,000 (i.e. 10% of ₹ 10,00,000). Hence the total allowable interest u/s 24(b) shall be ₹ 1,27,000.
- The enhanced limit is only for construction or acquisition of house property, here the loan is taken for repair purpose for which maximum ceiling is ₹ 30,000.
- If loan was taken before 1/4/1999 as well as on or after 1/4/1999 then the total interest allowed in aggregate cannot exceed ₹ 2,00,000. However, the limit for interest allowed in respect of loan taken prior to 1/4/1999 shall be ₹ 30,000. Since the first loan is taken on 1/4/1998 and construction completed on 1/2/2000. Hence the pre-construction period is 1998-99, for which interest ₹ 27,000 (i.e., ₹ 1,80,000 * 15%) shall be allowed in 5 equal installments i.e. ₹ 5,400 every year. However, such pre-construction period interest is allowed only for 5 years i.e. from 1999-2000 to 2003-2004, therefore such interest shall not be allowed in subsequent years. Total eligible interest on first loan is ₹ 27,000 (i.e., Pre-construction period interest Nil + Post construction period interest ₹ 27,000), i.e. within the ceiling of ₹ 30,000. Further eligible interest on second loan ₹ 2,80,000 (i.e. 14% of ₹ 20,00,000). However, the total ceiling of interest in case of self occupied property cannot exceed ₹ 2,00,000, hence the total allowable interest u/s 24(b) shall be ₹ 2,00,000.

Illustration 53 : [Rent free accommodation –vs.- Self occupied house property]

Miss Anjali owns a house property, which is let out, to her employer company for a monthly rent of ₹ 20,000. The company allotted the same house to Miss Anjali as rent-free accommodation. Municipal tax paid ₹ 20,000, interest on loan paid ₹ 90,000. Comment on tax treatment under the head income from house property.

Solution :

Though Miss Anjali owns the house and uses it for self-occupation as well, still she cannot treat the said house property as self occupied. This is because she uses the property not as an owner but as an employee.

Hence, rent received by her from the employer shall be taxable as under :

Particulars	Details	Amount
Gross Annual Value (20,000 × 12)		2,40,000
Less : Municipal tax		20,000
Net Annual Value		2,20,000
Less : Deduction u/s		
24(a) Standard deduction	66,000	
24(b) Interest on loan	90,000	1,56,000
Income from house property		64,000

Note: Since the assessee receives the benefit of rent-free accommodation hence she will be further taxed under the head 'Salaries' for perquisite being rent-free accommodation.

2.2.9 Deemed to be let-out house property [Sec. 23(4)]

Where the assessee occupies more than two house properties as self-occupied or has more than two unoccupied properties, then for any two of them, benefit u/s 23(2) can be claimed (at the choice of the assessee) and remaining property or properties shall be treated as 'deemed to be let out'.

Treatment :

1. Gross Annual value: Since assessee does not let out such property & do not receive rent, therefore GAV will be determined from Step 1 only. Step 2, 3 & 4 of calculation GAV are irrelevant.

Taxpoint : GAV of deemed to be let out property will be the 'Reasonable expected rent (RER)' of the property.

2. Municipal taxes and deduction u/s 24(a) and 24(b) shall be available as in the case of let out house property.

2.2.10 Partly self-occupied and partly let-out [Sec. 23(3)]

Where a house or part of the house, which is self-occupied, is let out during any part of the previous year, such property is termed as ‘Partly self-occupied and partly let out’. Further, such division may be made in the following ways :

1) Area wise division

2) Time wise division

3) Area as well as Time wise division

Case 1) Area wise Division

In this case, a house property consists of two or more independent units and one or more of which are self-occupied and remaining units are let out.

Treatment :

- ⦿ Self-occupied portion & let out portion shall be treated as two separate house (i.e. Unit A & Unit B);
- ⦿ Common value like municipal value, fair rent, standard rent, municipal tax and interest shall be proportionately divided;
- ⦿ Income of both units shall be computed separately.

Illustration 55 :

Miss Paro has a house property having two separate residential units (unit A covering 40% of total area and unit B covering 60% of the total area). Unit A is self-occupied by the assessee and unit B is let out to Sri Devdas for a monthly rent of ₹ 3,000. With the following further information, compute her taxable income from house property (Assume that he has opted for the old regime) :

Municipal Value	₹ 1,00,000	Municipal Tax	10%
Fair Rent	₹ 1,20,000	Interest on Loan	₹ 30,000
Standard Rent	₹ 2,00,000	Annual charge	₹ 5,000

Solution :

	Municipal Value	40:60	40,000	60,000
	Fair Rent	40:60	48,000	72,000

2.	ARR	₹ 3,000 * 12	-	36,000
3.	Gross Annual Value	Higher of Step 1 & 2	-	72,000

(Case 2) Time wise division - In such case, the house property is self occupied by the assessee for a part of the year and let out for remaining part of the year.

Treatment :

In such case, assessee will not get deduction for the self-occupied period and income will be computed as if the property is let out throughout the year. In this regard, it is to be noted that the reasonable expected rent (RER) shall be taken for the full year but the actual rent receivable (ARR) shall be taken only for the let-out period.

Illustration 56 :

Mr. Rana used his house property for self-occupation till 1/8/2024 and let out the same for remaining period for rent of ₹ 6,000 p.m. Compute his income from house property from the following details:

Municipal value ₹ 1,00,000, Fair Rent ₹ 80,000, Standard Rent ₹ 96,000, Municipal tax 16%, Interest on loan ₹ 10,000 [Assume that he has opted for old regime].

Solution :

Solution :

Computation of Income from house property of Mr. Rana for the A.Y. 2025-26 :

Particulars	Working	Details	Amount
Municipal Value		1,00,000	
Fair Rent		80,000	
Standard Rent		50,000	
Reasonable Expected Rent	Higher of MV & FR (RER cannot exceed SR)	50,000	
Actual Rent Receivable	₹ 6,000 * 8	48,000	
Higher of RER and ARR		50,000	
However, ARR is less than RER due to vacancy period [otherwise ARR would have been ₹ 54,000 (being ₹ 6,000 * 9)] therefore ARR shall be treated as GAV.			
Gross Annual Value			48,000
Less : Municipal Tax	16% of MV		16,000
Net Annual Value			32,000
Less : Deduction u/s

Illustration 58 :

Miss Rani used her house property for self-occupation till 1/9/2024 and let out the same for remaining period for rent of ₹ 6,000 p.m. Municipal tax paid ₹ 5,000, interest on loan accrued ₹ 10,000. Compute her taxable income from house property.

Solution :

Computation of income from house property of Miss Rani for the A.Y. 2025-26 :

Steps	Particulars	Working	Details	Amount
	Fair Rent (Note)	₹ 6,000 * 12	72,000	
1.	Reasonable Expected Rent	Fair Rent	72,000	
2.	Actual Rent Receivable	₹ 6,000 * 7	42,000	
3.	Gross Annual Value	Higher of RER and ARR		72,000
	Less : Municipal Tax			5,000
	Net Annual Value			67,000
	Less : Deduction u/s			
	24(a) Standard Deduction	30% of NAV	20,100	
	24(b) Interest on Loan		10,000	30,100
	Income from house property			36,900

Note : Since the property has been let out for 7 months @ ₹ 6,000 p.m., therefore fair rent of the property is ₹ 72,000 (being ₹ 6,000 × 12).

Case 3) Area as well as Time wise Division

Merger of Case 1 and Case 2

Illustration 59 :

Mr. Ajnabi has a house property in Cochin. The house property has two equal dimension residential units. Unit 1 is self occupied throughout the year and unit 2 is let out for 9 months for ₹ 10,000 p.m. and for remaining 3 months it was self-occupied. Compute his taxable income from the following details assume that he has opted for the old regime :

Municipal value ₹ 2,00,000, Fair Rent ₹ 1,60,000, Standard rent ₹ 3,00,000, Municipal tax 10% (60% paid by assessee), Interest on loan ₹ 40,000, Expenditure on repairs ₹ 20,000.

Solution :

Working

1. Computation of Gross Annual Value (GAV)

Particulars	Working	Unit 1	Unit 2
Municipal Value	1:1	1,00,000	1,00,000
Fair Rent	1:1	80,000	80,000
Standard Rent	1:1	1,50,000	1,50,000
Reasonable Expected Rent	Higher of MV & FR (RER cannot exceed SR)	Nil	1,00,000
Actual Rent Receivable	₹ 10,000 * 9	-	90,000
Gross Annual Value	Higher of Step 1 & 2	Nil	1,00,000

2. Municipal tax = 10% of ₹ 2,00,000 = ₹ 20,000 being divided in the ratio 1:1 between Unit 1 and Unit 2. Out of such Municipal tax only 60% is paid, therefore, Municipal tax allowed as a deduction in case of Unit 2 is only ₹ 6,000 [i.e. ₹ 20,000 * ½ * 60%].
3. Interest on loan is divided in unit A and unit B in 1:1 as both units are of equal dimension.

2.2.12 Recovery of Unrealized Rent and Arrears Rent [Sec. 25A]

Applicability

The assessee has received arrears of rent received from a tenant or the unrealised rent realised subsequently from a tenant

Tax Treatment :

The amount so received shall be taxable under the head 'Income from house property' in the year of receipt after deducting standard deduction @ 30% of such amount.

Arithmetically, taxable amount shall be -

$$70\% \times [\text{Recovery of Arrear Rent or Unrealised Rent}]$$

Taxpoint :

- No other deduction shall be allowed from such income except standard deduction i.e. 30% of such receipt. (even legal expenditure shall not be allowed as deduction)
- The income is taxable on cash basis.

Note : Such receipt shall be chargeable as income from house property although the assessee is not the owner of such property in the year of receipt.

Illustration 60 :

Mr. Lucky Ali owns a house property let out since 1/4/2020 to a school for monthly rent of ₹ 10,000. There was no change in rent till 31/3/2024. On 1/4/2024, as per court decision rent was increased to ₹ 12,000 p.m. with retrospective effect from 1/4/2022 and duly paid by school in the same year. Legal expenditure for such suit has been incurred by Mr. Ali ₹ 30,000. Discuss tax treatment u/s 25A.

Solution :

Arrears rent belongs to the period 1/4/2022 to 31/3/2024 i.e., for 24 months.

Arrears rent received = ₹ 2,000 × 24 months = ₹ 48,000

Such rent is taxable in the year of receipt as under :

Particulars	Amount
Arrears of rent received	48,000
Less : Standard deduction u/s 24(a) equal to 30% of such rent	14,400
Income from house property u/s 25A	33,600

Note: Legal expenditure is not deductible.

Illustration 61 :

X Ltd. has two residential house properties both of which are vacant. Municipal value of 1st house property is ₹ 1,00,000 and that of 2nd is ₹ 80,000. It has computed income from house property as under :

Less : Standard deduction u/s 24(a) @ 30% of NAV	24,000	56,000
Income from house property		56,000

Do you agree with the computation of income from house property of the assessee.

Solution :

Profits and Gains of Business or Profession

2.3

2.3.1 Meaning of Business & Profession

Business [Sec. 2(13)]

Business includes –

- ⦿ any trade, commerce or manufacture; or
- ⦿ any adventure or concern in the nature of trade, commerce or manufacture.

Generally, business means recurring economic activity, but for income tax purpose an isolated activity may be termed as business depending upon facts and circumstances. Following elements shall be considered to judge a transaction as business transaction:

- Nature of commodity
- Intention of the party
- Efforts applied in transaction
- Periodicity of transaction
- Nature of transaction (whether incidental to a business or not)

Profession [Sec. 2(36)]

Profession includes vocation. Profession requires purely intellectual skill or manual skill on the basis of some special learning and qualification gathered through past training or experience e.g. chartered accountant, doctor, lawyer etc. Professional skill can be acquired only after patient study (in a particular system either a college, university or institute) and application (i.e. experience)

Vocation implies natural ability of a person to do some particular work e.g. singing, dancing, etc. The term “vocation” is different from the term “hobby”. Vocation must have the earning feature. It can be treated as an earning means by which a man passes his life. Unlike profession, vocation does not require a degree or special learning.

Notes

1. **Profit Motive:** If the motive of an activity is pleasure only, it shall not be treated as business activity.
2. **Business vs Profession:** An income arising out of trade, commerce, manufacture, profession or vocation shall have the same treatment in Income tax Act. However, a little segregation is required to be made between business and profession while applying sec. 44AA, sec. 44AB, sec. 40AD, sec. 44ADA, etc. (discussed later in this chapter).

2.3.2 Income chargeable under the head Profits & gains of business or profession [Sec. 28]

Sec. 28 enlists the incomes, which are taxable under the head ‘Profits & gains of business or profession’:

1. **Profits & gains of any business or profession [Sec. 28(i)]:** Any income from business or profession including income from speculative transaction shall be taxable under this head.

2. **Compensation to Management agency [Sec. 28(ii)]:** Any compensation/other payment due to or received -

By	In connection with
Any person managing the affairs of an Indian company Any person managing the affairs of any company in India	Termination or modification of terms and conditions of his appointment
Any person holding an agency in India for any part of the activities relating to the business of any other person	Termination of agency or the modification of terms and conditions in relation thereto
Any person	The vesting in the Government or in any corporation owned/controlled by the Government, of the management of any property or business.

3. **Income of trade or professional association's [Sec. 28(iii)]:** Income derived by a trade, professional or similar association from rendering specific services to its members shall be taxable under this head.

Note: This is an exception to the general principle that a surplus of mutual association cannot be taxed.

4. **Export incentive [Sec. 28(iiiia) (iiib) & (iiic)]:** An export incentive in form of -

- Profit on sale of import license or duty entitlement pass book. [Sec. 28(iiiia)/(iiid)/(iiie)]
- Cash assistance received/receivable by an exporter under a scheme of the Government of India [Sec. 28(iiib)]
- Duty draw back (received/receivable) for export e.g. duty drawback, etc. [Sec. 28(iiic)]

5. **Perquisite from business or profession [Sec. 28(iv)]:** The value of any benefit or perquisite arising from business or the exercise of a profession, whether:

- a. convertible into money or not; or
- b. in cash or in kind or partly in cash and partly in kind

Examples: If an authorized dealer of a company receives a car (over and above his commission) from the company on achieving sale-target then market value of such car shall be taxable under the head 'Profits & gains of business or profession'.

6. **Remuneration to partner [Sec. 28(v)]:** Any interest salary, bonus, commission or remuneration received by a partner from the firm (or Limited Liability Partnership) shall be taxable as business income in the hands of the partner to the extent allowed in hands of firm (or Limited Liability Partnership) u/s 40(b).

- not carrying out any activity in relation to any business or profession; or
- not sharing any know-how, patent, copyright, trade mark, licence, franchise or any other business or commercial right of similar nature or information or technique likely to assist in the manufacture or processing of goods or provisions for services.

Exceptions: The aforesaid provision is not applicable in respect of the following:

 - in any manner whatsoever connected with the business of the first mentioned person.
- and includes such policy which has been assigned to a person, at any time during the term of the policy, with or without any consideration
9. **Conversion of stock into capital asset [Sec. 28(via)]:** The fair market value of inventory as on the date on which it is converted into, or treated as, a capital asset. (Discussed later in the chapter)
10. **Recovery against certain capital assets covered u/s 35AD [Sec. 28(vii)]:** Any sum received or receivable (in cash or kind) on account of any capital asset (other than land or goodwill or financial instrument) being demolished, destroyed, discarded or transferred, if the whole of the expenditure on such capital asset has been allowed as a deduction u/s 35AD (Discussed later in this chapter).

General Points

1. **Chargeability:** As per sec. 145(1), income chargeable under the head “Profits & gains of business or profession” or “Income from other sources”, shall subject to the provision of sec. 145(2), is to be computed in accordance with the method of accounting (i.e. either on cash or on accrual basis) regularly followed by the assessee. However, there are certain expenditures specified u/s 43B, which shall be deductible only on cash basis.

As per sec. 145(3), where the Assessing Officer is not satisfied about the correctness or completeness of the accounts of the assessee, or has not been regularly followed by the assessee, or income has not been computed in accordance with the notified standards, the Assessing Officer may make an assessment in the manner provided u/s 144 i.e. Best Judgment Assessment.

2. **Speculative transaction:** Explanation 2 to section 28 specifically provides that where an assessee carries on speculation business, that business of the assessee must be deemed as distinct and separate from any other business.

Taxpoint

- Speculative transaction means a transaction in which contract for purchase and sale of any commodity including stock and shares, is periodically or ultimately settled otherwise than by the actual delivery or transfer of the commodity or scripts. [Sec. 43(5)]
- Further, as per explanation to sec. 73, where any part of the business of a company consists of purchase and sale of shares of other companies, such company shall be deemed to be carrying on speculation business to the extent of purchase and sale of shares. However, this rule is not applicable in case of companies -

- a) of which gross total income mainly consists of income which is chargeable under the head “Income from house property”, “Capital gains”, and “Income from other sources”; or
- b) of which principal business is the business of trading in shares or banking or granting of loans and advances.

Above explanation covers only transactions of purchase and sale of shares. Debentures, units of UTI or of Mutual Funds are not covered by this explanation.

Transactions not deemed to be speculative transactions

1. Hedging Contract:

- Contracts in respect of raw materials or merchandise entered into by a person in the course of his manufacturing or merchanting business to guard against loss through future price fluctuations in respect of his contracts for actual delivery.
- Contracts in respect of stocks and shares entered into by a dealer or investor in stocks and shares to guard against loss in his holdings through price fluctuations.
- Contracts entered into by members of forward markets and stock exchanges in the course of any transactions in the nature of jobbing or arbitrage to guard against losses which may arise in the ordinary course of their businesses

2. **Derivative Trading:** An eligible transaction in respect of trading in derivative referred to in sec.2(ac) of the Securities Contracts (Regulation) Act, 1956 carried out in a recognised stock exchange shall not be treated as speculative transaction. Similarly, an eligible transaction in respect of trading in commodity derivatives carried out in a recognised stock exchange (and liable for Commodities Transaction Tax in case of trading in commodity derivatives other than agricultural commodity derivatives) shall not be treated as speculative transaction.

However, in respect of trading in agricultural commodity derivatives, the requirement of chargeability of commodity transaction tax is not applicable.

3. **Negative income:** Income includes negative income i.e. loss.
4. **Notional profit:** A person cannot do business with himself, hence notional profit is not taxable. E.g. If proprietor withdraws goods costing ₹ 10,000 for personal use at an agreed value of ₹ 12,000 then profit of ₹ 2,000 shall not be taxable.
5. **Anticipated profit or loss:** Anticipated or potential profit or loss, which may or may not arise in future are not considered for deriving taxable income.
6. **Legality of business:** There is no difference between legal or illegal business from income tax point of view. Even income of illegal business shall be taxable. However, expenditure incurred by an assessee for any purpose which is an offence or which is prohibited by law would not be allowable as deduction while computing profits of such business
7. **Voluntary receipts:** Voluntary payment made by persons who were under no obligation to pay anything at all would be income in the hands of the recipient, if they were received in the course of a business or by the exercise of a profession or vocation.
8. **Compilation of income of all business or profession:** If an assessee carries on several business or profession, then income from all business or profession shall be merged together.
9. **Business or profession must be carried on during the previous year.** Income is chargeable under the head “Profits & gains of business or profession” only if the business is carried on by the assessee during the previous year. It is not necessary that the business should continue throughout the year or till the end of previous year.

Exceptions

However, in the following cases, income may be charged under the head Profits & gains of business or profession even though the business is not carried on during the previous year:

Sections	Details
176(3A)/(4)	<p>Applicability: Where any business or profession is discontinued in any year and any sum received after the discontinuance.</p> <p>Treatment: The sum so received shall be deemed to be the income of the recipient & charged to tax accordingly in the year of receipt, if such sum would have been included in the total income of the person who carried on the business had such sum been received before such discontinuance</p>
*41(1)	Recovery of any amount earlier allowed as deduction
*41(2)	Balancing charge in case of power sector unit
*41(3)	Sale of an asset used for scientific research
*41(4)	Bad debt recovery which was earlier allowed as deduction
*41(4A)	Amount withdrawn from a reserve created u/s 36(1)(viii)
* Discussed later in this chapter	

2.3.3 Incomes not taxable under the head Profits and gains of business or profession

Following incomes are though in the nature of profits and gains of business or profession, shall not be taxable under this head:

- Rent from residential house property** is taxable u/s 22 under 'Income from house property' even though -
 - the assessee is engaged in the business of letting out properties on rent; or
 - such property is held as stock in trade
- Dividend on shares** is taxable u/s 56(2)(i) under the head 'Income from other sources' even though the assessee deals in shares and such shares are held as stock in trade. The provision is not applicable in case of interest on securities held as stock in trade.
- Winning from lotteries, races etc.** are taxable under the head 'Income from other sources' even if such income is derived through regular business activity.

Treatment of lottery ticket held as stock in trade: However, where an assessee deals in lottery tickets and some of the lottery tickets remained unsold, any winning from such unsold lottery ticket shall be treated as incidental to business and taxed under the head 'Profits and gains of business or profession'

- Exempted income** by virtue of sec. 10, 11 or 13A.
- Sum taxable under the head 'Capital gains' for the purpose of sec. 28 (va)** shall not be taxable under this head. E.g. profit on sale of route permit shall not be taxable under the head 'Profits & gains of business or profession'.

2.3.4 Expenditures allowed as deduction

General Notes

1. **Capital -vs.- Revenue expenditure:** Capital expenditures are not allowed as deduction, unless & until expressly allowed whereas revenue expenditures are allowed as deduction until & unless expressly disallowed under the Income tax Act.
2. **Expenditure of non-assessable business:** Any expenditure of a non-assessable business is not allowed as deduction. For instance, expenditure for earning agricultural income is not allowed as deduction from income of an assessable business.
3. **Expenditure must relate to the business of the assessee:** Expenditure must have been incurred by the assessee for its business.

Note: In case where the assessee incurs expenditure for its own business, the mere fact that the benefit of such expenditure is enjoyed by some other person, cannot deny the admissibility of the expenditure.
4. **Anticipated loss or expenditure:** Subject to certain exceptions, no deductions are allowed for anticipated losses. *E.g.* provision for bad & doubtful debts.
5. **Notional expenditure:** No one can earn income from himself/herself. For instance, rent paid to a sole proprietor, salary to proprietor, interest on capital to proprietor, etc. are not income in the hands of the proprietor. Hence, it is not deductible from the income of business as expenditure.
6. **Onus to proof:** Onus to proof lies with the assessee. It is the responsibility of the assessee to prove that a particular expenditure is to be allowed as deduction in his case.

2.3.5 Specific Deductions

As per sec. 29, income under this head will be computed considering the provisions of sec. 30 to 43DB, which decides the admissibility of expenditures for computing income under this head.

2.3.6 Rent, rates, taxes, repairs & insurance for building [Sec. 30]

Rent, rates, taxes, repairs & insurance for premises used for the purpose of business or profession shall be allowed under this section. Points to be noted in this regard:

1. **Use of building:** The building is to be used for the purpose of business or profession. However, if the building is not exclusively used for the purpose of business or profession then deduction shall be restricted to a fair proportion of above expenditure which the Assessing Officer may determine [Sec. 38(2)].
2. **Notional Rent:** Rent paid to proprietor is disallowed but rent paid by firm to its partner for using his premises is an allowed expenditure.
3. **Current repair vs Capital repair:** Only current repairs are allowed as deduction. Capital repairs are not allowed as deduction whether the assessee occupies the building as a tenant or as a landlord.

Current repair (irrespective of the amount involved) means -

- a repair incurred to preserve and maintain an existing asset; and
- a repair which does not result in a new or fresh advantage.

Current repairs connote repairs which are attended to when the need for them arises and which are not allowed to be accumulated.

4. **Municipal taxes:** Rates & taxes (for e.g. land revenue, municipal tax, etc) are deductible on cash basis [Sec. 30 read with sec. 43B]

2.3.7 Repairs & insurance of machinery, plant & furniture [Sec. 31]

Repairs & insurance of plant, machinery & furniture are allowed as deduction. Points to be noted in this regard:

1. **Use of asset:** The asset must be used for the purpose of business or profession. However, if the asset is not exclusively used for the purpose of business or profession then deduction shall be restricted to a fair proportion of above expenditure, which the Assessing Officer may determine [Sec. 38(2)].
2. **Current repair vs Capital repair:** Only current repairs are allowed as deduction.
3. **Rent for furniture, plant or machinery:** Only repairs & insurance of machinery, plant & furniture is covered under this section. Rent paid for use of such assets is deductible u/s 37(1).

2.3.8 Depreciation [Sec. 32]

Sec. 32 provides for depreciation on -

Tangible assets	Building, Machinery, Plant and Furniture.
Intangible assets	Know how, Copyright, Trade Mark, Patent, Licence, Franchise, or any other business or commercial right of the similar nature acquired on or after 1/4/1998 However, it does not include goodwill

Conditions for claiming depreciation

Depreciation is allowed provided the following conditions are satisfied:

Condition 1: Asset must be owned by the assessee.	Condition 2: Asset must be used for the purpose of business or profession during the previous year.
Notes	
➤ Beneficial owner: Assessee need not be a registered owner, even a beneficial owner can claim depreciation.	➤ Passive use -vs.- Active use: Use includes active use as well as passive use. Active use means actual use of the property for the purpose of business or profession. Whereas passive use includes “ready to use”. It means, if a property was not actually used for business or profession but was ready to use in the previous year, in such case, assessee can claim depreciation on such assets
➤ Co-owner: In case of joint ownership, depreciation is allowed on proportionate basis.	
➤ Property acquired on hire purchase: In case of hire purchase, the buyer can claim depreciation even though he does not get legal title of the asset till he pays the last instalment.	➤ Partly used for business or profession: As per sec. 38, if an asset is partly used for business or profession and partly used for personal purpose, then proportionate depreciation (as determined by the Assessing Officer) shall be allowed.
➤ Capital expenditure on a property by the lessee: Where an assessee being a lessee of a property incurs any capital expenditure by way of improvement, extension, super construction, etc. on a building being used for his business or profession, he is entitled to depreciation in respect of such capital expenditure.	➤ House property let out to tenant for smooth running of the business: If an assessee lets out a property to his employee and where such letting-out supports smooth flow of his business, then rent received from employee shall be chargeable under the head “Profits & gains of business or profession” and such property shall be eligible for depreciation u/s 32. Similarly, where an assessee makes available his property to any Government agency for locating branch of a nationalized bank, police station, post office, tax office, railway staff quarters, etc. for the purpose of running the business of assessee more efficiently, then such letting out shall be deemed to be incidental to business and depreciation on such building shall be allowed u/s 32.
➤ Sec. 53A of Transfer of Property Act: Possessor of an immovable property u/s 53A of Transfer of Property Act can claim depreciation even though he is not the registered owner of the property.	

Method of computing depreciation (other than power units)

The method of computing depreciation as per Income tax Act is entirely different from accountancy method. For Income tax purpose, assets are categorised into Block of Assets.

Block of Assets [Sec. 2(11)]

Block of assets means a group of *assets of same nature*, in respect of which *same rate of depreciation* is charged. In other words, to fall in the same block, the following two conditions are to be satisfied:

- Assets must be of same nature;
 - Tangible assets being building, machinery, plant or furniture, and
 - Intangible assets, being know-how, patents, copy-rights, trade marks, licenses, franchises or any other business or commercial rights of similar nature acquired on or after 1-4-1998 (it does not include goodwill);
- Rate of depreciation on such asset must be same.

Method of Depreciation

Depreciation shall be allowed on written down value method at the rates prescribed.

Calculation of depreciation (at a glance)

Particulars	Amount
W.D.V of the block at the beginning of the previous year	***
Add: Assets (falling within the block) acquired during the previous year	***
	ABC
Less: Money payable* alongwith scrap value in respect of that asset (falling within the block) which is sold, discarded, demolished or destroyed during the previous year [^s subject to max. of ABC]	(DE) ^s
Written Down Value [[#] XYZ cannot be negative]	XYZ [#]
Less: Depreciation (as a % on XYZ)	(***)
Opening WDV for 1st day of next year	****

When depreciation is not charged

Depreciation is not charged in the following two cases:

1. When ‘DE’ (Sale proceeds) exceeds ABC, the excess shall be treated as short term capital gain.
2. When ‘XYZ’ (Value of block before depreciation) is positive but the block does not have any asset. In such case, such positive value shall be treated as short term capital loss.

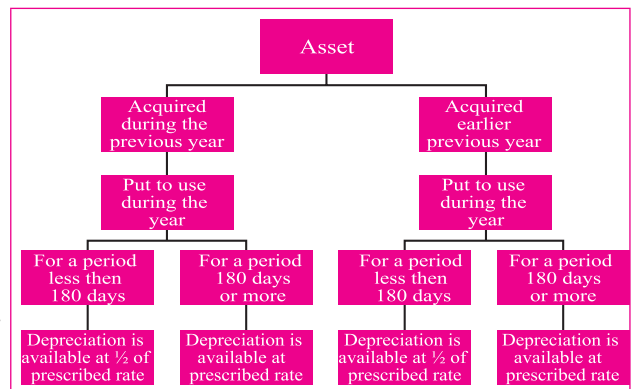

Significance of date of purchase (Effect of time on depreciation)

Where -

- a. an asset is acquired by the assessee during the previous year; and
- b. is put to use in the same previous year for less than 180 days,
 - the depreciation in respect of such asset is restricted to 50% of the normal depreciation.

Except above, date of purchase has no relevance.

Taxpoint: There is no significance of date of sale for computation of depreciation.

* As per explanation to sec. 41, money payable in respect of any building, machinery, plant or furniture includes:

(a) any insurance, salvage or compensation moneys payable in respect thereof;

(b) where the building, machinery, plant or furniture is sold, the price for which it is sold.

The word ‘money’ has to be interpreted only as actual money or cash, and not as any other thing or benefit which could be evaluated in terms of money [CIT -vs.- Kasturi & Sons Ltd. (SC).]

Gross amount shall be deducted, expenses on transfer may be allowed as deduction u/s 37(1).

Illustration 67:

Mr. X, a grower and manufacturer of tea, purchased machinery (15%) on 10-04-2022 for ₹ 10 lakh. He computed depreciation for A.Y. 2025-26 as given below; needs your comment on his working:

Particulars	Amount
Opening W.D.V. as on 1/4/2023	Nil
Add: Assets purchased during the year	10,00,000
	10,00,000
Less: Depreciation for the P.Y. 2023-24 [₹ 10,00,000 * 15% * 40%]	60,000
(As he is engaged in the business of growing and manufacturing tea; hence 60% is considered as part of agricultural income)	
Opening W.D.V. as on 1/4/2024	9,40,000
Less: Depreciation for the P.Y. 2024-25 [₹ 9,40,000 * 15% * 40%]	56,400
Opening W.D.V. as on 1/4/2025	8,83,600

Further, compute his business income for A.Y. 2024-25 assuming that his income before depreciation and without reducing element of agricultural income is ₹ 8,00,000/-

Solution :

The method of computation of depreciation followed by Mr. X is not correct as Expl. 7 to sec.43(6) provides that: “Where the income of an assessee is derived, in part from agriculture and in part from business chargeable to income-tax under the head “Profits and gains of business or profession”, for computing the written down value of assets acquired before the previous year, the total amount of depreciation shall be computed as if the entire income

is derived from the business of the assessee under the head “Profits and gains of business or profession” and the depreciation so computed shall be deemed to be the depreciation actually allowed under this Act.”

The correct computation of depreciation is as follow:

Particulars	Amount
Opening W.D.V. as on 1/4/2023	Nil
Add: Assets purchased during the year	10,00,000
	10,00,000
Less: Depreciation for the P.Y. 2023-24 [$\text{₹ } 10,00,000 * 15\%$] (Considering the entire income as taxable income)	1,50,000
Opening W.D.V. as on 1/4/2024	8,50,000
Less: Depreciation for the P.Y. 2024-25 [$\text{₹ } 8,50,000 * 15\%$]	1,27,500
Opening W.D.V. as on 1/4/2025	7,22,500

Computation of business income of Mr. X for A.Y. 2025-26

Particulars	Amount
Income before depreciation and without reducing element of agricultural income	8,00,000
Less: Depreciation	1,27,500
	6,72,500
Less: Agricultural Income being 60% of above	4,03,500
Profits and Gains of Business or Profession	2,69,000

2.3.9 Additional depreciation [Sec. 32(1)(iia)] Available only in Old Regime

An undertaking engaged in the business of generation or generation and distribution of power may charge depreciation (in respect of asset acquired after 31/3/1997) at its choice under -

- ⦿ Written-down value method as followed by all other assessee (usual); or
- ⦿ Straight-line method at the prescribed rate in 'Appendix IA' of the Income Tax Rules on actual cost of asset* (not the block value of asset)

However, such option shall be exercised before the due date of furnishing return of income. Further, it may be noted that once the option is exercised, it shall be applicable for all subsequent assessment years.

Note: Additional depreciation is not available to the assessee who claims depreciation as per Straight-Line Method.

Terminal Depreciation and Balancing Charge

Meaning	Terminal Depreciation Loss on transfer of such asset is treated as terminal depreciation. Taxpoint: <ul style="list-style-type: none"> ➤ Terminal depreciation = + ve value of [WDV of assets – (Sale value or Scrap value)] ➤ Terminal depreciation is written off in the books of accounts. 	Balancing Charge Profit on transfer of such asset to the maximum of accumulated depreciation shall be treated as balancing charge. The difference between sale price and actual cost shall be treated as capital gain. Taxpoint: Balancing Charge = - ve value of [WDV of assets – (Sale value + Scrap value)] However, balancing charge cannot exceed accumulated depreciation claimed on such asset.
Treatment	Terminal depreciation is fully allowed as deduction as a business loss.	As per sec. 41(2), balancing charge is fully taxable as <i>business income</i> in the previous year in which such income falls due. The provision holds good even if the business does not exist in that year.

During the previous year 2024-25, his business income before depreciation u/s 32 is ₹ 5,60,000. Since he is required to file his return of income for the assessment year 2025-26, he seeks your advice for computing depreciation. Please compute depreciation on his behalf assuming that:

Solution :

Computation of depreciation on car for the A. Y. 2025-26

Particulars	Amount
Cost of the car (Note 1)	3,25,000
Less: Depreciation @ 15% (Note 2)	48,750

Sec. 40 states that, notwithstanding anything to the contrary in sec. 30 to 38, certain amounts shall not be deducted in computing the income chargeable under the head “Profits & gains of business or profession”. Such provisions are discussed below:

Following expenditures are expressly disallowed **u/s 40(a)**:

a. **Interest, royalty, fees for technical services payable to a non-resident or outside India [Sec.40(a)(i)]**

Any interest, royalty, fees for technical services or other sum chargeable under this Act, which is payable,—

 - on which tax is deductible at source under Chapter XVIIIB; and
 - such tax -
- has not been deducted; or
- after deduction, has not been paid within the due date of submission of return of income u/s 139(1).

Taxpoint:

- Where in respect of any such sum, tax has been deducted in any subsequent year, or has been deducted during the previous year but paid after the due date of submission of return of income u/s 139(1), such sum shall be allowed as a deduction in computing the income of the previous year in which such tax has been paid.
- Where an assessee fails to deduct the whole or any part of the tax on any sum but is not deemed to be an assessee in default under the first proviso to sec. 201(1), then, it shall be deemed that the assessee has deducted and paid the tax on such sum on the date of furnishing of return of income by the payee.

Notes

1. Since the date of furnishing the return of income by the payee is taken to be the date on which the payer has deducted tax at source and paid the same, such expenditure/payment in respect of which the payer has failed to deduct tax at source shall be disallowed u/s 40(a)(i) in the year in which the said expenditure is incurred. However, such expenditure will be allowed as deduction in the subsequent year in which the return of income is furnished by the payee, since tax is deemed to have been deducted and paid by the payer in that year.
 2. He shall not be deemed as assessee in default under the first proviso to sec. 201(1) by reason that such payee:
 - a. has furnished his return of income u/s 139
 - b. has taken into account such sum for computing income in such return of income;
 - c. has paid the tax due on the income declared by him in such return of income; and
 - d. The payer furnishes a prescribed certificate to this effect from a chartered accountant
 3. Royalty shall have the same meaning as in sec. 9(1)(vi).

 Such tax:
- has not been deducted; or
 - after deduction, tax has not been paid on or before the due date of furnishing return of income

Notes :

1. Where such tax has been deducted in any subsequent year, or tax has been paid after the due date of furnishing return of relevant assessment year, then the amount disallowed earlier (i.e., 30% portion) shall be allowed as deduction in the following assessment year

Where such tax has been deducted in any subsequent year	Disallowed amount shall be allowed as a deduction in computing the income of the previous year in which such tax has been paid
Where such tax has been deducted in the relevant financial year but tax has been paid after the due date of furnishing return of relevant assessment year	

2. Where an assessee fails to deduct the whole or any part of the tax but is not deemed to be an assessee in default under the first proviso to section 201(1), then, it shall be deemed that the assessee has deducted and paid the tax on such sum on the date of furnishing of return of income by the resident payee.
 - ⦿ This relaxation is not available where the payer has deducted tax but fails to deposit such tax to the credit of the Central Government.
 - ⦿ As per first proviso to sec.201(1), the payer is not deemed as an assessee in default:
 - i. Such resident recipient has furnished his return of income u/s 139
 - ii. Such resident recipient has taken into account such sum for computing income in such return of income; and
 - iii. Such resident recipient has paid the tax due on the income declared by him in such return of income,
 - iv. The payer furnishes a prescribed certificate to this effect from a chartered accountant

* Circular No. 10/2013 dated 16-12-2013. However, some judicial authorities have held that the provision is applicable only on the amount which is payable on the last date of the relevant previous year and would not be invoked to disallow the amount which had actually been paid during the previous year without deduction of tax at source. Thus, the said circular is not operative in the area falling the jurisdiction of the relevant High Court.

3. Since the date of furnishing the return of income by the payee is taken to be the date on which the payer has deducted tax at source and paid the same, 30% of such expenditure/payment in respect of which the payer has failed to deduct tax at source shall be disallowed u/s 40(a)(ia) in the year in which the said expenditure is incurred. However, 30% of such expenditure will be allowed as deduction in the subsequent year in which the return of income is furnished by the payee, since tax is deemed to have been deducted and paid by the payer in that year.
4. Commission or brokerage includes any payment received or receivable by a person acting on behalf of another person for services rendered (not being professional services) or for any services in the course of buying or selling of goods or in relation to any transaction relating to any asset, valuable article or thing, not being securities.

Notes :

1. **No Deduction in respect of expenses:** The estimated income is comprehensive and no further deductions relating to expenses shall be allowed.
2. **Depreciation:** Depreciation is deemed to have been already allowed. The written down value of asset will be calculated, as if depreciation has been allowed.
3. **Deductions:** The above estimated income is aggregated with other income of the assessee, from any other business or under any other heads of income. Further deduction under chapter VIA (other than those mentioned above) shall be available to the assessee as usual.
4. **Brought forward loss:** Brought forward loss (if any) shall be subtracted from such estimated income as per provisions of this Act.
5. **Provision is not applicable [Sec. 44AD(4)]:** Where an eligible assessee:
 - a. declares profit for any previous year in accordance with the provisions of this section (i.e., specified percentage of the turnover); &
 - b. declares **lower** profit (i.e., less than specified percentage of the turnover) for **any** of the **5 assessment years** relevant to the previous year succeeding aforesaid previous,
 then, he shall not be eligible to claim the benefit of the provisions of this section for 5 assessment years subsequent to the assessment year relevant to the previous year in which he has declared lower profit.
 E.g. an assessee claims to be taxed on presumptive basis u/s 44AD for A.Y. 2024-25. For A.Y. 2025-26 and 2026-27, he offers income on the basis of presumptive taxation scheme. However, for A.Y. 2027-28, he did not opt for presumptive taxation Scheme. In this case, he will not be eligible to claim benefit of presumptive taxation scheme for next 5 A.Y.s, i.e. from A.Y. 2028-29 to 2032-33.
6. **Effect on the assessee if sec. 44AD(4) is applicable:** An assessee to whom provision of sec. 44AD(4) is applicable and whose total income exceeds the maximum amount which is not chargeable to tax (i.e., basic exemption limit), he shall be required:
 - To maintain books of account and other documents as required u/s 44AA; and
 - To get his accounts audited and furnish a report of such audit as prescribed u/s 44AB

In nutshell

The applicability of sec. 44AD and sec. 44AB are enumerated here in below:

Turnover of the assessee	Applicability of Sec. 44AD	Applicability of Tax Audit
Upto ₹ 1 crore	Yes	Not required even if income is not offered u/s 44AD provided he is not covered by sec. 44AD(4)
₹ 1 crore ⁺ - ₹ 2 crore	Yes	Not required if income is offered u/s 44AD, else required
₹ 2 crore ⁺ - ₹ 3 crore	Yes, subject to certain rider	Not required if income is offered u/s 44AD, else required
₹ 2 crore ⁺ (if conditions are not satisfied) / ₹ 3 crore ⁺ - ₹ 10 crore	No	Not required if certain conditions are satisfied
₹ 10 crore ⁺	No	Required

Illustration 83 :

X Co., a firm, is engaged in the business of trading of cloth (turnover of 2024-25 being ₹ 1,57,80,000, out of which ₹ 25,00,000 has been received in account payee cheque). It wants to claim the following deductions:

Particulars	Amount
Salary and interest to partners [as permitted by sec. 40(b)]	60,000
Salary to employees	4,90,000
Depreciation	2,70,000
Cost of materials used	1,20,90,000
Other expenses	13,45,000
Total	1,42,55,000
Net profit (₹ 1,57,80,000 – ₹ 1,42,55,000)	15,25,000

Determine the net income of X & Co. for the assessment year 2025-26 assuming that (i) taxable interest income is ₹ 90,000; (ii) Long term capital gain is ₹ 1,40,000; and (iii) the firm is eligible for a deduction of ₹ 15,000 under sec. 80G.

Solution :

Since turnover from business does not exceed ₹ 2 crore, hence sec. 44AD is applicable. However, income computed as per provision other than provision of sec. 44AD is less than estimated income, hence, the firm may be assessed for such lesser income provided following conditions are satisfied –

- Maintain books of account as prescribed u/s 44AA; and
- Get accounts audited u/s 44AB.

Where it maintains accounts and gets it audited

Computation of total income of X & Co. for the A.Y. 2025-26

Income from Other Sources: Interest Income	90,000
Gross Total Income	17,55,000
Less: Deduction u/s 80G	15,000
Total Income	17,40,000

It is assumed that all the expenditures are allowed.

- Deduction u/s 30 to 38:** The estimated income is comprehensive and no further deductions u/s 30 to 38 shall be allowed.
- Deduction u/s 40(b):** In the case of a firm, deduction in respect of remuneration and interest to partner u/s 40(b) shall be further deductible from income so computed.
- Depreciation:** Depreciation is deemed to have been already allowed. The written down value of asset will be calculated, as if depreciation has been allowed.

Illustration 84:

Mr. Sukhvinder is engaged in the business of plying goods carriages. On 1st April, 2024, he owns 10 trucks (out of which 6 are heavy good vehicles of (unladen weight of each is 20 ton)). On 2/5/2024, he sold one of the heavy goods vehicles & purchased a light goods vehicle on 6th May, 2024. This new vehicle could however be put to use only on 15-6-2024.

Compute the total income of Mr. Sukhvinder for the A.Y. 2025-26, taking note of the following data:

Particulars	Amount	Amount
Freight Charges collected		1,08,70,000
Less: Operational expenses	99,25,000	
Depreciation as per Sec. 32	1,85,000	
Other Office expenses	15,000	1,01,25,000
Net Profit		7,45,000
Other business and non-business income		70,000

Solution

Alternative 1) Direct estimation of income u/s 44AE

Vehicle	No. of vehicle	Details	Amount
Light	4	₹ 7,500 × 4 vehicles × 12 months	3,60,000
Heavy	5	₹ 1,000 × 5 vehicles × 12 months × 20 ton	12,00,000
Heavy	1	₹ 1,000 × 1 vehicle × 2 [#] months × 20 ton	40,000
Light	1	₹ 7,500 × 1 vehicles × 11 [#] months	82,500
Income from business of plying goods carriage			16,82,500
Add: Other business and non-business income			70,000
Total Income			17,52,500

[#] Income shall be calculated from the month when assessee acquired the property whether it has been put to use or not. For this purpose, any fraction of the month shall be considered as month.

Alternative 2) Computation of income as per the provision of sec. 28 to 38

Particulars	Amount	Amount
Freight charges collected		1,08,70,000
Less: Expenditure related to business		
Operational expenses	99,25,000	
Depreciation u/s 32	1,85,000	
Other office expenses	15,000	1,01,25,000
Income from business of plying goods carriage		7,45,000
Add: Other business and non-business income		70,000
Total Income		8,15,000

Since Mr. Sukhvinder has lower taxable income in alternative 2 hence his total income is ₹ 1,15,000. But to claim such lower income than the estimated income (computed in alternative 1) as per provision of section 44AE, he will have to —

- Maintain books of account as required u/s 44AA; and
- Get his accounts audited.

Taxpoint:

- A firm cannot have income under the head ‘Salaries’
- Registration of firm is not compulsory to assess a firm as such for income tax purpose.

Step 3: Add remuneration to partner, if debited to the Profit & Loss A/c

Step 4: Subtract unabsorbed depreciation but do not subtract brought forward business losses. The resultant figure is book profit.

Note: Due to subtraction of unabsorbed depreciation the residual profit should not be less than the brought forward losses, which are to be set-off in the current year.

Notes :

- Income from house property, Income from other sources and Capital gains do not form part of book profit.
- Deduction under chapter VIA (i.e. 80C to 80U) shall be ignored for this purpose.

2.4.5 Transfer [Sec. 2(47)]

Transfer in relation to a capital asset includes:

- Sale, Exchange & Relinquishment of the asset;
- Extinguishment of any right in an asset;
- Compulsory acquisition of an asset under any law;
- Conversion of asset into stock-in-trade by the owner;
- Any transaction of immovable property u/s 53A of the Transfer of Property Act, 1882;
- Any transaction which has the effect of transferring or enabling the enjoyment of any immovable property.
- Maturity or redemption of a zero coupon bond

Taxpoint:

- Above definition is indicative and not exhaustive
- Above definition is applicable only in relation to capital assets and not otherwise.
- *It also includes
 - disposing of or parting with an asset or any interest therein, or
 - creating any interest in any asset in any manner whatsoever, directly or indirectly, absolutely or conditionally, voluntarily or involuntarily, by way of an agreement (whether entered into in India or outside India) or otherwise, notwithstanding that such transfer of rights has been characterised as being effected or dependent upon or flowing from the transfer of a share or shares of a company registered or incorporated outside India.

Exchange

Exchange includes barter which means mutual transfer of ownership of one thing for the ownership of another

Notes: In case of exchange though there is only one transaction the tax liability arises on both the parties. The sale consideration shall be taken as the fair market value of assets received.

Relinquishment of the asset

Relinquish literally means ‘to withdraw from’ or ‘to abandon’ or ‘to give up any thing or any right’ or ‘to cease to hold’ or ‘to surrender’. Hence, relinquishment means act of surrendering. In other words, it means interest of a person in a property is either given up, abandoned, or surrendered but the property in which right is relinquished continues to exist

Taxpoint:

- Right of the assessee in the asset is given up or abandoned;
- Asset itself continues to exist after such relinquishment and becomes the property of someone else.
- There must be mutual consent of the parties. A unilateral action of writing off the claim in the books of account cannot be treated as relinquishment.

Extinguishment of any right in an asset

Extinguishment literally means ‘to put a total end to’ or ‘total destruction’ or ‘blot out of existence’ or ‘annihilation’. Extinguishment does not mean extinguishment of asset itself but to extinguishment of holder’s right to the asset and such right cannot be held by someone else

Incidences of extinguishments –

- **Reduction of share capital:** When a part of the share capital is paid to the shareholder by a company, such reduction of share capital shall be treated as extinguishment of proportionate right in the shares and such shareholder shall be liable to capital gain.

When there is a reduction of capital by a company and amounts are distributed to shareholder, such amount has two components –

- Distribution attributable to accumulated profits i.e. chargeable as deemed dividend u/s 2(22)(d);
- Distribution attributable to capital i.e. subject to tax u/s 45

* The Apex Court in the case of Vodafone International Holdings B.V. –vs.- UOI [2012] 204 Taxman 408 has held that the transfer of shares of the foreign holding company do not results in an extinguishment of the foreign company control of the Indian company and it also does not constitute an extinguishment and transfer of an asset situated in India. Transfer of the foreign holding company’s share off-shore, cannot result in an extinguishment of the holding company right of control of the Indian company nor can it be stated that the same constitutes extinguishment and transfer of an asset/ management and control of property situated in India.

To nullify the decision of the Apex Court, Finance Act, 2012 has inserted the said explanations w.r.e.f. 01-04-1962.

- Forfeiture of share:** Forfeiture or surrender of shares indicates extinguishment or relinquishment of right of shareholder in such shares, which have been forfeited by the company. As in CIT vs Vania Silk Mills Pvt. Ltd it was held that the term extinguishment includes all possible transactions which results in the destruction, annihilation, termination, cessation or cancellation of any right in an asset whether corporeal or incorporeal. Though there is no consideration in case of share forfeiture or surrender, still such transaction shall be treated as transfer and liable to capital gain.

Compulsory acquisition of an asset under any law

Normally, sale means a mutual will full agreement between two or more parties. But for the purpose of sec. 2(47), transfer includes compulsory acquisition of any property under any law in force.

Conversion of asset into stock in trade by the owner

Generally, a transfer requires two or more parties, but in Income tax Act even one party's involvement may constitute transfer. As per sec. 2(47)(iv) where an asset is converted by the owner into or treated by him as 'stock in trade' of the business carried on by him, such conversion or treatment shall constitute transfer.

Any transaction of immovable property u/s 53A of the Transfer of Property Act

Any transaction of immovable property in which possession is allowed against part performance of the contract shall be treated as transfer [Sec. 53A of the Transfer of Property Act, 1882].

Any transaction which has enabled the enjoyment of any immovable property

Any transaction which has the effect of transferring or enabling the enjoyment of any immovable property whether by way of becoming a member of, or acquiring shares in a co-operative society, company or other association of persons or by way of any agreement or any arrangement or in any other manner, is treated as transfer.

Property held by a member of a company, co-operative society or other association of persons to whom a building or a part thereof is allotted or leased under House Building Scheme of the company or association, is treated as deemed owner of that building or a part thereof.

Under the scheme of owning flats in co-operative housing societies, the legal ownership in the flats can be said to vest in the individual members themselves and not in the co-operative societies. Therefore for all purposes including attachment and recovery of tax, etc. the individual member should be regarded as the legal owner.

Taxpoint

- Assessee is a member of a company, co-operative society or other AOP.
- He has been allotted or leased a building on account of such membership.

The meaning of terms used in the computation:

i. Indexed cost of acquisition

“Indexed cost of acquisition” means the ‘cost of acquisition’ (as discussed in case of short term capital gain) adjusted according to the price level of the year of sale. As per explanation to sec.48, “Indexed cost of acquisition” is an amount which bears to the ‘cost of acquisition’ the same proportion as Cost Inflation Index for the year in which the asset is transferred bears to the Cost Inflation Index for the first year in which the asset was held by the assessee or for the year beginning on 1/4/2001, whichever is later.

$$\text{Taxpoint: Indexed cost of acquisition} = \text{Cost of acquisition} \times \frac{\text{Index of the year of transfer}}{\text{Index of the year of acquisition}}$$

ii. Indexed cost of improvement

“Indexed cost of improvement” means the ‘cost of improvement’ (as discussed in case of short term capital gain) adjusted according to the price level of year of sale. As per explanation to sec. 48, “indexed cost of any improvement” is an amount, which bears to the cost of improvement the same proportion as Cost Inflation Index for the year in which the asset is transferred bears to the Cost Inflation Index for the year in which the improvement to the asset took place

$$\text{Indexed cost of improvement} = \text{Cost of improvement} \times \frac{\text{Index of the year of transfer}}{\text{Index of the year of improvement}}$$

iii. Cost Inflation Index

Cost inflation index, in relation to a previous year, means such Index as the Central Government may, having regard to 75% of average rise in the Consumer Price Index (urban) for the immediately preceding previous year to such previous year, by notification in the Official Gazette, specify, in this behalf. Cost Inflation Index for different financial years is as follows:

2002-03	105	2012-13	200	2022-23	331
2003-04	109	2013-14	220	2023-24	348

2004-05	113	2014-15	240	2024-25	363
2005-06	117	2015-16	254		
2006-07	122	2016-17	264		
2007-08	129	2017-18	272		
2008-09	137	2018-19	280		
2009-10	148	2019-20	289		
2010-11	167	2020-21	301		

Note:

- Indexed cost of acquisition has to be ascertained with reference to the date of acquisition and not with reference to the date when such asset became a capital asset.
- Where an asset is acquired before 1/4/2001, then indexation benefit shall be available from the year 2001-02.

Indexation benefit on cost of acquisition	<p>Indexation benefit shall be available from the year when the assessee / previous owner first held the property.</p> <p>However, in case of CIT –vs.- Manjula J Saha 16 Taxmann 42 (Bombay), the Hon’ble Bombay High Court has held that index benefit is available from the year in which asset was acquired by the previous owner or for the year beginning on the 1st day of April, 1981 (now 2001), whichever is later.</p> <p>In our computation, we will follow the decision of the Hon’ble Court.</p> <p>Taxpoint: The index benefit is available only in case when long term capital asset is transferred before 23-07-2024 or a resident individual (or resident HUF) has opted for option 2 to pay tax on LTCG</p>

Mrs. Parminder has jewellery, being gifted on 1/04/2005 by her brother Jitendar. Jitendar acquired such asset for ₹ 60,000 as on 1/07/1995. On 1/07/2002, Jitendar has sewn a diamond worth ₹ 25,000 in such jewellery. On 1/04/2009, Mrs. Parminder incurred polish expenditure on such jewellery costing ₹ 5,000. As on 1/04/2024, Mrs. Parminder sold such jewellery for ₹ 12,00,000. Brokerage @ 1% of sale value was paid by her. The fair market value of the jewellery as on –

1/04/2001 is ₹ 2,00,000; 1/04/2005 is ₹ 5,00,000; and 1/04/2024 is ₹ 7,50,000.

Compute capital gain in hands of Mrs. Parminder for the A.Y. 2025-26.

How shall your answer differ, if she transferred such asset on 01-11-2024

Solution :

Computation of capital gain in the hands of Mrs. Parminder for the A.Y. 2025-26

Particulars	Working	Details	Amount
Sale consideration			12,00,000
Less: Expenses on transfer	1% of ₹ 12,00,000		12,000
Net sale consideration			11,88,000
Less: i) Indexed cost of acquisition	₹ 2,00,000 * 363/100	7,26,000	
ii) Indexed cost of improvement	₹ 25,000 * 363/105	86,429	8,12,429
Long Term Capital Gain			3,75,571

Notes:

- Fair market value as on 1/04/2005 and 1/04/2024 are irrelevant.
- Cost of acquisition shall be taken as cost of acquisition in the hands of the previous owner or fair market value as on 1/04/2001, whichever is higher. However, indexation benefit shall be available from the year in which the assessee acquired the property.
- Benefit of indexation in case of cost of improvement shall be available when the actual improvement expenditure was incurred.
- Polish expenditure on jewellery does not amount to improvement as such expenditure is not a capital expenditure and does not increase value of the asset.

When such capital asset has been transferred on or after 23-07-2024

Computation of capital gain in the hands of Mrs. Parminder for the A.Y. 2025-26

Particulars	Working	Details	Amount
Sale consideration			12,00,000
Less: Expenses on transfer	1% of ₹ 12,00,000		12,000
Net sale consideration			11,88,000
Less: i) Cost of acquisition		2,00,000	
ii) Cost of improvement		25,000	2,25,000
Long Term Capital Gain			9,63,000

Notes:

- Fair market value as on 1/04/2005 and 1/04/2024 are irrelevant.
- Cost of acquisition shall be taken as cost of acquisition in the hands of the previous owner or fair market value as on 1/04/2001, whichever is higher.
- Polish expenditure on jewellery does not amount to improvement as such expenditure is not a capital expenditure and does not increase value of the asset.

In nutshell

1. If an asset is acquired before 1/04/2001 then its cost of acquisition will be higher of a) Actual cost of acquisition or b) Fair market value of the asset as on 1/04/2001.
2. Any cost of improvement before 1/04/2001 shall not be considered.
3. In order to find out whether an asset is short term or long term capital asset, the period of holding of previous owner shall be considered

Cases where indexation benefit is not available even on transfer of long term capital asset

ii) Cost of improvement		Nil	1,20,000
Long Term Capital Gain			24,275

Note: Though the asset sold is long term capital asset still indexation shall not be applicable as indexation benefit is not available on transfer of debentures.

2.4.11 Notional sale consideration

In some cases, notional sale value is considered rather than actual sale value e.g.

Section	Case	Deemed value of consideration
45(1A)	Insurance claim received on damage or destruction of capital asset	Compensation received in cash or fair market value (as on date of receipt) of assets received as compensation.

45(2)	Conversion of capital assets into stock in trade	Fair market value of the asset as on date of such conversion.
45(3)	Transfer of capital assets by a partner/member to firm/AOP/BOI as capital contribution	The amount recorded in books of account of the firm/AOP/BOI, as value of such assets.
46(2)	Assets received by shareholders on liquidation	Money so received or the market value of other assets on the date of distribution, as reduced by the amount assessed as dividend u/s 2(22)(c)
Fifth proviso to sec. 48	Shares debentures or warrants transferred by the employee by way of gift or under an irrevocable trust.	Market value of the asset as on date of such transfer
50C	Transfer in case of land or building or both	Value determined for payment of stamp duty (if consideration declared by the assessee is less)
Detail study shall be made in respective sections, later in this chapter. Further, aforesaid list is not exhaustive.		

2.4.12 Treatment of Advance money received and forfeited [Sec. 51]

W.e.f. A.Y. 2015-16*, any sum of money received as an advance or otherwise in the course of negotiations for transfer of a capital asset shall be taxable as ‘Income from Other Sources’, if,—

- (a) such sum is forfeited; and
- (b) the negotiations do not result in transfer of such capital asset [Sec. 56(2)(ix)]

Taxpoint: Where any sum of money, received as an advance or otherwise in the course of negotiations for transfer of a capital asset, has been included in the total income of the assessee for any previous year as per sec. 56(2)(ix), then, such sum shall not be deducted from the cost for which the asset was acquired or the written down value or the fair market value, as the case may be, in computing the cost of acquisition.

2.4.13 Treatment of compensation paid by the transferor

If transferor commits default and transferee receives any compensation (apart from refund of advance money), then compensation received by the transferee shall be treated as sale consideration against transfer of (relinquishment of) purchasing right and charged to capital gain.

Taxpoint: Treatment of compensation paid by the transferor shall be as under –

Nature of asset transferred	Right to purchase
Nature of transfer	Relinquishment
Cost of acquisition	Nil
Sale consideration	Amount of compensation

* Where any capital asset has previously undergone negotiation for its transfer, any advance or other money received and retained by the assessee (not by the previous owner) on or before 31-03-2014 in respect of such negotiation shall be deducted from the cost for which the asset was acquired or the WDV or the fair market value, as the case may be.

Computation of capital gain in certain cases

2.4.14 Capital gain in case of insurance claim [Sec. 45(1A)]

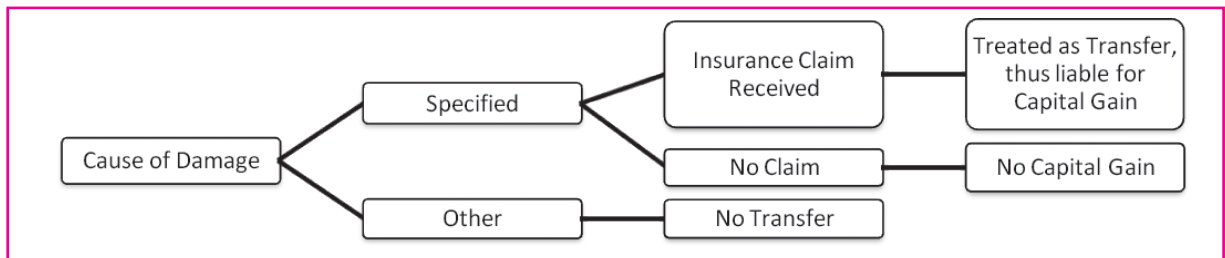

As per the Supreme Court in CIT vs Vania Silk Mills (P) Ltd., any compensation received as insurance claim for loss of capital assets shall not be taxable. However, w.e.f. A.Y. 2000-2001, sec. 45(1A) has been inserted, which nullify the impact of the above case law (to some extent).

As per provision of this section, any compensation received from an insurance company for the specified damages[#] is treated as transfer. Such transfers are liable to capital gain in the year of receipt of compensation.

Specified damages

Damages caused due to –

- ⦿ Flood, typhoon, hurricane, cyclone, earthquake or other natural calamities; or
- ⦿ Riot or civil disturbance; or
- ⦿ Accidental fire or explosion; or
- ⦿ Action by an enemy and an action taken in combating an enemy (whether with or without a declaration of war)

For computation of capital gain, various terms to be interpreted as under:

Sale consideration	If compensation received is in cash	Compensation so received
	If compensation received is in kind	Fair Market value (as on date of receipt) of assets received as compensation.
Cost of acquisition / Cost of improvement / Expense on transfer	As usual	
Indexation benefit available (if any)	Till the year of destruction [available only in 2 specified situations, as discussed above]	
Taxable	In the year of receipt of compensation	
Tax rate	As applicable in the year of receipt of compensation	

Note: Compensation received for damage of machinery shall be treated u/s 41(1) to the extent expenditure incurred on repair and renovation of damaged machinery and such repair and renovation expenditure shall be allowed u/s 31. However, compensation in excess of repair & renovation expenditure shall be treated as capital receipt and shall not be liable to tax. Sec. 45(1A) shall not be applicable as there is no transfer of capital asset.

Compensation received for any other damages to capital asset: Compensation received for any other damages of capital asset (e.g. loss of capital assets due to theft, road accident or sunk of ship due to technical error, etc.) shall be treated as a capital receipt and shall not be taxable.

Compensation received for any damages to non-capital asset: A revenue receipt may be chargeable u/s 28 or 56. E.g. compensation received on theft of stock in trade shall be taxable as business income.

Destruction of asset without insurance: Where an asset is destroyed and there is no insurance or insurance compensation is not received, neither sec. 45(1A) nor sec. 45 shall be attracted and destruction of asset shall not be treated as transfer. Cost of such asset destroyed is not an allowable loss under the Income Tax Act.

Example: Mr. X acquired a residential building for self occupation on 5/5/2022 for ₹ 90 lacs. On 7/4/2024, the property caught fire. No insurance was made. Such loss of ₹ 90 lacs is not an allowable loss under the Income tax Act.

Illustration 96:

Lucky has a house property acquired on 18/08/2009 for ₹ 6,00,000. He used the house for his own residential purpose. On 18/08/2012 he incurred capital expenditure on re-construction of house ₹ 3,00,000. On 15/05/2024, he brought office goods (inflammable) worth ₹ 1,00,000 at home to be delivered to a party staying near to his home. At the night of that day accidental fire took place and damaged the whole house property, furniture worth ₹ 5,00,000 and business stock.

Insurance claim received on 18/08/2024 –

- for the house ₹ 1,00,000 in cash & a new house allotted to him (fair market value of which is ₹ 44,00,000 on 18/08/2024);
- for house-hold furniture ₹ 2,00,000; and
- for stock ₹ 80,000.

State –

- Tax-treatment under the head Capital gains.
- How shall your answer differ if such compensation is received by the assessee on 15/04/2025.

Solution :

As the damage occurred due to accidental fire, such case is governed by the provision of sec. 45(1A)

Computation of capital gain in the hands of Lucky for the A.Y. 2025-26

Particulars	Workings	Details	Amount
Sale consideration of house	₹ 1,00,000 + ₹ 44,00,000		45,00,000
Less: Expenses on transfer			Nil
Net sale consideration			45,00,000
Less: i) Indexed cost of acquisition	₹ 6,00,000 * 363/148	14,71,622	
ii) Indexed cost of improvement	₹ 3,00,000 * 363/200	5,44,500	20,16,122
Long Term Capital Gain			24,83,878
For Furniture: No capital gain liability arises as furniture is a personal asset of the assessee and hence not a capital asset. Compensation received on loss of furniture shall be treated as capital receipt and hence not liable to tax.			
For Stock: Compensation received on loss of stock shall be liable to tax u/s 28. In the given case, loss of ₹ 20,000 (₹ 1,00,000 – ₹ 80,000) shall be allowed under the head “Profits & gains of business or profession”			

In case such compensation is received on 15/04/2025 then the capital gain of ₹ 24,83,878 as computed above shall be taxable in the Assessment year 2026-27.

In this case, the transfer has taken place before 23-07-2024, hence index benefit is available.

2.4.15 Capital gain on ULIP [Sec. 45(1B)]

Situation

Any person receives at any time during any previous year any amount under a unit linked insurance policy, to which exemption u/s 10(10D) does not apply on account of the applicability of the fourth and fifth provisos thereof (i.e. excess premium paid then prescribed limit), including the amount allocated by way of bonus on such policy

Treatment

Any profits or gains arising from receipt of such amount by such person shall be chargeable to income-tax under the head "Capital gains" and shall be deemed to be the income of such person of the previous year in which such amount was received and the income taxable shall be calculated in such manner as may be prescribed.

2.4.16 Capital gain on conversion of capital assets into stock in trade [Sec. 45(2)]

For computation of capital gain, various terms to be interpreted are as under:

Sale consideration	Fair Market value as on date of such conversion.
Cost of acquisition/Cost of improvement/Expenditure on transfer	As usual
Indexation benefit available (if any)	Till year of conversion [available only in 2 specified situations, as discussed above]
Taxable	In the year in which such stock is actually sold
Tax rate	As applicable in the year of actual sale of such stock
Treatment of difference of actual sale value and Fair market value as on date of conversion	[Actual sale value – FMV as on date of conversion – Expenditure on transfer] shall be treated as business Income.

Illustration 97:

Ali has 10,000 shares of X (P) Ltd. acquired on 15/05/2000 for ₹ 12 each. On 1/05/2007, he converted 2,000 of such shares into stock in trade. On such date, the market value of the share was ₹ 30 each. On 17/02/2025, he sold all shares for ₹ 225 each. Brokerage incurred 2%. State tax treatment. Fair market value of such shares as on 01-04-2001 was ₹ 16/-

Solution :

In the given case, shares held by Ali can be divided into two categories –

Category A: 2,000 shares being converted into stock in trade as on 1/05/2007: As per sec. 45(2), such conversion shall be deemed to be transfer u/s 2(47) and shall be liable to tax in the year of actual sale. For this purpose, fair market value as on the date of conversion (₹ 30 each) shall be treated as sale consideration and fair market value on 01-04-2001 shall be considered as cost of acquisition. The difference between actual sale value (₹ 225) and fair market value as on the date of conversion (₹ 30 each) shall be treated as business income.

Category B: 8,000 shares (remaining) held as investments: Transfer of such share shall be liable to capital gain. Computation of capital gain in the hands of Ali for the A.Y. 2025-26.

Meaning	The capital asset which forms a part of a block of assets* in respect of which depreciation has been allowed u/s 32(1)(ii) as per WDV method. E.g. a residential house property being not used for business purpose, on which no depreciation is allowed under Income tax Act shall be treated as a non-depreciable asset. Whereas if the same house is used for the residence of employee of the business and depreciation has been claimed under I.T. Act then it shall be treated as depreciable asset.
Nature of Capital gain	Capital gain arising on transfer of depreciable asset shall always be a short-term capital gain.
Benefit of indexation	Indexation benefit cannot be claimed on such asset.
Computation	For computation of capital gain on transfer of such asset, refer Depreciation (u/s 32) of the chapter "Profits & gains of business or profession"
Note: Depreciable asset itself may be a long-term capital asset or short-term capital asset depending upon the period of holding (whether held for more than 36 months or not), however, gain on transfer of afore-said depreciable asset shall always be short-term capital gain.	

2.4.18 Transfer of security by depository [Sec. 45(2A)]

An assessee may have security in form of a physical script or in dematerialized form. The securities held in dematerialized form shall be dealt as per sec. 45(2A) and for computation of capital gain, various terms to be interpreted are as under:

Cost of acquisition	Cost of acquisition and the period of holding of any securities shall be determined on the basis of the first-in-first-out method (FIFO) [#] .
Period of holding	
Sale consideration	As usual [Index benefit is available only in case where transfer has taken place be-fore 23-07-2024]
Benefit of indexation	
Expenditure on transfer	

* Block of asset does not include goodwill of business or profession

#In this connection, CBDT vide Circular No. 768, dated 24/6/1998 has clarified that:

- In case of assessee who has securities partly in physical form and partly in dematerialized form, FIFO method will be applied only in respect of the dematerialized holding. This is because in case of sale of dematerialized securities, the securities held in physical form are not considered as they continue to remain in the possession of the investor and are identifiable separately.
- An assessee may have more than one account in case of depository system and in such case FIFO technique shall be applied for each account separately.
- For deciding FIFO technique the date of entry in 'De-Mat Account' is significant and the date of purchase of security is irrelevant.

Where a partner or member (whether existing or new) transfers any of its capital assets to firm, AOP or BOI of which he is a member by way of capital contribution, the same shall be treated as transfer. Tax treatment of such transfer shall be as under:

Sale consideration	The amount recorded in books of account of the firm/AOP/BOI, as value of such assets.
Cost of acquisition/Cost of improvement/Expenditure on transfer	As usual
Taxable	In the year of such transfer
Indexation benefit	As usual

Note: Fair market value of such asset is irrelevant to decide sale consideration.

Illustration 98:

They admitted D as a new partner on 31/03/2024 for 1/5th share and D is to bring ₹ 2,00,000 as his capital which he brought in form of furniture (earlier used in his home) ₹ 50,000 immediately & further brought jewellery of which fair market value is ₹ 2,00,000 on 2/08/2024 (however such assets was recorded in the books at ₹ 1,80,000). - c) Securities Transaction Tax (STT) has been levied:

Capital Asset	STT has been paid

Exception: In the following cases, condition of levying STT on acquisition is not applicable: a) Equity share acquired before 01-10-2004 b) The nature of acquisition which is notified (like IPO, ESOP, etc.) [Notification No. 60/2018 dated 01-10-2018]

* Unit of business trust shall be treated as LTCA, if holding period is more than 36 months

Taxpoint: The condition of payment of STT in either case is not applicable in case where transfer has been undertaken on a recognised stock exchange located in any International Financial Services Centre provided the consideration for such transfer is received or receivable in foreign currency.

Treatment

Such long-term capital gain shall be taxable as under:

Case	Rate of Taxation
A. Where the transaction has taken place prior to 23-07-2024 and - such long term capital gain does not exceed ₹ 1,00,000**	Nil
- such long term capital gain exceeds ₹ 1,00,000	10%* on income exceeding ₹ 1,00,000
B. Where the transaction has taken place on or after 23-07-2024 and - such long term capital gain does not exceed ₹ 1,25,000**	Nil
- such long term capital gain exceeds ₹ 1,25,000	12.5%* on income exceeding ₹1,25,000

Taxpoint:

- Rabate u/s 87A is not available from tax on aforesaid long term capital gain.
- In the case of resident individual or resident Hindu undivided family, where the total income as reduced by such long-term capital gains is below the maximum amount which is not chargeable to income-tax, then, the long-term capital gains, shall be reduced by the amount by which the total income as so reduced falls short of the maximum amount which is not chargeable to income-tax [See Example 1 & 2 below]

Computation of cost of acquisition of such capital assets in certain cases

The cost of acquisition for the long-term capital asset acquired on or before 31st of January, 2018 will be higher of the following:

- the actual cost of acquisition of such asset;
- the lower of –
 - the fair market value of such asset as on 31/01/2018***;
 - the full value of consideration received or accruing as a result of the transfer of the capital asset

Taxpoint:

- No Index benefit is available
- The holding period will be counted from the date of acquisition
- Loss is allowed to be carried forward.
- The cost of acquisition of bonus shares acquired before 31st January, 2018 will be determined as per aforesaid rule. Therefore, the fair market value of the bonus shares as on 31st January, 2018 will be taken as cost of acquisition (except in some situations explained in the following examples).

Examples

Scenario 1 – An equity share is acquired on 1st of January, 2017 at ₹ 100, its fair market value is ₹ 200 on 31st of January, 2018 and it is sold on 1st of April, 2024 at ₹ 250.

As the actual cost of acquisition is less than the fair market value as on 31st of January, 2018, the fair market value of ₹ 200 will be taken as the cost of acquisition and the long-term capital gain will be ₹ 50 (₹ 250 – ₹ 200).

* + Applicable Surcharge and Cess

** The aggregate amount cannot exceed ₹1.25 lakhs for the Previous Year 2024 - 25.

*** The highest price of the capital asset quoted on such exchange on 31/01/2018 shall be considered as fair market value

Scenario 2 – An equity share is acquired on 1st of January, 2017 at ₹ 100, its fair market value is ₹ 200 on 31st of January, 2018 and it is sold on 1st of April, 2024 at ₹ 150.

In this case, the actual cost of acquisition is less than the fair market value as on 31st of January, 2018. However, the sale value is also less than the fair market value as on 31st of January, 2018. Accordingly, the sale value of ₹150 will be taken as the cost of acquisition and the long-term capital gain will be NIL (₹ 150 – ₹ 150).

Scenario 3 – An equity share is acquired on 1st of January, 2017 at ₹ 100, its fair market value is ₹ 50 on 31st of January, 2018 and it is sold on 1st of April, 2024 at ₹ 150.

In this case, the fair market value as on 31st of January, 2018 is less than the actual cost of acquisition, and therefore, the actual cost of ₹ 100 will be taken as actual cost of acquisition and the long-term capital gain will be ₹ 50 (₹ 150 – ₹ 100).

Scenario 4 – An equity share is acquired on 1st of January, 2017 at ₹ 100, its fair market value is ₹ 200 on 31st of January, 2018 and it is sold on 1st of April, 2024 at ₹ 50.

In this case, the actual cost of acquisition is less than the fair market value as on 31st January, 2018. The sale value is less than the fair market value as on 31st of January, 2018 and also the actual cost of acquisition. Therefore, the actual cost of ₹ 100 will be taken as the cost of acquisition in this case. Hence, the long-term capital loss will be ₹50 (₹ 50 – ₹ 100) in this case.

Treatment

Procedure of grossing up, in case of resident individual or HUF, are as follow-

$\text{Lottery Income Received} = \text{Gross Lottery Income} - \text{TDS @ 30\% on Gross Lottery Income.}$
$\text{Lottery Income Received} = 70\% \text{ of Gross Lottery Income}$
$\text{Gross Lottery Income} = \frac{\text{Lottery Income Received}}{70\%}$

Note: Tax is not deducted in following cases, hence, there is no need of grossing up.-

Chargeability: It is taxable as per cash basis or due basis, depending on the method of accounting regularly followed by the assessee. However, where no method of accountancy is followed, then it shall always be taxable on *due basis*.

Due date of interest: Interest shall be taxable when such interest falls due. Interest on securities shall not accrue on day-to-day basis. It accrues on the due date of interest as prescribed by the issuing authority. Entire interest shall

be charged in the hands of assessee who holds security on such date (irrespective of the date of acquisition of such security). E.g. Mr. X acquired debenture of A Ltd. as on 7/9/2022. Due date of interest on debenture is 31st March every year. Interest on such debenture shall be taxable in hands of Mr. X for the whole year.

Tax liability may be evaded by transferring securities just before the due date of interest (interest includes dividend) to any person (like friend or relative who has low income) and reacquiring the same, after the interest is received by the transferee. With this practice, income, which should have been charged at higher rate, shall be charged at lower rate or nil rates. To avoid these practices, sec. 94(1) provides that -

where an assessee transfers the securities before the due date of interest and reacquires the same, then the interest received by the transferee will be deemed to be the income of the transferor.

E.g: Mr. X transferred 1,000 10% debentures (due date of interest of such debenture is 31st March every year), to his brother Mr. Y on 27/03/2024 to evade tax. Such security is repurchased by him on 5/04/2024. Interest for the previous year 2023-24, though received by Mr. Y shall be taxable in hands of Mr. X due to sec. 94(1).

2. **Transaction relating to securities resulting into less or no income:** Sec. 94(2) provides that -

 - The result of any transaction relating to such securities is that, either no income is received by him or the income received by him is less than the income from such securities on day to day basis,
 - then the income from such securities for such year shall be deemed to be the income of such person.

Exceptions to sec. 94(1) & 94(2)[Sec. 94(3)]

However, nothing provided in sec. 94(1) and (2) shall be applicable, if the owner of securities satisfies the AO that -

Income of Other Person included in Assesses Total Income (Clubbing of Income)

3.1

3.1.1 Introduction

Generally, an assessee is taxed on income accruing to him only and he is not liable to tax for income of another person. However, there are certain exceptions to the above rule (mentioned u/s 60 to 64). Sec. 60 to 64 deals with the provisions of clubbing of income, under which an assessee may be taxed in respect of income accrued to other person, e.g. certain income of minor child shall be clubbed in the hands of his parents, income from asset transferred to spouse for inadequate consideration shall be clubbed in the hands of the transferor, etc. These provisions have been enacted to counteract the tendency on the part of the taxpayers to dispose off their income or income-generating assets to escape tax liability

3.1.2 General rules

⦿ Computation of income to be clubbed

The income, which is to be clubbed, shall be first computed in the hands of recipient and all expenditure related to such income shall be allowed as per the respective provisions of the Act and thereafter the net income shall be clubbed.

E.g.: Standard deduction u/s 24(a) from Income from house property shall be allowed in the hands of the recipient and thereafter the net income shall be clubbed.

⦿ Clubbing Head

Income shall be, first, computed in the hands of recipient and then clubbing shall be made head wise.

E.g.: Bank interest of minor child shall be clubbed under the head “Income from other sources” of parent.

⦿ Deduction under chapter VIA

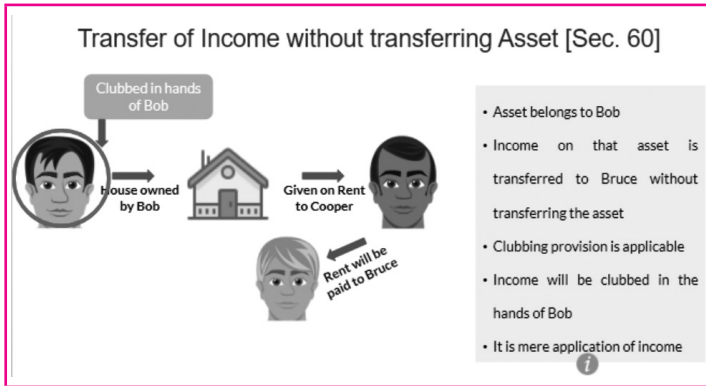

If the clubbed income is eligible for deduction u/s 80C to 80U, then such deduction shall be allowed to the

assessee in whose hands such income is clubbed. E.g. If interest on saving bank account of the minor is clubbed in the hands of parent u/s 64(1A) then parent can claim deduction u/s 80TTA.

• **Clubbing of negative income**

As per explanation 2 to sec. 64, clubbing of income includes clubbing of negative income i.e. where an income is liable to be clubbed, loss from the same source shall also be clubbed. Clubbing provisions is mandatory and shall be applied even in those cases where the application of such provision causes loss of revenue to the Income tax department.

3.1.3 Transfer of income without transferring assets [Sec. 60]

Where an income is transferred without transferring the asset yielding such income, then income so transferred shall be clubbed in the hands of the transferor.

The above provision holds good -

- whether the transfer is revocable or not; or
- whether the transaction is effected before or after the commencement of this Act.

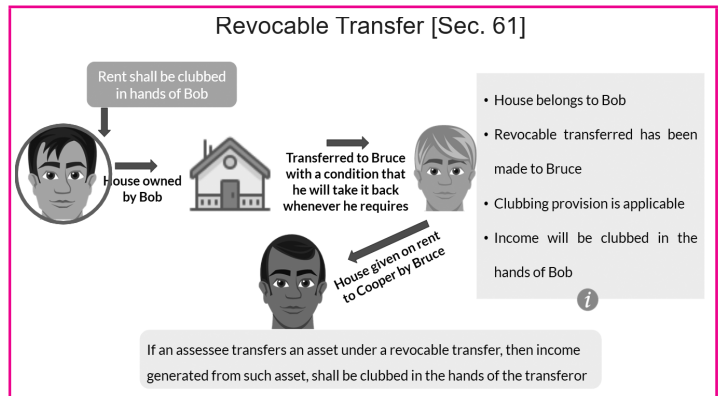

3.1.4 Revocable Transfer [Sec. 61]

If an assessee transfers an asset under a revocable transfer, then income generated from such asset, shall be clubbed in the hands of the transferor.

Revocable transfer

As per sec. 63(a), a transfer shall be deemed to be revocable if -

- It contains any provision for the retransfer (directly or indirectly) of any part or whole of the income/assets to the transferor; or
- It, in any way, gives the transferor a right to re-assume power (directly or indirectly) over any part or whole of the income/assets.

Exceptions [Sec. 62]

As per sec. 62(1), the provision of sec. 61 shall not apply to an income arising to a person by virtue of -

- i. A transfer by way of creation of a trust which is irrevocable during the lifetime of the beneficiary;
- ii. Any transfer which is irrevocable during the lifetime of the transferee;

In any case, the transferor must not derive any benefit (directly or indirectly) from such income.

Note: As per sec. 62(2), income, in any of the above exceptional case, shall be taxable as under -

Situation	Taxable in hands of
When the power to revoke the transfer arises (whether such power is exercised or not)	Transferor
When the power to revoke the transfer does not arise	Transferee

Illustration 1

Discuss the tax treatment in the following cases:

Case	Answer
a) Harish has transferred certain securities owned by him to a trust for his married sister, Harsha, as on 1/7/2024. He has the power to revoke the trust at his desire. On 31/3/2026, he revoked such trust. Income accrued for the previous year 2024-25 and 2025-26 are ₹ 1,20,000 and ₹ 1,50,000 respectively and such income is received and enjoyed by Harsha.	Since the asset has been transferred under a revocable clause, hence, by virtue of sec. 61, income accrued on securities during the previous year 2024-25 ₹ 1,20,000 and 2025-26 ₹ 1,50,000, though received by Harsha, shall be taxable in the hands of Harish.
b) Raja transferred his property on 1/4/2024 to Rani with a clause that, he will take property back from Rani whenever he requires. Raja was in need of money on 1/4/2025 and he took back property from Rani. The property yields annual income of ₹ 2,00,000.	Since asset has been transferred under a revocable clause, hence, by virtue of sec. 61, income accrued on such property shall be chargeable in hands of Raja for previous year 2024-25 as well as for 2025-26. This is because all income arising to the transferor by virtue of any revocable transfer shall be chargeable in hands of the transferor as and when the power to revoke the transfer arises whether or not such power has been exercised. Since Raja had the power of revocation from beginning therefore income shall be clubbed in his hand from the date of transfer.
c) Seema transferred on 1/4/2024 her property to Neema for the life time of Neema with a clause that after death of Neema, property shall be back to Seema. Neema died on 1/4/2025. Seema has not taken back the property till 31/3/2026. Property yields annual income of ₹ 1,00,000.	Since asset has been transferred which is irrevocable during the lifetime of the transferee hence, by virtue of sec. 62, income accrued on such property shall be chargeable in hands of Neema for the P.Y. 2024-25. However, income for the P.Y. 2025-26 shall be chargeable in hands of the Seema as because after death of Neema, Seema got the power to revoke the transfer and when the power to revoke the transfer arises, income is clubbed in hands of transferor even the power has not been exercised.

3.1.5 Remuneration to Spouse [Sec. 64(1)(ii)]

The total income of an individual shall include income arising (directly or indirectly) to the spouse by way of salary, commission, fees or any other remuneration (whether in cash or in kind) from a concern in which such individual has **substantial interest**¹.

Taxpoint: Any other income, which is not specified above, even if it accrues to spouse from the concern in which the assessee has substantial interest, shall not be clubbed.

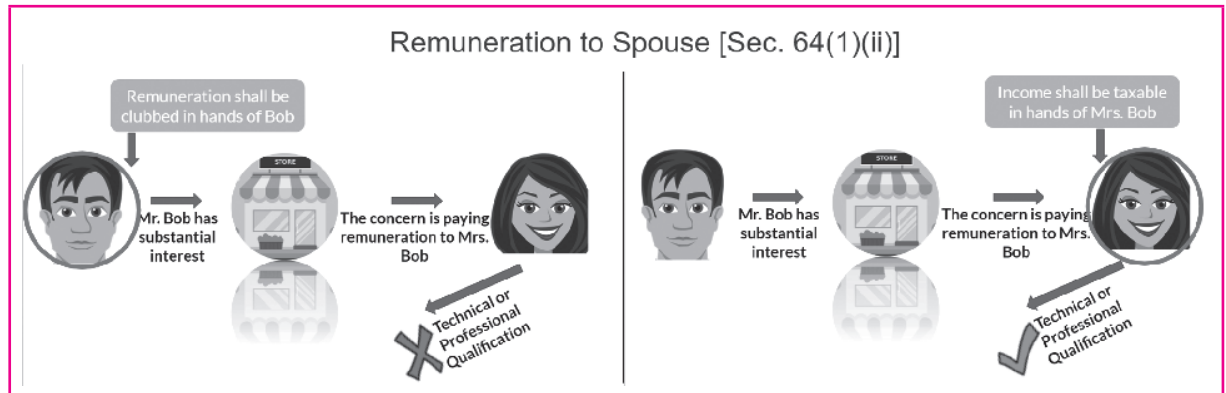

¹ **Substantial interest:** An individual shall be deemed to have substantial interest in a concern if —

In case of company	He beneficially holds not less than 20% of its <i>equity</i> shares at any time during the previous year. Such share may be held by the assessee or partly by assessee and partly by one or more of his relatives.
Other concern	He is entitled to not less than 20% of the profits of such concern at any time during the previous year. Such share of profit may be held by the assessee himself or together with his relatives.
Relative here includes spouse, brother or sister or any lineal ascendant or descendant of that individual [Sec. 2(41)].	

Exception

Income generated through technical or professional qualification[#] of the spouse is not to be clubbed in the total income of the individual.

[#] **Technical or professional qualification:** The term technical or professional qualification must be construed in a liberal manner as the term has not been defined in the Act. It does not necessarily relate to technical or professional qualification acquired by obtaining a certificate, diploma or degree or in any other form, from a recognised body like University or Institute. It can be treated as fitness to do a job or to undertake an occupation requiring intellectual skill and also includes technicality generated through experience, skill etc. Technical qualification includes specialization in a particular subject (e.g. accountancy, management, commerce, science, technology etc.).

Notes

Where both, husband and wife, have substantial interest in a concern	Remuneration from such concern will be included in the total income of husband or wife, whose total income excluding such remuneration, is higher.
When both, husband and wife, have substantial interest in a concern and both are drawing remuneration from that concern without possessing any specific qualification.	Where such income is once included in the total income of either of the spouse, then such income arising in any subsequent years cannot be included in the total income of the other spouse unless the Assessing Officer is satisfied that it is necessary to do so. However, Assessing Officer will do so only after giving to the other spouse an opportunity of being heard.

When both, husband and wife, are not having any other income	Remuneration from such concern will not be clubbed.
When both, husband and wife, have substantial interest in a concern and both are drawing remuneration from that concern without possessing any specific qualification and both are not having any other income apart from the said remuneration.	
Computation of salary, fee, commission, remuneration etc	Income prescribed in sec. 64(1)(ii) shall be first computed (allowing all deductions from the respective income) in the hands of recipient and thereafter net income shall be clubbed in the hands of the other spouse. E.g. salary, remuneration, etc shall be first calculated as per provisions of sec. 15 to 17, in the hands of recipient and thereafter, net taxable salary shall be clubbed in the hands of the other spouse.

A	$(₹ 37,100 \times 600) / 1,060 = ₹ 21,000$	$(₹ 37,100 \times 460) / 1,060 = ₹ 16,100$

B	$(₹ 13,250 \times 600) / 1,060 = ₹ 7,500$	$(₹ 13,250 \times 460) / 1,060 = ₹ 5,750$
C	$(₹ 42,400 \times 600) / 1,060 = ₹ 24,000$	$(₹ 42,400 \times 460) / 1,060 = ₹ 18,400$

Note: In case of new source of income, previous year starts from the date when such new source of income comes into existence.

3.1.8 Conversion of self acquired property into HUF Property [Sec. 64(2)]**Applicability**

An individual, being a member of an HUF, has converted¹ a property² after 31/12/1969 (being self acquired asset of the individual) into property of HUF of which he is a member, otherwise than for adequate consideration.

Tax-Treatment

For the purpose of computation of total income of such individual for any assessment year commencing on or after 1/4/1971, the income derived from such converted property (property so converted or transferred by individual to HUF) or any part thereof shall be deemed to arise to the individual and not to the family.

Where the converted property has been the subject matter of partition (whether partial or total) amongst the members of the family, the income derived from such converted property as is received by the spouse shall be clubbed in the hands of transferor.

Taxpoint:

- ⊙ Asset was originally self acquired property of the individual
- ⊙ Such asset is transferred directly or indirectly to HUF hotch-pot for inadequate consideration.
- ⊙ Treatment is as under -

Case	Income to be clubbed in hands of transferor
Before partition	The entire income from such property
After partition	Income from the assets attributable to the spouse of transferor.

¹ Such conversion can be made by: a) the act of impressing such separate property with the character of property belonging to the family; or b) throwing it into the common stock of the family.

² Property here includes any interest in property whether movable or immovable; the proceeds of sale thereof and any money or investment for the time being representing the proceeds of sale thereof; and where the property is converted into any other property by any method, such other property.

Note: Asset need not be in its original form.

Mr. Todi is a member of HUF. It consists of Mr. Todi, Mrs. Todi, Mr. Todi's major son (Mr. A) & Mr. Todi's minor son (B)

On 1/4/2023, Mr. Todi transferred his house property acquired through his personal income to the HUF without any consideration.

On 1/7/2024, HUF is partitioned and such property being divided equally.

Solution :

Computation of income from house property in the hands of Mr. Todi for the A.Y. 2024-25

Tax treatment for the A.Y.2025-26: In the previous year 2024-25, partition took place on 1/7/2024; hence the treatment shall be as under:

However, as per provision of sec. 64(2) income of Mrs. Todi shall be clubbed in hands of Mr. Todi.

3.1.9 Liability of the transferee [Sec. 65]

Applicability

Where, by reason of the -

- ⊙ provisions contained in this Chapter; or
- ⊙ provisions contained in sec. 27(i)

the income from any asset (or from membership in a firm) of a person other than the assessee, is included in the total income of the assessee.

Impact

On the service of a notice of demand by the Assessing Officer in this behalf, the person in whose

name such asset stands (or who is a member of the firm) shall be liable to pay that portion of the tax levied on the assessee which is attributable to the income so included.

Notes

- (a) Such liability cannot exceed the value of assets so transferred.
- (b) Where any such asset is held jointly by more than one person, they shall be jointly and severally liable to pay the tax which is attributable to the income from the assets so included.

Taxpoint: After application of provisions of clubbing (on transfer of property without adequate consideration as discussed above in several sections), income is taxable and tax liability arises in the hands of the transferor. But sec. 65 empowers the income tax authorities to serve demand notice (in respect of tax on clubbed income) upon transferee.

3.1.10 Important general notes

TDS	Where an income is includible u/s 64 and tax has been deducted at source from such income, the credit of tax deducted at source shall be given to the person in whose hands the income is taxable [Sec. 199].
Advance Tax	The advance tax paid by the income earner (say spouse or minor child) with reference to such income is not eligible for adjustment towards the tax liability of the individual in whose hands such income has been clubbed. In such case, it is open to the payer of advance tax (i.e. spouse or the minor child) to apply for refund of advance tax so paid.
Mode of Clubbing cannot be changed for the benefit of the revenue	Unless there are compelling circumstances the modes of clubbing cannot be changed by the ITO. Merely, for the benefit of the revenue such mode cannot be changed.

A proprietary business was started by Smt. Sonam Mundhra in the year 2022. As on 1.4.2023 her capital in business was ₹ 3,00,000.

Her husband, Shri Vikash Mundhra, gifted ₹ 2,00,000, on 10.04.2023, which amount Smt. Sonam invested in her business on the same date. Smt. Sonam earned profits from her proprietary business for the financial years 2023-24, ₹ 1,50,000 and financial year 2024-25 ₹ 3,90,000. Compute the income, to be clubbed in the hands of Sonam's husband for the A. Y. 2025-26.

Solution :

Where asset transferred to spouse is invested in the proprietary business then proportionate share being calculated in following manner shall be clubbed in the hands of transferor:

$$\frac{\text{Income of such business} * \text{Value of such assets as on the 1}^{\text{st}} \text{ day of the P.Y.}}{\text{Total investment in the business by the transferee as on the 1}^{\text{st}} \text{ day of the P.Y.}}$$

$$= ₹ 3,90,000 * ₹ 2,00,000 / ₹ 6,50,000^1 = ₹ 1,20,000$$

Hence, ₹ 1,20,000 shall be clubbed in the hands of husband of Smt. Sonam

¹Computation of total investment in the business on 1-4-2024

Particulars	Amount
Investment as on 1-4-2023	₹ 3,00,000
Add: Investment of gift from husband on 10-4-2023	₹ 2,00,000
Add: Net profit earned during the year 2023-24 (assumed reinvested in the business)	₹ 1,50,000
Total investment in the business as on 1-4-2024	₹ 6,50,000

Income arising from accretion to transferred asset shall not be liable to clubbing.

Assume, Net profit earned during the year 2023-24 is retained in the business.

Alternatively, one can assume that net profit earned during the year 2023-24 is withdrawn. In such case income to be clubbed shall be computed as under:

$$\frac{\text{Income of such business} * \text{Value of such assets as on the 1}^{\text{st}} \text{ day of the P.Y.}}{\text{Total investment in the business by the transferee as on the 1}^{\text{st}} \text{ day of the P.Y.}}$$

$$= ₹ 3,90,000 * ₹ 2,00,000 / ₹ 5,00,000 = ₹ 1,56,000$$

Hence, ₹ 1,56,000 shall be clubbed in the hands of husband of Smt. Sonam

¹Computation of total investment in the business on 1-4-2024

Particulars	Amount
Investment as on 1-4-2023	₹ 3,00,000
Add: Investment of gift from husband on 10-4-2023	₹ 2,00,000
Total investment in the business as on 1-4-2024	₹ 5,00,000

Set off and Carry Forward of Losses

3.2

3.2.1 Introduction

For computation of Gross Total Income (GTI), income from various sources is computed under the five heads of income.

Intra Head Adjustment
(Inter Source
Adjustment)[Sec. 70]

Intra Head
Adjustment
[Sec, 71]

Carry
Forward
of Loss

If all the sources and heads are having positive income (i.e. profit) then the same can simply be added to compute GTI. However, if certain source(s) or certain head(s) have negative income (i.e. loss) then such loss needs to be adjusted with income of another source(s) or head(s). Set off means adjustment of loss from one source or one head against income from another source or another head.

If a negative income is not fully set off in the current year, then the unabsorbed loss shall be carried forward to subsequent years subject to certain restrictions and conditions [e.g. Income from other sources (other than losses from activity of owning and maintaining horse races) cannot be carried forward.]

Adjustment of Income and loss from all sources covered under one head of Income is called Intra-head Adjustment [Rules are prescribed in Sec. 70]

Adjustment of Income under one head and loss from another head of Income is called Inter-head Adjustment [Rules are prescribed in Sec. 71]

Loss which could not be adjusted shall be carried forward to next year subject to certain conditions and exceptions

3.2.2 Inter Source adjustment (Intra-Head adjustment) [Sec. 70]

Intra Head Adjustment Restriction
[Sec. 70]

- Long Term Capital Loss
- Loss of a speculation business
- Loss from a business specified u/s 35AD
- Loss incurred in activity of owning and maintaining race horses

When the net result of any source of income is loss, it can be set off against income from any other source under the same head. Sec. 70 deals with the set off of loss from one source against income from another source under the same head of income, subject to the following exceptions –

- a. **Long term capital loss** can be set off only against long term capital gain [Sec. 70(3)]. However, short-term capital loss can be set off against short term as well as long term capital gains [Sec. 70(2)].

Example : Computation of Income under the head “Capital gains” of Mr. X for the A.Y. 2025-26

Particulars	Case A	Case B
Short term capital gain	80,000	(90,000)
Long term capital gain	(40,000)	1,20,000
Income under the head “Capital gains”	80,000	30,000

- b. **Loss of a speculation business** can be set off only against the profits of a speculation business, under the head ‘Profits and gains of business or profession’. However, loss from a non-speculative business can also be set off against income from speculation business [Sec. 73(1)]

Example : Computation of “Profits & gains of business or profession” of Mr. X for the A.Y. 2025-26

Particulars	Case A	Case B
Speculation business	80,000	(90,000)
Non speculation business	(40,000)	1,00,000
Profits & gains of business or profession	40,000	1,00,000

- c. **Loss of a specified business covered u/s 35AD** can be set off only against the profits of other specified business. Illustration 14:

Smart has computed his tax liability under the old regime as under –

Particulars	Details	Amount
Income from business A		4,50,000
Long term capital gain	20,000	
Less: Income from business B u/s 71	(10,000)	10,000
Income from other sources		50,000
Gross Total Income		5,10,000
Less: Deduction u/s 80C to 80U		-
Total Income		5,10,000
Tax liability		15,080

Comment on the above computation.

Solution :

Computation made by Smart is incorrect, as because first intra head set-off shall be made, thereafter inter head set-off can be made. The correct computation is shown below -

Computation of total income and tax liability of Smart under old regime for the A.Y. 2025-26

Particulars	Details	Amount
Profits & Gains of Business or Profession		
Income from business A	4,50,000

Taxable Income		5,10,000
Tax liability		16,640

2. **Priority of set off u/s 71:** The Act does not lay any priority relating to set off of losses, hence, losses which cannot be carried forward should be adjusted first.

Illustration 15 :

Mr. Bhola has furnished you the following data –

Income from house property	(₹ 1,30,000)
Salaries (Net)	₹ 80,000
Income from other sources	(₹ 90,000)
Income from lotteries	₹ 3,50,000

Mr. Bhola is seeking your advice relating to set off and carry-forward, if he has opted for old regime.

Solution :

Statement showing application of sec. 71

Particulars	Amount
Salaries	80,000
Income from house property	(1,30,000)
Income from other sources	
Winning from lotteries	3,50,000
Other income	(90,000)
Gross total income	3,50,000
Conclusion	
Casual income shall be fully taxable as no loss can be set off against such income.	3,50,000
Losses to be carried forward	
a) Loss under the head “Income from house property”	(1,30,000)
b) Loss under the head “Income from other sources”, as such loss cannot be carried forward.	Nil
Income under the head ‘Salaries’ is first adjusted with the loss under the head ‘Income from other sources’ as the same cannot be carried forward. Though loss under the head ‘Income from other sources’ is ₹ 90,000 and such loss could be adjusted with income under the head ‘Salaries’ only to the extent of ₹ 80,000 still the remaining loss of ₹ 10,000 cannot be carried forward.	

3. **Mandatory feature of sec. 70 and 71:** Assessee is bound to follow sec. 70 and 71, there is no choice or option whether to set off the loss or not. Even partial set off is not permissible when entire loss can otherwise be set off.

Illustration 16:

Mr. Tej Singh has the following income details –

₹

Income from house property	(30,000)
Salaries	6,80,000
Income from other sources	30,000

He has computed his Gross total income for the A.Y. 2025-26 as under

Particulars	Amount
Income from house property	(10,000)
Salaries	6,80,000
Income from other sources	30,000
Gross total income	7,00,000
Carry forward of loss under the head income form house property	20,000

– Comment

Solution :

Assessee is bound to follow sec.70 and 71 and there is no choice or option whether to set off the loss or not. Even partial set off is not permissible when full loss can otherwise be set off. Hence in the given case income of Mr. Tej Singh shall be ₹ 6,80,000 (carry forward of loss shall not be permissible) as computed under:

Particulars	Amount
Income from house property	(30,000)
Salaries	6,80,000
Income from other sources	30,000
Gross total income	6,80,000

4. **Set-off of clubbed income:** From the clubbed income, one can set off the losses.

3.2.5 Carry Forward of Loss

In case where the income of an assessment year is insufficient to set off the losses of the year then such losses (which could not be set off) can be carried forward to subsequent assessment year(s) for set off against income of such subsequent year(s). Loss under the head “Profits and gains of business or profession” (other than speculation loss) can be carried forward and set off against income under the same head.

Note: For this purpose business profit includes profits derived from a business activity but assessable under the heads other than ‘Profit and gains of business or profession’, e.g. Dividend income when shares are held as stock, though taxable under the head ‘Income from other sources’ but business loss can be set off against such income.

Period for which carry-forward shall be allowed: 8 assessment years immediately succeeding the assessment year in which such loss is first computed.

Treatment: Losses of such business [including the past eligible losses (to be carried forward)] shall be adjusted with profit of the year in which business is so revived and if the loss cannot be wholly setoff, then it shall further be allowed to be carried forward for 7 years.

2. Set off of losses relating to the year of closure of business against deemed profit [Sec. 41(5)]

Situation: Where any part of loss (not being a speculation loss), which arose during the previous year remains unabsorbed in the previous year in which business ceased to exist.

Treatment: Such loss shall be allowed to be carried forward for any number of years (without restriction of 8 years) against income chargeable to tax u/s 41(1); (3); (4); (4A).

Taxpoint: Such loss can be set off even if the return of loss is not submitted in time.

Notes

1. **Business need not be continued:** The business losses can be carried forward, even the business in respect of which the loss was originally computed, is not carried on during the previous year.
2. **Filing of return in time:** As per sec. 80, the business loss cannot be carried forward unless it is determined in pursuance of a return filed by the assessee u/s 139(3), *within time* as prescribed u/s 139(1).

6. **Assessee must be same who incurred the loss:** Business losses can be carried forward and set off against the

profits of the assessee who incurred the loss i.e. assessee must be same to carry forward the loss. However, this rule has the following exceptions –

- a. **Amalgamation:** Business losses and unabsorbed depreciation of an amalgamating company can be set-off against the income of the amalgamated company if the amalgamation is within the meaning of sec. 72A of the Income tax Act. (Discussed later in this chapter).
- b. **Succession:** Business losses and unabsorbed depreciation of a proprietary concern or a partnership firm or a specified company succeeded by a company or limited liability partnership as per sec. 47(xiii), (xiiib) and (xiv), can be carried forward by succeeded company or limited liability partnership.

Tax treatment: Allowance or the part of the allowance of depreciation which remains unabsorbed shall be (subject to sec. 72 and sec. 73) added to the amount of the depreciation for the following previous year and deemed to be the depreciation-allowance for that previous year, and so on for the succeeding previous years.

Taxpoint: Unabsorbed depreciation shall be allowed to be carried forward for any number of years and such carried forward unabsorbed depreciation may be set off against any income, other than -

- ⊙ Income under the head “Salaries”

Relief when payment is in the nature of taxable gratuity

Where past services extend over a period of fifteen years

	Particulars
1	Calculate total income and tax liability considering taxable gratuity of the relevant previous year.
2	Calculate total income and tax on total income in respect of each of the 3 previous years immediately preceding the relevant previous year, adding 1/3rd of the taxable gratuity in each of the 3 years.
3	Calculate average rate of tax for each year. Average rate of tax (in %) = $\frac{\text{Tax, surcharge and cess after rebate of respective year} * 100}{\text{Total Income}}$
4	Calculate average of “average rate of tax” of 3 previous years immediately preceding the relevant previous year.
5	Calculate tax on taxable gratuity by applying average rate of tax of the relevant previous year.

Where past services extend over a period of 5 years but does not exceed 15 years

In this case, the calculation of relief u/s 89 is same as in case of service extending over 15 years, with only exception that instead of taking average of tax-rate of 3 years, take average tax-rate of 2 years. Similarly, taxable gratuity shall be divided in past 2 years rather than 3 years. Further, following table can be referred:

Particulars	
1	Calculate total income and tax on total income considering taxable gratuity of the relevant previous year.
2	Calculate total income and tax on total income in respect of each of the 2 previous years immediately preceding the relevant previous year, adding 1/2 of the taxable gratuity in each of the 2 years.
3	Calculate average rate of tax for each year. Average rate of tax (in %) = $\frac{\text{Tax, surcharge and education cess after rebate of respective year} * 100}{\text{Total Income}}$
4	Calculate average of "average rate of tax" of 2 previous years immediately preceding the relevant previous year.
5	Calculate tax on taxable gratuity by applying average rate of tax of the relevant previous year.
6	Calculate tax on taxable gratuity by applying average of average rate of tax (as computed in step 4)
7	Relief u/s 89 = Tax as per Step 5 – Tax as per Step 6

Where past services do not extend over five years

Relief u/s 89 is not applicable.

Relief when payment is in the nature of compensation on termination of employment

Any compensation received by the assessee from his employer on termination of his employment is eligible for relief u/s 89 subject to following conditions –

- a. Employment is terminated after continuous service for not less than 3 years; and
- b. The unexpired portion of term of employment is also not less than 3 years.

Method of calculating relief: In this case, calculation of relief u/s 89 is same as in case of gratuity (where service extends over 15 years).

However, where assessee claims exemption u/s 10(10C), relief u/s 89 is not available to the assessee for such compensation.

Relief when payment is in the nature of commutation of pension

In this case, calculation of relief u/s 89 is same as in case of gratuity (where service extends over 15 years).

Relief in case of other payments

In any other case, the Board may grant relief after examining circumstances of the case.

- The provisions of this section shall apply to a person who has exercised the option referred to in sec. 115BAC or 115BAC(6) In other words, the provision of AMT is applicable only if the assessee is taxable under old tax regime. However, if the assessee is taxable under default tax regime, the provision of AMT is not applicable.
- Further, the provision of AMT is not applicable in case of co-operative society paying tax as per provision of sec. 115BAE(5)
- The provision is not applicable to the specified fund referred to in clause (c) of the Explanation to sec. 10(4D).

Scheme of Alternate Minimum Tax (AMT)

Step 2	Compute Adjusted Total income of the assessee i.e.		B	*****	
	Total income of the assessee	****			
	Add:

	Tax liability after Cess		****

Impact where AMT is applicable i.e., case where value of Step 3 is higher than value of Step 1

- Adjusted total income (as computed in step 2) shall be deemed as total income of the assessee.
- Tax liability of the assessee shall be 18.5% (+ surcharge + cess) of adjusted total income of the assessee.

Tax credit for alternate minimum tax [Sec. 115JD]

- ⦿ The excess of alternate minimum tax paid over the regular income-tax payable of that year shall be allowed as tax credit.
- ⦿ Mathematically, tax credit available = Tax paid u/s 115JC – Regular Tax payable
- ⦿ However, no interest shall be payable on the tax credit allowed.
- ⦿ The amount of tax credit determined shall be carried forward and set off but such carry forward shall not be allowed beyond the 15th assessment year immediately succeeding the assessment year in which tax credit becomes allowable.
- ⦿ The tax credit shall be allowed set-off in a year when regular tax becomes payable by the assessee.
- ⦿ Set off in respect of brought forward tax credit shall be allowed for any assessment year to the extent of the difference between the alternate minimum tax payable u/s 115JC for that assessment year and the balance of the tax credit, if any, shall be carried forward. In other words, after setting off of AMT credit, tax liability of the year cannot be less than AMT for that year.
- ⦿ The amount of tax credit in respect of any income-tax paid in any country or specified territory outside India u/s 90 or 90A or 91, allowed against the alternate minimum tax payable, exceeds the amount of the tax credit admissible against the regular income-tax payable by the assessee, then, while computing the amount of credit u/s 115JD, such excess amount shall be ignored.
- ⦿ If the amount of regular income-tax or the AMT is reduced or increased as a result of any order passed under this Act, the amount of tax credit allowed under this section shall also be varied accordingly.
- ⦿ Where the assessee is computing his tax liability as per provision of sec. 115BAC(1A) [i.e., default tax regime] or u/s 115BAE, brought forward credit of AMT cannot be adjusted.

Examples:

(a) Tax liability u/s 115JC (AMT) 500
 Regular Tax liability 1,000
 Difference 500
 ₹ 500 cannot be treated as credit because liability u/s 115JC (AMT) is not greater than regular tax liability.

(b) Year 1
 Liability u/s 115JC (AMT) 2,000
 Regular Tax Liability 1,000
1,000 It can be carried forward

Year 2
 Liability u/s 115JC (AMT) 2,500
 Regular Tax Liability 5,000
 Difference 2,500

Now regular liability is more than liability u/s 115JC (AMT), the credit carried forward can be set off to the extent of the difference i.e., ₹ 2,500

In year 2, tax payable shall be as under:

Regular Tax Liability	5,000
Less: Set off of AMT credit	1,000
Tax payable (before surcharge and cess)	4,000

In the above example, if the credit carried forward was ₹ 3,500, then tax payable in year 2 would be calculated as under:

Regular Tax Liability	5,000
Less: Set off of AMT credit	2,500
Tax payable (Credit available ₹ 3,500 but restricted to ₹ 2,500)	2,500

Here ₹ 1,000 (being balance credit left i.e., ₹ 3,500 – ₹ 2,500) is carried forward to the next year.

In other words, the excess of regular tax over AMT u/s 115JC is the amount of maximum set off permissible.

- Option to opt for old tax regime [Sec. 115BAC(6)]:** Where an assessee opts for the old regime of taxation (or wants to shift from old tax regime to the default tax regime), then he should exercise the option in the prescribed manner:

Where the person not having aforesaid income	Alongwith the return of income to be furnished u/s 139(1) for a previous year relevant to the assessment year. Example 8:

Akhil, 35 years, has provided following details relating to his income for the previous year 2024-25:

- Income from business ₹ 15,00,000
- Income from saving bank interest ₹ 12,000
- Interest on PPF ₹ 36,000
- Investment in PPF ₹ 1,50,000

You are requested to compute his tax liability and advise him whether he should opt for the old tax regime by exercising option given u/s 115BAC(6).

Solution :

Computation of Income and tax liability of Mr. Akhil for A.Y. 2025-26

Particulars	Old Tax Regime	Default Tax Regime
Business Income	15,00,000	15,00,000
Interest on saving bank deposit	12,000	12,000
Interest on PPF	Exempt	Exempt
Gross Total Income	15,12,000	15,12,000
<i>Less: Deduction</i>		
U/s 80C (PPF Contribution)	1,50,000	NA
U/s 80TTA (Interest on Saving Bank Interest)	10,000	NA
Total Income	13,52,000	15,12,000
Tax on above	2,18,100	1,43,600
<i>Less: Rebate u/s 87A (As income exceeds ₹ 5,00,000)</i>	NA	NA

In the instant case, tax liability under default tax regime is lower, hence it is advisable to not to opt for option available u/s 115BAC(6).

HINDU UNDIVIDED FAMILY

3.4.4 Meaning of HUF

The term Hindu Undivided Family (or Joint Hindu Family) is not defined in the Income-tax Act. The term HUF has the same meaning as in Hindu law. A Hindu Undivided Family (HUF) consists of all persons lineally descended from a common ancestor including their wives and unmarried daughters.

Taxpoint: Only those undivided families are covered here, to which Hindu law applies.

Notes

1. An HUF is not the creation of a contract. Its membership arises from status.
2. Jain families are also treated as Hindu undivided family for the purpose of Income-tax Act. However, Muslim undivided family cannot be treated as HUF.
3. Once a family is assessed as Hindu undivided family, it will continue to be assessed as such till its partition.

3.4.5 Essential requirements of an HUF

An assessee shall be assessed as HUF if the following conditions are satisfied:

1. **Joint family property:** There should be a joint family property, which consists of either ancestral property or any property acquired with the aid of ancestral property.

Ancestral property: It is a property, which a man inherits from any of the three immediate male ancestors i.e. -

- His father;
- His grand father; and
- His great grand father

Notes

- a. Property inherited from any other person (e.g. father in law, uncle, etc.) is not an ancestral property.
 - b. In the following cases income of ancestral property is taxable as income of HUF -
 - ⊙ Family of widow-mother and sons (minor or major)
 - ⊙ Family of husband and wife having no child.
 - ⊙ Family of two or more brothers.
 - ⊙ Family of uncle and nephew.
 - ⊙ Family of mother, son and son’s wife.
 - ⊙ Family of a male and his late brother’s wife.
2. **Coparcener:** There should be a coparcener. Coparcener means any person who satisfies two tests:
- He/she acquires by birth an interest in joint family property; and
 - He/she has right to enforce partition.

Member of HUF vs Coparcener

- i. Coparcener must be a member of the family but a member may or may not be the coparcener of the family.

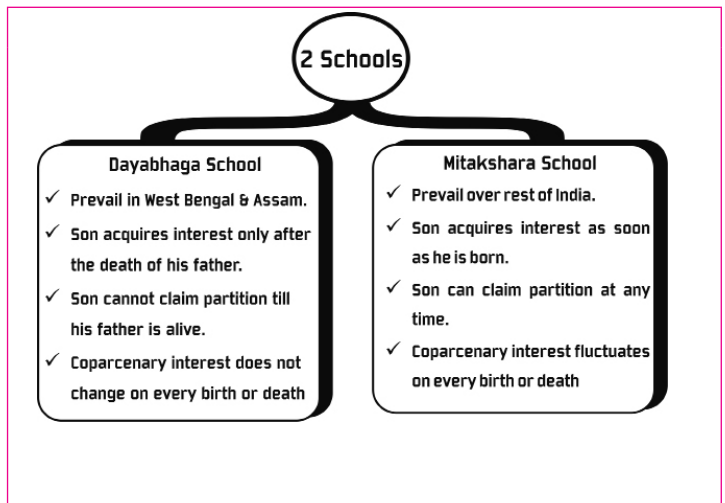

Taxpoint: All coparcener must be the member of the family but all members need not be coparcener of the family.
- ii. Coparcener acquires interest in the property of the HUF by birth. A person may acquire membership in HUF otherwise than by birth.
- iii. Member of the family who is not a coparcener of the family has no right to claim partition.

Taxpoint: A child in the womb of his mother is entitled to share of HUF property, on partition.

3.4.6 School of Hindu Law

There are two schools of Hindu law -

- 1. Dayabhaga School of Hindu Law; and
- 2. Mitakshara School of Hindu Law

Law	Dayabhaga School of Hindu Law	Mitakshara School of Hindu Law
Applicable to	Rules of Dayabhaga school prevails in the State of West Bengal and Assam	Rules of Mitakshara school prevail over rest of India.
Features		
Interest in property	As per this thought, a son acquires interest in ancestral property only after the death of his father. Taxpoint: A son does not acquire interest in the ancestral property mere by birth.	As per this thought, a son acquires interest in ancestral property as soon as he is born. Taxpoint: A son acquires an equal interest in the ancestral property with his father mere by birth.
Right to claim partition	Since son has no interest in ancestral property, he cannot claim partition till his father is alive. Taxpoint: Father enjoys an absolute right to dispose of the property of the family.	Since son acquires interest in ancestral property by his birth, therefore he can claim partition at any time.
Fluctuation in coparcenary interest	The coparcenary interest does not fluctuate on every birth or death of a male member. It fluctuates only on death of the father.	The coparcenary interest fluctuates on every birth or death of a male member.
Note: After Hindu Succession (Amendment) Act 2005, the daughter (in the same manner as the son) of a coparcener shall by birth become a coparcener in her own right. The female heir can demand the partition of coparcenary property.		

3.4.7 Computation of total income and tax liability of HUF

There is no specific provision in Income-tax Act for computation of total income of HUF. Total income and tax liability of HUF shall be computed in same manner as in case of an individual.

Taxpoint:

Tax rate, health & education cess	: As in case of an individual
Residential Status	: Refer chapter “Residential Status”
Computation of income under various heads	: As usual, however, HUF cannot have any income under the head ‘Salaries’.
Clubbing of income	: As usual.
	Sec. 64(1) & (1A) are not applicable in case of an HUF as it is specifically applicable to individual. Specially refer sec. 64(2).
Setoff & Carry forward of losses	: As usual
Deductions	: Refer chapter “Deductions & Relief” [As per regime]
Return and Assessment	: As usual
Advance tax	: As in case of an individual
Tax Regime u/s 115BAC(1A)/(6)	: Applicable

Following points shall be considered –

1. **Remuneration to member of HUF due to investment of HUF fund:** Where joint fund is invested in a company or a firm, fees or remuneration received by any member of HUF as a director or partner from such company or firm by virtue of such investment shall be treated as income of the HUF. On the other hand, where such remuneration or fees is received by virtue of service rendered by such member (in his personal capacity) then such amount shall be taxable in hands of such member

- Income from ancestral property may not be taxed in the hands of HUF in certain cases:** As per Dayabhaga school, son has no right in the property during the life time of father, hence income arising from ancestral property to father, having no brother as coparcener, shall be treated as income of father and not of HUF.
- Remuneration to Karta:** Any genuine (not excessive) remuneration paid to the *Karta* for conducting business of the HUF is allowed expenditure in the hands of the HUF provided such remuneration is paid under a bonafide agreement and is in the interest of the family business.
- Personal income of the members:** Income of the member of HUF acquired in his personal capacity shall not be taxable in the hands of HUF.
Taxpoint: ‘*Stridhan*’ is an absolute property of a woman, income therefrom is not taxable in the hands of HUF.
- Income from impartible estate:** Though the impartible estate belongs to the family, income arising therefrom is taxable in the hands of the holder of the ‘estate’ and not in the hands of the HUF.

3.4.8 Partition of HUF [Sec. 171]

Partition means—

Case	Partition
Where the property admits of a physical division	A physical division of the property. Taxpoint: Mere physical division of the income without a physical division of the property producing the income shall not be deemed to be a partition.
Where the property does not admit of a physical division	Such division as the property admits of. Taxpoint: Mere severance of status shall not be deemed to be a partition.

Partial Partition means a partition, which is partial as regards the persons constituting the Hindu undivided family, or the properties belonging to the Hindu undivided family, or both.

Person entitled to share on partition

Following persons can claim share on partition:

Case	Persons who can claim share on partition
Any	Coparceners
Any	A child in the womb of his mother at the time of partition
Partition between sons after the death of father	Mother – gets an equal share to that of son
Partition between father and sons	Wife - gets an equal share to that of a son (apart from that of husband)

3.4.9 Assessment after partition of a Hindu undivided family

An HUF assessed as such shall be deemed (for the purposes of this Act) to continue to be an HUF, except where a finding of partition has been given under this section [Sec. 171(1)]

- Inquiry by Assessing Officer:** Where, at the time of making assessment, it is claimed by or on behalf of any member of an HUF that a partition (whether total or partial), has taken place among the members of such family, the Assessing Officer shall make an inquiry after giving notice of the inquiry to all the members of the family [Sec. 171(2)]
- Record of findings:** On the completion of the inquiry, the Assessing Officer shall record his findings as to whether there has been a total or partial partition of the HUF and if there has been such a partition, the date on which it has taken place [Sec. 171(3)]

3. **Assessment upto the period of partition:** Where a finding of total or partial partition has been recorded by the Assessing Officer under this section, and the partition has taken place during the previous year —
 - the total income of the HUF in respect of the period up to the date of partition shall be assessed as if no partition had taken place; and
 - each member shall be jointly and severally[#] liable for tax on the income so assessed. [notwithstanding anything contained in sec.10(2)] [Sec. 171(4)]

[#]The liability of any member or group of members shall be computed according to the portion of the joint family property allotted to him or it at the partition [Sec. 171(7)]
4. **Partition after the expiry of previous year:** Where the finding of total or partial partition has been recorded by the Assessing Officer and the partition took place after the expiry of the previous year, the total income of the previous year of the joint family shall be assessed as if no partition had taken place. [Sec. 171(5)]
5. **Notice of partition after assessment:** If the Assessing Officer finds after completion of the assessment of HUF, that the family has already effected a partition (whether total or partial) the Assessing Officer shall proceed to recover tax from every person who was a member of the family before the partition, and every such person shall be jointly and severally liable for tax on the income so assessed. [Sec. 171(6)]
6. **Collection of penalty, interest, fine, etc.:** The provisions of this section shall apply in relation to the levy and collection of penalty, interest, fine or other sum (if any) in respect of any period up to the date of the partition, whether total or partial, as they apply in relation to the levy and collection of tax. [Sec.171(8)]

Treatment in case of partial partition taken place after 31-12-1978 [Sec. 171(9)]

Where a partial partition has taken place among the members of an HUF after 31-12-1978, then -

Generally, tax on the income earned in the previous year is paid in the respective assessment year, but in certain cases, an assessee may be required to pay tax during the previous year itself, as Advance tax. The scheme of advance tax is based on the concept “Pay as you earn”. Under this scheme assessee needs to estimate its income and tax liability of the previous year and pay tax on basis of such estimation in the previous year itself. For instance, an assessee is required to pay tax on income earned during the previous year 2024-25 in the assessment year 2025-26, however under the scheme of Advance tax, assessee is required to pay tax on the estimated income of the previous year 2024-25 in the previous year itself.

Applicable to

All assessee irrespective of his residential status and citizenship

Scheme of Advance tax [Sec.208]

Where the advance tax liability# of the assessee is ₹ 10,000 or more, the assessee should pay such tax in the previous year itself within the due date\$.

Tax Deducted at Source & Tax Collected at Source

3.6

TAX DEDUCTED AT SOURCE (TDS)

3.6.1 Meaning

It is a measure, in which person who are making payment of income are responsible to deduct tax from such income (at specified rates) and pay only net amount. Tax so deducted (called TDS) shall be deposited with the Government's treasury within the stipulated time. The payer will issue a certificate in Form 16 or 16A* to the payee and the payee will get credit for TDS and his tax liability shall be reduced to that extent. In nutshell, the provisions are merely a mode of collection of income tax and a check on tax evasion through proper control and information.

Objects

- ◉ Quicker realisation of tax.
- ◉ Effective realisation of tax.

There are several provisions in the Act for TDS**, being discussed infra:

3.6.2 TDS on salary [Sec.192]

Who is responsible to deduct tax:

Any person responsible for paying any income chargeable under the head "Salaries" (i.e. employer) is required to deduct tax at source.

When tax shall be deducted:

Tax shall be deducted at the time of payment of such income.

Rate of TDS:

Tax shall be deducted at the average rate of tax, computed on basis of prescribed rates in force for the financial year in which payment to employee is made.

Other Points:

Following points shall be kept in mind by the person responsible to deduct tax at source u/s 192 -

1. **Maximum exempted limit:** Tax shall not be deducted if taxable salary is less than basic exemption limit.
2. **Payment of tax by the employer:** The employer paying any income in the nature of non-monetary perquisite may pay, at his option, tax on such income without making any deduction therefrom at the time when such tax

* All deductors (including Government deductors who deposit TDS in the Central Government Account through book entry) shall issue TDS certificate generated through TIN central system and which is downloaded from the TIN website with a unique TDS certificate number.

** As per provision of sec.206AA, if resident payee fails to provide his PAN, tax is required to be deducted at the rate mentioned in respective section or 20%, whichever is higher. [The sec.206AA is discussed later in the chapter]

was otherwise deductible. For this purpose, tax shall be determined at the average of income-tax computed on the basis of the rates in force for the financial year, on the income chargeable under the head “Salaries”. It is to be noted that tax paid on non-monetary perquisites by the employer shall not be considered as income of the employee.

3. **Particulars of perquisites:** The employer shall furnish a statement to the employee (whose salary exceeds ₹ 1,50,000) giving correct and complete particulars of perquisites or profits in lieu of salary provided to employee and the value thereof in Form 12BA provided salary of such employee exceeds ₹ 2,00,000.
4. **Salary from more than one source:** As per Sec. 192(2), where assessee is working simultaneously with more than one employer, he may furnish to any one employer at his choice, details (in Form No. 12B) of income taxable under the head “Salaries” due to or received by him from other employer(s) and such employer shall deduct tax on aggregate salary.
5. **Treatment of other income:** As per Sec. 192(2B), where an assessee who receives any income chargeable under the head “Salaries” has, in addition, any income chargeable under any other head of income for the same financial year, he may (or may not) furnish to employer the particulars (in plain paper) of—
 - such other income (only income and not loss)
 - any tax deducted (or collected) reported by the employee.
 - the loss, if any, under the head “Income from house property” (Losses under any other head are not to be considered)

Tax deducted u/s 192 shall be higher of the following:

- Tax deductible from income, that would be so deductible, if loss under the head ‘Income from House Property’, other income (only income) and the tax deducted (or collected) had been taken into account.
 - Tax deductible from income under the head “Salaries”, that would be so deductible (after adjusting loss under the head Income from house property), if the other income (or loss) had not been taken into account.
6. **Evidence of claim:** The responsible person shall, for the purposes of estimating income of the assessee or computing tax deductible, obtain the evidence or proof or particulars of prescribed claims (including claim for set-off of loss) from the assessee in such form and manner as may be prescribed.
 7. **TDS on ESOP:** ESOPs have been a significant component of the compensation for the employees of start-ups, as it allows the founders and start-ups to employ highly talented employees at a relatively low salary amount with balance being made up via ESOPs. ESOPs are taxed as perquisites u/s 17(2). The taxation of ESOPs is split into two components:
 - i. Tax on perquisite as income from salary at the time of exercise.
 - ii. Tax on income from capital gain at the time of sale.

The tax on perquisite is required to be paid at the time of exercising of option which may lead to cash flow problem as this benefit of ESOP is in kind. In order to ease the burden of payment of taxes by the employees of the eligible start-ups or TDS by the start-up employer, it is provided that for the purpose of deducting or paying tax, a person, being an eligible start-up [u/s 80-IAC], responsible for paying any income to the assessee being such perquisite, deduct or pay, as the case may be, tax on such income within 14 days:

- a. after the expiry of 48 months from the end of the relevant assessment year; or
- b. from the date of the sale of such specified security or sweat equity share by the assessee; or
- c. from the date of which the assessee ceases to be the employee of the person;

– whichever is the earlier.

The tax shall be deducted or paid at the rates in force of the financial year in which the said security or sweat equity share is allotted or transferred.

Similar provision is applicable, in case, employee is paying tax directly (in case tax is not deducted).

Other Points

- ⊙ A transaction in respect of which tax has been deducted by the e-commerce operator (or which is not liable to deduction due to threshold limit), shall not be liable to TDS under any other provisions. Taxpoint:

- ⦿ Such specified senior citizen is not required to file his return of income for the assessment year relevant to the previous year in which the tax has been deducted.
- ⦿ Specified bank means notified banking company
- ⦿ Specified senior citizen means an individual, being a resident in India:
 - a. who is of the age of 75 years or more at any time during the previous year;
 - b. who is having income of the nature of pension and no other income except the interest income received or receivable from any account maintained by such individual in the same specified bank in which he is receiving his pension income; and
 - c. has furnished a declaration to the specified bank containing such particulars, in such form and verified in such manner, as may be prescribed.

3.6.28 TDS on certain sums for purchase of goods [Sec. 194Q]

Who is responsible to deduct tax: Any person, being a buyer who is responsible for paying any sum to any resident seller for purchase of any goods of the value or aggregate of such value exceeding ₹ 50 lakhs in any previous year.

- ⦿ “Buyer” means a person whose total sales, gross receipts or turnover from the business carried on by him exceed ₹ 10 crore during the financial year immediately preceding the financial year in which the purchase of goods is carried out. However, buyer does not include certain notified person provided they satisfied specified conditions.

When tax shall be deducted: At the time of payment or crediting the payee, whichever is earlier.

Taxpoint: Where any amount is credited to any account (for e.g. “Suspense account” or by any other name) instead of seller account, such crediting shall be deemed to be credit of such sum to the account of the seller.

Rate of TDS: 0.1% of such sum exceeding ₹ 50 lakhs. In case where seller do not have PAN, then rate of TDS shall be 5%

Taxpoint

- ⦿ TDS u/s 194Q shall be deducted on the taxable value i.e. exclusive of GST component (or other indirect tax component). However, on the amount paid as advance, TDS shall be deducted on entire amount since GST component cannot be separately identified. [Circular 13/2021 dated 30-06-2021]
- ⦿ The provision is not applicable where seller is Central or State Government. The exemption is not applicable where seller is public sector undertaking or corporation. [Circular 20/2021 dated 25-11-2021]
- ⦿ Purchase Return: The tax is required to be deducted at the time of payment or credit, whichever is earlier. Thus, before purchase return happens, the tax must have already been deducted u/s 194Q on that purchase. If that is the case and against this purchase return the money is refunded by the seller, then this tax deducted may be adjusted against the next purchase against the same seller. No adjustment is required if the purchase return is

replaced by the goods by the seller as in that case the purchase on which tax was deducted u/s 194Q has been completed with goods replaced.

- ◉ The provisions of this section shall not apply to a transaction on which:
- ◉ tax is deductible under any of the provisions of this Act; and
- ◉ tax is collectible u/s 206C other than a transaction to which sec. 206C(1H) applies.
- ◉ 194O -vs.- 194Q: If tax has been deducted by the e-commerce operator on a transaction u/s 194-O [including transactions on which tax is not deducted on account of 194-O(2)], that transaction shall not be subjected to tax deduction u/s 194Q.
- ◉ Though sec. 206C(1H) provides exemption from TCS if the buyer has deducted tax at source on goods purchased by him, to remove difficulties it is clarified that this exemption would also cover a situation where instead of the buyer the e-commerce operator has deducted tax at source on that transaction of sale of goods by seller to buyer through e-commerce operator.
- ◉ 194O -vs.- 206C(1H): Similarly, if a transaction is both within the purview of section 194-O as well as sec. 206C(1H), tax is required to be deducted u/s 194-O. The transaction shall come out of the purview of sec. 206C(1H) after tax has been deducted by the e-commerce operator on that transaction. Once the e-commerce operator has deducted the tax on a transaction, the seller is not required to collect the tax u/s 206C(1H) on the same transaction. It is clarified that here primary responsibility is on e-commerce operator to deduct the tax u/s 194-O and that responsibility cannot be condoned if the seller has collected the tax u/s 206C(1H). This is for the reason that the rate of TDS u/s 194-O is higher than rate of TCS u/s 206(1H).
- ◉ 194Q -vs.- 206C(1H): If a transaction is both within the purview of sec. 194-Q as well as sec. 206C(1H), the tax is required to be deducted u/s 194-Q. The transaction shall come out of the purview of sec. 206C(1H) after tax has been deducted by the buyer on that transaction. Once the buyer has deducted the tax on a transaction, the seller is not required to collect the tax u/s 206C(1H) on the same transaction. However, if, for any reason, tax has been collected by the seller before the buyer could deduct tax u/s 194-Q on the same transaction, such transaction would not be subjected to tax deduction again by the buyer. This concession is provided to remove difficulty, since tax rate of deduction and collection are same in section 194Q and sec. 206C(1H).
- ◉ The provision is not applicable in case of following transactions:
 - a. Transaction in securities and commodities traded through recognised stock exchange
 - b. Transaction in electricity, renewable energy certificate and energy saving certificate through power exchanges [Circular 13/2021 dated 30-06-2021]

Exemption or relaxation from the provision

- What will be the amount of deduction available u/s 80D?
- What will be the amount of deduction available u/s 80G?
- What will be his total income, if he has opted for the old tax regime?

Solution:

Computation of total income of Mr. Chaturvedi for A.Y. 2025-26

Particulars	Details	Amount
Gross total income		1,68,240
Less: Deduction u/s		
80C (for contribution to PPF)	60,000	
80D (for payment of Medical insurance premium)	11,000	
80G (for Donation to Public Charitable Trust) [Note]	2,612	73,612
Total Income (Rounded off u/s 288A)		94,630

Note: Computation of deduction u/s 80G

Computation of Adjusted GTI:

Adj. GTI = GTI – Long-term capital gain - Deduction u/s 80C to 80U other than 80G

$$= ₹ 1,68,240 - ₹ 45,000 - ₹ 11,000 - ₹ 60,000 = ₹ 52,240$$

Qualifying amount for donation = 10% of Adjusted GTI = 10% of ₹ 52,240 = ₹ 5,224
